

Note: The following is the output of transcribing from an audio/video recording from Zoom. Although the transcription is fairly accurate, in some cases it is incomplete or inaccurate due to inaudible passages or transcription errors, and in some cases, words spoken by one participant may be inaccurately attributed to another. It is posted as an aid to understanding the proceedings at the meeting, but should not be treated as an authoritative record. If you should need clarification on something said and cannot hear it, please contact the town clerk.

1

00:00:04.020 --> 00:00:18.090

Paul Baxter: flag of the United States of America and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all. You can start the recording up there now model should work.

2

00:00:27.600 --> 00:00:28.920

Paul Baxter: Oh, yeah.

3

00:00:33.990 --> 00:00:34.290

Paul Baxter: You're

4

00:00:35.730 --> 00:00:35.940

Here.

5

00:00:48.840 --> 00:00:49.110

Paul Baxter: Alright.

6

00:00:51.270 --> 00:00:51.810

Paul Baxter: Loving

7

00:01:07.650 --> 00:01:08.760

Paul Baxter: Tell me the correct

8

00:01:31.980 --> 00:01:32.400

Paul Baxter: Emotion.

9

00:01:53.370 --> 00:01:54.210

Paul Baxter: Over them.

10

00:01:55.650 --> 00:01:55.920

Paul Baxter: You're

11

00:02:03.540 --> 00:02:05.670

Paul Baxter: Not sure what the problem is the jet get

12

00:02:07.590 --> 00:02:13.290

Paul Baxter: More was having a problem. Apparently I am okay I have been talking about it.

13

00:02:16.260 --> 00:02:16.650

Paul Baxter: Earlier.

14

00:02:20.460 --> 00:02:21.120

Paul Baxter: I got that.

15

00:02:29.910 --> 00:02:30.480

Paul Baxter: Should work.

16

00:03:19.140 --> 00:03:19.860

Paul Baxter: We accept your

17

00:03:32.460 --> 00:03:32.940

Paul Baxter: Feedback.

18

00:04:20.640 --> 00:04:20.970

Steve Ganetis: Hello.

19

00:04:49.500 --> 00:04:52.770

Jacque Murphy: Feel rubberized like stealing cars that

20

00:04:53.790 --> 00:04:53.820

Are

21

00:04:55.470 --> 00:04:57.360

Steve Ganetis: Covered with the boxing boxing.

22

00:04:57.750 --> 00:05:03.810

Jacque Murphy: Yeah well right now playing steel they sitting on the quarter before they

23

00:05:04.110 --> 00:05:08.610

Steve Ganetis: Put it in. I says, Well, you know, they keep changing

24

00:05:10.710 --> 00:05:12.450

Jacquie Murphy: Their bid was stable.

25

00:05:13.710 --> 00:05:15.210

Jacquie Murphy: When they've raised it again.

26

00:05:16.770 --> 00:05:19.560

Jacquie Murphy: From what I saw. It's up to 18 now.

27

00:05:21.660 --> 00:05:33.210

Jacquie Murphy: Know down because at 18 was perceived will steal and now we just want to see the way on adding new faces. It's just a stainless steel on making

28

00:05:34.650 --> 00:05:40.170

Jacquie Murphy: A better. No, I agree. I thought you're supposed to say less yeah I couldn't remember

29

00:05:41.310 --> 00:05:41.700

Jacquie Murphy: What were

30

00:05:43.920 --> 00:05:45.960

Jacquie Murphy: You remember the pricing.

31

00:05:50.970 --> 00:06:00.960

Jacquie Murphy: Information. Oh yeah, I don't know. I mean, last I do. I saw they were putting stainless steel pipe in I'd have to talk to counter time I find out what

32

00:06:03.450 --> 00:06:05.880

Jacquie Murphy: I heard and read things and

33

00:06:07.080 --> 00:06:16.170

Jacquie Murphy: I just wondered why things change. Well, according to canon was a lot cheaper and it will add you as long

34

00:06:17.670 --> 00:06:29.640

Jacquie Murphy: As it just as long as he said it would be last longer than any of us would be here. Well, that's that I will keep the company work because I'm going to live to be 110 and then

35

00:06:30.690 --> 00:06:31.350

Jacquie Murphy: To do.

36

00:06:33.210 --> 00:06:36.900

Jacque Murphy: Miserable after just to keep people in line, you know,

37

00:06:39.840 --> 00:06:40.560

Jacque Murphy: The old adage

38

00:06:41.850 --> 00:06:42.510

Jacque Murphy: If they want

39

00:06:44.190 --> 00:06:46.710

Jacque Murphy: You know the old iron like

40

00:06:49.440 --> 00:06:51.030

Jacque Murphy: It looks like to me quite a while.

41

00:06:52.980 --> 00:06:54.840

Jacque Murphy: But then they said they got a cold it without

42

00:06:57.270 --> 00:07:03.840

Jacque Murphy: Rubber rubber band members, but they go into the inside to or they just go to the cinema.

43

00:07:05.910 --> 00:07:07.440

Jacque Murphy: I thought it was are you quoting

44

00:07:08.460 --> 00:07:15.990

Jacque Murphy: isn't bad, it's just playing stamp. I think I wrote in a minute, I thought it was going to be inside. And I thought, yeah, will you

45

00:07:17.760 --> 00:07:19.800

Jacque Murphy: So much for that meeting.

46

00:07:22.290 --> 00:07:25.860

Jacque Murphy: I did the math for me. But you don't have them yet. He said to wait till the next

47

00:07:27.030 --> 00:07:38.460

Jacque Murphy: Oh, are you who are meeting. Oh yeah, I'm taking him today or another thing I'm pretty sure it and now I thought that's why I talked about so

48

00:07:39.570 --> 00:07:40.350

Jacque Murphy: Even though you

49

00:07:44.010 --> 00:07:44.760

Jacque Murphy: Are there to

50

00:07:46.560 --> 00:07:47.520

Jacque Murphy: Get it if I need it.

51

00:07:49.260 --> 00:07:55.830

Jacque Murphy: Because they're there, they're not hounding me. But they're saying that you want to get some of that stuff out of the week before

52

00:07:59.790 --> 00:08:03.120

Jacque Murphy: Last I knew they were gonna love you when we're going to have a party.

53

00:08:04.230 --> 00:08:05.580

Jacque Murphy: And they've never got a whole

54

00:08:07.380 --> 00:08:07.920

Jacque Murphy: Party.

55

00:08:09.840 --> 00:08:10.860

Jacque Murphy: Christmas party.

56

00:08:13.440 --> 00:08:15.630

Jacque Murphy: Oh yeah, they should have done that because they moved on.

57

00:08:18.870 --> 00:08:21.960

Jacque Murphy: But I thought I see what I can do.

58

00:08:23.010 --> 00:08:30.000

Jacque Murphy: Well, they're really going somewhere I don't compare yourself to the trash on over there all the time.

59

00:08:32.310 --> 00:08:33.630

Jacque Murphy: They got two files right now.

60

00:08:37.590 --> 00:08:46.590

Jacque Murphy: ones over here. When the tank is. But the thing is going to stay so that they're portable think it'd be like, No, no, no, that they're trying to get rid of that.

61

00:08:48.810 --> 00:08:57.210

Jacque Murphy: You're trying to sell them would tank or whether the don't want to keep out of the truck. Oh, well, you can eat it would have been dropped. Yeah, I know.

62

00:08:59.970 --> 00:09:03.420

Jacque Murphy: Any word when the truck will be ready almost ready. I thought

63

00:09:08.070 --> 00:09:08.640

Jacque Murphy: I will start

64

00:09:11.820 --> 00:09:12.870

Jacque Murphy: I thought he was almost

65

00:09:25.410 --> 00:09:26.670

Jacque Murphy: Well, I think we should

66

00:09:27.990 --> 00:09:29.190

Jacque Murphy: Make up our mind.

67

00:09:30.360 --> 00:09:31.500

Jacque Murphy: which way to go.

68

00:09:32.970 --> 00:09:37.230

Jacque Murphy: If there's a price reduction with a cheaper place.

69

00:09:39.600 --> 00:09:41.790

Jacque Murphy: You know, is that fair

70

00:09:43.200 --> 00:09:45.360

Jacque Murphy: Or should we stay with those things.

71

00:09:49.440 --> 00:09:49.890

Jacque Murphy: Stainless

72

00:09:51.420 --> 00:09:54.780

Jacquie Murphy: Stainless will outlast all of us put together.

73

00:09:56.310 --> 00:09:58.260

Jacquie Murphy: Yeah, I mean, I mean the stainless steel. It's like

74

00:09:59.340 --> 00:10:04.980

Jacquie Murphy: That's, that's a good stuff. Now what you're talking about. I'd have to look at it that

75

00:10:07.080 --> 00:10:08.280

Jacquie Murphy: Way to put the drone.

76

00:10:09.870 --> 00:10:16.440

Jacquie Murphy: If I can strike and like the lion. Okay, well, and they're talking about bicycle.

77

00:10:18.000 --> 00:10:19.110

Jacquie Murphy: You know, maybe

78

00:10:20.370 --> 00:10:24.510

Jacquie Murphy: A certain Dr was not their chief. Oh well, I mean,

79

00:10:25.680 --> 00:10:29.400

Jacquie Murphy: There's just a while doctor was cheaper while it just

80

00:10:31.320 --> 00:10:34.320

Jacquie Murphy: sales skills is going to be lighter. I mean, I've been trying to put doctor, lawyer.

81

00:10:36.300 --> 00:10:43.170

Jacquie Murphy: Overhead support it. It's really happy, but I'd rather do something something just doesn't sound right to me. It's like they're

82

00:10:44.280 --> 00:10:46.590

Jacquie Murphy: The collector using something else. Yeah.

83

00:10:48.030 --> 00:11:08.070

Jacquie Murphy: I know they're they're going to put something in there so we can bombs without breaking. Yeah, they left it weeks when he left left room for Nicko nylon inserts the pipe so expansion and contraction on the wire and move that were still can steal. Okay.

84

00:11:09.810 --> 00:11:10.710
Jacquie Murphy: That's what he said.

85
00:11:13.110 --> 00:11:14.400
Jacquie Murphy: This is actually get to

86
00:11:15.570 --> 00:11:22.950
Jacquie Murphy: Know it can't manage why standing right freestanding.
Yeah, so it can move. Otherwise, you know. You don't know.

87
00:11:24.900 --> 00:11:32.700
Jacquie Murphy: But I just, you know, I mean, from what they're saying
and what they're doing as far as I'm concerned. Right now, there's two
different things.

88
00:11:33.900 --> 00:11:41.910
Jacquie Murphy: Just to clarify, boy. Okay, when they said it was going
to a sidewalk and he started going to the sidewalk to the one little

89
00:11:42.600 --> 00:11:59.190
Jacquie Murphy: Thing that they only take readings out of it once a day,
but then they ran it doesn't other random to defense, and on the other
side there because they do something over there once once a week or
something they check be helpful. Yeah.

90
00:12:00.750 --> 00:12:04.830
Jacquie Murphy: Yeah, I think that's what fits in, or the ladder. If it
goes don't know

91
00:12:07.380 --> 00:12:08.820
Jacquie Murphy: Been outside

92
00:12:10.230 --> 00:12:14.280
Jacquie Murphy: And it's so crazy. This is what we spend most of our time
discussing about

93
00:12:15.420 --> 00:12:16.950
Jacquie Murphy: Just chasing our tail.

94
00:12:18.690 --> 00:12:25.080
Jacquie Murphy: Tail. I think what it is is, first of all, I think,
probably we should have hired somebody else.

95

00:12:26.340 --> 00:12:32.250

Jacquie Murphy: No offense, but these guys they're there, but they're, you know, for the grass too high. We can't do anything.

96

00:12:34.440 --> 00:12:38.880

Jacquie Murphy: Go ahead, go the hospital for display. Yeah. I never do.

97

00:12:40.830 --> 00:12:45.030

Jacquie Murphy: You know, just little things. It's kind of buggy. Right. Right. Yeah.

98

00:12:46.260 --> 00:12:51.240

Jacquie Murphy: From him, you know, he's got liability insurance and the workers yeah I

99

00:12:54.000 --> 00:13:00.840

Jacquie Murphy: Mean, I'm not gonna worry about it either personally, but if you're working for somebody, somebody if they get Lyme disease. Will it work, you know,

100

00:13:02.220 --> 00:13:06.540

Jacquie Murphy: They didn't take him to the hospital. Make sure to check down or disinfected or whatever.

101

00:13:08.640 --> 00:13:09.120

Jacquie Murphy: You know, I mean,

102

00:13:10.800 --> 00:13:13.350

Jacquie Murphy: Yeah, he's got covered covered. I don't believe it.

103

00:13:15.840 --> 00:13:17.310

Jacquie Murphy: How can you really say that he got it.

104

00:13:18.420 --> 00:13:28.080

Jacquie Murphy: Right, and that point employer and it was recorded, so that's pretty much. Yeah. Yeah, I'll get blurred, someone comes to me and said that this was working on your stuff.

105

00:13:29.820 --> 00:13:30.450

Jacquie Murphy: They don't have to prove

106

00:13:31.470 --> 00:13:38.490

Jacque Murphy: Me, it's no works. And you know something falling while you're off salons, and it's just cheesy, you know, I get that.

107

00:13:41.670 --> 00:13:43.830

Jacque Murphy: All this work. Yeah.

108

00:13:45.720 --> 00:13:47.100

Jacque Murphy: That was extra

109

00:13:49.410 --> 00:13:55.290

Jacque Murphy: Only because because they had or a mental model. Right, right.

110

00:13:56.640 --> 00:14:00.000

Jacque Murphy: I just wonder if that's still the same region far as I know. Yes.

111

00:14:03.180 --> 00:14:03.510

Jacque Murphy: Okay.

112

00:14:09.120 --> 00:14:13.830

Jacque Murphy: approval from us something other than saying, I don't think so.

113

00:14:15.030 --> 00:14:33.150

Jacque Murphy: That was what I was wondering why the all now I know he said he changed it because it was a cheap then. Okay, then you can keep the old price, if you would, would this deal until you hit in order to raise it more thing.

114

00:14:35.040 --> 00:14:44.220

Jacque Murphy: But my thing is I'm saying point. If you have a signed contract and we've been done so simply state sounds silly. You don't have to do it or not nice.

115

00:14:45.510 --> 00:14:53.880

Jacque Murphy: Man, I missed that nowadays. I don't know. I know when I was in construction and they've been on something.

116

00:14:54.900 --> 00:14:56.370

Jacque Murphy: They have 90 days.

117

00:14:57.750 --> 00:14:58.260

Jacquie Murphy: To

118

00:14:59.640 --> 00:15:09.810

Jacquie Murphy: sign the contract. Now, they didn't sign a contract within 90 days then they could raise the price or or whatever it is only good for so long. Yeah, but

119

00:15:10.770 --> 00:15:18.480

Jacquie Murphy: They can't just change it know that that they're not supposed to know, you know, they may give us another option, come to think about

120

00:15:19.230 --> 00:15:28.200

Jacquie Murphy: Maybe that's what we're supposed to be doing. And I got a funny feeling and nobody knows how that well stainless steel. You don't have to blow. It's all couple

121

00:15:30.720 --> 00:15:31.140

Okay.

122

00:15:33.330 --> 00:15:34.620

Jacquie Murphy: This is all gonna be logging.

123

00:15:38.100 --> 00:15:39.930

Jacquie Murphy: Really yeah that's what he told me

124

00:15:41.700 --> 00:15:44.190

Jacquie Murphy: He killed it, and no

125

00:15:45.780 --> 00:15:50.220

Jacquie Murphy: I looking at that point that I don't think is about their to go all the way to the end.

126

00:15:51.540 --> 00:15:57.180

Jacquie Murphy: But sometimes it does it mean well I guess we should talk about that.

127

00:15:59.970 --> 00:16:00.540

Jacquie Murphy: I just

128

00:16:03.540 --> 00:16:07.050

Jacquie Murphy: The stainless jobs that I see are

129

00:16:08.220 --> 00:16:20.400

Jacquie Murphy: A couple, couple together. I don't know if it's neoprene or EDM or something. Yeah. Yeah. And then they have these clamps that go on that are

130

00:16:22.710 --> 00:16:25.800

Jacquie Murphy: Right. But it gives you some expansion.

131

00:16:35.190 --> 00:16:37.470

Jacquie Murphy: I'm just, I couldn't get here today.

132

00:16:39.210 --> 00:16:40.500

Jacquie Murphy: I just want to make sure

133

00:16:45.390 --> 00:16:46.560

Jacquie Murphy: You're the only one that knows

134

00:17:08.460 --> 00:17:28.710

Jacquie Murphy: It is I just when I sit here. I'll see a change, you know, and I says, why he says cheaper. We would then have to raise our prices, you know, in it, we, you know, by Bray don't work half the time anyway. So it is kind of a little over my head. That's why we like.

135

00:17:30.930 --> 00:17:32.610

Jacquie Murphy: So, so, but not you know

136

00:17:33.900 --> 00:17:38.700

Jacquie Murphy: Then, then you know he showed me what he can do and what they're gonna do inside

137

00:17:39.720 --> 00:17:42.060

Jacquie Murphy: You know they don't take the voters and turn this way.

138

00:17:43.080 --> 00:17:43.380

Jacquie Murphy: So,

139

00:17:45.300 --> 00:17:46.650

Jacquie Murphy: So vertically, they're going to be

140

00:17:49.620 --> 00:17:50.220

Jacquie Murphy: Horizontal

141

00:17:55.200 --> 00:17:57.210

Jacquie Murphy: Right now they air comes up vertically

142

00:17:58.890 --> 00:18:03.870

Jacquie Murphy: Yeah okay so let's just, yeah. Put it together.

143

00:18:07.710 --> 00:18:08.550

Jacquie Murphy: brain surgery.

144

00:18:14.910 --> 00:18:21.330

Jacquie Murphy: Other than that, I think the video he come to their complaining that they need to be grass.

145

00:18:22.560 --> 00:18:29.430

Jacquie Murphy: Yeah. Well, he just didn't know he didn't. Two weeks ago, or we could go

146

00:18:31.020 --> 00:18:32.070

Jacquie Murphy: But it's up that high.

147

00:18:34.920 --> 00:18:40.620

Jacquie Murphy: Has he been there. Yeah, he was there he was there, is that right now. Yeah.

148

00:18:42.510 --> 00:18:42.900

Jacquie Murphy: Yeah.

149

00:18:56.520 --> 00:19:02.280

Jacquie Murphy: We should think about all this for the next meeting that we have

150

00:19:04.920 --> 00:19:05.220

Jacquie Murphy: Here.

151

00:19:06.720 --> 00:19:07.470

Jacquie Murphy: I didn't know that.

152

00:19:08.760 --> 00:19:12.870

Jacquie Murphy: Well, before we get in front of that we have to have our mind made up.

153

00:19:15.240 --> 00:19:15.750

Jacque Murphy: Our

154

00:19:18.390 --> 00:19:20.460

Jacque Murphy: Mind when they come to us.

155

00:19:22.470 --> 00:19:26.970

Jacque Murphy: Eternal praise for material whatever sales, whatever.

156

00:19:29.190 --> 00:19:30.510

Jacque Murphy: Then we can make your mind up

157

00:19:39.960 --> 00:19:41.520

Jacque Murphy: I thought it was supposed to be saying

158

00:19:44.790 --> 00:19:47.130

Jacque Murphy: I don't remember off top my head.

159

00:19:49.980 --> 00:19:50.760

Jacque Murphy: One thing we talked only

160

00:19:53.640 --> 00:19:54.390

Jacque Murphy: Ever seen it.

161

00:19:56.400 --> 00:19:56.970

Jacque Murphy: But I'm sure

162

00:19:59.370 --> 00:20:12.480

Jacque Murphy: There's a contract in place in the system still he's proposing something different. We can go he wants to take a look at well as a contractor can't read it is, but we can review the material that you're proposing.

163

00:20:19.080 --> 00:20:20.370

Jacque Murphy: Yeah, that was like the

164

00:20:23.400 --> 00:20:28.200

Jacque Murphy: One of the stations are trying to put up different people have different the monitoring and the

165

00:20:29.970 --> 00:20:31.350

Jacque Murphy: guy who's in charge here from

166

00:20:32.760 --> 00:20:33.720

Jacque Murphy: Seed to a

167

00:20:34.920 --> 00:20:35.550

Jacque Murphy: Exactly.

168

00:20:38.250 --> 00:20:42.330

Jacque Murphy: Why that was, that was the other guy, I think.

169

00:20:43.710 --> 00:20:48.240

Jacque Murphy: People have stopped to what he says, No, no, no, that's not your. Oh, yeah. That wasn't me.

170

00:20:49.260 --> 00:20:50.370

Jacque Murphy: That's not what we ordered

171

00:20:52.230 --> 00:20:53.520

Jacque Murphy: The faces. That's okay.

172

00:20:54.540 --> 00:20:58.050

Jacque Murphy: No, but you did I miss, not that one was

173

00:20:59.130 --> 00:20:59.880

Jacque Murphy: One of those

174

00:21:01.020 --> 00:21:04.500

Jacque Murphy: Patients, I forgot which one when oh when they were doing a whole

175

00:21:05.670 --> 00:21:08.640

Jacque Murphy: Rebirth, you know, what was that about 10 years ago.

176

00:21:10.140 --> 00:21:10.500

Jacque Murphy: That was

177

00:21:18.180 --> 00:21:23.550

Jacque Murphy: Pretty dead if you specify something right that's what you expect to receive is all you know

178

00:21:25.020 --> 00:21:27.660

Jacquie Murphy: Not to say things can't change but you know

179

00:21:29.190 --> 00:21:37.020

Jacquie Murphy: We should typically be reviewed and I know I did ask you for a breakdown of the two of the stainless steel.

180

00:21:38.280 --> 00:21:39.660

And the other he never be

181

00:21:41.850 --> 00:21:54.780

Jacquie Murphy: Almost calm and you'll see a stainless steel you see plastic Paul polyvinyl, you know, PVC. PVC has to be cold. It is if it's above ground it deteriorates in the in the song right

182

00:21:56.250 --> 00:21:59.490

Jacquie Murphy: Yes. That's why, that's why we're going to go with Taylor Swift.

183

00:22:01.080 --> 00:22:06.120

Jacquie Murphy: Are you thinking longevity. Yes. Nice your overhead rather be there, Bob.

184

00:22:07.350 --> 00:22:20.430

Jacquie Murphy: Bob Brown about report, I think that's what that platform. He got one board. I mean, that one. You got one already board and he's going to port 123456 more

185

00:22:21.480 --> 00:22:25.590

Jacquie Murphy: Stuff that they're looking at heavier than the stainless steel or yeah

186

00:22:26.640 --> 00:22:29.400

Jacquie Murphy: Basically, yeah, but

187

00:22:32.190 --> 00:22:38.640

Jacquie Murphy: Anyway, eventually, like the sustainable, the last probably 500,000 years

188

00:22:39.750 --> 00:22:42.210

Jacquie Murphy: It will still be there. We all go away.

189

00:22:50.220 --> 00:22:50.910

Contracts

190

00:22:54.810 --> 00:23:00.180

Jacque Murphy: Motion and emotionally you make sure that they saw that increase London.

191

00:23:27.210 --> 00:23:27.900

Jacque Murphy: Previously

192

00:23:29.280 --> 00:23:30.060

Jacque Murphy: On the bill.

193

00:23:32.910 --> 00:23:33.090

Jacque Murphy: Was

194

00:23:35.640 --> 00:23:59.340

Jacque Murphy: 160 \$6 4141 66 over saying what's wrong.

195

00:24:06.030 --> 00:24:11.160

Jacque Murphy: Yeah, well, the races every year. Just be like one or 2%

196

00:24:13.710 --> 00:24:21.480

Jacque Murphy: I think whatever second July 1 already

197

00:24:24.240 --> 00:24:25.590

Jacque Murphy: Well, June 1 is our

198

00:24:28.350 --> 00:24:29.190

Jacque Murphy: Fiscal year

199

00:24:30.270 --> 00:24:30.930

Jacque Murphy: That may be

200

00:24:32.670 --> 00:24:34.500

Jacque Murphy: Complex but

201

00:24:36.030 --> 00:24:38.310

Jacque Murphy: It didn't give a value, but

202

00:24:39.480 --> 00:24:39.720

Jacque Murphy: As

203

00:24:42.210 --> 00:24:44.610

Jacque Murphy: Well, if it's about what he wants to

204

00:24:48.390 --> 00:24:48.990

Jacque Murphy: Look right now.

205

00:24:50.550 --> 00:25:18.240

Jacque Murphy: Okay, so it's not \$100 more 1200 I understand why don't you go see that. So sometimes it's better

206

00:25:20.910 --> 00:25:25.500

Jacque Murphy: That they look forward to continuing or excellent work in the relationship. I know I

207

00:25:27.420 --> 00:25:30.480

Jacque Murphy: Feel a little slower to

208

00:25:31.530 --> 00:25:31.950

Jacque Murphy: Really

209

00:25:34.560 --> 00:25:39.360

Jacque Murphy: And sometimes he has to stay in 1% but lately. He's been

210

00:25:41.130 --> 00:25:42.900

Jacque Murphy: Whatever the cost of living one

211

00:25:45.270 --> 00:25:50.220

Jacque Murphy: Is operations and maintenance most 40 to 56 and I saw before. Did you 65

212

00:25:51.300 --> 00:25:55.350

Jacque Murphy: That's what we did and that's 1.54 to 36

213

00:25:58.110 --> 00:26:03.300

Jacque Murphy: I don't know what that is. I don't, I don't know what life, your family.

214

00:26:05.490 --> 00:26:10.080

Jacque Murphy: If you think of 141 66 and 2% is about what

215

00:26:21.930 --> 00:26:23.370

Jacquie Murphy: We get that life would be to be

216

00:26:24.450 --> 00:26:24.930

Jacquie Murphy: Bigger than

217

00:26:26.310 --> 00:26:31.860

Jacquie Murphy: That's my day against them for that. Right. Oh, yeah. Yeah, so there was so much of it there.

218

00:26:33.240 --> 00:26:36.060

Jacquie Murphy: Is a pump out the bottom of the

219

00:26:37.140 --> 00:26:38.400

Jacquie Murphy: Bottom of the tank about

220

00:26:40.110 --> 00:26:46.530

Jacquie Murphy: Yeah well today. See, this goes back to my thought through not taking care of it.

221

00:26:47.760 --> 00:26:49.710

Jacquie Murphy: There shouldn't be heavy sludge and about

222

00:26:52.830 --> 00:26:58.650

Jacquie Murphy: Continue to drive it. I told can do or maybe it was a spring one time.

223

00:27:00.180 --> 00:27:04.860

Jacquie Murphy: The drying beds were never suffered cure was free stream.

224

00:27:05.880 --> 00:27:13.290

Jacquie Murphy: I said he was sitting right there. And they said, you know, that stuff's been done. There's no reason why you can't transfer

225

00:27:14.340 --> 00:27:21.300

Jacquie Murphy: And this big argument over the bumps and all that. And it just went away. Well,

226

00:27:22.470 --> 00:27:24.420

Jacquie Murphy: That tells me they're not taking care of

227

00:27:26.760 --> 00:27:30.480

Jacquie Murphy: The same medical and health. So for the carnations, he's

228

00:27:36.090 --> 00:27:37.950

Jacquie Murphy: Taking it I just

229

00:27:39.630 --> 00:27:40.950

Jacquie Murphy: My thoughts, my opinion.

230

00:27:42.990 --> 00:27:44.130

Jacquie Murphy: This is part of their daily

231

00:27:45.960 --> 00:27:52.620

Jacquie Murphy: They should pumping it once more often if they if they notice a problem.

232

00:27:55.380 --> 00:28:03.630

Jacquie Murphy: Because they keep telling us. The problem is open air, which I think is not a true process. It's BS.

233

00:28:06.030 --> 00:28:07.950

Jacquie Murphy: If you, if you get out and look at

234

00:28:09.300 --> 00:28:10.260

Jacquie Murphy: Variation

235

00:28:11.700 --> 00:28:17.760

Jacquie Murphy: It's getting a pretty good amount here. I'm sure there what's coming out of the ground is so minimal

236

00:28:20.700 --> 00:28:21.150

Jacquie Murphy: But

237

00:28:24.210 --> 00:28:25.410

Jacquie Murphy: They used to put

238

00:28:27.450 --> 00:28:28.500

Jacquie Murphy: Power in it.

239

00:28:29.880 --> 00:28:32.700

Jacquie Murphy: coagulate to find stuff.

240

00:28:33.870 --> 00:28:36.450

Jacque Murphy: Send it to the bottom of it. Oh.

241

00:28:37.740 --> 00:28:40.380

Jacque Murphy: No, I don't know. They're doing it. No, but

242

00:28:41.610 --> 00:28:45.900

Jacque Murphy: Who knows, and he got put it on the Polymer on there.

243

00:28:46.920 --> 00:28:49.050

Jacque Murphy: I know we know it says hands on. I don't know.

244

00:28:50.310 --> 00:28:54.150

Jacque Murphy: And I remember that they have. It doesn't say they're using

245

00:28:58.050 --> 00:29:03.360

Jacque Murphy: Question this a long time ago they were doing what they were supposed to be doing.

246

00:29:04.800 --> 00:29:08.910

Jacque Murphy: And because we're not educated. That way, we can't tell.

247

00:29:10.830 --> 00:29:16.650

Jacque Murphy: But if you look, common sense and you get those like this.

248

00:29:18.990 --> 00:29:20.610

Jacque Murphy: tells me they're not doing again.

249

00:29:22.200 --> 00:29:22.980

Jacque Murphy: There's too many

250

00:29:26.580 --> 00:29:26.940

Jacque Murphy: Jesus

251

00:29:31.620 --> 00:29:40.590

Jacque Murphy: Seems like there's so many people. And then the turnover. Well, they don't know, they think things are. All right. One time was there once or twice a week.

252

00:29:41.760 --> 00:29:43.920

Jacque Murphy: Because he knew

253

00:29:45.750 --> 00:29:47.910

Jacquie Murphy: And I don't know if you ever again sir anymore.

254

00:29:57.990 --> 00:30:07.110

Jacquie Murphy: He's the one that comes, here he goes, Oh yeah, he was he was down in the plan today, but he was asking me when I was there.

255

00:30:10.290 --> 00:30:12.000

Jacquie Murphy: And you're saying, No, no, I don't.

256

00:30:19.140 --> 00:30:25.320

Jacquie Murphy: Think they told me I have not sure. I gotta ask them again. But I don't go pumps that we buy

257

00:30:26.850 --> 00:30:30.210

Jacquie Murphy: I think he's keeping his lunch, instead of down here.

258

00:30:31.530 --> 00:30:32.070

Jacquie Murphy: That's wrong.

259

00:30:33.240 --> 00:30:35.610

Jacquie Murphy: Okay. Dr. Keep them down here. No, no.

260

00:30:38.160 --> 00:30:41.580

Jacquie Murphy: That's wrong. Yeah, I should like it should be done to

261

00:30:42.990 --> 00:30:44.940

Jacquie Murphy: Feel this is another thing that I

262

00:30:46.020 --> 00:30:52.230

Jacquie Murphy: It's just a feeling that if those pumps are it is places us somewhere.

263

00:30:53.340 --> 00:30:54.840

Jacquie Murphy: Yeah, no worries. Morning.

264

00:30:56.580 --> 00:30:59.580

Jacquie Murphy: I don't know our old pumps are being fixed I

265

00:31:00.810 --> 00:31:11.400

Jacquie Murphy: Know, they're not. There's Tonio one zone area that they said it ready to go, what he says. But he says, they'd much rather put to do ones in

266

00:31:13.980 --> 00:31:17.610

Jacquie Murphy: But I don't understand that either. Why are we fix it, you know.

267

00:31:18.870 --> 00:31:23.430

Jacquie Murphy: They are fixable but but it almost sounds like he's telling me what I want to hear.

268

00:31:28.650 --> 00:31:31.470

Jacquie Murphy: Now there's a couple of their say he saying our word

269

00:31:33.000 --> 00:31:41.430

Jacquie Murphy: Well, what's wrong with he didn't. He didn't know he was in the one more thing, the mindset that I'm picking up is

270

00:31:42.510 --> 00:31:47.670

Jacquie Murphy: It's just easier to buy a new one, just go buy something know

271

00:31:54.330 --> 00:31:58.500

Jacquie Murphy: Am I have a solution. Yes, if you if you let me present

272

00:32:00.960 --> 00:32:01.620

Jacquie Murphy: my spiel.

273

00:32:02.700 --> 00:32:08.130

Jacquie Murphy: And let go. And I'm tired of those who see you want me to go. I think this would probably be denied. So

274

00:32:09.180 --> 00:32:10.680

Jacquie Murphy: Sorry, I got a little right

275

00:32:21.960 --> 00:32:27.180

Jacquie Murphy: Now I gotta get yeah like I say, you don't have to wade through this in detail. I'm

276

00:32:28.380 --> 00:32:28.710

Jacquie Murphy: Sorry.

277

00:32:32.730 --> 00:32:45.660

Jacquie Murphy: I'll go through a shell one guys you recall you you hired see to a he for us to go and do an evaluation plan. Yes, come up with some recommendations for improvements to submit for funding. Okay, so

278

00:32:46.470 --> 00:32:53.550

Jacquie Murphy: We've done that for luminary evaluation of the treatment plan. We've been there. We've gone through all canon groups records all the

279

00:32:54.660 --> 00:33:00.000

Jacquie Murphy: You know, monitoring reports and all that stuff. Okay. So just a couple things.

280

00:33:01.440 --> 00:33:07.170

Jacquie Murphy: You know, again, I'm not going to go through this word for word. I think you know the gist of it is

281

00:33:08.520 --> 00:33:19.800

Jacquie Murphy: The plants old okay till 1977 the treatment process is old. It's an antiquated treatment process is what we call context stabilization.

282

00:33:20.820 --> 00:33:38.790

Jacquie Murphy: Which essentially, you know, kind of fell off the map will say 20 years or so ago. All right, that says that still does. It does work better for smaller plan smaller flows and stuff like that. But it is an antiquated treatment process. You know, you just don't see a lot of them.

283

00:33:40.680 --> 00:33:48.480

Jacquie Murphy: So, you know, the existing facility and probably, I can tell you anything that you don't know, obviously you guys had the, the two package circular

284

00:33:50.970 --> 00:33:57.390

Jacquie Murphy: Treatment units. Right. He had the steel tanks with your, you know, your aeration in your, your settle

285

00:33:59.550 --> 00:34:14.520

Jacquie Murphy: So one of the most important things about the treatment plan you guys kind of already touched on a little bit is you gotta re circulate some of those suspended solids in the system in order for the treatment process to work correctly.

286

00:34:16.980 --> 00:34:28.350

Jacquie Murphy: This plan realizes a very large influx and solids. Okay, I'm sure you've heard can say that before we've gone through the records. It's a fact. Right. So, for whatever reason,

287

00:34:29.130 --> 00:34:43.230

Jacquie Murphy: You know, we've got a couple ideas or something going on the collection system, you know, that is causing all the solids. A lot of solids and very, very weird influxes of silence to come in.

288

00:34:44.010 --> 00:34:52.200

Jacquie Murphy: To the treatment plan. Okay, so that's probably the biggest problem that they have down there is the amount of sounds that come in and

289

00:34:52.830 --> 00:35:04.710

Jacquie Murphy: You know, we've looked at it, we looked into drawings, we looked at the system we've looked at everything. And we got a couple of ideas, what might be causing that. And we want to do some more investigation to look into that.

290

00:35:06.000 --> 00:35:13.080

Jacquie Murphy: You know, just today. We were talking internally see to add that you have an inverted siphon that comes into this plant.

291

00:35:13.890 --> 00:35:24.510

Jacquie Murphy: Which is unusual, we don't see that very often. And what might be happening is when you have a lower flow period. There's a value. Right, so it comes down and it goes back up.

292

00:35:24.990 --> 00:35:33.180

Jacquie Murphy: There might be solid that are building off of that valley and then if for whatever reason you got a highlight of that, or there's a there's an increase in flows.

293

00:35:33.420 --> 00:35:41.760

Jacquie Murphy: That's going to flush all solids out so that that might be something that's going on that you know we can do some investigations and look at that. Okay.

294

00:35:43.200 --> 00:35:55.530

Jacquie Murphy: But again, the plan was built in 1977 it's over 40 years old, you only have one unit that's currently operable right now. You also you have to one side and down. You know that they don't use

295

00:35:56.010 --> 00:36:08.100

Jacquie Murphy: Though there were supposed to be facing and I don't see improvement. Right. So you got you sold by rates way. Now you're really out of compliance because you don't have your redundancy in your system like your schools right so

296

00:36:09.660 --> 00:36:14.070

Jacquie Murphy: I don't know why it doesn't it isn't ready to use it.

297

00:36:15.120 --> 00:36:15.540

Jacquie Murphy: Back.

298

00:36:17.040 --> 00:36:29.010

Jacquie Murphy: A few years ago, it was ready. I don't know what method. Okay. If we could find out. Sure, and impress upon them to get it done right. Yep. Yeah. So, so again,

299

00:36:30.750 --> 00:36:34.500

Jacquie Murphy: The matter is you got one side is running right now and what for whatever reason.

300

00:36:36.180 --> 00:36:42.720

Jacquie Murphy: So, you know, your typical life expectancy for a treatment plan for mechanical equipment.

301

00:36:43.350 --> 00:36:50.850

Jacquie Murphy: 20 years, Max. Okay, you guys are seeing that now with all the stuff that's failing and on and so on and so forth.

302

00:36:51.270 --> 00:37:06.600

Jacquie Murphy: And for those steel tanks, probably about 50 years so you're reaching yet and useful life and those tags and got imagine or steel even filled the wastewater for 40 plus years, probably, you know, not in very good condition 10 years ago.

303

00:37:07.800 --> 00:37:18.180

Jacquie Murphy: They were sandblasted and manufacture code. Sure. So at that point, the steel was still pretty good right so

304

00:37:19.200 --> 00:37:27.150

Jacquie Murphy: Right 10 years ago. Yeah. If the coating has held up right a lot as well. Right. But, you know, yeah, you know, I guess.

305

00:37:27.630 --> 00:37:39.270

Jacquie Murphy: The point I'm trying to get across is that, you know, the plan is getting old. It's getting older and it's it's not going to fix itself. Yeah, not not not telling you anything you don't. So listen, the two big

306

00:37:40.950 --> 00:37:47.550

Jacquie Murphy: ones were the fiberglass. Yeah, no. The top of true in to light those need to be replaced. Correct.

307

00:37:49.980 --> 00:37:52.890

Jacquie Murphy: We'll get a solid yet. Like I said let me keep going. So

308

00:37:54.540 --> 00:38:06.600

Jacquie Murphy: So you know you've got your, your remaining capacity is a higher 40,000 gallons per day. Your average falls about 70,000 gallons your max falls 353,000 gallons per day.

309

00:38:06.960 --> 00:38:14.700

Jacquie Murphy: You know, that was obviously during a wet weather event as you guys know, there's something while and collection system there's infiltration as well, you know, getting in there.

310

00:38:15.060 --> 00:38:29.550

Jacquie Murphy: And that's probably your, your, your second biggest problem, right, because when you have those varying levels of flow. These are very difficult, you know, to treat what's coming in. Okay, without some sort of equalization you know ahead of that so

311

00:38:30.870 --> 00:38:41.850

Jacquie Murphy: You know some of the issues. Your equivalent past its useful life you know you've got those having influxes and solids that are coming in, you've got those large spikes and forth during Lent weather conditions.

312

00:38:43.020 --> 00:38:53.160

Jacquie Murphy: So right now, you know, as far as Big Picture long term, you know, looking into what we would recommend for a project, they will be able to be submitted for funding.

313

00:38:54.000 --> 00:39:06.570

Jacquie Murphy: Again, I think you guys did a really good chance to get funded. Keep in mind, you got your income survey that expires. This year, so we gotta, we gotta get the funding application in this year it's gonna it's gonna happen.

314

00:39:08.700 --> 00:39:16.770

Jacquie Murphy: There's two options. You know, you can upgrade the existing system which is going to basically just be a complete overhaul of what you got right now. Okay.

315

00:39:17.850 --> 00:39:26.490

Jacquie Murphy: You know, like I say, replacing all the tanks, you know, replacing all the equipment major equipment that's in there and so on. Okay, I tend

316

00:39:27.780 --> 00:39:35.700

Jacquie Murphy: To think the same you would you would you would most likely put the exact same thing back then, we weren't going to change anything, you know,

317

00:39:36.810 --> 00:39:42.300

Jacquie Murphy: There's manufacturers out there that still don't make this type of equipment they these type of tanks.

318

00:39:43.140 --> 00:39:52.830

Jacquie Murphy: I originally thought they were concrete tanks. But, and we looked at the drawings and they're not over steel on, you know, kind of creates a little easier to fix in a place

319

00:39:53.820 --> 00:40:05.730

Jacquie Murphy: You know, steel, again, you know, you pull them out and putting it back in. But, you know, and then there's a bunch of other improvements we can look at. We can look at had works and how it works.

320

00:40:06.960 --> 00:40:23.160

Jacquie Murphy: You know, keep in mind that I think now's the time based on the fact that you have your income survey. Okay. And you've got some of these sequences that are taking place and you've got this letter from the EPA. You're going to stand the best chance of getting funded for

321

00:40:24.270 --> 00:40:25.350

Jacquie Murphy: Alright, so

322

00:40:26.370 --> 00:40:37.500

Jacquie Murphy: Again, with that being said, I'm not trying to you know force anything down your throat or anything like that. We want to do you know as much as possible, as we can do on a project so

323

00:40:38.130 --> 00:40:45.960

Jacquie Murphy: Your other option. So really you know we rehab what's there. Now you know maybe ask equalization wants to hop on with

324

00:40:46.830 --> 00:40:59.940

Jacquie Murphy: You know those spikes in wet weather flows increase your screenings and grit, which will help out a little bit with some of your solids issues, that's why. Okay. You said something about we do an annual on

325

00:41:01.140 --> 00:41:01.590

Jacquie Murphy: Your bill.

326

00:41:02.640 --> 00:41:06.660

Jacquie Murphy: Down there would be somebody along or no no

327

00:41:11.160 --> 00:41:26.190

Jacquie Murphy: What's the modern way to sort of get in a minute. Yeah, so your next option right so you know it's, um, in order to do that, you know, it's gonna, it's going to cost them money. Right. Your other option.

328

00:41:27.600 --> 00:41:36.360

Jacquie Murphy: Is to upgrade to a whole new treatment system. Okay. And basically, you know, there's a couple different options that we would look at to handle

329

00:41:36.870 --> 00:41:47.070

Jacquie Murphy: Your solids, because that's the biggest problem in this plan and then better treatment alternatives that would handle those silos, you know. Coming in, coming into the treatment plan.

330

00:41:47.580 --> 00:41:58.320

Jacquie Murphy: On the first is what's called an m e br are moving bed bioreactor another type is called a sequencing batch with batch reactor right those are

331

00:41:59.490 --> 00:42:12.060

Jacquie Murphy: You know, compact type treatments systems that handle those influxes in solids. Very well. Okay. Um, there's some other package systems, we can look at to

332

00:42:13.320 --> 00:42:29.190

Jacquie Murphy: On, but really, at the end of the day, you know, I think what we have to do is make a decision on you know what direction and want

to go. I've got a map on the existing plan with the property lines. You can see we have plenty of room.

333

00:42:30.390 --> 00:42:40.860

Jacquie Murphy: What I can script it. We're not to say it's not really constructed. So if we were going to operate from the new treatment system. We will most likely build it next to the old

334

00:42:41.400 --> 00:42:52.530

Jacquie Murphy: Okay, so probably to the north. That way you can keep the existing treatment system, you know, in property lines just outside the fence. That's not what we show

335

00:42:53.700 --> 00:42:54.030

Jacquie Murphy: Yeah.

336

00:42:55.530 --> 00:43:10.050

Jacquie Murphy: Well, okay. Meanwhile, know so that's probably when they always funny. Look at the size of your tank. I mean, the people that own the land, have always said that I say this is yeah, this is a great office. We will County.

337

00:43:11.340 --> 00:43:12.240

Jacquie Murphy: Tax, you know,

338

00:43:14.640 --> 00:43:16.110

Jacquie Murphy: Right. Well, you might be lying to you.

339

00:43:19.320 --> 00:43:33.240

Jacquie Murphy: I mean, they would go, but I, you know, I guess, you know, look at it. You know those two white circles or your to tears, you know, I mean they don't take up very big, very big footprint compared to your, to your property to

340

00:43:34.350 --> 00:43:38.190

Jacquie Murphy: base it off. We were, we were Adele do. You're not talking too.

341

00:43:39.540 --> 00:43:45.060

Jacquie Murphy: Much because it had been tossed about two or six goals. We want to expand.

342

00:43:48.450 --> 00:43:54.330

Jacquie Murphy: Ourselves. I don't care when old tonight Marvel. Look at my yeah we want to consider.

343

00:43:56.040 --> 00:44:05.280

Jacquie Murphy: Absolutely. So we want to build access capacity in for, you know, that's really going to help you know monitor you know a lot of terrible if you start, you know, accepting

344

00:44:06.720 --> 00:44:15.060

Jacquie Murphy: You know, sewage from the town. You know, when we first various plan. I remember right, we were taking the access from

345

00:44:15.840 --> 00:44:27.180

Jacquie Murphy: Nestle nestle and okay. No. Okay. No, we don't do that anymore. Is that why the planning that really working these goddesses. No, not necessarily. I think the plants not working as good as

346

00:44:28.920 --> 00:44:32.190

Jacquie Murphy: As fall apart and and

347

00:44:36.600 --> 00:44:44.640

Jacquie Murphy: Fox and solid, we were trying to figure that out. Well, this in your wet weather. Thank you, Susan, are they

348

00:44:45.480 --> 00:44:54.420

Jacquie Murphy: You know, like right now. These have to digest and, you know, build a new system. So the same thing. They do, yeah. And you know, ultimately, you still have the same you know

349

00:44:54.840 --> 00:45:04.410

Jacquie Murphy: Whatever, whatever comes in, you've got a tree and then you know you get your yourselves and your waist out and then you know you gotta, you gotta disposal, so

350

00:45:04.770 --> 00:45:17.310

Jacquie Murphy: But there you know there's so many all your different alternatives for dealing with solids, other than sledge drying beds and you've got thoughtful to presses. You got scoop scoop presses, you know, things like that.

351

00:45:18.600 --> 00:45:20.130

Jacquie Murphy: You know that you can look at

352

00:45:21.270 --> 00:45:31.650

Jacquie Murphy: So you know there's there's definitely better, more efficient technology out there and a lot of these plants. Now you know with instrumentation controls.

353

00:45:32.910 --> 00:45:44.610

Jacquie Murphy: You know, there's a lot more self sufficient. And so, you know, typically, you know, on your planet like this, you know, everything is going to be alarm, which I'm sure they have orange.

354

00:45:45.270 --> 00:45:53.610

Jacquie Murphy: Now, but you know something, wherever they go wrong, you know, without, you know, sends an alarm right now. I mean, what are we here just recently this

355

00:45:55.560 --> 00:45:56.820

Jacquie Murphy: Morning going on.

356

00:45:58.080 --> 00:46:08.520

Jacquie Murphy: Yes. Yeah, so I mean that's that's crazy. I mean, that's, you know, that's a key. You know, if you lose your air in that treatment process you're in big trouble. So

357

00:46:10.290 --> 00:46:21.840

Jacquie Murphy: So again, I think our, you know, our recommendation vehicle that you know we think you should abandon what you have now, not to say, I mean, probably the administration building, we can still use that

358

00:46:22.500 --> 00:46:31.230

Jacquie Murphy: You know, to house equipment and controls instrumentation mechanical your generator, we can still, you know, keep that. So there are things we can keep

359

00:46:32.430 --> 00:46:39.480

Jacquie Murphy: Bought you know I think long term for the benefit of the village right now you're just putting a bandaid on things.

360

00:46:41.640 --> 00:46:53.580

Jacquie Murphy: That's what we did 10 years ago. Right. Right. But at that point in time, it was the boy, he can get gotcha 10 more years. It was not going to fall apart, you know,

361

00:46:54.780 --> 00:47:00.570

Jacquie Murphy: Funding is there, right, there's no central not going that route. Yeah, so that's what we would recommend

362

00:47:01.830 --> 00:47:12.450

Jacquie Murphy: You know, again, I can't, you know, probably a project like that is going to cost to the two and a half million dollars to do that. I can tell you that

363

00:47:13.740 --> 00:47:25.530

Jacquie Murphy: If you fall under the poverty category through rural development program alone, they will provide you up to 75% grant for a project. Okay. Yes, also give you. Let's go. So I

364

00:47:27.480 --> 00:47:37.260

Jacquie Murphy: I'm very confident that I can get you guys funding package for project, we have to move quickly and that's the thing. I mean girl presented

365

00:47:38.850 --> 00:47:50.910

Jacquie Murphy: Yeah, yeah, you would qualify for zero percent through yesterday's program, you gotta score high enough so you know one thing I'd add. That's why I was talking to him earlier today because I was he had mentioned to me that he thought

366

00:47:51.720 --> 00:48:05.100

Jacquie Murphy: There was a consent or coming from DC and apparently that has not been an issue. I may never be so but. But what that means is typically your salary.

367

00:48:06.270 --> 00:48:07.380

Jacquie Murphy: Yeah, I mean it's guaranteed.

368

00:48:08.610 --> 00:48:09.840

Jacquie Murphy: I still think we're

369

00:48:10.920 --> 00:48:26.430

Jacquie Murphy: You know, the experiences and the letter from the team that can respond to still score high enough, you know, project Stoller score high enough. We've got ways to word things and and structure things, such that we can get, you know,

370

00:48:28.350 --> 00:48:30.840

Jacquie Murphy: There's a lot of that has to be done in the next three months.

371

00:48:32.040 --> 00:48:38.250

Jacque Murphy: So, you know, do what I tell you that is what you know there's going to be resolutions, there's going to be

372

00:48:38.610 --> 00:48:51.540

Jacque Murphy: Things that are going to need to be adopted, sort of the advertisers and the people on the paper. And like I say, Will system for those will all that we do all the time, but with our such a short time constraint we gotta

373

00:48:53.010 --> 00:48:53.760

Jacque Murphy: You know, we have a new

374

00:48:56.310 --> 00:48:58.740

Jacque Murphy: If you can throw a package together.

375

00:49:00.750 --> 00:49:06.360

Jacque Murphy: An Overview realistic figure, you know. Yeah, I'll have to get to the nuts and bolts.

376

00:49:07.230 --> 00:49:11.970

Jacque Murphy: But let us know what we're dealing. Yeah. So now all be part of our areas of your

377

00:49:12.360 --> 00:49:24.960

Jacque Murphy: Life. Right. So we have to we have to do two things we need to funding agencies requirements we have your environmental review, which we already started. Yes, passed the resolution last month for your media agency. So we're, we've already sent

378

00:49:26.400 --> 00:49:36.180

Jacque Murphy: Those packages out to the environmental review agencies can assign interesting story. Preservation Office, she uses US Fish and Wildlife DCD always

379

00:49:37.260 --> 00:49:52.620

Jacque Murphy: You know they review the site in the project and then you know they they tell you if you need a permit for this or that or so on and so forth. So we started that process. And that's moving probably your next board meeting, I'll be able to present the results of those

380

00:49:53.640 --> 00:50:07.020

Jacque Murphy: You know those packages that are sent out right now, but I tell you, I highly, highly doubt there's going to be environmental concerns will probably pass it as a solution next month, indicating that is you know know environmental impacts as part of a project.

381

00:50:08.310 --> 00:50:10.620

Jacquie Murphy: And, you know, we'll get that environmental

382

00:50:11.820 --> 00:50:18.840

Jacquie Murphy: The other part is our preliminary engine where we're going to, you know, go through different alternatives, you know, will probably look at

383

00:50:19.530 --> 00:50:34.650

Jacquie Murphy: You know, it will believe it. Look at abandoning our treatment plan all together and shipping it somewhere else. Now we've already talked about that on your closest treatment plans probably Hastings, which is like eight miles. So that's, you know, that wouldn't be cost effective.

384

00:50:35.940 --> 00:50:45.450

Jacquie Murphy: So you know what will evaluate different alternatives as part of that. But we ultimately have to make a recommendation that all be in front of you, you know, when the time comes.

385

00:50:46.470 --> 00:50:49.680

Jacquie Murphy: To you and then you know we're up trucks that come in.

386

00:50:50.700 --> 00:50:59.370

Jacquie Murphy: daily, weekly to pick up the phone to send it to them know you would just completely abandoned your treatment plan in the pocket somewhere else or puppets employees. Yeah.

387

00:50:59.640 --> 00:51:07.890

Jacquie Murphy: But that's not that's not feasible. I'm just saying I'm not okay. Okay. Well, I thought you were talking about when they get ready to know we do it. No.

388

00:51:08.460 --> 00:51:21.240

Jacquie Murphy: Different. So when we get ready or two. So say everything works out, right, we get a really good funding packed you guys decide we want forward. What we'll do is we'll, we'll keep the existing treatment plan and service while we're going

389

00:51:28.920 --> 00:51:37.680

Jacquie Murphy: Over here to corral. So, you know, that's very like I've told you about your water everything else. We're going to get your photos don't gotta get to

390

00:51:39.060 --> 00:51:43.110

Jacquie Murphy: That that will remain the correct. Okay. And after doing an evaluation.

391

00:51:45.240 --> 00:51:48.630

Jacquie Murphy: Yeah, I know you did and you know I didn't get all that

392

00:51:50.040 --> 00:52:03.750

Jacquie Murphy: All that Whitman and then, you know, if everything works out. Let's go then you know we we take it from there. You know, we would use design oversee the construction better cheap, but actually thanks and access to redo

393

00:52:05.040 --> 00:52:12.930

Jacquie Murphy: All maybe it all. Yeah, those are all things that will work as part of our evaluation, you know, again, steel tanks concrete tanks are still

394

00:52:13.950 --> 00:52:16.590

Jacquie Murphy: You know, probably pretty close to the same

395

00:52:19.410 --> 00:52:23.940

Jacquie Murphy: Lifespan expected to conquer conquer. He says, sometimes a little easier.

396

00:52:26.940 --> 00:52:39.690

Jacquie Murphy: And I will tell you if you do this, and this, all those words I will be very, very old by the time this plan is gonna, you know, a sort of Beijing. Well, so hopefully, hopefully I'm not in the ground.

397

00:52:40.950 --> 00:52:44.100

Jacquie Murphy: Okay, so how long do you think you could

398

00:52:45.180 --> 00:52:54.780

Jacquie Murphy: That we could start going. It's good. It's gonna take a while. Yeah. You know, it just so most likely you probably be looking at a startup and 2022

399

00:52:57.600 --> 00:53:06.450

Jacquie Murphy: Okay, so, so no worries well doing those payments airplane. Yes. Yeah. I mean, I saw yeah and and that. And that's, you know,

400

00:53:07.080 --> 00:53:16.890

Jacquie Murphy: Earliest so just thinking off top my head right so you're going to submit your funding applications. You'll hear on your funding, probably around Christmas time this year.

401

00:53:17.490 --> 00:53:22.590

Jacquie Murphy: Right. And then obviously, it's probably going to take a month or two to, you know, do some evaluations at all.

402

00:53:23.130 --> 00:53:31.650

Jacquie Murphy: Costs and so on and so forth, you know, to the to the taxpayers and then we have to design it right and that's probably going to take most of 2020 long

403

00:53:32.070 --> 00:53:48.480

Jacquie Murphy: To do that we most likely bit in the fall of 2021 with construction to start in the spring of 2022 so basically be all brand new blowers new everything, everything would be a be a be you know right off the trailer, everything would be no

404

00:53:52.230 --> 00:53:56.280

Jacquie Murphy: That's completely moving the plant basically like next door to the existing one. Correct.

405

00:53:57.690 --> 00:53:59.250

Jacquie Murphy: Well okay so

406

00:54:00.540 --> 00:54:03.300

Jacquie Murphy: Sorry, keep this one in place, make do.

407

00:54:04.620 --> 00:54:17.220

Jacquie Murphy: Know you see you'll probably end up being in the northern side. Oh yeah, I mean that right, you know, just kind of looking at it because I know you know to the south, obviously, you know,

408

00:54:17.640 --> 00:54:31.650

Jacquie Murphy: I think, you know, you start going down the hill there. I think there's some validation. That's really went up there. Yeah. And you know, I know you got your pod, excuse me, is upon you. That's not on your property but but yeah so we would most likely go to the north.

409

00:54:33.090 --> 00:54:34.500

Jacquie Murphy: Again, I think.

410

00:54:35.640 --> 00:54:49.440

Jacquie Murphy: You know, just to the north. I mean, you'd probably be just outside of your fence line, you know, maybe 2530 feet, you know, with the new with the new station with a with a new player than the tanks and

411

00:54:51.330 --> 00:54:54.630

Jacquie Murphy: And yeah, so that, so that would, you know, be conceptually be the plan.

412

00:54:56.040 --> 00:55:03.180

Jacquie Murphy: What's the contour to the left of the existing plan is that all starts going down. It all starts going down hill.

413

00:55:04.440 --> 00:55:13.620

Jacquie Murphy: And that's kind of, that's where your outfall is that's where your disinfection chamber is so you're probably easiest and most feasible option to go to

414

00:55:17.820 --> 00:55:21.480

Jacquie Murphy: That bigger building that's your sleeve shirt. Those are your drawing beds.

415

00:55:22.830 --> 00:55:30.660

Jacquie Murphy: Or any part of the old system and we can you all in the building itself. I'm trying

416

00:55:31.680 --> 00:55:35.910

Jacquie Murphy: You could reuse the DR as be probably recommend that you go to something

417

00:55:37.050 --> 00:55:43.620

Jacquie Murphy: Compact. Yeah, right. You can see we can most certainly leave in there. I mean, we could still use the sludge trying that's

418

00:55:44.880 --> 00:55:56.160

Jacquie Murphy: You know that's that's not a common I see the press. I mean, that's it. Easy peasy. Yeah, but each of you as well. You know, it's really not.

419

00:55:57.870 --> 00:56:04.110

Jacquie Murphy: Yeah, I mean, it's a little more energy intensive, but it's it's it's quicker. It's always about it before. Yeah.

420

00:56:06.330 --> 00:56:16.350

Jacquie Murphy: So your sales problem isn't going to go away unless we figure out what is going on in the collection system. So I know can can group is worked on that quite a bit.

421

00:56:18.270 --> 00:56:30.120

Jacquie Murphy: There, they'll sounds calm, regardless of whether they cover a slugger they come, you know, over time, so you're getting yourselves molding is is high, for whatever reason, at this point.

422

00:56:31.200 --> 00:56:37.650

Jacquie Murphy: The problem right now is it comes in those big, you know, slugs influxes it'll that causes a problem in the treatment.

423

00:56:38.730 --> 00:56:45.060

Jacquie Murphy: For something to really look at because getting a new plan isn't the goal, but

424

00:56:46.170 --> 00:56:49.080

Jacquie Murphy: You're right. So, so what we would do as well.

425

00:56:50.490 --> 00:57:00.810

Jacquie Murphy: We would include an allowance of the project or investigations of your collection system as well as improvement. So say we put an allowance and arrows.

426

00:57:01.410 --> 00:57:17.580

Jacquie Murphy: Of safety \$250,000 for going to to do investigations, whether that's Cameron or smoke testing or you know whatever we would need to do smoke testing in your own. Well, I mean what no one

427

00:57:18.630 --> 00:57:22.710

Jacquie Murphy: Is higher solids. Does it come at a high flow day

428

00:57:23.970 --> 00:57:27.930

Jacquie Murphy: Yes. Yeah, yeah. So typically what I'm wondering.

429

00:57:29.400 --> 00:57:36.840

Jacquie Murphy: Wherever there is a large volume of water that's infiltrate correct. Okay. We're going to wait.

430

00:57:38.400 --> 00:57:43.200

Jacquie Murphy: To go out of the system as fast as it can come into the system.

431

00:57:44.310 --> 00:57:47.220

Jacquie Murphy: So if you, if we have a loss of water.

432

00:57:48.390 --> 00:57:55.560

Jacquie Murphy: Letting the slots filled up in whatever Jane in a bind, whatever, then you get this high flow date.

433

00:57:58.260 --> 00:58:17.130

Jacquie Murphy: Like cleansing. Right. Yeah. No, I'm not disagreeing with you there. But you know, that's again that flow. We don't have the flow of equalization is going to help all that. So, you know, having a better head work system is going to help all that having a new plant is only half of the solution.

434

00:58:18.690 --> 00:58:20.820

Jacquie Murphy: I never did understand why they said that

435

00:58:21.990 --> 00:58:26.910

Jacquie Murphy: This is a process. Okay, everything flows, one way or the other.

436

00:58:28.140 --> 00:58:40.140

Jacquie Murphy: There's section there are sections that are gravity. Gravity pulls them in their collections are you talking about, like, oh yeah yeah okay and

437

00:58:41.670 --> 00:58:47.130

Jacquie Murphy: We've had the best way of going and what your collection system is it is what it is.

438

00:58:48.120 --> 00:58:55.560

Jacquie Murphy: Unless you want us, you know, that's what I'm just asking if that was the. It just depends. It just depends. So open that can of soda. Okay, so

439

00:58:56.100 --> 00:59:06.510

Jacquie Murphy: So, typically a gravity collection system is what you would prefer because it's the last maintenance. It's the lease payments. Okay. Right. You know, everything just fell those

440

00:59:07.260 --> 00:59:14.850

Jacquie Murphy: Calls as well. No, you know, for things and stuff like, well, yeah, I'll be prompted from there to the while you eventually run out rule where you gotta

441

00:59:15.270 --> 00:59:22.770

Jacquie Murphy: Pump it right so you can only one our house so far, you get to a spot and you got a puppet, then you can start going down healing and you got to pump it so

442

00:59:23.400 --> 00:59:33.840

Jacquie Murphy: You know, that's great for the most part they're relatively flat. Yeah, but they use gravity, where the code right and now you've got a bumper.

443

00:59:35.490 --> 00:59:36.420

Jacquie Murphy: We just asked him.

444

00:59:37.740 --> 00:59:38.490

Jacquie Murphy: He said it was

445

00:59:41.550 --> 00:59:41.850

Jacquie Murphy: Nice.

446

00:59:42.990 --> 00:59:43.350

Jacquie Murphy: Enough.

447

00:59:44.940 --> 00:59:54.780

Jacquie Murphy: The most current update type of current them drain bets that they use. Yeah. Yeah. Right. That is basically just a collared

448

00:59:56.700 --> 01:00:06.090

Jacquie Murphy: Shirt yes or no plans for during that during that during that that's currently yeah I mean there are most certainly all different types of technologies.

449

01:00:06.840 --> 01:00:16.140

Jacquie Murphy: That you can use for the water and you know like a price, they're screwed presses, you know that you know basically put out a sledge Cape like into been

450

01:00:17.280 --> 01:00:21.660

Jacquie Murphy: You know, there's no filter presses. There's all different kinds of things that you can look at

451

01:00:22.710 --> 01:00:41.640

Jacque Murphy: That will just, you know, make your solid processing more efficient like squeezing a lot at all because. Exactly. Yeah. And even though some, well, I'm just thinking that. And then when that wiring goes back into the plan is treated, we get over again. We were looking at one out upon

452

01:00:42.720 --> 01:00:55.350

Jacque Murphy: Squeeze the, you know, and they liked it but then they use the same over know that goes right on a roll off container you know and and when it fills up truck comes picks up a toy.

453

01:00:56.550 --> 01:01:08.460

Jacque Murphy: Know what role would this plant play with the water that will be brought into the village and community will the water be processed through the wastewater treatment plant.

454

01:01:10.080 --> 01:01:20.130

Jacque Murphy: Or you'd have to have, you know, addition onto this or will it go to another filtration system know so total solar water than how it is not how

455

01:01:21.360 --> 01:01:31.830

Jacque Murphy: Homeless and housing feel so so be going back into the system can be filtered and recycle. Because correct. So I mean, right now, folks get their water from Wells. Right, right. So,

456

01:01:32.220 --> 01:01:37.620

Jacque Murphy: You know, it's really no different. Instead of getting the water for a while they're going to get it from all you don't mean this whole system.

457

01:01:38.670 --> 01:01:40.140

Jacque Murphy: Right out and right back into

458

01:01:41.460 --> 01:01:47.700

Jacque Murphy: The force in the town right now you know don't mean this facility on their water goes in there.

459

01:01:52.050 --> 01:01:55.950

Jacque Murphy: Yeah, yeah. So we get on the plane would be to build capacity.

460

01:01:57.630 --> 01:02:00.600

Jacquie Murphy: And the widow water projects that

461

01:02:03.510 --> 01:02:10.710

Jacquie Murphy: are low in the towel in the water pressure well the the people or anything, just going to use for water.

462

01:02:11.730 --> 01:02:12.360

Jacquie Murphy: And

463

01:02:13.440 --> 01:02:25.710

Jacquie Murphy: You build that in. Yeah. Yeah. I mean, you're not going to see a drastic difference in the ocean floor because you go from a while to a municipal system, you're going to see a drop in the water, you

464

01:02:27.330 --> 01:02:27.660

Jacquie Murphy: Have

465

01:02:28.830 --> 01:02:36.420

Jacquie Murphy: A village that are going to be contributing system as well. Nice. They don't have. They don't have sewer. You gotta build servers.

466

01:02:36.930 --> 01:02:48.270

Jacquie Murphy: So people in the town. Yeah, yeah, the people of the town who are not sewer and right now they're municipal water that they use is going to go into their center but I'm saying

467

01:02:50.970 --> 01:02:53.790

Jacquie Murphy: Because we're going to be paying for what

468

01:02:55.680 --> 01:02:59.040

Jacquie Murphy: Are some people going to use less than they do now with their wealth.

469

01:03:00.360 --> 01:03:04.410

Jacquie Murphy: I mean, it's very hard to say. I would say probably 90 people still Drake.

470

01:03:06.270 --> 01:03:16.410

Jacquie Murphy: Drake and shower wash your dishes and their calls, you know, maybe a little bit longer would be mine is getting there in your newer system.

471

01:03:17.160 --> 01:03:28.680

Jacquie Murphy: Can they handle the differential between low flow and the night. Yeah. So what you would do what you can install. It's called an equalization base enter equalization tank and what that does.

472

01:03:29.160 --> 01:03:43.290

Jacquie Murphy: Is it as a storage that mop the moderates the flow that goes into the plan. So it's constant. It's a constant volume I bumped into now that that increases the efficiency of your plan, you know, tangible good

473

01:03:45.420 --> 01:03:52.980

Jacquie Murphy: So that's what would be our recommendation. So unless he all the boards completely opposed to that. That's how we're going to proceed with

474

01:03:53.460 --> 01:04:04.830

Jacquie Murphy: For now, and now we're going to watch the engineering, of course, right. And now we can look at it one more time before we submit the funding application and make a decision. That's the recommendation.

475

01:04:09.780 --> 01:04:17.400

Jacquie Murphy: I think okay. I make a motion that we accept your proposal and a replacement replacement

476

01:04:28.290 --> 01:04:31.950

Jacquie Murphy: For a house. Well, we need you. I mean, I can, I can

477

01:04:33.720 --> 01:04:34.620

Jacquie Murphy: Say this one.

478

01:04:36.810 --> 01:04:40.950

Jacquie Murphy: All right, is there a motion to the candidate report. I make a motion we

479

01:04:48.060 --> 01:04:49.650

See report.

480

01:05:10.530 --> 01:05:11.130

Jacquie Murphy: Total

481

01:05:22.440 --> 01:05:26.940

Jacquie Murphy: Have your postal inspector before there. Yeah, yeah.

482

01:05:28.530 --> 01:05:30.420

Jacque Murphy: Which I think is kind of stupid myself.

483

01:05:37.170 --> 01:05:37.920

Jacque Murphy: Tells you just

484

01:05:39.240 --> 01:05:39.840

Jacque Murphy: Goes from

485

01:05:42.540 --> 01:05:43.590

Jacque Murphy: 33 feet.

486

01:05:44.850 --> 01:05:47.760

Jacque Murphy: Now you have to go 42 inches.

487

01:05:49.050 --> 01:05:49.710

Jacque Murphy: Which is

488

01:05:51.330 --> 01:05:54.930

Jacque Murphy: About three feet six inches over a little bit more thing.

489

01:06:02.310 --> 01:06:05.190

Jacque Murphy: I was always taught for 48 and

490

01:06:07.260 --> 01:06:11.760

Jacque Murphy: You know, oh you talk 36 when you're older.

491

01:06:14.580 --> 01:06:15.420

Jacque Murphy: Yeah, that's true.

492

01:06:26.160 --> 01:06:27.750

Jacque Murphy: Thank you for tonight.

493

01:06:31.530 --> 01:06:32.130

Jacque Murphy: Thank you.

494

01:06:35.010 --> 01:06:48.780

Jacque Murphy: Don't have your credit report for you. I emailed it to the village clerk and she can give you a copy that direct mail or two later if you need to copy but I know pretty much what's the same report, I give this deal so

495

01:06:51.540 --> 01:07:04.680

Jacquie Murphy: First you're pausing probably heard that meeting size limits are now up to 25 times easier to have a peaceful still need to worry about tasks and distancing and all that, but

496

01:07:05.400 --> 01:07:17.460

Jacquie Murphy: 25 is much more manageable for all of us. So that helps a lot. But still, nice to have a zoom entrepreneurial people into the meetings when they might not be able to be here physically so I can see how this could be something continuing

497

01:07:18.660 --> 01:07:23.430

Jacquie Murphy: usefulness in the future, even get past all this cool stuff.

498

01:07:25.470 --> 01:07:33.990

Jacquie Murphy: Zoom a lie. I should add the qualifier on that the what we're doing now and resume in terms of being the primary way of conducting a meeting.

499

01:07:34.830 --> 01:07:46.680

Jacquie Murphy: The it's been extended by executive order that's only through July 7. Now that's not to say that under ordinary times you couldn't bring people in. Like, your, your village attorney who couldn't be here.

500

01:07:48.960 --> 01:08:02.550

Jacquie Murphy: But, and I'm guessing that after all those experiences gone by, there might be some changes and state law, having to do it and being able to help meetings routinely in this way when it's necessary. I think it's a great idea. Really what

501

01:08:04.500 --> 01:08:07.260

Jacquie Murphy: People have to travel one. Yes. Yeah.

502

01:08:08.730 --> 01:08:09.510

Jacquie Murphy: Able to have

503

01:08:11.190 --> 01:08:12.810

Jacquie Murphy: That kind of an evolution of how we

504

01:08:15.930 --> 01:08:17.850

Jacquie Murphy: Just come up with, because there's

505

01:08:18.990 --> 01:08:31.170

Jacquie Murphy: No early on in this whole thing. One of the first orders of the governor was to supersede open meetings lot to allow for those type of meeting because normally you had to meet in person.

506

01:08:33.480 --> 01:08:34.920

Jacquie Murphy: Revenue enjoy meeting so

507

01:08:36.000 --> 01:08:38.310

Jacquie Murphy: Yeah, I never heard another another

508

01:08:39.330 --> 01:08:41.670

Jacquie Murphy: Walks of life, but in

509

01:08:42.750 --> 01:08:46.410

Jacquie Murphy: Terms of, you know, government zoom wasn't an option.

510

01:08:48.660 --> 01:08:58.650

Jacquie Murphy: To go out industry. Oh yeah, absolutely. And there are a lot of organizations that are far flung they got all over the place. So I know there's

511

01:08:59.730 --> 01:09:14.010

Jacquie Murphy: Been able to do that means doing a weekly conference calls and telephone and now he's fish because when available to us. We're doing the means his room and will probably be dropping the conference call line that we were, we can do some

512

01:09:15.240 --> 01:09:20.610

Jacquie Murphy: Speaking of toggle staff of toggle staff is under a 50%

513

01:09:21.660 --> 01:09:30.870

Jacquie Murphy: In office imitation. We were all still working, but those that are worked out of the Watertown office 20% of them are working out of

514

01:09:31.440 --> 01:09:47.940

Jacquie Murphy: The Watertown office and 50% of them are working out of their homes kind of schedule worked out on on what it is when you go into the office where the work from home. Everybody's still working full time and because her off the limit that for a while, we couldn't

515

01:09:49.110 --> 01:09:51.540

Jacquie Murphy: Travel for working out the travel for work. So

516

01:09:53.490 --> 01:10:05.970

Jacquie Murphy: That's an option for you and kind of related to that, it occurred to me that when all this started on March 18 Matt Johnson from those can come down and meet with us that they

517

01:10:06.960 --> 01:10:15.120

Jacquie Murphy: zoning and planning and other projects in process. And then of course everything topsy turvy after that there was

518

01:10:16.230 --> 01:10:32.460

Jacquie Murphy: No longer travel for work and our being able to do that. I checked with the mayor and I checked with Matt and I have that scheduled for you for your next meeting on July 15 so he is confirmed in American firm that could on the versions.

519

01:10:33.780 --> 01:10:36.690

Jacquie Murphy: You can forward on that, sadly postponed for merge a

520

01:10:40.350 --> 01:10:50.130

Jacquie Murphy: Couple workshops coming up again this will be in the report that I sent to the ability to click. If you want to detail further up on the website www.org

521

01:10:51.450 --> 01:11:02.910

Jacquie Murphy: Is the workshop tomorrow and just a square options. It doesn't apply to you is my first time in Cork, so that doesn't find you as much. But basically, having to do with consolidations operation core functions.

522

01:11:03.750 --> 01:11:10.770

Jacquie Murphy: The other workshop will be dancing along to the planning board is a workshop planning transparency, which sounds interesting.

523

01:11:12.030 --> 01:11:13.500

Jacquie Murphy: I have for you.

524

01:11:14.670 --> 01:11:20.040

Jacquie Murphy: We limited number of copies of the toggle recreation guide.

525

01:11:22.380 --> 01:11:27.840

Jacquie Murphy: And I should have more for you in the near future, but that's a good starting to apply for you and the

526

01:11:31.290 --> 01:11:32.550

Jacquie Murphy: only other thing I had that I wanted to

527

01:11:33.660 --> 01:11:34.920

Jacquie Murphy: Physically at your last meeting.

528

01:11:35.940 --> 01:11:49.410

Jacquie Murphy: Was last month on May 6 I believe was I knew your email or English for next year and I submitted a built in. I don't think I've got to check on you know we just signed the

529

01:11:49.860 --> 01:12:02.370

Jacquie Murphy: Invoice. Okay, I just wanted to make sure what I hadn't missed. No need to check them out because sometimes it happens that Kevin says, Why have you cashing checks, go back to my mail I find out where I got it, yeah.

530

01:12:03.540 --> 01:12:05.460

Jacquie Murphy: Yeah, I got daily check process.

531

01:12:07.470 --> 01:12:10.170

Jacquie Murphy: So I just wanted to check in and see where that was.

532

01:12:11.580 --> 01:12:12.120

Jacquie Murphy: Status.

533

01:12:16.770 --> 01:12:17.370

Jacquie Murphy: So that's

534

01:12:18.450 --> 01:12:28.860

Jacquie Murphy: All I have for you know good oh yes this ID meeting ID number, meaning is not the phone number. That's the idea.

535

01:12:29.940 --> 01:12:36.540

Jacquie Murphy: Yeah, looking at an email has to do over what are we looking at here, the meeting ID number is

536

01:12:39.480 --> 01:12:44.520

Jacquie Murphy: The zoom meetings and that's if you're logging in, through zoom it asks you for a meeting ID.

537

01:12:47.310 --> 01:12:51.060

Jacquie Murphy: For dialing in and that's assuming that your computer has at least a microphone.

538

01:12:52.290 --> 01:13:01.740

Jacquie Murphy: For you to be able to participate if you're dialing in the phone number and then you need. I guess the way it works is accomplishing for a meeting number and you punch that in and get into them.

539

01:13:03.060 --> 01:13:08.700

Jacquie Murphy: That reminds me that something I want to pursue with you sometime in the near future.

540

01:13:09.150 --> 01:13:18.870

Jacquie Murphy: Is you probably have some years ago, probably benefit from having either at least a microphone. Maybe a webcam the webcam prizes. There's handlers and controllers fly.

541

01:13:19.500 --> 01:13:27.840

Jacquie Murphy: And prices are still higher because of supply and demand, I guess, basically like I was looking online have a webcam crisis is how

542

01:13:29.280 --> 01:13:33.540

Jacquie Murphy: Come, they come with a and the computer. Some do and some don't.

543

01:13:34.590 --> 01:13:43.770

Jacquie Murphy: Use my my laptop computer for work. No, this is an older one. It's got a microphone. But it doesn't have a webcam. Oh, so somebody wants to

544

01:13:45.000 --> 01:13:49.050

Jacquie Murphy: Know, because i know i i think i didn't actually

545

01:13:50.610 --> 01:13:55.530

Jacquie Murphy: Posted The newer ones to, for example, the mayor's computer knowledge bears can

546

01:13:57.720 --> 01:13:58.530

Jacquie Murphy: You see my

547

01:14:00.750 --> 01:14:03.630

Jacquie Murphy: Other one I got a third, which is five years old. He's also got

548

01:14:05.010 --> 01:14:07.800

Jacquie Murphy: Some dudes on the mayor's computer

549

01:14:09.090 --> 01:14:17.940

Jacquie Murphy: She can enhance participated in webinars in the past because your computer has speakers, but she doesn't have a microphone.

550

01:14:18.780 --> 01:14:28.620

Jacquie Murphy: And for things like zoom sessions isn't have a camera so you can't see her and all that you can put up a static image and it may not matter that she doesn't have a camera, but there's times if I

551

01:14:30.180 --> 01:14:37.440

Jacquie Murphy: Just wanted to bring that up is something that we probably want to talk about a little bit one feature. And then one other things Colombo and say,

552

01:14:39.450 --> 01:14:40.680

Jacquie Murphy: Yeah, back

553

01:14:41.730 --> 01:14:53.490

Jacquie Murphy: Towards the beginning of the year, Microsoft stops supporting Windows seven and you have several Windows seven computers now at the time we were working on that before all this came along, cool, but

554

01:14:54.510 --> 01:15:04.950

Jacquie Murphy: We were looking at possibly replacing years since then I've gotten some more experienced and taking Windows seven computers and successfully converting them to Windows 10

555

01:15:05.460 --> 01:15:16.170

Jacquie Murphy: And if we could do that. That would save Dylan some money which, since we're looking at possible revenue shortfalls for things like sales tax money from the state.

556

01:15:17.340 --> 01:15:22.530

Jacquie Murphy: Might be something worth considering. If nothing else, it might sample a bit of money for you by webcams

557

01:15:23.010 --> 01:15:36.870

Jacquie Murphy: So the worst that would happen is I would try and doing a conversion like that, it wouldn't work. And you got to buy a computer that you're no further behind where you would have been what you're planning on doing anyway because you were planning on replacing

558

01:15:38.190 --> 01:15:41.160

Jacquie Murphy: If necessary, because Windows seven is no longer

559

01:15:43.260 --> 01:15:45.930

Jacquie Murphy: It's no longer in secure as it was

560

01:15:47.370 --> 01:15:47.880

Jacquie Murphy: And the reason

561

01:15:49.020 --> 01:15:58.260

Jacquie Murphy: I just want to let you know that I talked to the park and we're going to be looking at her computer to do an update on that I've talked to Kevin, a little bit about that. I've also been

562

01:15:59.730 --> 01:16:05.850

Jacquie Murphy: wastewater system doing some upgrades on the computer down there are

563

01:16:07.020 --> 01:16:08.940

Jacquie Murphy: Some I believe they are

564

01:16:10.530 --> 01:16:12.000

Jacquie Murphy: Kevin is on Windows seven and

565

01:16:13.440 --> 01:16:21.420

Jacquie Murphy: So they're all on a new version of Windows that they could. I think a pretty good chance to be upgraded to Windows 10

566

01:16:22.230 --> 01:16:40.200

Jacquie Murphy: And that would put them on a good secure modern version of Windows. So there's knowledge and all that. I'm still working on that for the initial slides shift in plans if we can make it work. That could conceivably save money, which is not a bad thing. In these times.

567

01:16:44.790 --> 01:16:46.170

Jacquie Murphy: The other night or day before

568

01:16:50.160 --> 01:16:51.780

Jacquie Murphy: The biggest one. I've been on probably

569

01:16:53.490 --> 01:16:58.140

Jacquie Murphy: Okay, I'm making the motion that we accept pause for a second.

570

01:17:00.630 --> 01:17:08.940

Jacquie Murphy: One other thing that we're over here. Was it will look up things on mine, Dave, I think we need to talk further about how you're managing your email your email inbox was capacity.

571

01:17:09.570 --> 01:17:25.230

Jacquie Murphy: There's literally I just looked at this for five. Yeah, well, we need to figure out why it is a pair that discrepancy because you have like a storage space that anybody else does. And it's all right. So there's something somewhere that we're not seeing that we probably need to that.

572

01:17:26.340 --> 01:17:28.260

Jacquie Murphy: We had that problem with George's before

573

01:17:31.410 --> 01:17:32.850

Jacquie Murphy: It might be and I

574

01:17:34.860 --> 01:17:46.410

Jacquie Murphy: Asked her for a client for this email codes officer was using a desktop computer and using Thunderbirds program and I sat down with them and work through some settings metrics that so he's been good since then.

575

01:17:47.790 --> 01:17:49.920

Jacquie Murphy: But you're doing things in a different way.

576

01:17:52.500 --> 01:18:02.790

Jacquie Murphy: So may have to log in on a computer and go there might be that might be. Does it might be that one of the things I run into for people are primarily using their phone is the

577

01:18:03.300 --> 01:18:20.220

Jacquie Murphy: System doesn't seem to be too smart about actually deleting emails and actually making them go away forever or maybe a setting that we need to change where it's not doing that. Now, when it should have been spending a trash can. For 30 days that it can be

578

01:18:21.270 --> 01:18:31.080

Jacquie Murphy: Finally deleted rather than just hanging out in there because it might be that exactly that that trash can me of something that that you've gotten rid of you're done with and

579

01:18:31.830 --> 01:18:34.260

Jacquie Murphy: Put the trash in the partner center itself.

580

01:18:34.710 --> 01:18:47.760

Jacquie Murphy: And that that might be why you were getting some messages, not with others because you weren't quite up to the limit so small messages probably got through anything bigger with an attachment might have gotten bounced. So we take a look. That's about

581

01:18:49.710 --> 01:18:50.760

Jacquie Murphy: To say in your phone.

582

01:18:55.650 --> 01:18:56.490

Jacquie Murphy: I didn't do it was done.

583

01:18:58.350 --> 01:19:06.780

Jacquie Murphy: All right. Um, let's see what a project, we had that zoom meeting on the 11th through joint boards and

584

01:19:07.860 --> 01:19:19.590

Jacquie Murphy: Have an update with me for a project and tomorrow night with the town meeting hearing will be there to discuss any kind of water update one project update and

585

01:19:20.400 --> 01:19:37.080

Jacquie Murphy: The committee representatives, we have from the village would be the two board bit chalky and Dave volunteer and I went to residents representing on the committee with a dog, but being a still on the board. Kevin will step in until done

586

01:19:39.150 --> 01:19:47.190

Jacquie Murphy: Is not enough on the board in September with the elections and then a little boy from the village. So as their emotion that we

587

01:19:48.750 --> 01:19:57.720

Jacquie Murphy: JJ little boy Matt Matthew is listening. Now what's um I think Richard. Richard. Richard

588

01:19:58.830 --> 01:20:01.260

Jacque Murphy: Okay. I make a motion we accept those

589

01:20:02.700 --> 01:20:14.070

Jacque Murphy: Right. All right. All right, let's see wastewater treatment plant mowing next two in the morning and he suggested that because we have the component of that.

590

01:20:15.240 --> 01:20:16.080

Jacque Murphy: We could

591

01:20:17.250 --> 01:20:21.030

Jacque Murphy: Get a attached memo or attachment for that.

592

01:20:23.070 --> 01:20:25.590

Jacque Murphy: Which would be more of a

593

01:20:26.700 --> 01:20:31.980

Jacque Murphy: Purposeful for that size for that area, rather than the machines.

594

01:20:33.660 --> 01:20:35.790

Jacque Murphy: We get one. I think we want to be.

595

01:20:37.290 --> 01:20:38.070

Jacque Murphy: Too big for

596

01:20:39.420 --> 01:20:46.380

Jacque Murphy: You, but going to save. We get one get more into Google's on the back, and that in the middle.

597

01:20:47.490 --> 01:20:55.170

Jacque Murphy: You understand what I'm saying time on the brush on. No, I'm not talking with a brush brush. I'm talking about finish school. Another says, I can't be

598

01:20:57.720 --> 01:20:58.800

Jacque Murphy: Just that there's

599

01:21:00.270 --> 01:21:09.810

Jacque Murphy: Things that could be here that don't want to be here. Right. That's why we went with a smaller, more like a 32 inch got yeah

600

01:21:10.920 --> 01:21:11.940

Jacque Murphy: I just got to get it back.

601

01:21:12.960 --> 01:21:25.080

Jacque Murphy: I play felon. Good. Also the cemetery gates to the commercial Greats in Pacific anymore, one in there. I'm pointing this out for yourself to he just wanted me to

602

01:21:26.580 --> 01:21:28.020

Jacque Murphy: Want me to mention that to you.

603

01:21:30.240 --> 01:21:31.020

Jacque Murphy: Most like about

604

01:21:32.160 --> 01:21:33.270

Jacque Murphy: What are they go out

605

01:21:34.830 --> 01:21:35.760

Jacque Murphy: Soon.

606

01:21:41.730 --> 01:21:43.530

Jacque Murphy: Accordingly, little golden

607

01:21:46.470 --> 01:21:47.850

Jacque Murphy: Calf here, we have

608

01:21:49.560 --> 01:22:06.870

Jacque Murphy: made a decision to share and I had mentioned at the meeting that we're going to release and committee or leasing company. It's an payments will be 134 40 a month documentation three was the standard for all happening.

609

01:22:08.130 --> 01:22:19.410

Jacque Murphy: At 950 and that's just a one time thing, and they can live with a two year lease agreement on the account here.

610

01:22:20.610 --> 01:22:23.790

Jacque Murphy: I am as we've got it should have copies of those

611

01:22:24.960 --> 01:22:27.090

Jacque Murphy: Initial be the final copy hopefully

612

01:22:28.200 --> 01:22:33.600

Jacque Murphy: This will be passed improved by the town board and

613

01:22:37.980 --> 01:22:38.850

Jacque Murphy: Planning and

614

01:22:42.270 --> 01:22:43.140

Jacque Murphy: Took them over.

615

01:22:45.030 --> 01:22:49.650

Jacque Murphy: Any questions and Steve not here tonight to address that.

616

01:22:52.500 --> 01:22:59.700

Jacque Murphy: Okay, um, any questions for me regarding this these two.
I'm a

617

01:23:02.610 --> 01:23:05.370

Jacque Murphy: Village Board and then take care of tomorrow night.

618

01:23:06.630 --> 01:23:08.340

Jacque Murphy: Isn't any questions for Steve.

619

01:23:09.750 --> 01:23:16.650

Jacque Murphy: Emotion for the planning board to make the notion that we
separated. I am a plan.

620

01:23:21.330 --> 01:23:22.080

Jacque Murphy: Going forward,

621

01:23:23.850 --> 01:23:25.980

Jacque Murphy: Motion. Well girls.

622

01:23:28.950 --> 01:23:29.850

Jacque Murphy: Notion today.

623

01:23:30.930 --> 01:23:32.520

Jacque Murphy: Actually, I should have emotion for both of

624

01:23:36.540 --> 01:23:37.080

Jacque Murphy: Our second

625

01:23:39.630 --> 01:23:40.080

Jacque Murphy: Favorite

626

01:23:46.020 --> 01:23:46.860

Jacque Murphy: Still working on

627

01:23:47.910 --> 01:23:48.690

Jacque Murphy: lease agreement.

628

01:23:51.480 --> 01:23:54.750

Steve Ganetis: Yeah, but fortunately it's a lot more back and forth. And I was expecting.

629

01:23:55.200 --> 01:23:55.590

Yeah.

630

01:23:57.150 --> 01:24:11.070

Steve Ganetis: That is, OK, Mr Qantas is dealing with the difficulties in the coven 19 stuff too so slowly and surely it sounds like we've got a meeting of the minds are just waiting for final draft and everything to be approved.

631

01:24:12.120 --> 01:24:15.300

Jacque Murphy: Thank you for your time and effort on it means

632

01:24:16.770 --> 01:24:17.490

Jacque Murphy: To be human.

633

01:24:25.800 --> 01:24:29.430

Jacque Murphy: Reference to the vehicle which is nearing completion over here.

634

01:24:32.340 --> 01:24:37.200

Jacque Murphy: It's at the garage. So one of the status. It was originally go

635

01:24:42.660 --> 01:24:44.010

Jacque Murphy: Here we go.

636

01:24:45.810 --> 01:25:04.260

Jacque Murphy: Alright library request. We have a request from Nancy timer, who was asked that Jackie library board of trustees of the village

work from equipment Jackie Murphy. Define your terms and praise me pray, you're placing Karen Balan resigned from the board.

637

01:25:06.150 --> 01:25:06.600

Jacque Murphy: Or

638

01:25:09.270 --> 01:25:14.250

Jacque Murphy: Nowadays, if I could survive that if I myself have any voting.

639

01:25:15.600 --> 01:25:18.630

Jacque Murphy: I can't vote for myself, that was a problem with

640

01:25:19.920 --> 01:25:21.060

Jacque Murphy: The guy from all these

641

01:25:22.950 --> 01:25:35.250

Jacque Murphy: What we saw so they want to have the state we have be having if you're going to be you're gonna be conflict of interest. After that one are divided didn't have voting for Liza.

642

01:25:37.740 --> 01:25:55.320

Jacque Murphy: Legally, I believe it. As long as you don't vote on anything that has to do with the letter S What to do what I don't know if it's only talk to the mayor and I talked on speaker phones and guy. First he emailed us and then you tend, but he just said, Really, it's not a good idea.

643

01:25:57.540 --> 01:26:03.090

Jacque Murphy: For any, you know, not just for voting, but he said I need that.

644

01:26:04.110 --> 01:26:10.470

Jacque Murphy: Right, what I told him that there was an apple to venture summit is one Carrollton read asked

645

01:26:11.880 --> 01:26:12.810

If I could do

646

01:26:14.550 --> 01:26:15.570

Jacque Murphy: Because I guess they need to know

647

01:26:25.980 --> 01:26:26.520

Jacquie Murphy: Library

648

01:26:27.990 --> 01:26:29.490

Jacquie Murphy: Is its own entity.

649

01:26:31.680 --> 01:26:33.570

Jacquie Murphy: We control.

650

01:26:35.340 --> 01:26:37.140

Jacquie Murphy: We don't control what they do.

651

01:26:39.090 --> 01:26:39.330

Jacquie Murphy: So,

652

01:26:40.410 --> 01:26:41.640

Jacquie Murphy: There's, there's no account with

653

01:26:45.720 --> 01:26:48.660

Jacquie Murphy: You don't do any voting here should be

654

01:26:52.560 --> 01:26:53.490

Jacquie Murphy: Talked about

655

01:27:00.480 --> 01:27:08.520

Steve Ganetis: It seems to me the steam kidneys. Here, the biggest conflict of interest to be things like when you're talking about the funding for the clock, the library.

656

01:27:09.510 --> 01:27:22.500

Steve Ganetis: Those are things I could see being viewed as a conflict of interest to serve on the library board. They might view you as having a vested interest in the library, getting the best deal. So not necessarily the interest of the town's people

657

01:27:24.360 --> 01:27:26.760

Jacquie Murphy: I had the the thing that he sent

658

01:27:28.170 --> 01:27:38.730

Jacquie Murphy: To you can't be what we printed out, well, what says village authorize that no person based on 10 is labeled in a leftover appointed village office with the exception that

659

01:27:39.300 --> 01:27:52.920

Jacque Murphy: Not more than two members of the Board of Trustees Navy
Navy members of each Board or Commission the succession allows a trustee
of a village to hold a position will paint, Commissioner, to the village
police department which

660

01:27:54.060 --> 01:27:54.480

Jacque Murphy: Was

661

01:27:57.180 --> 01:27:59.730

Jacque Murphy: That I think that made any sense as to our

662

01:28:01.290 --> 01:28:02.010

Jacque Murphy: Situation.

663

01:28:03.720 --> 01:28:12.330

Jacque Murphy: He gave us a whole long thing that had various different
situation. From there, and then we told them. Your Deputy Mayor

664

01:28:13.980 --> 01:28:28.200

Jacque Murphy: I just I just hear that we have repeat people doing
repeat jobs and not double dipping with double duty and

665

01:28:29.460 --> 01:28:31.470

Jacque Murphy: For some this is creating a problem.

666

01:28:32.760 --> 01:28:41.970

Jacque Murphy: Whereas you know there are people out there that maybe
they need to be tapped into coming into the activities of the village.
Not that you couldn't do it.

667

01:28:42.510 --> 01:28:54.120

Jacque Murphy: But I just see that that somebody here is doing that job,
but they're also doing this job and somebody else is doing this job, but
they're also doing that. So now here. She's on the board and she's there
to

668

01:28:54.690 --> 01:29:05.100

Jacque Murphy: You know, it's like we're running the show and yeah maybe
legal but we don't really need to run the show and let's get some other
people into the picture.

669

01:29:05.580 --> 01:29:18.600

Jacquie Murphy: That's just my opinion and you know if you're willing to do it. That's great. But maybe we need to open it up and they don't curse in order to get to that position, rather than, Oh, you're on that board here on this board to

670

01:29:21.480 --> 01:29:23.070

Jacquie Murphy: What we were discussing this.

671

01:29:24.300 --> 01:29:26.460

Jacquie Murphy: Is the board's decision, but I

672

01:29:32.250 --> 01:29:33.150

Jacquie Murphy: Don't have anything

673

01:29:34.710 --> 01:29:35.250

Jacquie Murphy: That's the first

674

01:29:41.790 --> 01:29:49.650

Jacquie Murphy: Problem. But, you know, if you don't vote if you really don't take any action here, concerning the library.

675

01:29:51.150 --> 01:29:58.890

Jacquie Murphy: Or vice versa, then they're, they're really shouldn't be a kind of like the me there's people out there that are going to pick right up on

676

01:30:01.200 --> 01:30:02.400

Jacquie Murphy: You know backstabbers

677

01:30:03.570 --> 01:30:06.630

Jacquie Murphy: So I think it's up to you. See you in

678

01:30:07.740 --> 01:30:09.000

Jacquie Murphy: Separate to

679

01:30:10.320 --> 01:30:12.990

Jacquie Murphy: Go for how often we vote regarding

680

01:30:15.900 --> 01:30:16.590

Jacquie Murphy: Generally

681

01:30:17.760 --> 01:30:28.320

Jacquie Murphy: Unless they bring up something for something like this, or if they're wanting to tell us that they were going to put them on vacation. Yeah, that's just the thing is they have that major

682

01:30:30.060 --> 01:30:36.450

Jacquie Murphy: Major building project. Now, when there's going to be a lot of now. I think that's the only thing

683

01:30:38.490 --> 01:30:46.050

Jacquie Murphy: She's she can also keep us informed bills and stuff. So is that going to be a legal issue well you know i mean

684

01:30:48.090 --> 01:30:56.610

Jacquie Murphy: I don't see an issue with it personally. Well, we could try it if it becomes a problem, then you have to find something else to do. Yeah.

685

01:30:59.370 --> 01:31:00.180

Jacquie Murphy: Now I can

686

01:31:01.920 --> 01:31:02.760

Jacquie Murphy: Assure you quit.

687

01:31:14.190 --> 01:31:14.550

Jacquie Murphy: Brown.

688

01:31:15.960 --> 01:31:17.490

Jacquie Murphy: But I would say it's up to you.

689

01:31:18.660 --> 01:31:23.220

Jacquie Murphy: When you see the red flags going up going up, you're running

690

01:31:24.690 --> 01:31:25.770

Jacquie Murphy: You're going to know what sort of

691

01:31:27.000 --> 01:31:32.370

Jacquie Murphy: Amazing thing that people don't even know we had a village election remedy don't even know we have a library.

692

01:31:33.420 --> 01:31:33.870

Jacquie Murphy: Library

693

01:31:36.060 --> 01:31:37.350

Jacquie Murphy: You're comfortable with me and I go,

694

01:31:38.700 --> 01:31:39.480

Jacquie Murphy: Okay.

695

01:31:42.540 --> 01:31:44.820

Jacquie Murphy: All right, tree removal with a

696

01:31:46.260 --> 01:31:49.590

Jacquie Murphy: Is the inner wall book.

697

01:31:50.940 --> 01:31:52.440

Jacquie Murphy: They say, and trees.

698

01:31:53.790 --> 01:31:58.470

Jacquie Murphy: Are not the responsibility of the doing buddy
responsibility of, oh,

699

01:32:02.670 --> 01:32:06.180

Jacquie Murphy: No, where is this Charlie within the right away.

700

01:32:10.020 --> 01:32:12.630

Jacquie Murphy: You found that dimension, Craig.

701

01:32:14.640 --> 01:32:19.800

Jacquie Murphy: Craig checking out. OK, so the middle of the tree Fulton
Street. Oh.

702

01:32:22.290 --> 01:32:23.400

Jacquie Murphy: And always will be talking

703

01:32:24.720 --> 01:32:31.050

Jacquie Murphy: I said, always treated well he was going to contact the
tree service.

704

01:32:32.940 --> 01:32:33.870

Jacquie Murphy: \$1 value.

705

01:32:37.740 --> 01:32:39.270

Jacquie Murphy: I was talking to them also.

706

01:32:41.400 --> 01:32:44.940

Jacquie Murphy: If you split the cost for the homeowner, they

707

01:32:46.320 --> 01:32:48.390

Jacquie Murphy: Traveled for the last 20 years

708

01:32:50.040 --> 01:32:50.550

Jacquie Murphy: The trolls.

709

01:32:51.810 --> 01:32:59.490

Jacquie Murphy: I mean homeowners that are the man. Where is your corner of Union Julian church.

710

01:33:02.700 --> 01:33:06.810

Jacquie Murphy: County has to take care of a lot of problems there.

711

01:33:07.920 --> 01:33:17.490

Jacquie Murphy: But it's always been the homeowners responsibility and they refused to do it. And when a lead comes down lands in the road and county them.

712

01:33:18.990 --> 01:33:21.000

Jacquie Murphy: So it doesn't mean they want it. I like

713

01:33:22.230 --> 01:33:24.450

Jacquie Murphy: The problem before anybody gets hurt.

714

01:33:27.960 --> 01:33:29.070

Jacquie Murphy: I got a guy who

715

01:33:30.090 --> 01:33:31.230

Jacquie Murphy: I haven't put a bid.

716

01:33:32.490 --> 01:33:50.880

Jacquie Murphy: It. Well, the same guy over the bid comes from. Yeah, it was the same guy but wherever that comes from doesn't matter. Know what you gotta do is it good contract between the homeowner and the village. Yeah, to go 5050 and

717

01:33:51.900 --> 01:33:57.540

Jacquie Murphy: If that's the way you want to do it. The book says is the land owners responsibility.

718

01:33:58.770 --> 01:34:03.420

Jacquie Murphy: When I tell them right away. Well, so many, so many

719

01:34:05.880 --> 01:34:11.340

Jacquie Murphy: The other ones that take the trees down on the homeowner with the option to

720

01:34:13.440 --> 01:34:13.950

Jacquie Murphy: Just do it.

721

01:34:15.600 --> 01:34:19.620

Jacquie Murphy: Well, whatever way you want to work. That's why we're here.

722

01:34:32.280 --> 01:34:38.700

Jacquie Murphy: Well, to get the trees down would be the goal right no more than one tree. Oh, yeah.

723

01:34:39.900 --> 01:34:43.260

Jacquie Murphy: There, it could be another one further down that

724

01:34:45.360 --> 01:34:45.780

Jacquie Murphy: And that

725

01:34:48.270 --> 01:34:49.110

Jacquie Murphy: Yeah, the two right

726

01:34:51.240 --> 01:34:57.390

Jacquie Murphy: Well, it's always been an issue for as long as I can remember the guy that he just passed away recently and

727

01:34:59.070 --> 01:35:01.410

Jacquie Murphy: He never thought it was his brown

728

01:35:02.940 --> 01:35:05.640

Jacquie Murphy: So maybe it isn't. I don't know.

729

01:35:06.960 --> 01:35:12.240

Jacquie Murphy: And this guy divided up the guy that lives there doesn't know me.

730

01:35:14.370 --> 01:35:22.350

Jacquie Murphy: As far as I know there's a summary LOSER. NO. Oh, I don't know. All I know is there non-students here.

731

01:35:24.870 --> 01:35:26.010

Jacquie Murphy: Today, by the place

732

01:35:27.480 --> 01:35:30.090

Jacquie Murphy: Last time I understood. Yeah.

733

01:35:31.140 --> 01:35:33.150

Jacquie Murphy: Somebody out in California owned it. It was just

734

01:35:35.460 --> 01:35:36.630

Jacquie Murphy: A mortgage company.

735

01:35:39.540 --> 01:35:43.500

Jacquie Murphy: mortgage companies don't have a formula. So yeah, what was known as

736

01:35:48.000 --> 01:35:49.110

Jacquie Murphy: Far as I know, yeah.

737

01:35:50.970 --> 01:35:51.390

Jacquie Murphy: Okay.

738

01:35:54.120 --> 01:35:57.960

Jacquie Murphy: Oh Greg tell Jim. So whoever has to be golden

739

01:36:10.050 --> 01:36:10.830

Jacquie Murphy: Right, we got

740

01:36:13.890 --> 01:36:14.550

Jacquie Murphy: Some long

741

01:36:16.020 --> 01:36:16.710

Jacquie Murphy: Contract

742

01:36:17.820 --> 01:36:22.530

Jacque Murphy: Support contract for software \$503

743

01:36:32.400 --> 01:36:33.720

Jacque Murphy: And the

744

01:36:34.890 --> 01:36:39.090

Jacque Murphy: Village similar software support for thousand seven

745

01:36:42.360 --> 01:36:43.050

Jacque Murphy: Ocean.

746

01:36:44.130 --> 01:36:44.820

Jacque Murphy: Software.

747

01:36:50.970 --> 01:36:55.980

Jacque Murphy: Selection for 5007

748

01:36:59.400 --> 01:37:00.030

Jacque Murphy: Approve

749

01:37:01.650 --> 01:37:01.770

Jacque Murphy: The

750

01:37:07.290 --> 01:37:09.990

Jacque Murphy: Emotion. That would be the short on time.

751

01:37:15.780 --> 01:37:18.450

Jacque Murphy: Chips are is

752

01:37:19.470 --> 01:37:23.850

Jacque Murphy: \$25,918 94 cents.

753

01:37:25.320 --> 01:37:30.330

Jacque Murphy: And with all our chips and pasting or little recovery.

754

01:37:32.370 --> 01:37:33.690

Jacque Murphy: Okay, and then

755

01:37:35.190 --> 01:37:35.370

Jacque Murphy: We

756

01:37:37.590 --> 01:37:46.260

Jacque Murphy: Have about 40,000 \$40,434 with verse from last year's work that was done.

757

01:37:47.460 --> 01:37:48.330

Jacque Murphy: For this year a lot

758

01:37:50.670 --> 01:37:52.410

Jacque Murphy: 13,000 rolling over

759

01:37:53.610 --> 01:37:54.180

25

760

01:37:56.940 --> 01:37:57.570

Jacque Murphy: To work with

761

01:38:02.820 --> 01:38:05.430

Jacque Murphy: So should we obtain

762

01:38:06.780 --> 01:38:15.870

Jacque Murphy: Three days to do. You did great. Yes, I believe we should, if we can, you will have to advertise for them.

763

01:38:16.980 --> 01:38:18.660

Jacque Murphy: Legally you're supposed to be yes.

764

01:38:20.670 --> 01:38:21.540

Jacque Murphy: I realized that

765

01:38:25.320 --> 01:38:27.720

Jacque Murphy: I'm going to turn a bit. Good.

766

01:38:29.100 --> 01:38:31.530

Jacque Murphy: Did you know that's

767

01:38:33.900 --> 01:38:36.210

Jacque Murphy: That's in the fine print the bottom. I know.

768

01:38:39.600 --> 01:38:43.980

Jacque Murphy: We have one in 13

769

01:38:51.450 --> 01:38:53.550

Jacquie Murphy: Well, you're gonna get a hard copy or short

770

01:38:58.080 --> 01:38:58.800

Jacquie Murphy: So that work.

771

01:39:00.000 --> 01:39:04.020

Jacquie Murphy: Will be what they do. Last thing here. That's me.

772

01:39:05.160 --> 01:39:10.800

Jacquie Murphy: That's all childhood. So work to save the base.

773

01:39:12.480 --> 01:39:14.220

Jacquie Murphy: And grow the drainage.

774

01:39:19.830 --> 01:39:20.040

Jacquie Murphy: People, he

775

01:39:21.450 --> 01:39:25.500

Jacquie Murphy: gets paid, it'll be two inches, inch and a half hour.

776

01:39:26.550 --> 01:39:34.980

Jacquie Murphy: Which will help things water on the top town exactly the pitch down there. I know the

777

01:39:36.180 --> 01:39:36.480

Jacquie Murphy: Two.

778

01:39:40.830 --> 01:39:41.100

Jacquie Murphy: Yeah.

779

01:39:48.780 --> 01:39:49.140

Jacquie Murphy: Yeah.

780

01:39:50.190 --> 01:39:52.890

Jacquie Murphy: they place the cobblestone and then over

781

01:40:00.300 --> 01:40:02.400

Jacquie Murphy: oils don't work with a call.

782

01:40:03.570 --> 01:40:04.560

Jacque Murphy: But this is gonna be

783

01:40:05.580 --> 01:40:07.530

Jacque Murphy: Just like the password.

784

01:40:10.170 --> 01:40:12.090

Jacque Murphy: And effort to save what's there.

785

01:40:14.010 --> 01:40:18.180

Jacque Murphy: What will be the job done. Sure. Craig says it finishes on

786

01:40:20.610 --> 01:40:20.880

Jacque Murphy: Those

787

01:40:22.530 --> 01:40:24.270

Jacque Murphy: Should be good for 10 years

788

01:40:26.460 --> 01:40:45.300

Jacque Murphy: Right corner modifications to the judge and they will be opening up in July to start for it. And that's what these petitions are for we're free to use them if we need to make sure would like to that was compliments of the town annoying thing.

789

01:40:46.710 --> 01:40:49.350

Jacque Murphy: Only the urge, I will be the court.

790

01:40:50.490 --> 01:40:54.030

Jacque Murphy: Probably shouldn't have to know Carl legal Oh, Carol maintenance.

791

01:40:55.380 --> 01:41:03.510

Jacque Murphy: requests from the town on the court will have screens across the front here for their use and they will be using the gym.

792

01:41:04.800 --> 01:41:14.820

Jacque Murphy: And marking out the gym for those six feet markings distancing in masks shields will be on the ceiling on the bench.

793

01:41:15.990 --> 01:41:16.110

Jacque Murphy: And

794

01:41:18.900 --> 01:41:32.160

Jacquie Murphy: Wellness Center backlog since February, March, so they've got a lot of catching up to do. He says, I'll be doing 234 starting in July and keeping pretty busy.

795

01:41:33.660 --> 01:41:37.950

Jacquie Murphy: Two or three a week or two or three a month now probably a full night.

796

01:41:39.300 --> 01:41:45.720

Jacquie Murphy: They will be or have been told they have to have a he said a fog or I don't know if it's a foggy foggy

797

01:41:48.150 --> 01:41:49.080

Jacquie Murphy: Hopefully,

798

01:41:50.100 --> 01:41:59.580

Jacquie Murphy: He said about three \$400 he's hoping that the court system will pay for that I am too because I don't know. I'm just going to be putting that bill.

799

01:42:02.760 --> 01:42:06.510

Jacquie Murphy: Runs in that they have to have a net price range three to four.

800

01:42:08.190 --> 01:42:10.890

Jacquie Murphy: Yeah, and then then has to

801

01:42:12.030 --> 01:42:26.850

Jacquie Murphy: Make sure that he does the sanitation sanitizing after they hold the court and make sure that the room and the gentleman addressed every day after reuse before and after you so he'll have to write up some instruction sheet.

802

01:42:27.960 --> 01:42:42.720

Jacquie Murphy: And assess if this is to begin in July 1 to see underline the good of course this operation, how will that cost us more money to have to be very well. That's our question when you have to sanitize and the town to

803

01:42:44.220 --> 01:42:52.320

Jacquie Murphy: Town going to be using this room as well on this, how much is the word that cost sharing go. Let me see.

804

01:42:53.670 --> 01:42:57.750

Jacquie Murphy: How much we charging them now for rentals of the place.

805

01:43:07.200 --> 01:43:08.250

Jacquie Murphy: That's probably

806

01:43:10.050 --> 01:43:10.800

Jacquie Murphy: Part of that.

807

01:43:11.820 --> 01:43:15.780

Jacquie Murphy: Money could be part of the cost of that or we get into more

808

01:43:16.890 --> 01:43:17.520

Jacquie Murphy: Well,

809

01:43:21.900 --> 01:43:23.910

Jacquie Murphy: You might have to find out what

810

01:43:25.080 --> 01:43:26.400

Jacquie Murphy: The budget is

811

01:43:28.290 --> 01:43:29.880

Jacquie Murphy: What they're allowed

812

01:43:31.980 --> 01:43:34.050

Jacquie Murphy: We didn't seem to have any kind of detail.

813

01:43:35.100 --> 01:43:44.430

Jacquie Murphy: Is obviously going to be more expensive. And this is what at the county meeting. They're saying, why are we going to all these different municipalities and having to do all the cleaning

814

01:43:44.910 --> 01:43:53.580

Jacquie Murphy: Whereas if they went to maybe three sites across the county and there's one thing clean up and then they can hold their court. So there are different avenues to

815

01:43:54.930 --> 01:43:55.350

Jacquie Murphy: Be

816

01:43:58.830 --> 01:44:01.950

Jacquie Murphy: Well, it depends on how much gets done. And maybe their facilities.

817

01:44:03.690 --> 01:44:04.050

Jacquie Murphy: Right.

818

01:44:06.660 --> 01:44:14.460

Jacquie Murphy: And it's another just another gimmick to charge you borrow money for special sanitizing

819

01:44:16.890 --> 01:44:22.080

Jacquie Murphy: Protocols to get the fighter that I liked it. Right.

820

01:44:23.610 --> 01:44:37.950

Jacquie Murphy: For the last know for the room. Yeah. And basically what I'm saying on this album scholars and correct. The fact is everywhere. Yeah. Oh, OK. I see is kind of the same idea. It's like a sprayer. Yeah, okay.

821

01:44:39.570 --> 01:44:41.400

Jacquie Murphy: You want me to get an excellent

822

01:44:43.980 --> 01:44:48.510

Jacquie Murphy: write up a list of instructions on what he wants to have has to be done. Okay.

823

01:44:54.930 --> 01:45:08.670

Jacquie Murphy: Right, so that's where the courts and he's going to get back to me and whatever information he comes up nicely brought that into the intelligence of us that they will be opening up for some July and trying to get caught up after all realize that they can

824

01:45:10.500 --> 01:45:12.240

Jacquie Murphy: carpani think we're

825

01:45:13.950 --> 01:45:17.430

Jacquie Murphy: Okay, and you said they might do the market so they

826

01:45:19.020 --> 01:45:25.860

Jacquie Murphy: Are supposed to be putting all the banners up starting tomorrow banners for the seniors. Oh, I see them in

827

01:45:27.240 --> 01:45:28.050

Jacquie Murphy: people's houses.

828

01:45:30.000 --> 01:45:39.510

Jacquie Murphy: Or they're going to use a second poll that doesn't have the axon. Hopefully we told them that I think Greg's gonna help them or to the right.

829

01:45:42.210 --> 01:45:48.330

Jacquie Murphy: Order. All right. Anything else are they tell me more meeting tomorrow night 630

830

01:45:51.570 --> 01:45:52.260

Jacquie Murphy: Zoom meeting.

831

01:45:53.490 --> 01:45:54.240

Jacquie Murphy: Anything else

832

01:45:57.030 --> 01:46:03.120

Jacquie Murphy: Let's see what the meeting next month, July to map it will be with us.

833

01:46:04.410 --> 01:46:10.170

Jacquie Murphy: And just 10th quarterly meeting the water, wastewater treatment plant.

834

01:46:13.500 --> 01:46:15.300

Jacquie Murphy: Turmeric September 10 during the board meeting.

835

01:46:17.010 --> 01:46:18.930

Jacquie Murphy: Right now, Tina bills.

836

01:46:21.930 --> 01:46:27.360

Jacquie Murphy: One through 20 and \$15,464 and 80 cents.

837

01:46:28.830 --> 01:46:29.130

Jacquie Murphy: Big

838

01:46:30.870 --> 01:46:37.710

Jacquie Murphy: Favor \$19,424

839

01:46:46.350 --> 01:46:51.810

Jacquie Murphy: And \$13,400 major motion will be that

840

01:46:53.550 --> 01:47:00.210

Jacquie Murphy: TNA one through \$7,620 and 85 cents all my emotional

841

01:47:03.900 --> 01:47:04.590

Jacquie Murphy: Anything else

842

01:47:25.980 --> 01:47:26.880

Jacquie Murphy: Learning planning.
