Although the transcription is fairly accurate, in some cases it is incomplete or inaccurate due to inaudible passages or transcription errors, and in some cases, words spoken by one participant may be inaccurately attributed to another. It is posted as an aid to understanding the proceedings at the meeting, but should not be treated as an authoritative record. If you should need clarification on something said and cannot hear it, please contact the town clerk.

1

00:03:48.150 --> 00:03:49.950

Tom B: Hear me now. Can you hear me.

2

00:03:55.500 --> 00:03:56.190

Tom B: There we go.

3

00:03:57.810 --> 00:04:05.400

Tom B: Yeah, I, you, you know, we get there every day we take the samples that we have to do to run the plant. The way we do it.

4

00:04:06.180 --> 00:04:10.710

Tom B: We have a guy that's coming in a little bit later. Now, because what we do is we have another plan out in the

5

00:04:11.130 --> 00:04:21.210

Tom B: In the town of a squiggle that we have to get done and that takes an hour and then of course it takes some time to get to the plan. But really, the three hours before I didn't leave there today, till after two meals down there today.

6

00:04:21.930 --> 00:04:33.270

Tom B: I'm the airline is we had to go and get some more oxygen for the acetylene torch and didn't do that stuff. There were looking for. Probably, hopefully a week out

7

00:04:34.530 --> 00:04:37.200

Tom B: With all the parts, everything's in place so

8

00:04:38.460 --> 00:04:48.630

Tom B: I think we're looking all right there. There's enough oxygen to sustain the bugs that are in the in the tank right now so we're meeting permit. So other than that.

9

00:04:49.200 --> 00:04:58.020

Tom B: I talked with Neil today in previously we talked about getting a dumpster down there to get that junk and crap all out of the dumpster. That will pay

10

00:04:58.290 --> 00:05:07.920

Tom B: wood and metal and everything that's that's just laying around. We clean out the garage everything all cleaned up and also on Neil is going to be talking about

11

00:05:09.030 --> 00:05:12.300

Tom B: Getting the grass cut today. Any questions.

12

00:05:14.130 --> 00:05:14.730

Village of Parish: So far,

13

00:05:17.550 --> 00:05:19.320

Village of Parish: We completed the

14

00:05:20.580 --> 00:05:22.920

Village of Parish: shaver contract you sent that out.

15

00:05:25.980 --> 00:05:30.000

Tom B: Have I gotten down to send me a copy, and they have to have

16

00:05:32.340 --> 00:05:34.500

Village of Parish: Returned to them tomorrow and

17

00:05:35.790 --> 00:05:36.180

Village of Parish: Then

18

00:05:36.270 --> 00:05:38.970

Tom B: Once you reach every side of it yet, man.

19

00:05:39.330 --> 00:05:40.590

Village of Parish: I mailed it me

20

00:05:41.820 --> 00:05:42.060

Tom B: Your

21

00:05:42.780 --> 00:05:43.140

Village of Parish: Email

22

00:05:43.830 --> 00:05:45.150

Tom B: Address, everything's good. So

23

00:05:46.260 --> 00:05:56.670

Tom B: I had to have them come in yesterday because the generator down at the main North railroad station was not coming on automatically

24

00:05:57.120 --> 00:06:12.750

Tom B: Um, what's happened is because we have so many outages there the power outages up and on and off it, it actually affected the memory and he fix that yesterday, so we're back in back in the testing once a week.

25

00:06:23.040 --> 00:06:24.720

Village of Parish: I made a motion to accept it.

26

00:06:28.800 --> 00:06:29.340

Village of Parish: Thank you.

27

00:06:30.600 --> 00:06:30.900

Tom B: Okay.

28

00:06:34.020 --> 00:06:34.860

Tom B: I'll be here.

29

00:06:50.820 --> 00:06:55.500

Village of Parish: Received my report their mailbox. Yep. And we should have brought it three times.

30

00:06:59.970 --> 00:07:03.210

Village of Parish: So that if there's any questions, I'd be glad to answer them.

31

00:07:05.580 --> 00:07:05.880

Village of Parish: Again,

32

00:07:08.970 --> 00:07:09.600

Village of Parish: I didn't hear.

33

00:07:10.680 --> 00:07:13.470

Village of Parish: They're replacing the campaigns and the pumps at the gas station.

34

00:07:14.910 --> 00:07:20.340

Village of Parish: In those places, and you're welcome to replace one. Thanks. You're welcome.

35

00:07:21.510 --> 00:07:32.400

Village of Parish: I'll say, now you got it. Yes, it takes where we faced DC was involved in throughout the process. So everything is cleaned up and

36

00:07:33.540 --> 00:07:38.910

Village of Parish: Put the new canopy up once they receive it. Were there any grounds that he should be moving those tanks.

37

00:07:39.960 --> 00:07:48.210

Village of Parish: Tanks came out really easy on the only issue they had is when they started digging and kept going to the DC part of the front of the structure

38

00:07:49.530 --> 00:08:05.040

Village of Parish: Underneath the sidewalk, where you walk in the front became undermined, so they had a real issue one evening LJ stop them what they were doing. And then they brought in loads and loads of basically number two stone.

39

00:08:07.290 --> 00:08:17.700

Village of Parish: What were they know what the tank upgrading bigger ones here. Nope. They just, they had to replace them because they're on such a cycle of media so they were getting old.

40

00:08:18.600 --> 00:08:27.450

Village of Parish: And they initially asked if they could place tanks in between the two buildings and it was too close to the building so they couldn't do that. So they ended up at underground

41

00:08:29.520 --> 00:08:29.940

Yes.

42

00:08:31.890 --> 00:08:49.260

Village of Parish: They got more and more expensive as we found more and more contaminants. Yeah, we're like from from from this being that was a old Dec site and they had spillage, I don't remember what year are. That's why there was to like monitoring sites on

43

00:08:50.490 --> 00:08:58.650

Village of Parish: Edge with I believe all across right across the road from the liquor store. Yep. And so that's why all the soil was contaminated.

44

00:09:00.180 --> 00:09:04.230

Village of Parish: And they didn't get to actually pull the Cambio is all the way

45

00:09:05.610 --> 00:09:06.750

Village of Parish: So now it's all clean.

46

00:09:08.700 --> 00:09:18.570

Village of Parish: Now I read in the planning board. There was something about the signs issue with your golf station. Yes, what they're doing now on

47

00:09:19.680 --> 00:09:35.760

Village of Parish: The fight for the carefree permit, which I granted. And then I asked them about signage and to make sure that it meets all the new springboards signage regulations, they will be hopefully appearing on Monday.

48

00:09:37.980 --> 00:09:44.970

Village of Parish: Board with all their signage and the all new idea. It'll be new. So they just want to make sure that it still needs to go.

49

00:09:48.780 --> 00:09:51.930

Village of Parish: Jimmy, how come on couple them. There is no senior project calls

50

00:09:54.690 --> 00:09:55.980

Village of Parish: Suck as well.

51

00:09:57.840 --> 00:09:58.230

Village of Parish: Which one

52

00:10:02.340 --> 00:10:02.640

Village of Parish: Which

53

00:10:08.160 --> 00:10:08.490

One.

54

00:10:13.200 --> 00:10:17.340

Village of Parish: Is that Eric school was you need any see of see

55

00:10:19.080 --> 00:10:36.780

Village of Parish: You know, got one way back when before permits were even issue. So we needed one for US Bank, so it was no cost. I went and they all gave us CFC or save all actually. So you can actually occupy according to the bank and then Diane was shown

56

00:10:39.090 --> 00:10:44.460

Village of Parish: On the show was probably no project costs because of the building tonight. There's no cost.

57

00:10:45.870 --> 00:10:49.230

Village of Parish: Denied so don't take money in for denied permanent until it gets approved.

58

00:10:52.410 --> 00:10:53.550

Village of Parish: Couple of those this month.

59

00:11:02.580 --> 00:11:04.470

Village of Parish: Any other questions, concerns.

60

00:11:14.760 --> 00:11:16.440

Village of Parish: Come down by me. Okay.

61

00:11:20.760 --> 00:11:21.510

Village of Parish: I second that.

62

00:11:27.510 --> 00:11:29.400

Village of Parish: Planning Board. Yes.

63

00:11:31.980 --> 00:11:33.240

Village of Parish: That's the fourth Monday of the month.

64

00:11:37.920 --> 00:11:38.190

Village of Parish: Right.

65

00:12:20.940 --> 00:12:21.690

Village of Parish: For your time.

66

00:12:26.160 --> 00:12:34.800

Village of Parish: Talking with mission offices are still operating at a 50% occupancy level with a scheduled Watertown based app or at any given time, half the staff is in order to office than

67

00:12:35.730 --> 00:12:42.990

Village of Parish: Ever working from home, there's still a while working full time but half of its time in the water office, we have with it is remote working

68

00:12:44.130 --> 00:12:48.960

Village of Parish: Until stabbers available for meetings municipality, we have Matt Johnson do this.

69

00:12:51.150 --> 00:12:58.170

Village of Parish: The governor's executive order, allowing remote meetings and public heroes of the moon, such as zoom has been extended and tools and report.

70

00:12:59.760 --> 00:13:01.860

Village of Parish: Been helping with that and I'll continue to help you with that.

71

00:13:02.970 --> 00:13:16.110

Village of Parish: I attended the recent County Tourism the binary council meeting now because the perceived head since December of 2019 because they usually don't meet in January in February and you all know what happened in March.

72

00:13:17.550 --> 00:13:31.170

Village of Parish: Things are starting to get crazy about the time of day three other regular scheduled meetings that didn't happen. So we met in August. For the first time since December, they probably will not meet again in September. They'll probably made against the text in October.

73

00:13:34.890 --> 00:13:46.650

Village of Parish: One of the things that happened in March 25 was that local government conferences cancel, and that was a major training opportunity for our planning boards and Tony Award

74

00:13:47.910 --> 00:13:55.110

Village of Parish: And so we've been working on setting up some training sessions or flying boards and Zoning Board of appeals for ones that you can attend in person.

75

00:13:55.650 --> 00:14:10.470

Village of Parish: And ones that you can attend remotely through mean such as zoom to help find words in his own words with their annual training requirements will give them certificates or attending that they will be able to that there is a power user per document.

76

00:14:11.910 --> 00:14:19.170

Village of Parish: The first seconds look like they're going to be at the end of September and I suggest much total times, but further details as well.

77

00:14:21.060 --> 00:14:30.060

Village of Parish: As past years talking about Commission was able to get the services of a summer intern juices municipalities mapping will structures of the water, sewer conference road signs and so on.

78

00:14:30.810 --> 00:14:45.030

Village of Parish: We offer this to the village once again in 2020 and I understand they're able to do some work for you. This time, so that's that's a good thing. Before, during, all that wraps up but they do. They did some campaign.

79

00:14:46.200 --> 00:14:55.740

Village of Parish: Yeah, as I understand it and do the mapping million they had it scheduled on like Tuesday or Wednesday on that last week, I guess I haven't heard how that came out with

80

00:14:56.940 --> 00:15:10.800

Village of Parish: You guys. Last time I knew it had been scheduled on the swimming in place, and we'll let you know what comes out of that and think ahead to our 2021 because it seems to have been something you've been able to do the last several years. So if there's any mapping like to do that.

81

00:15:12.180 --> 00:15:18.630

Village of Parish: We can help you with for Chambliss for 2021 and then last but not least,

82

00:15:19.770 --> 00:15:34.260

Village of Parish: I think I have the upper hand on the computer that used to be on the village parts office. We have created her computer we meant to move that old computer down to the wastewater treatment plant I at that time it was running Windows

83

00:15:35.310 --> 00:15:36.660

Village of Parish: Seven ran out at the end of

84

00:15:38.010 --> 00:15:39.660

Village of Parish: partly through January of this year.

85

00:15:41.010 --> 00:15:47.160

Village of Parish: I had some challenges getting that one to get upgraded to Windows 10 but I've got an upgraded today.

86

00:15:47.700 --> 00:15:55.770

Village of Parish: So I will be in touch with the wastewater treatment plan to get that setup for them and they will have a Windows 10 computer wastewater treatment.

87

00:15:56.400 --> 00:16:14.130

Village of Parish: The whole time you spend many years for my part. Well, you probably do have some computers, you need to think about replacing anything but this present possum. A little bit worse the fiscal situation for all of us as a little bit uncertain, because it has been

88

00:16:15.180 --> 00:16:25.350

Village of Parish: Questions and sales tax revenue levels of them in doubt. And so you don't want to spend money if you don't have to come in and of itself.

89

00:16:26.640 --> 00:16:32.580

Village of Parish: Want to try to help the boys with trying not to spend money to do so for a very good service.

90

00:16:33.600 --> 00:16:41.400

Village of Parish: And with that we will publish that will have a better computer for the wastewater treatment plants need a lot of having to spend less money for it so

91

00:16:43.590 --> 00:16:52.590

Village of Parish: That's all I have for you for today, then that will do off a memo from the county getting Tripoli.

92

00:16:54.060 --> 00:16:55.920

Village of Parish: To be posted on our website.

93

00:16:57.990 --> 00:17:09.270

Village of Parish: For that matter, because at the time the press release medallia I can put that up on the website. Yeah, I did put information of the Walter 4040 census on our side of town.

94

00:17:11.850 --> 00:17:20.700

Village of Parish: And there's also information on the builders website about the timeline. We can do the village grad sale data, you can

95

00:17:21.780 --> 00:17:37.530

Village of Parish: There's a wonderful website as well. And we have about the election coming up. Oh, I don't know that I've gotten any information mystically about that so Evelyn if you send that information. Yeah, you could have a website as you're going to have

96

00:17:40.140 --> 00:17:40.410

Village of Parish: Any

97

00:17:41.700 --> 00:17:43.920

Village of Parish: Emotion that we accept both report.

98

00:17:48.120 --> 00:17:48.450

Village of Parish: Thank you.

99

00:17:55.920 --> 00:17:58.800

Village of Parish: Matt Johnson repair manufactured home.

100

00:18:02.370 --> 00:18:04.470

Matthew Johnson: Yep, yep. I'm here.

101

00:18:06.240 --> 00:18:08.280

Matthew Johnson: I'm. Yep. Hi, everybody.

102

00:18:09.300 --> 00:18:22.470

Matthew Johnson: Last month I was in in person there and I handed out the draft that we hope to go with for these zoning law and the zoning map.

103

00:18:25.140 --> 00:18:25.800

Matthew Johnson: And

104

00:18:27.720 --> 00:18:42.480

Matthew Johnson: Mr Gaddis looked at that, after the meeting and got back to me with a comment that we slightly tweaked section 660 on manufactured homes.

105

00:18:45.120 --> 00:18:47.700

Matthew Johnson: I don't know if everybody's got their copy

106

00:18:49.110 --> 00:18:49.980

Matthew Johnson: Andy their

107

00:18:54.960 --> 00:19:07.410

Matthew Johnson: Sections 660 remember we had that conversation that mobile homes now need to be are manufactured homes now needed to be permitted wherever single family dwellings are permitted

108

00:19:10.380 --> 00:19:15.270

Matthew Johnson: So we made some changes to Section 660 on page 21

109

00:19:24.480 --> 00:19:27.030

Matthew Johnson: And we're going to add in language.

110

00:19:27.870 --> 00:19:46.920

Matthew Johnson: Saying that manufactured homes must conform with the identical development specification and standards, including general aesthetic and architectural standards applicable to conventional site built single family dwellings, the district in which manufactured home has to be cited

111

00:19:50.190 --> 00:19:57.510

Matthew Johnson: I know that's that's a mouthful there. But that's why language right out of the state legislation.

112

00:20:04.170 --> 00:20:09.450

Matthew Johnson: So we we're suggesting that that be added into section 660

113

00:20:13.140 --> 00:20:38.250

Matthew Johnson: And we also had the recommendation at the meeting last month that the mobile manufactured home overlaid district, the boundaries be changed, just a little bit to sort of nip off the land at the very northern end of that proposed.

114

00:20:40.020 --> 00:20:40.890

Matthew Johnson: Overlay.

115

00:20:47.910 --> 00:20:49.320

Matthew Johnson: And I all the road.

116

00:20:52.200 --> 00:20:54.450

Matthew Johnson: Yeah, Jim is there maybe he could

117

00:20:56.970 --> 00:21:01.530

Matthew Johnson: Recall that a little bit. Yeah it crossed to grow, you know,

118

00:21:02.760 --> 00:21:08.070

Matthew Johnson: In the current lots or roads. Yeah, that's true 26

119

00:21:13.380 --> 00:21:19.950

Matthew Johnson: One side of the road map happy right Apple parcels. So that's going to be adjusted or alter the map.

120

00:21:23.610 --> 00:21:25.500

That be modified. Then on the mapping

121

00:21:27.030 --> 00:21:28.680

Matthew Johnson: Versus what we have right now. Yeah.

122

00:21:30.630 --> 00:21:31.230

Matthew Johnson: Yeah.

123

00:21:42.690 --> 00:21:57.180

Matthew Johnson: So we had those two suggested modifications and I don't know if this would be the time if any of the board members have any, any other suggested modifications we would make those changes now.

124

00:21:59.520 --> 00:22:00.120

Village of Parish: Yes.

125

00:22:01.260 --> 00:22:01.620

Good.

126

00:22:04.950 --> 00:22:05.280

Night.

127

00:22:33.690 --> 00:22:34.290

And just passed.

128

00:22:50.550 --> 00:22:52.920

Village of Parish: Well, the land of Jason

129

00:22:54.600 --> 00:23:00.090

Village of Parish: On Craig. Craig, I am. I think that's private land is within the dashboard.

130

00:23:04.500 --> 00:23:05.220

Village of Parish: And a small

131

00:23:10.260 --> 00:23:10.890

Village of Parish: Chris Miller.

132

00:23:13.380 --> 00:23:13.770

Village of Parish: Would work.

133

00:23:16.410 --> 00:23:17.250

Village of Parish: If I'm reading that

134

00:23:28.380 --> 00:23:29.340

Village of Parish: That we were this

135

00:23:31.230 --> 00:23:34.500

Village of Parish: Season by way of our commercial

136

00:23:37.950 --> 00:23:55.770

Village of Parish: Terms. So Susan. So this is just the red line kind of found 26 I think that also be about. And then there you can certainly see a line through an HP HP and at right up to the current as Tony said

137

00:23:57.810 --> 00:23:58.110

Village of Parish: Is that

138

00:23:59.400 --> 00:23:59.910

Village of Parish: Outside

139

00:24:01.740 --> 00:24:02.790

Village of Parish: Person, he

140

00:24:05.640 --> 00:24:14.070

Village of Parish: Literally right there. The script is ready. Because eating hot is just boil the water here, he found is a double line.

141

00:24:15.690 --> 00:24:23.940

Village of Parish: Going across the room personas private you might, yes, you might want to have somebody looked at that, if we're supposed to be accurate.

142

00:24:33.630 --> 00:24:34.350

Village of Parish: So they have a

143

00:24:36.960 --> 00:24:43.350

Village of Parish: Looking at the map and location of it pan and 26

144

00:24:44.400 --> 00:24:46.320

Village of Parish: Alex has laid out with the

145

00:24:47.370 --> 00:24:47.940

Village of Parish: Overlay.

146

00:24:49.500 --> 00:24:54.090

Village of Parish: The west side of route 26 or eight skating Andre

147

00:24:55.140 --> 00:24:56.190

Village of Parish: Privately old

148

00:24:57.870 --> 00:24:59.550

Village of Parish: But there shouldn't be a hashtag.

149

00:25:11.760 --> 00:25:12.000

Village of Parish: No.

150

00:25:13.980 --> 00:25:15.030

Village of Parish: Very hard to say.

151

00:25:17.550 --> 00:25:19.530

Village of Parish: Between at it might be

152

00:25:20.580 --> 00:25:20.910

Village of Parish: Like

153

00:25:24.990 --> 00:25:25.590

Village of Parish: Feel

154

00:25:28.050 --> 00:25:29.400

Village of Parish: Ready to cross the road.

155

00:25:36.540 --> 00:25:37.440

Village of Parish: For a patient

156

00:25:49.470 --> 00:25:54.780

Matthew Johnson: Yes. So how would that, how would that affect the the map and the hatch area.

157

00:25:56.460 --> 00:25:59.280

Village of Parish: Well, you can't put a hold on private land.

158

00:26:02.340 --> 00:26:07.470

Matthew Johnson: Well, I mean, they, the owner of the land could right

159

00:26:09.030 --> 00:26:09.930

Theoretically,

160

00:26:11.820 --> 00:26:19.740

Matthew Johnson: Yeah, I mean, that's what we're talking about here is what you know the owners of the land can do this isn't something that the village would do.

161

00:26:32.310 --> 00:26:33.600

Village of Parish: Maximum with his

162

00:26:36.300 --> 00:26:37.920

Village of Parish: With his going to feed.

163

00:26:42.330 --> 00:26:45.270

Village of Parish: Now you don't have a specification or not.

164

00:26:46.560 --> 00:26:47.490

Village of Parish: The weight of it.

165

00:26:49.650 --> 00:26:54.810

Village of Parish: So why you put one in 22 feet wide and can be long.

166

00:26:58.590 --> 00:26:58.800

Matthew Johnson: And

167

00:26:59.070 --> 00:26:59.850  
Village of Parish: Crazy. Go ahead.

168  
00:27:02.040 --> 00:27:13.470  
Matthew Johnson: Yeah, it would it would have to have at least one dimension that would was 22 feet and that the intention is that that would be the street facing dimension.

169  
00:27:13.890 --> 00:27:15.330  
Village of Parish: Yeah okay that with

170  
00:27:16.380 --> 00:27:17.940  
Matthew Johnson: All right, yes.

171  
00:27:19.530 --> 00:27:24.510  
Matthew Johnson: We could, we could clarify. I see what you're saying. There we could

172  
00:27:26.010 --> 00:27:38.460  
Matthew Johnson: We could write that so that that's makes more sense. Yes, please. The. Yeah, the intention is that it would be the minimum 22 feet would be the street facing elevation

173  
00:27:40.890 --> 00:27:50.070  
Village of Parish: Isn't the with when the light than the covered by the 960 years that only in the towns. It's only the phone.

174  
00:27:50.370 --> 00:27:52.320  
Matthew Johnson: Yeah, I think that's only in the town.

175  
00:27:59.100 --> 00:28:01.560  
Matthew Johnson: Although I if you're saying

176  
00:28:02.640 --> 00:28:03.750  
Matthew Johnson: Yeah, if you're saying

177  
00:28:06.450 --> 00:28:08.250  
Matthew Johnson: The minimum what has to be

178  
00:28:09.330 --> 00:28:11.250  
Matthew Johnson: That wouldn't that dictate that all

179

00:28:12.300 --> 00:28:16.890

Matthew Johnson: Yeah, what we're trying to say that all sides have to be at least 22

180

00:28:17.910 --> 00:28:19.200

Village of Parish: Oh, I don't know, I mean,

181

00:28:19.710 --> 00:28:21.240

Village of Parish: Yeah. Why would it

182

00:28:23.250 --> 00:28:35.790

Matthew Johnson: But yeah, good point. Let's. Why don't we write it so that the the street facing dimension is minimum of 22 feet, but that work for everybody.

183

00:28:40.080 --> 00:28:40.260

Matthew Johnson: And

184

00:28:42.000 --> 00:28:43.560

Village of Parish: Tell me how long I can make it.

185

00:28:45.210 --> 00:28:54.390

Matthew Johnson: Yeah, the idea, the idea is that, then it would fit in with a with a stick built home in the village.

186

00:28:54.600 --> 00:28:59.580

Village of Parish: You're working. That's what I'm asking a minimum

187

00:29:00.870 --> 00:29:04.530

Village of Parish: That's in front of 22 feet and okay

188

00:29:06.000 --> 00:29:13.590

Village of Parish: So to take a 30 you give me 40 okay so if it's okay but but it's working white ball, then you get

189

00:29:14.730 --> 00:29:15.210

Village of Parish: Don't get

190

00:29:16.620 --> 00:29:17.670

Village of Parish: Setbacks on

191

00:29:19.050 --> 00:29:21.330

Village of Parish: Yeah, well, they can compensate

192

00:29:22.590 --> 00:29:33.600

Village of Parish: How, why do they come down what 14. What if you're sitting on the on the deal as well as in like 14 this way by something. And there's my question is reporting now.

193

00:29:34.710 --> 00:29:42.990

Village of Parish: I mean, they used to be at all. And I was still 14 why because i don't i didn't get them down road any okay all

194

00:29:43.170 --> 00:29:43.560

Right.

195

00:29:44.940 --> 00:29:47.370

Village of Parish: You ready for you to set back us up.

196

00:29:49.500 --> 00:29:54.270

Village of Parish: About 10 feet per set back in the village.

197

00:29:58.230 --> 00:30:06.330

Village of Parish: For side yard in the VR district. It's 15 feet. They are desperate. Okay, you know, if you get something working fee.

198

00:30:07.470 --> 00:30:08.460

Village of Parish: You have a lot

199

00:30:09.600 --> 00:30:10.800

Village of Parish: Of both sides.

200

00:30:11.940 --> 00:30:21.660

Village of Parish: 10 feet 10 feet on the sideline, like I said, today there's 3322 2322 feet is

201

00:30:23.550 --> 00:30:28.350

Village of Parish: You know we got a camera right and that's what we, that's what I'm saying.

202

00:30:29.550 --> 00:30:30.360

Village of Parish: I want to know.

203

00:30:31.830 --> 00:30:39.300

Village of Parish: I don't want. We don't want cameras in the village. Well, I knew in the park. Yes. I don't care what's in the park. I mean, they make

204

00:30:39.960 --> 00:30:59.190

Village of Parish: Me an adventurous homes 24 feet is what the standard, I believe, is for me for my for my 40 or 36 like a 56 i mean that's that's a double what great yeah and that's and that's a manufactured home, which is what we're talking about is manufactured homes not homes.

205

00:30:59.280 --> 00:31:00.720

Village of Parish: Or my point is

206

00:31:01.380 --> 00:31:02.520

Village of Parish: What's the narrow

207

00:31:02.850 --> 00:31:03.090

Matthew Johnson: Right.

208

00:31:03.780 --> 00:31:05.580

Village of Parish: mobile home that you could buy

209

00:31:06.930 --> 00:31:14.160

Village of Parish: Mobile know what you're gonna double light is going to earn up to 22 feet right then.

210

00:31:14.730 --> 00:31:18.210

Matthew Johnson: Right, I believe the single a single. Why would be 14 feet.

211

00:31:19.620 --> 00:31:22.980

Matthew Johnson: That's, that's what we're trying to get away from the village.

212

00:31:23.160 --> 00:31:32.640

Village of Parish: Right, and that's a mobile home. That would be a mobile. That's the one that comes down, we'll yes yes means yes but that district that new district is for is

213

00:31:34.290 --> 00:31:35.160

Village of Parish: Those type of things.

214

00:31:35.190 --> 00:31:36.000

Village of Parish: That crack map.

215

00:31:37.200 --> 00:31:37.950

Matthew Johnson: Yes.

216

00:31:39.120 --> 00:31:50.160

Matthew Johnson: That's what the overlay would allow the narrower more traditional single wide manufacturing on what I was saying, if you have a 14 my

217

00:31:51.570 --> 00:31:55.830

Matthew Johnson: What are the set bags. One of the SEC data set up to do with

218

00:31:58.530 --> 00:32:14.820

Village of Parish: That extra where you have to set it from a property line. So here in the village. If you use the minimum lot and he, you know, he said. He said, You know, you got 22 feet to work with and you need 34 to 32

219

00:32:16.590 --> 00:32:18.270

Oh, it's

220

00:32:19.830 --> 00:32:20.190

Village of Parish: Only

221

00:32:22.560 --> 00:32:25.230

Matthew Johnson: You only need 22 feet is what we're saying.

222

00:32:25.500 --> 00:32:30.090

Village of Parish: There you'll need 22 with this than the minimum in this new standards. Okay.

223

00:32:31.140 --> 00:32:36.000

Village of Parish: What are you going to put on a 22 for quite a while. That's not that the 22 foot wide home.

224

00:32:37.620 --> 00:32:46.950

Village of Parish: Saying that house. My house itself as a minute 22 to that is a minimum. Yeah. Yes. Yes, very much.

225

00:32:48.360 --> 00:32:57.630

Village of Parish: So in other words, you could put a 14 by 70 mobile home in the village, because you're now with this new rule, you're going to have to be at least 22 feet minimal

226

00:32:58.650 --> 00:33:00.480

Village of Parish: Even if you're building C.

227

00:33:03.030 --> 00:33:05.190

Village of Parish: You're thinking, is it too loud or le

228

00:33:06.900 --> 00:33:08.610

Village of Parish: Yes. Well, that's what a

229

00:33:09.690 --> 00:33:17.310

Village of Parish: piece of property that I bought right next to me. You couldn't you couldn't with the new rules. You couldn't put out in front.

230

00:33:17.400 --> 00:33:18.240

Village of Parish: On the right word.

231

00:33:18.420 --> 00:33:26.370

Village of Parish: To use, you have to go in the back and walk in the woods in order to get there and he got back to me to step back

232

00:33:27.600 --> 00:33:31.080

Village of Parish: And you still have to meet the dimensions of the home.

233

00:33:32.790 --> 00:33:35.280

Village of Parish: Such as 20 feet wide, or, yeah.

234

00:33:36.330 --> 00:33:40.770

Village of Parish: If you put up right and that's why the town has at 960 square foot rule.

235

00:33:42.030 --> 00:33:54.960

Village of Parish: Because the 14 by 70 home is 980, I believe, so it has to meet that has to be larger than 9060 yeah so you can't just put one of those 12 by 24 hours.

236

00:33:54.960 --> 00:33:56.190

Matthew Johnson: In anywhere anymore.

237

00:33:56.370 --> 00:33:59.100  
Village of Parish: Already put that way. It's the size

238  
00:34:01.650 --> 00:34:01.920  
Village of Parish: It's

239  
00:34:03.870 --> 00:34:04.440  
Village of Parish: Been a while.

240  
00:34:07.380 --> 00:34:09.900  
Village of Parish: back that up a little bit.

241  
00:34:16.080 --> 00:34:16.560  
Village of Parish: Stones.

242  
00:34:22.950 --> 00:34:23.250  
Village of Parish: Here.

243  
00:34:27.510 --> 00:34:36.240  
Village of Parish: For you. Well, that's why I wanted to know, here's where I want to know how long. When you can make it and you like you can make it.

244  
00:34:37.050 --> 00:34:38.460  
Matthew Johnson: There's no minimum

245  
00:34:38.550 --> 00:34:40.740  
Matthew Johnson: Yeah, just you can make it as long as you want.

246  
00:34:44.880 --> 00:34:51.390  
Village of Parish: To buy candy. In fact, you're at home. Yeah, in order to meet the

247  
00:34:52.710 --> 00:35:04.140  
Village of Parish: Codes of bathroom size bed room size, all that stuff you'd be really hard pressed declarative okay well that's yeah you know i mean you got all this other

248  
00:35:05.550 --> 00:35:08.910  
Village of Parish: I think you should still put a square footage on there like the town has

249

00:35:10.530 --> 00:35:14.100

Village of Parish: Found his book for you know 9960

250

00:35:16.410 --> 00:35:18.960

Village of Parish: And that would solve some of these problems. Is that correct, Matt.

251

00:35:19.590 --> 00:35:23.490

Matthew Johnson: Yeah, we could add that we could add that, just like the town has

252

00:35:28.080 --> 00:35:38.070

Village of Parish: Minute 60 LB, LB Tony by phone 960 this more as more square footage than a single line.

253

00:35:39.480 --> 00:35:44.280

Village of Parish: Yeah so 1984 came by 14 by seven years.

254

00:35:49.140 --> 00:35:50.970

Village of Parish: Just trying to get that relationship.

255

00:35:52.770 --> 00:35:53.850

Village of Parish: So we're consistently.

256

00:35:55.560 --> 00:35:56.460

Village of Parish: Right. Yes.

257

00:35:58.110 --> 00:35:58.320

Village of Parish: Yeah.

258

00:35:59.610 --> 00:36:04.620

Village of Parish: And that would alleviate most of the problems because you don't meet the square footage bull instantly so

259

00:36:06.330 --> 00:36:10.800

Village of Parish: Afraid of homes like that come in. So we said, say you gotta have a

260

00:36:13.710 --> 00:36:17.160

Village of Parish: 60 foot Elisa 950 books were

261

00:36:18.330 --> 00:36:22.110

Village of Parish: saying a lot right and stay current with what's being built, have a

262

00:36:23.160 --> 00:36:23.970

Very you

263

00:36:25.350 --> 00:36:27.360

Village of Parish: Know that any of these people are building these

264

00:36:31.650 --> 00:36:35.010

Village of Parish: Homes are once again for not manufactured homes.

265

00:36:36.090 --> 00:36:47.940

Village of Parish: Right, no there's thinking, well, they're not writer in the other room, which is where you're going to put all these other homes, they come on wheels. Yeah. Correct. Yeah.

266

00:36:48.630 --> 00:36:56.940

Matthew Johnson: Yes. Yeah. And if if somebody wanted to do that they could always get a try to get an area variance. So this isn't you know

267

00:36:57.600 --> 00:37:17.730

Matthew Johnson: If somebody did want to do a some kind of a smaller home, they could still seek an area variance. So you're not completely closing the door, but you're making it making it harder to not conform with the traditional development in the village. That sounds good.

268

00:37:19.740 --> 00:37:20.280

Matthew Johnson: Many home.

269

00:37:21.450 --> 00:37:22.110

Owners

270

00:37:25.740 --> 00:37:26.160

Village of Parish: They can

271

00:37:27.450 --> 00:37:29.070

Village of Parish: Be kind of like a camper basically

272

00:37:31.350 --> 00:37:32.160

Village of Parish: Because a lot of these

273

00:37:34.050 --> 00:37:34.890  
Village of Parish: Younger people

274  
00:37:36.210 --> 00:37:38.850  
Village of Parish: The only thing they use a house for is to sleep.

275  
00:37:40.830 --> 00:38:09.000  
Village of Parish: You know, for that and they go out for lunch  
BREAKFAST, DINNER. So do we want to add members for us, I think. Yeah,  
thank you for playing yes step a little bit talents or six 640 969-900-  
6060 square feet.

276  
00:38:13.320 --> 00:38:14.460  
Matthew Johnson: Here and I like that.

277  
00:38:17.040 --> 00:38:18.540  
Village of Parish: Lead becomes a minimum

278  
00:38:19.560 --> 00:38:19.920  
Village of Parish: Yeah.

279  
00:38:20.130 --> 00:38:20.790  
Yes.

280  
00:38:24.900 --> 00:38:28.770  
Village of Parish: 2000 square feet house. That's fine. Well, would you  
try

281  
00:38:30.900 --> 00:38:31.470  
Village of Parish: It again.

282  
00:38:33.900 --> 00:38:43.710  
Village of Parish: 14 1614 by 70 is 90 a book. What happens if a guy  
wants to roll in with them for came by.

283  
00:38:44.880 --> 00:38:54.060  
Village of Parish: He wanted a role in and you said you have to have 960  
I would deny his permit and send them to add a clear here, you know,

284  
00:38:55.800 --> 00:39:06.810  
Village of Parish: That's what I'd have to be come and say, like the  
places here. And I'd say, I'm denying it due to the zoning role here and  
then I send them over to the Zb a chair.

285

00:39:09.240 --> 00:39:10.740

Village of Parish: Like this will be a little

286

00:39:12.960 --> 00:39:17.070

Village of Parish: white label terms emotion. If you're going to make somebody go get a variance

287

00:39:18.750 --> 00:39:23.670

Village of Parish: So I'm just as writing you know if the standard is lying.

288

00:39:26.880 --> 00:39:33.240

Village of Parish: There that standard come from and i like i said i leave the town and map, no more.

289

00:39:34.470 --> 00:39:46.950

Village of Parish: To make sure that you have nothing more than anything smaller than the 14 by 70s. They didn't want these old 10 by 30 units coming into, you know, all of these

290

00:39:47.010 --> 00:39:47.280

Right.

291

00:39:48.300 --> 00:39:51.750

Matthew Johnson: That's correct. Working buddy 50 words.

292

00:39:52.800 --> 00:39:57.030

Village of Parish: And that's what they didn't want was the smaller homes so

293

00:39:58.260 --> 00:40:07.470

Village of Parish: People to buy a new home. Oh, you can if you have one you can keep it. It's your existing non conforming this you just heard one forget, you know,

294

00:40:07.740 --> 00:40:08.460

Matthew Johnson: That's correct.

295

00:40:09.480 --> 00:40:11.880

Matthew Johnson: Or to buy 54 and I was a little bit and

296

00:40:13.140 --> 00:40:14.520  
Then he has a very

297  
00:40:16.110 --> 00:40:16.830  
Matthew Johnson: Correct.

298  
00:40:18.390 --> 00:40:30.600  
Matthew Johnson: And this dB A may or may not get the variance. The CVA, you know, they make their decision based on the conditions that on the site and in the neighborhood, they, they don't have to say yes they can say now.

299  
00:40:32.400 --> 00:40:33.420  
Because the CVA

300  
00:40:34.830 --> 00:40:35.340  
Village of Parish: Apply

301  
00:40:37.140 --> 00:40:42.780  
Village of Parish: The VA has a set of criteria that they after playing one of those conditions is, is, is he, is he a selfie and hardship.

302  
00:40:43.890 --> 00:40:46.620  
Village of Parish: For free. They don't want something

303  
00:40:48.360 --> 00:41:02.820  
Village of Parish: But that's it. There's a devious got their criteria to reply right when I get to the process of whether or not it renderings. I think this is where I'm heading. If you've got to jump through hoops. The first guy to put a standard unit in

304  
00:41:04.230 --> 00:41:06.240  
Village of Parish: My restricted so much

305  
00:41:09.180 --> 00:41:10.740  
Village of Parish: Instead of 960

306  
00:41:11.940 --> 00:41:24.810  
Village of Parish: Figure out 14 by 50 or whatever they know that that's up to you. Because I mean, well, that's what I'm saying. Again, why would they, why should he be subjected that having to

307  
00:41:26.220 --> 00:41:35.550

Village of Parish: Go to either variance when it's up to them whether they want to do it or know the guys Gatorade put something in there. Like I said, that's

308

00:41:36.120 --> 00:41:45.780

Village of Parish: The town board to approve what the planning board is done and it's just the character, the neighbor, you know, the neighborhood, is that correct map again.

309

00:41:45.990 --> 00:42:00.330

Matthew Johnson: Yes. Yep. And it keeps. Keep in mind that right now. You're prohibiting your prohibiting manufactured homes all together in the village that's sort of been the policy of the village for years and years to just prohibit these

310

00:42:02.940 --> 00:42:11.910

Matthew Johnson: So now we're trying to go to a to a scheme where you just you're allowing the single wide manufactured homes in that mobile home park overlay.

311

00:42:14.010 --> 00:42:25.500

Matthew Johnson: But you're that you're trying to direct them into that overlay and keep the rest of the village, having that wider house form.

312

00:42:26.550 --> 00:42:28.710

Matthew Johnson: And it's kind of a

313

00:42:28.740 --> 00:42:29.280

Commercial

314

00:42:30.480 --> 00:42:38.070

Village of Parish: You know, no, you know, nobody wants a you have a three story home yourself, nobody wants the gas station or whatever next to

315

00:42:39.090 --> 00:42:52.470

Village of Parish: A village. You don't unless you're in a commercial zone. So this allows all those people that may want that to move into a different zone or that zone for that now in its own for smaller homes. So the snake safety movement where he was

316

00:42:55.290 --> 00:42:58.530

Village of Parish: Currently in the village Yukiya until we change the rules, but

317

00:43:01.320 --> 00:43:03.000

Village of Parish: List apart is confusing.

318

00:43:05.490 --> 00:43:09.000

Village of Parish: If a guy is 960 square foot.

319

00:43:10.740 --> 00:43:14.550

Village of Parish: It can still only put it in those manufacturers, you know,

320

00:43:15.780 --> 00:43:16.890

Village of Parish: Anywhere in the village.

321

00:43:17.700 --> 00:43:18.120

Village of Parish: Right, if it's

322

00:43:19.050 --> 00:43:20.580

Matthew Johnson: If it's 22 feet wide.

323

00:43:21.090 --> 00:43:31.080

Matthew Johnson: Right. They can put it anywhere. But if it's not 22 feet wide, then it would have to go into the manufactured home park overlay.

324

00:43:32.190 --> 00:43:33.240

Matthew Johnson: That's the proposal.

325

00:43:40.200 --> 00:43:44.160

Village of Parish: Well, I think I didn't think people should be prohibitive.

326

00:43:45.240 --> 00:43:49.560

Village of Parish: But if they can put on a to pause for anywhere they want

327

00:43:51.030 --> 00:44:06.030

Village of Parish: Now, there's a whole currently on a lot. So it's just like the Buddhist property, for example, and they may have had a 10 by 50 and they took it out within one year, you can replace it with the same

328

00:44:06.030 --> 00:44:06.600

Size.

329

00:44:07.980 --> 00:44:14.070

Village of Parish: If it's past a year, you're out of luck. You can't do it anymore. I remember hearing. Yes.

330

00:44:15.420 --> 00:44:22.530

Village of Parish: You are listening so so there may be some of the village. Not that I can recall anywhere. I think there's maybe one

331

00:44:23.850 --> 00:44:26.550

Village of Parish: Hour right over here, right, or three. Yeah.

332

00:44:27.690 --> 00:44:30.120

Village of Parish: And I think they're going over on

333

00:44:32.460 --> 00:44:32.850

Village of Parish: Doors.

334

00:44:36.780 --> 00:44:37.350

Village of Parish: Behind

335

00:44:40.230 --> 00:44:44.070

Village of Parish: Carl Jennings was a modular or know that from a

336

00:44:48.000 --> 00:44:48.360

Village of Parish: Single

337

00:44:51.360 --> 00:44:52.290

Village of Parish: Know, since it

338

00:44:53.640 --> 00:44:58.710

Village of Parish: Was it was 100 years ago. Yeah.

339

00:45:02.790 --> 00:45:09.450

Village of Parish: Don't want and I since I've been here where scoop county housing development skills and over here on or what used to be. They're building

340

00:45:10.740 --> 00:45:20.550

Village of Parish: The ground they haven't. Have you been in this building right yeah on writer, she just put that in writing is a tan color structure and I got one.

341

00:45:22.020 --> 00:45:22.350

Village of Parish: More

342

00:45:25.800 --> 00:45:26.280

hurdle.

343

00:45:28.230 --> 00:45:30.900

Village of Parish: Is that were updated. They put it in.

344

00:45:33.060 --> 00:45:36.150

Village of Parish: Okay, so, yeah, that was a test at that time, I think.

345

00:45:40.380 --> 00:45:43.410

Village of Parish: Hey, we're talking about putting one in the lab. Yeah.

346

00:45:47.400 --> 00:45:53.190

Village of Parish: But they never do that one right next to the old fire station right here and this

347

00:45:54.330 --> 00:46:04.500

Village of Parish: Is what we're talking about, if I remember right, that that was a trailer, but because you put it on a foundation of solid foundation. They allow

348

00:46:05.670 --> 00:46:10.440

Village of Parish: The Lord to put it so that, am I right, all right. If there's a stick. Yeah.

349

00:46:12.030 --> 00:46:12.630

Village of Parish: Yeah.

350

00:46:15.120 --> 00:46:15.960

Village of Parish: Yeah, it was a month.

351

00:46:17.280 --> 00:46:18.690

Village of Parish: It was a

352

00:46:19.740 --> 00:46:29.190

Village of Parish: solid foundation. Yeah. And it was acceptable. Right, right, right. Because monitors for me and and they get stuck on foundation. They come in on wheels. Right.

353

00:46:30.420 --> 00:46:36.600

Village of Parish: We'll go away and say the steel frame remains no no no school

354

00:46:38.130 --> 00:46:46.830

Village of Parish: Is there no no okay novel wine they take steel frame away, but on a double wide trailer

355

00:46:48.300 --> 00:46:53.730

Village of Parish: They don't take the wheels are they the wheels are but they leave the brain there, and also with

356

00:46:54.180 --> 00:46:58.080

Village of Parish: The chassis yes aggressively. The chassis steel on

357

00:46:59.550 --> 00:47:09.960

Village of Parish: We may be home. It's still modular doesn't have any steel more and more modular will man, they will build it. Just like any conventional builder with Bill

358

00:47:10.500 --> 00:47:21.360

Village of Parish: Except they bring it in sections and connect the sections. Right. Oh, there's no normally or the nose down the road. I mean, permanent or abroad, I must be really like

359

00:47:23.130 --> 00:47:25.380

Village of Parish: I said the steel goes away. Right.

360

00:47:26.490 --> 00:47:44.730

Village of Parish: You see that they don't have to. When you pick up the house and still is still true. Yeah, the steel wheels go away. Yeah, even, even with the wall and maybe you know subtitles on the wall. Right. And that's modular so you heard the manufacturer right and

361

00:47:46.380 --> 00:47:50.400

Village of Parish: What are those manufactured to steal thanks days where the correct

362

00:47:51.090 --> 00:48:04.290

Village of Parish: Yes, your mobile own manufactured home for yeah I read there in the world of zoning, we are trying to get away from the word trailer to be thing get rid of the negative

363

00:48:05.760 --> 00:48:12.780

Village of Parish: Negative connotation home and he went and sold a manufactured home can come in two separate

364

00:48:13.800 --> 00:48:27.600

Village of Parish: Metal travelers, they just attach the two together or still manufacturer or 33 or yes or gentlemen who cares. Yeah, but they normally are one story sometimes to at the moment but modularity and build

365

00:48:28.950 --> 00:48:32.100

Village of Parish: Like it's step know some of our to write

366

00:48:34.110 --> 00:48:37.860

Village of Parish: Down here on the 11th. Yeah, the news today are

367

00:48:39.420 --> 00:48:46.530

Village of Parish: Two stories there somewhere. Yes, they still come out but the bottom frame has met a lot. So I believe that, correct.

368

00:48:48.150 --> 00:48:49.020

Matthew Johnson: Yes, yes.

369

00:48:54.000 --> 00:48:56.220

Village of Parish: Okay 960

370

00:48:57.690 --> 00:48:59.550

Village of Parish: In there, I would

371

00:49:06.150 --> 00:49:06.570

Village of Parish: Emotion.

372

00:49:10.290 --> 00:49:10.680

Village of Parish: Okay.

373

00:49:13.980 --> 00:49:16.410

Matthew Johnson: Are there any other changes suggested

374

00:49:21.120 --> 00:49:21.840

Village of Parish: I don't think so.

375

00:49:26.490 --> 00:49:40.290

Matthew Johnson: So what yeah what I can do is make those changes to the text and the map and then if you're happy with that next month, you can begin the actual adoption procedure.

376

00:49:42.270 --> 00:49:45.690

Matthew Johnson: Your village attorney has signed off on on the changes.

377

00:49:47.100 --> 00:49:57.990

Matthew Johnson: So the next you know next month, you could start with the official adoption and that would include doing the seeker review which I can do, I can fill out that paperwork for you.

378

00:50:00.330 --> 00:50:05.700

Matthew Johnson: And then there's a list of things that needs to be done in the law needs to be sent to the County Planning Board.

379

00:50:07.980 --> 00:50:11.040

Matthew Johnson: But we can begin that next month if you'd like.

380

00:50:13.680 --> 00:50:18.870

To be addressed the grass. Yes, new version of the zoning law of the grass.

381

00:50:23.520 --> 00:50:23.910

Village of Parish: Grass.

382

00:50:25.230 --> 00:50:27.630

Village of Parish: Yeah, the maintenance maintenance.

383

00:50:28.680 --> 00:50:32.010

Village of Parish: Turning was working on completing that verbiage in

384

00:50:38.070 --> 00:50:38.520

Village of Parish: Remember,

385

00:50:40.260 --> 00:50:48.930

Village of Parish: What level we have get through, we have yet to review the entire bill, it's only like we did for the town because we were waiting for, I guess, for this overlay give you take

386

00:50:50.190 --> 00:51:05.910

Village of Parish: Is that once it's rolled in and once I know where we can go around. This was the one that was done in 17 or 18, I believe, and

we're going to finally catch up. Yeah. Yes, I know that it wasn't the grass and more than nine inches. Yeah, like

387

00:51:08.340 --> 00:51:11.910

Village of Parish: They were supposed to do. We're supposed to do, we're supposed to Canada owners.

388

00:51:13.170 --> 00:51:21.600

Village of Parish: And she would, you know, they had a reply back and then we added some more letter chain. Well, you don't take care of it or going to

389

00:51:23.220 --> 00:51:23.490

Village of Parish: Break.

390

00:51:24.660 --> 00:51:40.710

Village of Parish: It also included what areas of a lot. And I'm wondering what I should include this in the zoning law, instead of making up a whole nother local law if you just include rezoning would be all in one document and I have to have another local on top of years old.

391

00:51:43.200 --> 00:51:43.620

Village of Parish: So,

392

00:51:48.570 --> 00:51:49.590

Very simple, very easy.

393

00:51:53.070 --> 00:52:03.270

Village of Parish: What is it right now, if I remember right, is there something, but only the front line from far no care about the back right no currently it's a whole lot

394

00:52:05.160 --> 00:52:10.770

Village of Parish: Which is very hard to enforce because we have a lot of woods in the town and how do you move

395

00:52:13.980 --> 00:52:14.130

Village of Parish: Well,

396

00:52:15.360 --> 00:52:17.970

Village of Parish: I mean, I have my own parcel. I've got

397

00:52:19.650 --> 00:52:21.990

Village of Parish: Worried about like distance from the house.

398

00:52:21.990 --> 00:52:24.570

Village of Parish: To do, even though that's what the attorney.

399

00:52:28.350 --> 00:52:30.990

Village of Parish: We talked about, but I don't think he's constantly busy learning law.

400

00:52:32.790 --> 00:52:34.080

Village of Parish: So that's still not

401

00:52:37.560 --> 00:52:38.580

Village of Parish: Do you remember what it

402

00:52:43.740 --> 00:52:45.240

Village of Parish: Was never passed to my knowledge.

403

00:52:49.980 --> 00:52:51.840

Village of Parish: Well, you have to revisit

404

00:52:52.890 --> 00:53:01.560

Village of Parish: nail down. I'm just saying if you nailed it down. We could include in this night after I get four and a half, five acres buying my house right and

405

00:53:02.850 --> 00:53:05.730

Village of Parish: Hang out and I'm not gonna more make it a long

406

00:53:07.860 --> 00:53:11.580

Village of Parish: Time hundred feet around the house or something. Well, that's great. And that's what they

407

00:53:12.990 --> 00:53:13.320

Village of Parish: Saw

408

00:53:14.520 --> 00:53:16.260

Village of Parish: That because I got what I got to

409

00:53:18.510 --> 00:53:25.770

Village of Parish: Watch. Now, this would be instead of a local lot and we can include in here. If you could be great, I believe.

410

00:53:27.060 --> 00:53:28.110

Village of Parish: Are you with me again, Matt.

411

00:53:28.770 --> 00:53:30.180

Matthew Johnson: Yep, I'm here, I'm

412

00:53:31.320 --> 00:53:38.340

Matthew Johnson: You. Yeah. Is that something you could send, send me to look at, we could figure out how we would put that in.

413

00:53:40.260 --> 00:53:40.920

It'll happen.

414

00:53:49.350 --> 00:53:50.430

Matthew Johnson: Yeah, I mean, we could

415

00:53:50.760 --> 00:53:51.510

Matthew Johnson: We could look at it.

416

00:53:57.060 --> 00:53:57.600

Okay.

417

00:53:58.950 --> 00:54:05.610

Matthew Johnson: The village doesn't have a property maintenance slob. Currently, this will be a new thing.

418

00:54:06.750 --> 00:54:07.440

Well, I think you

419

00:54:11.280 --> 00:54:13.740

Village of Parish: Already know about Canada was it goes

420

00:54:14.970 --> 00:54:15.450

Way back

421

00:54:19.830 --> 00:54:20.100

Village of Parish: There, there's

422

00:54:21.900 --> 00:54:23.010

Village of Parish: Probably about here.

423

00:54:27.270 --> 00:54:35.610

Village of Parish: Because we did because I mentioned mayor asked me about it. And we went and found it, but I don't remember what it was, I believe, was not part of zoning is just a local

424

00:54:36.630 --> 00:54:37.260

Village of Parish: That we go

425

00:54:40.470 --> 00:54:46.380

Matthew Johnson: So yeah, you could you could either amend that or you could add it into the zoning. It's really your, your choice.

426

00:54:51.720 --> 00:54:52.080

There.

427

00:54:55.080 --> 00:55:10.680

Village of Parish: I guess I'm kind of lost us as one of the planning board members from the village or you guys and many the entire zoning, or just a meeting and he said look for the overlay piece of a preview. Okay, I think that's I'm saying because normally the framework we go through everything.

428

00:55:12.090 --> 00:55:21.750

Village of Parish: Tweak it or to make success changes then for the entire package to the like we did to the town. The town board got holding tacky term. I think we've done LinkedIn.

429

00:55:23.430 --> 00:55:32.130

Village of Parish: But see, we have the planning board. We haven't done after the notes that were intending to do that for the village. We haven't started yet. As long as I am 10 years old.

430

00:55:34.200 --> 00:55:45.390

Village of Parish: He's ever made several years ago. Okay. So as far as you pick your topic. Again, cuz he goes off the zoning zoning zoning and women. This is an overlay.

431

00:55:47.160 --> 00:55:54.990

Village of Parish: True. So this gets included in under zoning. What happens to the local law and already in existence we can feel that

432

00:56:03.450 --> 00:56:03.660

Village of Parish: This

433

00:56:05.790 --> 00:56:06.060

Village of Parish: Quarter.

434

00:56:27.240 --> 00:56:27.930

Village of Parish: Anything else

435

00:56:30.210 --> 00:56:38.160

Matthew Johnson: Well, just if you, if somebody would send email me, the language that you this that we're talking about that you want to include

436

00:56:39.810 --> 00:56:41.790

Matthew Johnson: About the about the lawns.

437

00:56:42.810 --> 00:56:49.860

Matthew Johnson: send that to me and I will work it in somewhere into the law if that's the route you want to go.

438

00:56:50.610 --> 00:56:52.080

Village of Parish: warriors are using

439

00:56:53.130 --> 00:56:54.060

Matthew Johnson: Okay, great.

440

00:56:54.450 --> 00:56:54.750

Great.

441

00:56:56.220 --> 00:57:05.100

Matthew Johnson: Okay, and that's it. Then, then we just need to make those changes. And then we can start the adoption process. Okay, good. Thank you. Okay, thank you.

442

00:57:20.820 --> 00:57:25.950

Village of Parish: point now where we're ready to the environmental review.

443

00:57:27.450 --> 00:57:28.590

Village of Parish: For the final project.

444

00:57:29.700 --> 00:57:30.270

Village of Parish: We send

445

00:57:31.320 --> 00:57:37.590

Village of Parish: The review packages to all the agencies, etc. US Fish and Wildlife ship all

446

00:57:38.850 --> 00:57:47.340

Village of Parish: You know all the other agencies that are required to be contact as part of the secret process we receive responses back for most everybody

447

00:57:48.990 --> 00:58:03.270

Village of Parish: You know, essentially, there's no issues at the existing web site as far as environmental review goes, there's no wetlands. There's no endangered threatened species.

448

00:58:04.590 --> 00:58:07.740

Village of Parish: There's no new burial grounds. There's nothing

449

00:58:08.760 --> 00:58:09.540

Village of Parish: To worry about

450

00:58:11.190 --> 00:58:21.180

Village of Parish: As far as sort of environmentally sensitive areas to be considered. So with that being said, I prepared.

451

00:58:22.110 --> 00:58:31.410

Village of Parish: A standard resolution that we use sits on the agenda under new business by preparing the resolution for boards consideration.

452

00:58:32.010 --> 00:58:50.310

Village of Parish: Also prepared the environmental assessment forms that are required to accompany resolution, as well as the negative declaration that's required to accompany the resolution. So all those documents have that prepared.

453

00:58:51.630 --> 00:59:05.010

Village of Parish: I'm not going to go through the environmental assessment for that entail and less likely to what I can tell you is based on our professional taking in in our review of all the information we have.

454

00:59:06.090 --> 00:59:07.710

Village of Parish: You know, we don't anticipate a

455

00:59:08.790 --> 00:59:11.250

Village of Parish: Significant environmental impacts as part of

456

00:59:12.960 --> 00:59:14.550

This project at least

457

00:59:17.310 --> 00:59:19.290

Village of Parish: So that covers that portion

458

00:59:20.850 --> 00:59:22.830

Village of Parish: The are obviously in

459

00:59:24.330 --> 00:59:25.860

Village of Parish: Progressing. There's a report.

460

00:59:28.890 --> 00:59:38.250

Village of Parish: We have the privilege actually receive their nose violation from the Department of Environmental Conservation

461

00:59:39.540 --> 00:59:44.820

Village of Parish: So that has been sent. So we will include that I use for

462

00:59:47.100 --> 00:59:48.420

Village of Parish: Our funding application.

463

00:59:49.470 --> 01:00:03.090

Village of Parish: I can tell you that the New York State environmental facilities Corporation, which is the state program had a webinar earlier today, and there was good news as part of that whether our band.

464

01:00:05.580 --> 01:00:15.210

Village of Parish: So the good news is, is that through your State Revolving Fund, they are accepting applications through September 23rd.

465

01:00:17.640 --> 01:00:24.870

Village of Parish: Time to get this project up engineer or submit it and get it approved.

466

01:00:27.060 --> 01:00:36.960

Village of Parish: And potentially VC funding program. The bad news is, is that they alluded to the fact that they will not be accepting applications for

467

01:00:38.790 --> 01:00:40.920

Village of Parish: This year in or anytime soon.

468

01:00:45.240 --> 01:00:45.930

Village of Parish: Structure.

469

01:00:50.310 --> 01:00:56.400

Village of Parish: Yeah it all it's I guess it wasn't a big surprise. But, you know, that was the push everybody had

470

01:00:57.510 --> 01:00:59.850

Village of Parish: You know, was whether or not that program was still gonna

471

01:01:00.990 --> 01:01:15.690

Village of Parish: You know, be a place for this year. They did absolutely say it's not going to be, but again they allude to the fact that, you know, they're not accepting applications at this time. So I take that to believe that

472

01:01:18.510 --> 01:01:20.910

Probably they will not accept applications is

473

01:01:23.970 --> 01:01:38.370

Village of Parish: That still, you know, with that being said, USDA is still accepting applications. I've got a bunch of applications and projects. So I think we we stay the course because engineer report.

474

01:01:39.510 --> 01:01:47.490

Village of Parish: We get everything submitted to the state programs as well as to the federal government and we'll see what kind of funding get

475

01:01:49.740 --> 01:01:54.390

Village of Parish: Some so my fantasy. The next board meeting is September 16

476

01:01:56.010 --> 01:02:00.630

Village of Parish: At that board meeting, I'd like to present the injury report to the Board.

477

01:02:01.680 --> 01:02:07.620

Village of Parish: Present our recommendations to the board and present the estimated project costs.

478

01:02:08.640 --> 01:02:16.230

Village of Parish: At that time, you know, we can we can ultimately finalize and make a decision that yes, we want to do some public applications.

479

01:02:18.300 --> 01:02:20.220

That for the application or minus

480

01:02:21.780 --> 01:02:22.110

One.

481

01:02:25.980 --> 01:02:28.710

Village of Parish: How the income surveys are going to affect the results.

482

01:02:30.510 --> 01:02:37.290

Village of Parish: Now that's a decision that they will information, they will use to make the decision. That's correct. Yep. So obviously, with the

483

01:02:38.580 --> 01:02:45.450

Village of Parish: Funding applications that we saw in that order to provide that income survey to know that was done in 2017

484

01:02:47.100 --> 01:02:51.540

Village of Parish: That's another reason why I want to get the applications in as soon as you can.

485

01:02:52.650 --> 01:02:56.640

Village of Parish: And, you know, at that point, it's going to be at their discretion.

486

01:02:57.960 --> 01:03:01.650

Village of Parish: Whether they want to accept it or not okay with the fact that it's been

487

01:03:03.630 --> 01:03:04.530

Village of Parish: Over three years.

488

01:03:06.630 --> 01:03:11.520

Village of Parish: They go up and down the court right if I looked at right so

489

01:03:13.350 --> 01:03:18.240

Village of Parish: So yeah, that's why I emphasize, you know, get everything as soon as we can.

490

01:03:19.680 --> 01:03:19.890

Now,

491

01:03:24.930 --> 01:03:25.890

Village of Parish: Okay, well that's what

492

01:03:27.180 --> 01:03:28.290

Village of Parish: We're here, and you've got

493

01:03:29.460 --> 01:03:34.410

Village of Parish: 42 resolution being passed.

494

01:03:36.450 --> 01:03:39.330

Village of Parish: Over you need a motion to this resolution.

495

01:03:43.170 --> 01:03:44.820

Village of Parish: I had a further on the agenda, but

496

01:03:50.730 --> 01:03:51.150

Village of Parish: Hopefully,

497

01:03:58.800 --> 01:03:59.880

Village of Parish: Considering full

498

01:04:01.980 --> 01:04:02.370

Village of Parish: Project

499

01:04:19.440 --> 01:04:19.740

Village of Parish: Okay.

500

01:04:21.480 --> 01:04:23.190

Village of Parish: Bye Jackie.

501

01:04:31.980 --> 01:04:33.060

Village of Parish: Roll call vote on that.

502

01:04:36.090 --> 01:04:37.560

Village of Parish: Just figure. Yeah.

503

01:04:39.060 --> 01:04:41.730

Village of Parish: All right understanding of None. Absolutely none.

504

01:04:43.560 --> 01:04:50.550

Village of Parish: Reporting officer. Alright, so that resolution has passed. So with that, the last page.

505

01:04:53.760 --> 01:04:55.620

Village of Parish: They are you willing to sign them right

506

01:04:58.890 --> 01:05:02.520

Village of Parish: If you want to give you copies before tonight or want to send them to me.

507

01:05:04.170 --> 01:05:06.540

Village of Parish: Well, we have the same

508

01:05:07.710 --> 01:05:09.210

Village of Parish: The same information to

509

01:05:10.770 --> 01:05:12.720

Village of Parish: Recover help so

510

01:05:22.020 --> 01:05:23.340

Village of Parish: That they can take it.

511

01:05:28.740 --> 01:05:29.100

Village of Parish: No.

512

01:05:32.130 --> 01:05:34.920

Village of Parish: I wasn't impressed with them with a plan and

513

01:05:36.030 --> 01:05:40.530

Village of Parish: Feel obligated to. I'm not sure I've never dealt with before.

514

01:05:43.980 --> 01:05:44.580  
Village of Parish: Insulted

515  
01:05:46.560 --> 01:05:46.890  
Village of Parish: Sure.

516  
01:05:52.350 --> 01:05:55.950  
Village of Parish: And I called it the CMA mistaken. That is, oh

517  
01:05:58.050 --> 01:05:58.590  
Village of Parish: Real quick.

518  
01:05:59.790 --> 01:06:06.330  
Village of Parish: I that I following a phone call. I had a conversation with the regional Australia and

519  
01:06:07.410 --> 01:06:09.420  
Village of Parish: He made a comment to me that

520  
01:06:11.130 --> 01:06:11.520  
Village of Parish: You know,

521  
01:06:12.840 --> 01:06:19.050  
Village of Parish: Their water division in which that job as part of is not necessarily familiar with.

522  
01:06:21.270 --> 01:06:21.420  
Village of Parish: The

523  
01:06:22.740 --> 01:06:24.750  
Village of Parish: Process, but it pertains to

524  
01:06:35.670 --> 01:06:36.570  
Village of Parish: The cross and fast.

525  
01:06:42.210 --> 01:06:47.700  
Village of Parish: Alright, well, very, very good. Thank you. Is there other questions or anything we need to discuss with you.

526  
01:06:49.950 --> 01:06:51.060  
Village of Parish: All right. Thank you.

527

01:06:53.400 --> 01:06:57.090

Village of Parish: Alright going on. We have Frank Miller with us and he's doing that.

528

01:06:58.650 --> 01:07:01.830

Village of Parish: purchase the property adjacent to the

529

01:07:03.390 --> 01:07:13.050

Village of Parish: Don't site from that angle road and being laid landlocked for a number of different avenues and he had question they

530

01:07:14.250 --> 01:07:17.190

Village of Parish: Right away on our property and

531

01:07:18.420 --> 01:07:28.080

Village of Parish: We propose that maybe he can make the purchase of the property that we have. So if you'd like to speak to any of that or yes okay thank you for your time. I'm

532

01:07:28.830 --> 01:07:41.070

Village of Parish: Just real quick intro. I grew up in Miami married sleeper car bomb. The way we settled in Mexico. I currently own a house in Mexico. So for sales, you know, anybody that's it for our

533

01:07:42.360 --> 01:07:48.240

Village of Parish: Seminar way to build in the village in between games is Frank street Hill there so

534

01:07:49.860 --> 01:07:51.570

Village of Parish: You mean purchase.

535

01:07:52.680 --> 01:07:55.380

Village of Parish: Laughter goods and also being six

536

01:07:56.580 --> 01:08:01.320

Village of Parish: We purchase this property through tax option for really cheap. It's our

537

01:08:02.640 --> 01:08:09.900

Village of Parish: We're trying to get more in the country and more away from the village more anyways it's it's a crazy time and trying to

538

01:08:11.040 --> 01:08:13.740

Village of Parish: Move, move out. But anyways,

539

01:08:14.880 --> 01:08:18.990

Village of Parish: It was as lamb lot obviously Celeste. That's my ear.

540

01:08:20.250 --> 01:08:28.170

Village of Parish: We're trying to get a little hospital on several ranch on the weekend live. I live in and Razorfish um

541

01:08:29.430 --> 01:08:29.970

Village of Parish: It's

542

01:08:31.050 --> 01:08:37.020

Village of Parish: Unfortunately, the money that you guys are requesting for the village.

543

01:08:38.190 --> 01:08:51.210

Village of Parish: Yes, I made a request. Yeah, we're just filling out a sentence, I can't do anything like that right now this time in the future. After the bill happens I may be in a better position financially so

544

01:08:52.500 --> 01:08:55.620

Village of Parish: Either there's only a couple options that are lot

545

01:08:57.150 --> 01:09:06.120

Village of Parish: Reuben that I was thinking is obviously cheaper for the village property, it is it is a dump site. I tried calling the DC well

546

01:09:09.120 --> 01:09:18.540

Village of Parish: I don't understand. There's a whole walls on the site. That's great news. Some of the weekend we can use for the bill was clear plan there that I can use for the bill.

547

01:09:19.560 --> 01:09:22.710

Village of Parish: But I can't come up with that model money.

548

01:09:24.990 --> 01:09:32.550

Village of Parish: I just leaving with the town is come to our attention that we need 220 feet of frontage to build, we cannot

549

01:09:34.050 --> 01:09:46.170

Village of Parish: Build us get a right away just build behind somebody else I've started, which I think is stupid for the planning board and do that. But however you can go over their heads.

550

01:09:46.710 --> 01:09:53.370

Village of Parish: Yes to various covariance and they did it. So go to swindle and have them over.

551

01:09:54.300 --> 01:10:01.770

Village of Parish: If you want, yes, but I still have to get yeah I did that right away through the village and the right away is not going to be pertinent

552

01:10:02.310 --> 01:10:12.030

Village of Parish: To my property. It's going to be just a temporary way for me to be able to use that right away. So what I'm selling 2030 years whatever won't have an issue that

553

01:10:13.050 --> 01:10:17.940

Village of Parish: I spoke with high gauge, who owns the property in front of the trailer

554

01:10:18.990 --> 01:10:24.000

Village of Parish: Then trailer right there. She was difficult.

555

01:10:25.380 --> 01:10:30.690

Village of Parish: She wants a bunch of money for nothing, and I'm not gonna pay that

556

01:10:32.100 --> 01:10:32.760

Village of Parish: Tax option.

557

01:10:35.880 --> 01:10:38.130

Village of Parish: So that end up but that's not, that's one or 20 minutes

558

01:10:41.010 --> 01:10:46.380

Village of Parish: So there's a runaway i don't i don't think we have any problem with

559

01:10:47.880 --> 01:10:49.560

Village of Parish: That we would like to set for yourself.

560

01:10:51.360 --> 01:10:59.310

Village of Parish: Well, yeah, but I you know I haven't really looked at the property. Oh, I know what is the road there. I don't know how far back, it goes

561

01:11:01.740 --> 01:11:09.180

Village of Parish: It goes back to 300 years you just make a circle like that. Oh, yeah, yeah.

562

01:11:09.810 --> 01:11:20.190

Village of Parish: I don't know. I have a hands on lab right here of the property together like it. And I also have an alternate proposal for to give me that 220 feet of frontage if

563

01:11:20.670 --> 01:11:27.060

Village of Parish: She my wife did a measurement from the edge to there, there'll be two and 20 feet and box it in there that would equal 10 acres

564

01:11:28.110 --> 01:11:31.140

Village of Parish: Separating that out is interesting to you as well.

565

01:11:32.880 --> 01:11:39.690

Village of Parish: Okay, this right here that okay, this isn't a property that I bought the end

566

01:11:40.710 --> 01:11:57.000

Village of Parish: Of the season and this these are here these two right here. This one, this these two and I was proposing the best box. Yeah. The back of the property at the 10 acres there and the \$220 for lunch.

567

01:11:58.140 --> 01:12:08.340

Village of Parish: Okay, so you will come up here and well yeah filled somewhere in here because I know there's a welner okay well there's for Wells DTC

568

01:12:09.480 --> 01:12:13.680

Village of Parish: Though I don't know if you want to consider them while right how do you

569

01:12:15.000 --> 01:12:22.860

Village of Parish: Also not water. Well, I'll do testing for possible contaminants. So then I don't know the only don't 25 feet, something like just

570

01:12:24.060 --> 01:12:29.520

Village of Parish: Buy something like you would have to talk to them.

571

01:12:31.590 --> 01:12:36.510

Village of Parish: I don't know how long they need to maintain those well

572

01:12:38.130 --> 01:12:46.980

Village of Parish: I mean, we're, we're, we're, if they come back, clean, I'm okay with the property property to be clean, but

573

01:12:48.240 --> 01:12:49.770

Village of Parish: Still scary as

574

01:12:51.540 --> 01:12:56.100

Village of Parish: Well as a nuisance. How, how old is it like King 15

575

01:12:57.900 --> 01:12:58.260

Village of Parish: Minutes.

576

01:12:59.430 --> 01:13:10.710

Village of Parish: When somebody wants to go in there and take on the treadmill thing we've done that in the past. I heard that the survey or when the survey, because people were taking treats off the bat. So they are already logging.

577

01:13:11.970 --> 01:13:15.570

Village of Parish: Somebody came into that other property, not as well on the outside. Yeah.

578

01:13:16.590 --> 01:13:33.510

Village of Parish: So there's also. So, this piece here, and by to 254 is 222 20 on the edge of the high gauge property and then it goes to Tony into your property.

579

01:13:34.050 --> 01:13:47.190

Village of Parish: And then as shouldn't shoot straight back to another line. This goes goes beyond my property line. Yeah, would be disobey my property line but it'd be the back of our mind. Yeah, the back of your line K

580

01:13:47.820 --> 01:14:01.320

Village of Parish: Is ends up being 10.03 acres. So something like that you wanted to buy that right if I could buy that that would solve a lot of issues for everybody and total or or

581

01:14:02.400 --> 01:14:06.540

Village of Parish: Or much lower price on the bottle. So then I will gain interest in that.

582

01:14:08.850 --> 01:14:11.850

Village of Parish: If you take 10 don't want to know what they do 30

583

01:14:15.930 --> 01:14:18.900

Village of Parish: Years. Yeah, there's a number of months and

584

01:14:20.160 --> 01:14:28.170

Village of Parish: Three are available. I suppose my wife knows that people right next to. They have a lot of road frontage right there.

585

01:14:30.090 --> 01:14:42.240

Village of Parish: Like myself and shade and they didn't want to have and knew that they were fine with us building behind them. We sat down in their living room and they spoke never happen have somebody decent event.

586

01:14:44.160 --> 01:14:48.090

Village of Parish: Both of those lines. I know it's just this one, it's the

587

01:14:49.710 --> 01:14:55.980

Village of Parish: Branch to the double garage and Heidi had the little one little one. And then the other person.

588

01:14:58.350 --> 01:15:06.690

Village of Parish: I haven't spoken to know because there was no, there was no can read again the door there. My wife works with a lady at Walmart and we messages for Facebook.

589

01:15:08.370 --> 01:15:10.560

Village of Parish: Taught me some candy.

590

01:15:12.420 --> 01:15:13.620

Village of Parish: What's the average

591

01:15:14.910 --> 01:15:16.350

Village of Parish: To listen every job.

592

01:15:18.330 --> 01:15:22.920

Village of Parish: Yes. Yeah, yeah, in this market isn't part of that.

593

01:15:24.090 --> 01:15:25.410

Village of Parish: Thousand an acre. The

594

01:15:26.640 --> 01:15:27.240

Village of Parish: Major

595

01:15:28.560 --> 01:15:31.590

Village of Parish: Mean, that's that used to be there will be a gift.

596

01:15:34.680 --> 01:15:38.970

Village of Parish: A free guide look dead lately is now 2000 plus plans.

597

01:15:40.410 --> 01:15:44.820

Village of Parish: Well, yes. No, I totally Ranger open. Yeah. And I understand that.

598

01:15:47.400 --> 01:15:50.640

Village of Parish: You see \$2,000 an acre and this is

599

01:15:52.890 --> 01:15:54.060

Village of Parish: Me, let me do the math.

600

01:15:57.240 --> 01:16:00.150

Village of Parish: Well, I mean, you know, I'm just trying to

601

01:16:01.740 --> 01:16:13.980

Village of Parish: I know the dumps and it was about 4040 4039

602

01:16:15.060 --> 01:16:15.660

Can I just

603

01:16:20.310 --> 01:16:24.030

Village of Parish: Do the math. Wow, my brains, not as good as it used to be.

604

01:16:28.560 --> 01:16:28.980

Village of Parish: 30

605

01:16:30.480 --> 01:16:31.650

Village of Parish: That's what I'm assessment.

606

01:16:37.350 --> 01:16:39.060

Village of Parish: Three 9000 design thinking

607

01:16:40.740 --> 01:16:42.660

Village of Parish: But think about it and

608

01:16:43.890 --> 01:16:54.870

Village of Parish: You know, okay, sorry, you're going to end up with a 526 plus acres. After you subtract the 10 that that's, to me, that's still saleable

609

01:16:56.640 --> 01:16:56.940

Village of Parish: Yeah.

610

01:16:57.990 --> 01:17:12.540

Village of Parish: Just the last thing she got with all the lies going to be still be there, you're going to be able to market, you know, but again if if something could be done with the price for everything. I would be arrested, that's not

611

01:17:13.860 --> 01:17:15.630

Village of Parish: Something we could do. Yeah.

612

01:17:16.650 --> 01:17:23.070

Village of Parish: It's good or bad. Good, bad, but everybody else on their taxes is throw yourself into town.

613

01:17:40.170 --> 01:17:47.550

Village of Parish: Sultan, can we also just offer a permanent right away to that property event be salted, it goes with the beam those mountains.

614

01:17:48.480 --> 01:18:01.500

Village of Parish: I believe there's I looked at properties that were like that they have permanent right ways to waters, you're excited, man. So, you know. Yeah, exactly. Just be more or less. But the problem with that is it doesn't give you the road.

615

01:18:02.730 --> 01:18:10.650

Village of Parish: It doesn't. And that's where you are and that's I spoke with Paul gauge on the matter just for some information because they call me as well.

616

01:18:12.300 --> 01:18:23.550

Village of Parish: And I asked, Paul, can the road products be an easement. And he did not believe so he believes and everything they say is property owner

617

01:18:24.570 --> 01:18:33.870

Village of Parish: Has to have 228 road, which I think is well the village is still the owner right if you give him a right of way.

618

01:18:35.190 --> 01:18:42.630

Village of Parish: It can be any, like I said, I just opened Paul and that I did in a long time ago.

619

01:18:44.100 --> 01:18:58.290

Village of Parish: I think that that would be the cheapest way for me to get to get to where I need to be. And I'm all for that. I think I've ever plan on buying 38 but they don't say I have 30 acres, and I'll turn into 75 so

620

01:18:59.910 --> 01:19:02.520

Village of Parish: Yeah, there's, there's a 30

621

01:19:03.570 --> 01:19:15.390

Village of Parish: Thing is, you're right away becomes your driver, which is a little more than a writer with Frank what he was saying is you know right away here.

622

01:19:17.610 --> 01:19:31.050

Village of Parish: Robert, it doesn't get filtered by date. Again, it's a pre existing condition. Well, yeah, no, between the CPA theory ruler right then notice a lot of what ifs. Yeah, right. Oh, there's a lot of

623

01:19:32.970 --> 01:19:38.850

Village of Parish: You know, you got to really look into this and right now I know as far as bridleways

624

01:19:42.540 --> 01:19:45.150

Village of Parish: Years ago. Yeah, it's probably different than a

625

01:19:46.410 --> 01:19:47.490

Village of Parish: Room change.

626

01:19:49.440 --> 01:19:49.860

Village of Parish: Fortunately,

627

01:19:52.050 --> 01:19:55.350

Village of Parish: You know what we'll see as Matt Johnson spell there.

628

01:19:56.400 --> 01:19:58.380

Village of Parish: Will be a good question for that.

629

01:19:59.760 --> 01:20:09.000

Village of Parish: Reason I we we own proper our own property and we had to give a farmer runaway down to the feed is

630

01:20:11.280 --> 01:20:14.490

Village of Parish: The only stipulation, was it he had to fix that fence.

631

01:20:16.140 --> 01:20:19.920

Village of Parish: On our side. He also fix the fans. I'm a guy who owned the other property.

632

01:20:22.110 --> 01:20:24.810

Village of Parish: Or placing a dwelling song.

633

01:20:25.980 --> 01:20:41.610

Village of Parish: Dwellings and that right. I mean, everybody has always been late well bland bland and become an issue, right, which I don't understand how it got a landline well it could have been an illegal subdivision way back when before it's only

634

01:20:43.290 --> 01:20:53.160

Village of Parish: For the original. Yes. And then this is a text right so that's not saying, OK, so now it became landline

635

01:20:54.480 --> 01:20:58.560

Village of Parish: Know if there was something you should have done. Somebody should have done it.

636

01:20:59.730 --> 01:21:02.280

Village of Parish: But you can say, what are you going to do right

637

01:21:03.930 --> 01:21:10.350

Village of Parish: Well, we don't get the planning for level. Now, we do not create or no or allow somebody to play in a band large piece of property.

638

01:21:12.300 --> 01:21:14.670

Village of Parish: What our know why not. I mean, I

639

01:21:16.200 --> 01:21:29.160

Village of Parish: Know these reasons and I understand where you know he's saying they don't they don't do that because then becomes an issue. He's having this wasn't an issue that they created as an issue created by attacks options which nobody created has control.

640

01:21:30.300 --> 01:21:31.350

Village of Parish: Okay, now

641

01:21:32.970 --> 01:21:37.440

Village of Parish: If I remember one of the classes that I took up to Watertown

642

01:21:39.930 --> 01:21:40.920

Village of Parish: The guy said that

643

01:21:42.900 --> 01:21:45.420

Village of Parish: Guy was talking about when live poverty and

644

01:21:46.590 --> 01:21:54.030

Village of Parish: Like, they're like, what do you like lots land like saying, yeah, those are the same category. Yeah, yeah. He goes,

645

01:21:55.500 --> 01:21:56.820

Village of Parish: You can force.

646

01:21:58.260 --> 01:22:11.340

Village of Parish: A town or the company or the town. Yeah, the county to sell out a. Right away for you and they're definitely can do but you have to go through all this.

647

01:22:12.240 --> 01:22:21.390

Village of Parish: rigmarole you know like he's dope. You know, like he's doing now and I don't want to put anybody in a position and I just met you guys yeah like

648

01:22:26.730 --> 01:22:29.550

Village of Parish: The easiest way would be to come up with a price.

649

01:22:30.630 --> 01:22:46.500

Village of Parish: Be happy with to just buy that property just split it would be a new survey and that's all money attorneys and all that the right away, would be more variances and more attorneys and all that so

650

01:22:48.780 --> 01:23:05.010

Village of Parish: You know, I think the right way. Jesus. Yes, the right, we will use the cheapest yeah but then that would doesn't solve is overcrowded, no. But it all day, you get a very gray just I don't, I don't think there's any more tournament down. It's not it doesn't go created right

651

01:23:06.720 --> 01:23:15.060

Village of Parish: Ed able, as long as he has permission from us, or whoever to get on that right away, it really shouldn't be an issue to get the film.

652

01:23:15.840 --> 01:23:25.140

Village of Parish: I would think again like DBS got like five or eight years they have to go down through and someone that process or in my life as a self created so it's

653

01:23:25.530 --> 01:23:33.930

Village of Parish: Like the book as and then I'm not saying how they would do is what they could look at this thing. Oh, he bought into the text, er, okay. He knew they were land like. Oops. So

654

01:23:34.830 --> 01:23:44.640

Village of Parish: That's what they think that's one of the big ones good Quincy they, I don't know, but I'm not right. You know, you can't speak for the CVA right so

655

01:23:45.330 --> 01:24:04.020

Village of Parish: As long as I put down on paper, how they got to their decision so that if that decision is challenged in Oswego court, the judge goes CPA you do support. Oh, here's how they got to their decision did they do this business, yes they did have bad, so sad person by at their job will be

656

01:24:05.520 --> 01:24:06.330

Village of Parish: Fully challenge.

657

01:24:07.350 --> 01:24:07.860

Village of Parish: Challenge.

658

01:24:09.150 --> 01:24:18.330

Village of Parish: To become well no I mean the landowner would challenge is the gays right right and up to another.

659

01:24:25.620 --> 01:24:27.450

Village of Parish: Person. There's not likely money.

660

01:24:29.010 --> 01:24:29.220

Village of Parish: Right.

661

01:24:30.540 --> 01:24:33.060

Village of Parish: Time is money. Right. All I'm saying this time.

662

01:24:37.980 --> 01:24:41.550

Village of Parish: Board is not to be sometimes it does if you purchase down

663

01:24:42.840 --> 01:24:44.280

Village of Parish: The line, but it's

664

01:24:45.420 --> 01:24:45.630

Under

665

01:24:47.760 --> 01:24:51.000

Village of Parish: me wanting to stop somebody to move your

666

01:24:52.290 --> 01:24:53.640

Village of Parish: Body was a nice grammar.

667

01:24:55.980 --> 01:24:56.880

Village of Parish: Parcel or a

668

01:24:58.980 --> 01:25:00.000

Village of Parish: 10 acre piece on

669

01:25:04.980 --> 01:25:06.690

Village of Parish: Sunday or whatever.

670

01:25:08.280 --> 01:25:08.880

Village of Parish: These are probably

671

01:25:10.680 --> 01:25:22.410

Village of Parish: The ones all the way around the fly somewhere to excel one law. The plan was to build on the nine acres right access when we're doing the 220 foot road product, you have to

672

01:25:23.820 --> 01:25:33.120

Village of Parish: Be 100 times where you sign up quite a library that I want to just own that I understand why you got the 220

673

01:25:34.650 --> 01:25:38.730

Village of Parish: Years past that I just I just enforce laws don't

674

01:25:40.380 --> 01:25:43.530

Village of Parish: Tell me that because they give they want it, I guess.

675

01:25:44.640 --> 01:25:48.810

Village of Parish: People could have ruined homes. Right. Yeah.

676

01:25:50.100 --> 01:26:00.630

Village of Parish: Like selling the property together is that if he digs up he's gonna say changes and builds a house there. They used to be dumb saying let's say he digs up and find a bunch of contaminants DC

677

01:26:02.100 --> 01:26:03.330

Village of Parish: We're still liable for that.

678

01:26:05.250 --> 01:26:05.490

Village of Parish: Out.

679

01:26:07.980 --> 01:26:08.370

Village of Parish: gonna cheat.

680

01:26:12.810 --> 01:26:25.470

Village of Parish: disclose it. It doesn't matter if you look at how many the see people pick up a piece of property and they're spending hundreds of thousands of dollars to dig down 30 4050 feet because

681

01:26:26.760 --> 01:26:32.190

Village of Parish: The previous owner, as it does in college, all day and it was basement and so

682

01:26:33.810 --> 01:26:38.460

Village of Parish: Well, we don't. And then to your house was on a yearly development.

683

01:26:39.480 --> 01:26:39.750

Village of Parish: Right.

684

01:26:40.830 --> 01:26:42.300

Village of Parish: Well, there we go.

685

01:26:46.980 --> 01:26:48.420

Village of Parish: guy bought the trader.

686

01:26:49.590 --> 01:26:58.710

Village of Parish: Okay. He was talking about DC they he had a he had a he had take up a little takes known or not, the old

687

01:27:16.590 --> 01:27:17.880

Village of Parish: I was just a concern is that

688

01:27:20.160 --> 01:27:22.200

Village of Parish: Know title insurance, something like that.

689

01:27:24.480 --> 01:27:26.040

Village of Parish: will guarantee

690

01:27:29.370 --> 01:27:29.820

Warranty.

691

01:27:32.190 --> 01:27:34.380

Village of Parish: Issues. I do know that

692

01:27:36.600 --> 01:27:37.560

Places like a

693

01:27:39.120 --> 01:27:48.630

Village of Parish: Manufacturer properties. Now going back and 50s and 60s. They were dumping something wrong. Now they're back, you're going to need that on the property back then and making them pay for

694

01:27:49.110 --> 01:27:55.650

Village of Parish: I noticed a lot of still happens, the argument would be weather is the doping was a result of negligence or something of that.

695

01:28:00.330 --> 01:28:06.180

Village of Parish: This is we are aware that there could be issues, most likely with those that was not

696

01:28:07.050 --> 01:28:23.940

Village of Parish: That was not. This was a dumb. So I found out as a dump site. I just wanted to point that out meal possibilities, it's it's really hard to the government to the Gulf station, they purchase that property, knowing it was a gift. It was a gas and knowing that it was a VC side.

697

01:28:25.440 --> 01:28:31.920

Village of Parish: The old owners are responsible for the cleanup and new owners are because they purchased it knowing. Okay.

698

01:28:33.570 --> 01:28:39.210

Village of Parish: Yes. Before we end the discussion is to research to find out the best way to handle it.

699

01:28:40.530 --> 01:28:40.860

Village of Parish: And

700

01:28:42.270 --> 01:28:48.690

Village of Parish: I think, depending on what the DC finds their test files and somebody would have to Randall or change.

701

01:28:50.850 --> 01:28:52.770

Village of Parish: Email to Mr. No questions.

702

01:28:54.150 --> 01:29:02.700

Village of Parish: Because they're on their primary this year, taking test. Yeah, but they didn't leave any contact information. And if I want

703

01:29:03.750 --> 01:29:22.290

Village of Parish: To find out what the results that it has worked for me. Yes, where I'm going. But here, regardless of it. You know, we have to have a certain time of sale where we're not held harmful. That's just the normal and we face a transaction.

704

01:29:23.730 --> 01:29:28.470

Village of Parish: With two attorneys, which is required to disclose everything that you know it's going to be a warranty.

705

01:29:31.020 --> 01:29:37.980

Village of Parish: Or sales wants like family members family members or things like that. Any, any printed material is very

706

01:29:41.970 --> 01:29:45.930

Village of Parish: WELL SPENT 16 years roughly the sense that places but

707

01:29:46.950 --> 01:29:49.110

Village of Parish: But nothing but cleaned up. Right.

708

01:29:50.880 --> 01:29:52.380

Village of Parish: And then what

709

01:29:53.760 --> 01:29:58.830

Village of Parish: Those alone instead of going to the transfer station week every town and adult

710

01:30:00.450 --> 01:30:13.260

Village of Parish: Sensor sinking back then was first generation stuff on chest nothing up there. Then we have any idea. I don't think anything very good people used to throw rubbish.

711

01:30:14.490 --> 01:30:15.960

Village of Parish: And it would be burned. Okay.

712

01:30:17.130 --> 01:30:18.870

Village of Parish: Because we go to French

713

01:30:23.190 --> 01:30:30.660

Village of Parish: Since then, we've done enough for cleaning it up now. I get that. So just like I said, I just wanted to, because any real concerns as

714

01:30:33.960 --> 01:30:39.930

Village of Parish: Well now, though, let's get a hold of the. So yeah, trying to give some information on those test box.

715

01:30:41.670 --> 01:30:42.780

Village of Parish: And insurance.

716

01:30:43.830 --> 01:30:48.210

Village of Parish: Right there. Hi walkable button right there used to be.

717

01:30:49.320 --> 01:30:52.530

Village of Parish: Right where the baseball stadium is

718

01:30:54.270 --> 01:30:55.650

Village of Parish: Also that used to be a don't

719

01:31:04.440 --> 01:31:04.740

Village of Parish: Know,

720

01:31:06.060 --> 01:31:06.300

Village of Parish: Yeah.

721

01:31:07.830 --> 01:31:09.300

Village of Parish: Yeah, okay.

722

01:31:10.650 --> 01:31:22.530

Village of Parish: I think we, I think, right now we're at a standstill, but we gotta get up some stuff like that. If I bought we split it to the time care to fill up

723

01:31:23.190 --> 01:31:34.680

Village of Parish: You know I'm saying, like, I'd be building on my original purchase, we wouldn't have to worry about any of that breaking ground or any of that stuff. Well you by fully understanding on this, you will

724

01:31:35.820 --> 01:31:36.690

Village of Parish: Then you can build

725

01:31:37.830 --> 01:31:38.490

Village of Parish: Yeah.

726

01:31:39.630 --> 01:31:42.660

Village of Parish: So he doesn't want me. Oh, Daniel.

727

01:31:44.700 --> 01:31:47.430

Village of Parish: Oh, yeah, yeah. Well, you know,

728

01:31:49.290 --> 01:31:50.220

Village of Parish: 10.3

729

01:31:51.690 --> 01:32:01.350

Village of Parish: So so the so the good could be locking off 10 acres of their current property. Yeah. Okay, that sounds like subdivision.

730

01:32:03.330 --> 01:32:09.840

Village of Parish: Religion and wouldn't be as something as okay yeah we do some diligence because you guys are supplying work now.

731

01:32:12.210 --> 01:32:20.010

Village of Parish: You guys are the record record if you wanted to stop you. If you came, your representative for 30 whatever came from survey came to the planning board said

732

01:32:20.490 --> 01:32:34.290

Village of Parish: It was your parish wants to subdivide on their old don't take off 10 acres you provide us with a new map showing, hey, here's the map. Here's what it was supposed to look like within boundary line contour lines and all that stuff in our criteria.

733

01:32:35.310 --> 01:32:39.900

Village of Parish: And then you say, Okay, looks good. We put you on the schedule. Hey, here's a public hearing. Come back next month.

734

01:32:42.270 --> 01:32:43.680

Village of Parish: If that's what you guys did sound like a

735

01:32:47.430 --> 01:32:49.380

Village of Parish: Procedure right you guys

736

01:32:51.060 --> 01:32:57.210

Village of Parish: Already and we're getting ready to sell this, we had to come to you and you want to chop off a piece of it. Yeah. No big deal.

737

01:32:59.940 --> 01:33:02.040

Village of Parish: If you want to narrow it down this path right here.

738

01:33:03.990 --> 01:33:04.890

Village of Parish: Yeah yeah like

739

01:33:07.110 --> 01:33:07.530

Village of Parish: Right.

740

01:33:16.920 --> 01:33:17.280

Village of Parish: Here.

741

01:33:50.460 --> 01:33:53.280

Village of Parish: But I understand. Okay, so we had to get a survey.

742

01:34:05.820 --> 01:34:07.110

Village of Parish: When you combine these

743

01:34:12.720 --> 01:34:18.720

Village of Parish: People to come before the places I hate talking.  
Here's the NASA. They look like. Here's what I want to do is

744

01:34:20.130 --> 01:34:23.400

Village of Parish: Right. Okay. So I might take this idea

745

01:34:25.140 --> 01:34:25.620

Village of Parish: And then you can

746

01:34:26.670 --> 01:34:27.690

Village of Parish: Be a great

747

01:34:28.770 --> 01:34:29.430

Village of Parish: Audio

748

01:34:32.700 --> 01:34:36.960

Village of Parish: metes and bounds. This paragraph thing of, what are  
the pieces.

749

01:34:38.430 --> 01:34:38.580

To

750

01:34:40.380 --> 01:34:42.870

Village of Parish: The next meeting. So that's a joy.

751

01:34:45.510 --> 01:34:47.220

Village of Parish: Join boundary line.

752

01:34:49.620 --> 01:34:50.670

Village of Parish: Here change.

753

01:34:51.780 --> 01:34:52.410

Village of Parish: I think we can

754

01:34:56.250 --> 01:35:00.300

Village of Parish: put them all together. So we can do. Yeah. Chris, you're joining us

755

01:35:02.370 --> 01:35:04.290

Village of Parish: Again, it's on the file with County.

756

01:35:06.720 --> 01:35:07.350

Village of Parish: assessor when

757

01:35:09.150 --> 01:35:09.840

Village of Parish: They're all together.

758

01:35:11.070 --> 01:35:16.470

Village of Parish: Very well. Right. There's like three different action, but not too many people do right away. We have a

759

01:35:19.350 --> 01:35:21.930

Village of Parish: Random when it's just that and I'm also

760

01:35:24.090 --> 01:35:25.800

Village of Parish: Needed rather than rather ideas.

761

01:35:27.390 --> 01:35:28.530

Village of Parish: Australia as an entrepreneur.

762

01:35:30.780 --> 01:35:35.760

Village of Parish: Unless they want to move one and it's the same size again and then do the rather than tonight.

763

01:35:37.230 --> 01:35:37.560

Village of Parish: Boys.

764

01:35:39.030 --> 01:35:39.990

Village of Parish: Into men and oh

765

01:35:43.380 --> 01:35:44.490

Village of Parish: Very I'm interpret

766

01:35:46.260 --> 01:35:47.310

Village of Parish: It can be just

767

01:35:49.680 --> 01:35:51.060

Village of Parish: Do a bear. I don't see why I

768

01:35:52.260 --> 01:35:59.160

Village of Parish: asked him if he gets what he wants to know, well, if we just talked about three different options.

769

01:36:00.420 --> 01:36:03.150

Village of Parish: And make up our mind and he

770

01:36:05.130 --> 01:36:05.880

Village of Parish: Made his mind up

771

01:36:08.040 --> 01:36:08.460

Village of Parish: Well, you get

772

01:36:10.800 --> 01:36:11.880

Village of Parish: Five on this piece of

773

01:36:17.310 --> 01:36:18.240

Village of Parish: Las Vegas.

774

01:36:20.220 --> 01:36:25.560

Village of Parish: We get the right one. Yeah, we get to today. Yeah, we got 2036 eight

775

01:36:26.670 --> 01:36:32.250

Village of Parish: Right. Those are the three options right and the perfect and like I said in the perfect world, I would the right price.

776

01:36:34.230 --> 01:36:37.530

Village of Parish: Right, yeah. So we have for the little finger there we

777

01:36:38.910 --> 01:36:51.630

Village of Parish: Have 10 acres, we have to give your finger there. Yes, the right away. I don't want to really do that. Well, I understand that. Yeah. I mean, that's a lot. And we're talking time that I rather come up with 10 grand or whatever.

778

01:36:53.010 --> 01:36:54.630

Village of Parish: Just filled up my undergrad and

779

01:36:56.430 --> 01:36:57.870

Village of Parish: Yeah, there's probably

780

01:36:59.370 --> 01:37:02.730

Village of Parish: Comes down to what we want for the 10 acres and what a lot for the whole amount I

781

01:37:05.370 --> 01:37:10.050

Village of Parish: Mean, what's the phrase because of what it used to be, and

782

01:37:12.240 --> 01:37:12.990

Village of Parish: You said it was

783

01:37:16.920 --> 01:37:17.760

Village of Parish: Yes, as

784

01:37:19.020 --> 01:37:19.560

Village of Parish: Well, yeah.

785

01:37:21.150 --> 01:37:21.870

Village of Parish: I would recommend

786

01:37:24.720 --> 01:37:30.510

Village of Parish: Yes. Okay, always come back to me like it will be for whatever you can speak off.

787

01:37:32.070 --> 01:37:33.690

Village of Parish: I think we need a little research.

788

01:37:36.210 --> 01:37:38.520

Village of Parish: Sooner rather than later, because I tried to break ground.

789

01:37:42.240 --> 01:37:46.020

Village of Parish: To. I mean, hopefully we get some answers from the beasts, a touch.

790

01:37:47.220 --> 01:37:48.120

Village of Parish: Point. Yeah.

791

01:37:49.980 --> 01:38:00.930

Village of Parish: Prayer for yeah everybody at all, because I know the DC on the last test results of their yeah I think I really should get it first before we, you know,

792

01:38:03.330 --> 01:38:05.610

Village of Parish: And you don't think anything reach over to the property.

793

01:38:07.650 --> 01:38:18.270

Village of Parish: Never know I wouldn't say yes or no. But if there was any leaking to be done. I think that thing closed around 6061 and area.

794

01:38:19.230 --> 01:38:32.460

Village of Parish: I'm not too concerned about it. Honestly, you're probably higher than this property we yeah on a branch kind of my original back down into a swamp going towards 36

795

01:38:34.980 --> 01:38:41.910

Village of Parish: I grew up in some way. Well, I think we got to talk to the BBC first because

796

01:38:43.980 --> 01:38:49.260

Village of Parish: I got an email for address first guys there. So I don't know if that was the

797

01:38:50.490 --> 01:38:53.940

Village of Parish: Direct information, but I'm waiting for him to at least respond and put us to the

798

01:38:55.410 --> 01:39:00.120

Village of Parish: End like any other people out there on like the space that are sticking up for

799

01:39:01.410 --> 01:39:05.700

Village of Parish: You can contact the regional office and Syracuse like

800

01:39:07.980 --> 01:39:11.310

Village of Parish: This where the people. The people that did the drilling work and

801

01:39:12.840 --> 01:39:20.610

Village of Parish: And I think they were fired by sure right now. I would contact the regional director by talk to the guy one day you just started

802

01:39:22.080 --> 01:39:24.330

Village of Parish: You want this back on us.

803

01:39:25.980 --> 01:39:26.460

Village of Parish: You want

804

01:39:27.900 --> 01:39:30.630

Village of Parish: Yes, please. Sorry.

805

01:39:37.980 --> 01:39:38.220

Village of Parish: Right.

806

01:39:40.230 --> 01:39:43.050

I'll see if I can get anywhere. He seems

807

01:39:45.450 --> 01:39:47.220

Village of Parish: To really have a folder.

808

01:39:52.620 --> 01:39:55.710

Village of Parish: On the door of their we need to know what is this cause.

809

01:39:57.270 --> 01:40:02.760

Village of Parish: Variation well there's that all you need to disclose that you don't like.

810

01:40:04.200 --> 01:40:06.030

Village of Parish: Damn DC website.

811

01:40:07.230 --> 01:40:08.550

Village of Parish: To look at the property itself.

812

01:40:09.900 --> 01:40:15.780

Village of Parish: Yeah. Hey Mark out other old and whether the PC as cold as

813

01:40:16.860 --> 01:40:17.400

Village of Parish: Anything.

814

01:40:19.050 --> 01:40:24.270

Village of Parish: So if you want a website and they have like a bodybuilding show one

815

01:40:26.160 --> 01:40:30.780

Village of Parish: And I would go and they might have integration on that as well for a day every two

816

01:40:36.390 --> 01:40:37.560

Village of Parish: Years and it's done.

817

01:40:39.720 --> 01:40:40.590

Village of Parish: They didn't give us any

818

01:40:42.330 --> 01:40:42.660

No.

819

01:40:45.960 --> 01:40:46.290

Village of Parish: Holding

820

01:40:48.780 --> 01:40:52.800

Village of Parish: Yeah, well, they wanted somebody down there. I went down there for

821

01:40:55.350 --> 01:40:58.980

Village of Parish: Talk to the guy. If I do be down Heidi ages.

822

01:41:00.240 --> 01:41:01.080

Village of Parish: They should offer

823

01:41:02.640 --> 01:41:03.360

Village of Parish: Parents route.

824

01:41:08.550 --> 01:41:21.960

Village of Parish: Right, there's no guarantee with this evening. I always expect the worst variance yeah that's that's great if you don't expect it. Yeah, no.

825

01:41:24.210 --> 01:41:29.730

Village of Parish: No way would be lot of cow apparently that are holding that back, which I believe

826

01:41:33.270 --> 01:41:34.530

Village of Parish: She was like three grand

827

01:41:41.610 --> 01:41:42.450

20 grand something

828

01:41:44.460 --> 01:41:45.120

Village of Parish: Is it that

829

01:41:46.200 --> 01:41:46.830

Village of Parish: When the girls.

830

01:41:52.260 --> 01:41:59.280

Village of Parish: And I called I loved it. And then so on the basketball court number and very big folder today.

831

01:42:01.230 --> 01:42:01.800

Village of Parish: Are you

832

01:42:03.570 --> 01:42:05.790

Village of Parish: Okay, anything else.

833

01:42:08.790 --> 01:42:10.950

Village of Parish: Thank you. Thank you for coming in.

834

01:42:12.300 --> 01:42:15.270

Village of Parish: Right continuous thing has any more questions.

835

01:42:19.560 --> 01:42:19.920

Village of Parish: Okay.

836

01:42:20.970 --> 01:42:21.660

Village of Parish: Factor so

837

01:42:24.210 --> 01:42:31.080

Village of Parish: Looking at the World private essentially maybe again.  
I GUESS YOU GET A VERY tunnel regarding the

838

01:42:32.130 --> 01:42:43.770

Village of Parish: Status and winner happening, and she points. If you  
have any questions to get in touch with that will began to build their  
new school. Oh, yes.

839

01:42:54.390 --> 01:42:54.690

Village of Parish: Oh,

840

01:42:57.150 --> 01:42:58.110

Village of Parish: And the dialogues.

841

01:42:59.160 --> 01:43:03.750

Village of Parish: And tomorrow night reading through the soundboard is a  
zoom meeting so

842

01:43:04.890 --> 01:43:05.820

You mentioned as well.

843

01:43:14.010 --> 01:43:14.280

Keep

844

01:43:18.180 --> 01:43:19.200

Village of Parish: The next two weeks.

845

01:43:20.760 --> 01:43:25.680

Village of Parish: Alright, so that's all I know is what's included in  
that packet from Kerry.

846

01:43:28.140 --> 01:43:32.070

Village of Parish: See which ones are going to spin out of the plant.

847

01:43:34.140 --> 01:43:40.620

Village of Parish: Suggestions. Why don't we get a chance to to get that  
stuff. Yeah, I figured. We get a dumpster.

848

01:43:41.910 --> 01:43:53.550

Village of Parish: Everything we get down to that right out of there and we get to sign a little plastic, the one, one thing that signal over my template to cover the gravel in there.

849

01:43:55.200 --> 01:43:56.220

Village of Parish: And they said,

850

01:43:57.540 --> 01:43:57.930

Village of Parish: No.

851

01:43:58.950 --> 01:44:01.860

Village of Parish: No, no they didn't using just a regular

852

01:44:03.480 --> 01:44:03.780

Village of Parish: Car

853

01:44:05.160 --> 01:44:10.740

Village of Parish: Well, if you get a small dumpster for the later. Okay. No, no, no, I'll see what size.

854

01:44:13.140 --> 01:44:13.380

Village of Parish: It.

855

01:44:14.730 --> 01:44:15.210

Village of Parish: For

856

01:44:16.860 --> 01:44:23.340

Village of Parish: 499 you see what the cost. Yeah, just take it to the town cleanup.

857

01:44:26.850 --> 01:44:28.680

Village of Parish: Volunteering your time from now.

858

01:44:30.090 --> 01:44:30.930

Village of Parish: I was just saying

859

01:44:35.160 --> 01:44:37.230

Village of Parish: Pick it up. That's what we're gonna do.

860

01:44:39.630 --> 01:44:44.820

Village of Parish: But, you know, I'm not gonna pick it up into a trailer, bring it down there. You guys don't have to

861

01:44:46.260 --> 01:44:46.680

Village of Parish: You know,

862

01:44:47.970 --> 01:44:48.990

Village of Parish: Throw it into

863

01:44:50.580 --> 01:44:53.280

Village of Parish: The desktop awful lot of time wasted in

864

01:44:57.750 --> 01:44:59.490

Village of Parish: This list of names. Yes.

865

01:45:02.520 --> 01:45:07.770

Village of Parish: I'm gonna hold off on it if I got somebody who might decide to put a bit

866

01:45:10.050 --> 01:45:10.950

Village of Parish: Longer on the board.

867

01:45:13.530 --> 01:45:15.840

Village of Parish: I might want to do so I can

868

01:45:17.070 --> 01:45:19.230

Village of Parish: Figure I figured once a week.

869

01:45:20.310 --> 01:45:21.150

Village of Parish: Hundred bucks a week.

870

01:45:22.500 --> 01:45:23.190

Village of Parish: I'll make my kids.

871

01:45:26.850 --> 01:45:30.060

Village of Parish: My kids. My kids do for free. You kidding me.

872

01:45:31.230 --> 01:45:32.250

Village of Parish: Perfect. Sure.

873

01:45:33.420 --> 01:45:35.100

Village of Parish: That's the nice thing about the over

874

01:45:38.760 --> 01:45:39.540

Village of Parish: Yeah, well, you know,

875

01:45:40.830 --> 01:45:42.360

Village of Parish: There's a bigger bottle, guys.

876

01:45:43.620 --> 01:45:49.500

Village of Parish: Teaching lesson. So I TAKEN, MR pig Kimmy is not moving down there anymore. No way. I took it.

877

01:45:49.860 --> 01:45:57.120

Village of Parish: With the board and please directing to turn in a time sheets and get paid for what he has done because he has that turned him, and yet when we don't get

878

01:45:57.630 --> 01:46:05.490

Village of Parish: We don't get paid what you're going to get paid you city a month. Okay. Then he didn't. I don't want to my doorstep. At the end of the year saying I want my money.

879

01:46:07.740 --> 01:46:08.910

Village of Parish: On alright

880

01:46:09.990 --> 01:46:14.160

Village of Parish: Hope is 19 safety plan has been completed functional on

881

01:46:15.210 --> 01:46:16.950

Village of Parish: Board, so you don't feel safe.

882

01:46:18.810 --> 01:46:19.800

Village of Parish: Distance so

883

01:46:21.540 --> 01:46:21.870

Village of Parish: Here we

884

01:46:25.950 --> 01:46:31.170

Village of Parish: Go, ah, and Mr. Coleman Creamery mobile unit Street Church Street.

885

01:46:32.370 --> 01:46:44.460

Village of Parish: We're waiting for information back from West Monroe, they were going to the system. This, however, they said that grid because the tree branches and stuff are attained with the grid wires.

886

01:46:45.720 --> 01:46:47.580

Village of Parish: They're waiting or respect to the grid.

887

01:46:52.980 --> 01:46:55.590

Do or what needs to be done there.

888

01:46:57.030 --> 01:47:06.930

Village of Parish: You continue to stand there with a big green go down with a sledgehammer it a couple times because the devil is gonna fall right find myself.

889

01:47:08.730 --> 01:47:11.100

Village of Parish: Right wrong works to kind of completed.

890

01:47:13.620 --> 01:47:28.560

Village of Parish: Wait, I am waiting to submit it to trip chips. We have 26,000 available. The project was 13 113 thousand 100 and I have to use paid me or

891

01:47:29.640 --> 01:47:32.820

Village of Parish: Of the 2000 there and then whatever remains from that.

892

01:47:36.690 --> 01:47:37.530

Village of Parish: Comes up chips.

893

01:47:38.580 --> 01:47:47.460

Village of Parish: So, but they're not taking any think I sent them and what to do data analysis and chips people about has been postponed.

894

01:47:48.870 --> 01:47:50.430

Village of Parish: Begin to open up and

895

01:47:52.230 --> 01:48:04.980

Village of Parish: Harassment discrimination training webinar series are done in house. Jackie, did the theory did a session for those that hadn't completed 2019 and then

896

01:48:06.480 --> 01:48:07.710

Village of Parish: Again do one in the fall.

897

01:48:12.660 --> 01:48:15.360

Village of Parish: Very sexually harass you during that meeting.

898

01:48:16.380 --> 01:48:17.070

Village of Parish: You can come to

899

01:48:18.090 --> 01:48:19.080

Village of Parish: This election.

900

01:48:21.690 --> 01:48:32.790

Village of Parish: archive files updated Jackie was working on that. And we had the solution last week of the new format with the archives record keeping and so on.

901

01:48:34.830 --> 01:48:40.830

Village of Parish: IOS iOS of the new the new records management because it's coming out, you guys to care that

902

01:48:42.060 --> 01:48:50.790

Village of Parish: The Roseland retention, the records retention new book that's coming out. What about you guys took care of that. And right I made the resolution of

903

01:48:52.950 --> 01:48:53.700

Village of Parish: Okay, well,

904

01:48:55.290 --> 01:49:00.780

Village of Parish: I'm anything for other business yeah yes charger me

905

01:49:02.100 --> 01:49:13.080

Village of Parish: The annual report has been filed it was on time. I did not require an extension, I think, is the third year I had to do not have to do that. Yay. So about 925 on Saturday morning, or vice versa. Got file.

906

01:49:14.910 --> 01:49:20.580

Village of Parish: For those of you that are interested. The comptroller's office has released the

907

01:49:21.840 --> 01:49:33.270

Village of Parish: Village of parish 2019 fiscal stress report is based on the 2019 annual report. So I have a copy back in the office, along with the manual on how to read it.

908

01:49:34.980 --> 01:49:47.880

Village of Parish: Basically the short term, it's, there's a lot of ice, I reviewed the mayor days ago. Um, basically we are doing way much better than the town. We are not susceptible to stress.

909

01:49:49.080 --> 01:49:50.490

Village of Parish: And you find it physical stress.

910

01:49:52.920 --> 01:50:06.660

Village of Parish: Some things we have the financial part we have direct control over on how we get the money, right, the part that we have no control over is the environmental which is we're sort of we're suffering a decrease in population.

911

01:50:07.710 --> 01:50:15.660

Village of Parish: The industry in which I hope you guys don't look at that. This is not his people, but the ones, looking at the funding sources for median household income.

912

01:50:16.350 --> 01:50:25.770

Village of Parish: Or me and possibly come to the gym based the net 30 on the backup the environmental factors that go into this financial physical stress report come from.

913

01:50:27.390 --> 01:50:31.860

Village of Parish: Department of Health Bureau of Labor Statistics US Census Bureau.

914

01:50:33.810 --> 01:50:41.520

Village of Parish: Or some other state or federal agency, but then so but that shows our median household income was 63 and some change.

915

01:50:42.960 --> 01:50:54.540

Village of Parish: Something I WILL THEY DON'T LOOK AT financial physical stress before as far as support it will be worth 45 when we do our household income serving all American. American phone surveys or Sunday information comes from

916

01:50:56.460 --> 01:51:04.680

Village of Parish: So I've got that both the manual and the report in the office famous, take a look at a time. The 2020 version obviously won't be out until next year.

917

01:51:06.720 --> 01:51:08.580

Village of Parish: So good, and

918

01:51:09.930 --> 01:51:12.210

Village of Parish: If you guys noticed there was

919

01:51:14.880 --> 01:51:17.790

Village of Parish: This is the month that are AFC payment is do

920

01:51:18.810 --> 01:51:31.830

Village of Parish: We already by hand carried it down to the post office today and got the damn hand stamp. So without the door. The reason it was split between two funds is the cause the sewer debt service reserve fund, which we've been using to pay our debt bills.

921

01:51:32.940 --> 01:51:40.710

Village of Parish: Is shortening is getting less and less and less and less. So what I did was I took enough out of time to pay

922

01:51:41.550 --> 01:51:59.580

Village of Parish: A chunk of the Fc money and then took the rest of it out of our sewer budget, where we are already obligated for anyway. So in December, we will have another interest interest payment due for keeping that should effectively do away with this word services are preserved fun. Okay.

923

01:52:02.820 --> 01:52:03.690

Village of Parish: So, and

924

01:52:06.030 --> 01:52:20.430

Village of Parish: And oh, and on my human court tennis it totally my fault. I screwed up at the end of last fiscal year I forgotten cans for me for some of our friends. However, I did it in the month of June. And I realized I made my mistake. Oh.

925

01:52:24.300 --> 01:52:24.930

Village of Parish: Yes.

926

01:52:28.440 --> 01:52:38.220

Village of Parish: Okay. So on my report here basically says, Here's what we had in May. Here's what we had in June. Here's what we increases or decreases. Right. So, I'm sorry, my last time.

927

01:52:40.560 --> 01:52:48.960

Village of Parish: So, the ones that I forgot to transfer money into what the audit reserve. So I took that out of our general savings to get over

928

01:52:50.520 --> 01:52:55.920

Village of Parish: For five I think 5000 5000 we got 71 sensitive somewhere, I guess.

929

01:52:57.390 --> 01:52:58.050

Village of Parish: The

930

01:52:59.130 --> 01:53:06.360

Village of Parish: Wastewater future systems upgrade account I transferred the 3065 out of that from our sewer saved into that fun

931

01:53:07.650 --> 01:53:15.330

Village of Parish: The only thing I could not effect a change on was the that one CD that we have there.

932

01:53:16.530 --> 01:53:17.310

Village of Parish: In

933

01:53:18.450 --> 01:53:35.820

Village of Parish: The future systems upgrading count. That's the CD that I can like change that in May. So my intention is in May of this next year, next year, make sure to take some out of savings for what we would then last year and take the regular budgetary amount out. So as you bring that okay

934

01:53:38.280 --> 01:53:39.720

Village of Parish: Cool, yeah.

935

01:53:41.190 --> 01:53:48.450

Village of Parish: I don't know, like I said, I filed a report killed his office upon blogging with some questions in December. That's about when they share what

936

01:53:49.860 --> 01:53:54.660

Village of Parish: They used to show up in March, but they'll show up in December, where they haven't been

937

01:53:57.540 --> 01:53:57.720

Village of Parish: You

938

01:53:59.400 --> 01:53:59.640

Village of Parish: Know,

939

01:54:01.080 --> 01:54:05.250

Village of Parish: I had a question we had discussed the Buddha's property and there were no links.

940

01:54:07.500 --> 01:54:09.180

Village of Parish: no record of any liens or

941

01:54:11.070 --> 01:54:12.090

Village of Parish: Works right

942

01:54:13.470 --> 01:54:15.510

Village of Parish: I thought that's where we're at. I just

943

01:54:18.000 --> 01:54:18.720

Village of Parish: rechecked

944

01:54:20.190 --> 01:54:28.830

Village of Parish: Check them to the property name check every variation. But I think the discussion was that he was going to. And it never happened. I guess did it so

945

01:54:34.470 --> 01:54:37.350

Village of Parish: We're going to put a bit of chicken. I know.

946

01:54:38.760 --> 01:54:39.540

Village of Parish: How the results.

947

01:54:42.300 --> 01:54:49.380

Village of Parish: All right, new business to do to cross. What I'm saying you can't marketing destinations. I talked to somebody from the beauty of

948

01:54:51.780 --> 01:54:56.520

Village of Parish: Our last meeting and like I said they needed Caribbean curbing and all that.

949

01:54:57.630 --> 01:55:07.470

Village of Parish: And I don't understand it, understand that because people cursing and then they go from where they put the handicap a crash the Connecticut.

950

01:55:08.820 --> 01:55:12.270

Village of Parish: And I don't understand the logic and anyways.

951

01:55:15.870 --> 01:55:18.870

Village of Parish: Well, they put water is true when they agreed to the road, they're going to

952

01:55:21.690 --> 01:55:22.890

Village of Parish: Get a request from

953

01:55:24.000 --> 01:55:30.540

Village of Parish: Fire Department for a no parking sign for pizza place at a certain distance back from the corner so that

954

01:55:33.120 --> 01:55:39.960

Village of Parish: Was right on on every corner there anymore. No, not the one of the teachers, your father took it down.

955

01:55:41.460 --> 01:55:44.460

Village of Parish: snowball took it down. It's not there now so

956

01:55:45.570 --> 01:55:47.340

Village of Parish: Now this one I made for

957

01:55:48.990 --> 01:55:50.610

Village of Parish: One in there still there and

958

01:55:52.170 --> 01:56:00.240

Village of Parish: The only reason I brought up as a resident because obviously the fire company responding to an MBA over the weekend with no injuries, but it was

959

01:56:00.930 --> 01:56:05.730

Village of Parish: Called his personal injury home or personal damage property damage only but

960

01:56:06.660 --> 01:56:13.350

Village of Parish: Because when we come back from a call the chief goes a certain way to get back to the station. Is he like he has ever seen before we do, so we were in the squad.

961

01:56:13.950 --> 01:56:18.570

Village of Parish: Saturday, and he saw something didn't quite look right on 4.0 so you went down investigated.

962

01:56:19.080 --> 01:56:31.590

Village of Parish: And I could hear him calling the radio asking dispatch if they have anything for an MBA in on four corners. Nick despair said no property damage only, but they didn't did not indicate this race. They were blocking the intersection

963

01:56:33.240 --> 01:56:48.750

Village of Parish: So we noticed that we think there's a there's a note there they're used. There's a no parking here to corner sign on South Street. There's one by the laundromat, the insurance company. The North Wales, but there's not on the pizza shop side. Nothing on so

964

01:56:51.870 --> 01:56:55.230

Village of Parish: Yeah, I'm out. I'm not sure on the north.

965

01:56:58.590 --> 01:57:10.200

Village of Parish: Main Street here. Yeah, either one on the left hand side by the insurance company. Yeah, definitely insurance company a lot about. There was one yeah okay yeah and one on this side to buy pizza.

966

01:57:11.310 --> 01:57:16.170

Village of Parish: No, no, no. You're talking about the same size of the pizza shops are you talking to young

967

01:57:18.510 --> 01:57:19.710

Village of Parish: Yes, it is.

968

01:57:21.660 --> 01:57:32.430

Village of Parish: Yeah, this is no parking. You're here to the corner with an arrow there. It's not there used to be. Yeah, it's, I don't know what those two are gone. One is gone, for sure.

969

01:57:33.450 --> 01:57:34.950

OK. OK.

970

01:57:36.780 --> 01:57:37.530

Ok now.

971

01:57:39.270 --> 01:57:52.770

Village of Parish: Because literally I say there was from a pizza shop front door parallel with off roading that stand the shoulder. There was a large pickup truck and about four cars behind it. So this males are had no way to see what was coming down the road when

972

01:57:53.910 --> 01:57:54.240

Village of Parish: Team.

973

01:57:58.230 --> 01:58:02.730

Village of Parish: Alright, we talked about the bangle road property and discuss it.

974

01:58:04.710 --> 01:58:19.200

Village of Parish: Wastewater treatment. No one path resolution. That's what we were discussing and then the chips money I will submit that and hopefully we'll get reimbursed for

975

01:58:20.490 --> 01:58:22.350

Village of Parish: That money shouldn't be a problem.

976

01:58:23.400 --> 01:58:23.790

Village of Parish: Eating

977

01:58:25.290 --> 01:58:25.860

Chips.

978

01:58:29.280 --> 01:58:41.760

Village of Parish: Chips last day last day to check and be written is Wednesday, August 26 the paperwork to do in the office by September 4 and the late payment date is expected of them about

979

01:58:45.360 --> 01:58:51.930

Village of Parish: We will see what happens with them and anything else for new business. Wait.

980

01:58:56.610 --> 01:58:56.880

Village of Parish: 30

981

01:58:57.990 --> 01:59:14.700

Village of Parish: Days to remember our community cleanup, yard sales this weekend, the 22nd, 23rd coming up next weekend and the town will be organizing that hopefully and our village elections September 15 this late date for March.

982

01:59:16.050 --> 01:59:17.700

Village of Parish: And because of the

983

01:59:18.810 --> 01:59:25.080

Village of Parish: Iteration the tember 20 10th is the joint board meeting, and the village mentality.

984

01:59:25.710 --> 01:59:45.030

Village of Parish: And I think that should be probably relatively straightforward. I don't know much on the agenda, there's a number 16 and monthly meeting and when reunited quarterly. All right, to be paying general find doctors 3040 to 50 and the last \$20,310 and 84 cents. So like

985

01:59:46.320 --> 01:59:46.680

Village of Parish: I said,

986

01:59:51.630 --> 01:59:56.250

Village of Parish: 25 to 35 \$20,992 and

987

01:59:57.450 --> 01:59:58.230

Village of Parish: Emotion. Okay.

988

02:00:03.720 --> 02:00:07.560

Village of Parish: bunker to anyone and \$15,144

989

02:00:09.180 --> 02:00:09.990

Village of Parish: Will make a motion.

990

02:00:13.080 --> 02:00:13.260

Village of Parish: To

991

02:00:14.370 --> 02:00:17.640

Village of Parish: Me that gives me a second. I did.

992

02:00:19.140 --> 02:00:37.980

Village of Parish: That was 5144 \$3,159

993  
02:00:43.950 --> 02:00:45.750  
Village of Parish: Or have a special meeting later.

994  
02:00:48.030 --> 02:00:48.480  
Village of Parish: Tonight.

995  
02:00:55.470 --> 02:00:56.430  
Village of Parish: I'm making emotionally

996  
02:00:59.880 --> 02:01:02.430  
Village of Parish: Seconds. No, no less real there.

997  
02:01:04.650 --> 02:01:05.190  
Village of Parish: Okay.

998  
02:01:13.680 --> 02:01:14.010  
Village of Parish: Okay.

999  
02:01:19.800 --> 02:01:20.280  
Village of Parish: Session.

1000  
02:01:28.560 --> 02:01:29.010  
Village of Parish: Day.

1001  
02:01:34.350 --> 02:01:34.590  
Village of Parish: There's

1002  
02:01:37.890 --> 02:01:38.400  
Village of Parish: Nobody

1003  
02:01:48.720 --> 02:01:49.290  
Village of Parish: No problem.

1004  
02:01:51.390 --> 02:01:52.710  
Village of Parish: You're gonna have a special meeting.

1005  
02:01:53.790 --> 02:01:56.700  
Village of Parish: Us. You know, like to report on the idea

1006  
02:01:59.790 --> 02:02:02.310

Village of Parish: Let me know, okay, and

1007

02:02:04.500 --> 02:02:06.450

Village of Parish: We might we might not, you know, if it's like
