

Note: These are not minutes. What follows is the output of automated transcription from an audio/video recording from Zoom. Although the transcription is fairly accurate, in some cases it is incomplete or inaccurate due to inaudible passages or transcription errors, and in some cases, words spoken by one participant may be inaccurately attributed to another. It is posted as an aid to understanding the proceedings at the meeting, but should not be treated as an authoritative record. If you should need clarification on something said and cannot hear it, please contact the village clerk.

1

00:00:04.259 --> 00:00:05.609

Village of Parish: there's gonna be doing the zooming.

2

00:00:13.380 --> 00:00:13.950

Village of Parish: He couldn't.

3

00:00:18.720 --> 00:00:19.950

Village of Parish: He could come.

4

00:00:21.060 --> 00:00:26.400

Village of Parish: and his buddy's gonna finish schedule that's my son without the cancer.

5

00:00:27.510 --> 00:00:30.900

Village of Parish: is alive so it's closer if I just come here.

6

00:00:32.220 --> 00:00:34.500

Village of Parish: My go to Mexico Mexico.

7

00:01:13.980 --> 00:01:14.460

construction.

8

00:01:24.180 --> 00:01:25.020

Village of Parish: Otherwise, you might be.

9

00:01:31.980 --> 00:01:49.980

Village of Parish: 6464 69.

10

00:01:51.570 --> 00:01:52.650

Village of Parish: I just take this door.

11

00:02:44.310 --> 00:02:44.580

Village of Parish: yep.

12

00:02:46.860 --> 00:02:49.890

Village of Parish: And then email, I sent you on Wednesday.

13

00:02:50.940 --> 00:03:01.200

Village of Parish: Yes, as it was for MACs and iphones, and all this other this is where I send it to you, you think I can just get it on my computer with you should be.

14

00:03:03.750 --> 00:03:04.350

Village of Parish: able to time.

15

00:03:18.570 --> 00:03:21.600

Village of Parish: yeah everything sounds vaguely familiar.

16

00:03:23.370 --> 00:03:24.330

Village of Parish: jump on my desk.

17

00:03:27.030 --> 00:03:28.830

Village of Parish: Maybe maybe run up some.

18

00:03:30.060 --> 00:03:31.950

Village of Parish: Time here, maybe I can watch it with you and.

19

00:03:33.870 --> 00:03:40.530

Village of Parish: If there's any other problems have been there to help sounds good, and I didn't bring my webcam and put it into.

20

00:03:41.880 --> 00:03:44.970

Village of Parish: test, no one can like that oh.

21

00:03:46.230 --> 00:03:48.480

Village of Parish: Really yeah wow that's all it is.

22

00:03:50.070 --> 00:03:56.370

Village of Parish: Nothing, then you gotta tell the program to work with it that's nothing now when you put tell the program to do.

23

00:03:56.790 --> 00:04:09.690

Village of Parish: Individual program or, can you tell the computer to do it, so that when the computer or recognize that if you do webcam for other purposes, most people primary reason for what can this transition to zoom meeting or or.

24

00:04:11.430 --> 00:04:14.130

Village of Parish: To the webinar program is used to go on.

25

00:04:18.270 --> 00:04:18.630

Village of Parish: yeah.

26

00:04:24.900 --> 00:04:27.480

Village of Parish: I think I left that paper on the surface, the table.

27

00:04:29.280 --> 00:04:31.650

Village of Parish: If you like truck enough for the same meeting.

28

00:04:32.850 --> 00:05:25.980

Village of Parish: Wednesday 1130.

29

00:08:38.310 --> 00:08:39.510

Ken Scherrieble: The village is muted.

30

00:09:20.220 --> 00:09:21.210

Village of Parish: Well, as the general.

31

00:09:26.490 --> 00:09:26.910

Village of Parish: store.

32

00:09:28.170 --> 00:09:28.710

Village of Parish: introduced.

33

00:09:32.850 --> 00:09:34.200

Village of Parish: The same for.

34

00:09:36.600 --> 00:09:38.580

Village of Parish: Our new project.

35

00:09:39.630 --> 00:09:40.590

Village of Parish: And wastewater treatment.

36

00:09:42.840 --> 00:09:54.840

Village of Parish: Is there was one there one there one at the end and I put one there, though she's not on the table, you don't okay I don't see it so he's looking for his coffee.

37

00:10:00.810 --> 00:10:02.490

Village of Parish: there's no okay.

38

00:10:05.490 --> 00:10:11.130

Village of Parish: And the other question is whether you want to meet next Monday, no, no.

39

00:10:13.980 --> 00:10:18.570

Village of Parish: Here all right, he says, you know, we had to do something with his daughter because it's a birthday.

40

00:10:19.680 --> 00:10:21.630

Village of Parish: birthday birthday so.

41

00:10:24.780 --> 00:10:26.310

Village of Parish: You know and.

42

00:10:28.860 --> 00:10:33.690

Village of Parish: You won't be here the 22nd because it's planning correct well, we can air.

43

00:10:36.750 --> 00:10:41.310

Village of Parish: I don't just let me know hey Jackie you're okay all right.

44

00:10:46.080 --> 00:10:46.710

Gentlemen.

45

00:10:50.820 --> 00:10:51.630

Village of Parish: These are you know.

46

00:10:54.690 --> 00:10:56.820

Village of Parish: This year, all right well you know with us.

47

00:10:58.110 --> 00:11:11.910

Village of Parish: We had some inquiries from last week and we were talking about the sewer plant in terms of or No two weeks ago of what's happening and what's going to be rare and tanks etc so.

48

00:11:13.170 --> 00:11:23.670

Village of Parish: that's why he is with us, and he has to go to a meeting so do him first yeah for this things that we want to get a grasp and questions we need answers to what.

49

00:11:24.960 --> 00:11:27.390

Village of Parish: he's planning to provide a quick update to the board and.

50

00:11:28.470 --> 00:11:29.760

Village of Parish: Then I can answer the questions.

51

00:11:33.120 --> 00:11:33.750

project of.

52

00:11:37.170 --> 00:11:39.480

Village of Parish: This one for all the.

53

00:11:42.630 --> 00:11:43.440

Village of Parish: New part.

54

00:11:44.760 --> 00:11:49.980

Village of Parish: yeah yeah so Essentially, this is just an update on where we're at with the funding for the project.

55

00:11:52.170 --> 00:11:52.800

Village of Parish: I can.

56

00:11:53.850 --> 00:11:54.930

Ken Scherrieble: I america's.

57

00:11:56.010 --> 00:11:57.510

Ken Scherrieble: hi everyone I got out of bed.

58

00:12:04.050 --> 00:12:04.410

Ken Scherrieble: A written.

59

00:12:06.690 --> 00:12:09.510

Village of Parish: Report yeah I like.

60

00:12:10.560 --> 00:12:16.980

Village of Parish: It was it was nice things in their shoulder what it looks like now, I was going to look like when it gets finished her.

61

00:12:21.030 --> 00:12:22.830

Village of Parish: Good good i'm glad you're happy with.

62

00:12:25.350 --> 00:12:33.450

Village of Parish: The only thing was was the bed yeah the grain that look like going to use one day or that for something.

63

00:12:39.270 --> 00:12:49.740

Village of Parish: So, just a quick update so not not much of this information has changed since I spoke to you folks I think back in December, but i'll just go through it again quick, just so everybody's on the same page.

64

00:12:50.490 --> 00:13:02.400

Village of Parish: So for the wastewater treatment plant improvements project which is everything that's identified in that report we submitted application to the New York state environmental facilities corporation in September of last year.

65

00:13:03.780 --> 00:13:25.320

Village of Parish: The engineer report was approved by the Agency, which is good project was listed on what's called their intended use plan so that's good that means the project application was complete arm, however, unfortunately, due to various factors, the project didn't score high enough for this round.

66

00:13:26.580 --> 00:13:35.610

Village of Parish: So our project score was 34 the funding line for funding for your Community was was 45 points so.

67

00:13:36.960 --> 00:13:45.180

Village of Parish: These projects are scored you know, based on various factors this year is obviously tough that funding line is really high.

68

00:13:45.870 --> 00:14:08.520

Village of Parish: compared to what we've seen it in the past um you know word on the street is they had limited funds to give out this year you to coven and budget restrictions on and so forth, so the good news is that you know the income survey was accepted I FC so that's good for five years.

69

00:14:09.990 --> 00:14:15.150

Village of Parish: From the day it was completed, which was may 2017.

70

00:14:16.170 --> 00:14:20.250

Village of Parish: So it's good for another till 2022.

71

00:14:21.870 --> 00:14:25.890

Village of Parish: So it is what it is, but at least they accepted it so.

72

00:14:26.970 --> 00:14:27.840

Village of Parish: that's good news.

73

00:14:29.190 --> 00:14:42.360

Village of Parish: All the project will always be listed on the intended use plan unless for some reason the village decides to withdraw your application so there's really nothing further we need to do at this point, other than submit.

74

00:14:43.560 --> 00:14:46.200

Village of Parish: subscribe subsequent information, you know if there's.

75

00:14:47.400 --> 00:14:56.970

Village of Parish: Anything else that's going to help the project funding application, you know, eventually, you know the plan gets put on her a formal consent or.

76

00:14:57.570 --> 00:15:08.130

Village of Parish: Or you know any any other documentation is going to help we can obviously we can update the application with that to try to increase your score for the project so.

77

00:15:08.760 --> 00:15:16.830

Village of Parish: The funding line and the funding line gets adjusted every year, so Fortunately, the state program is a once a year shot.

78

00:15:17.250 --> 00:15:29.490

Village of Parish: So we're not gonna know probably until the end of this year again, where the project stands with the seat program as far as whether or not it's going to get funded for next year okay now because we're in the line.

79

00:15:32.340 --> 00:15:51.480

Village of Parish: And been approved, and then it comes into 22 or longer, is it not this How does that affect with our funding in our in our survey anytime survey we're still qualify so as long as long as the project is funded before your income survey expires, then you're good.

80

00:15:52.560 --> 00:16:04.020

Village of Parish: If we get to a point where your income survey has expired, will have to evaluate at that point in time, what we want, when does it expire I believe may of 2022.

81

00:16:06.180 --> 00:16:06.870

Village of Parish: At the end of our.

82

00:16:08.340 --> 00:16:16.200

Village of Parish: rebranding out we've got one more year and then and then we're going to have probably have to reevaluate because my guess based on what i'm hearing.

83

00:16:16.740 --> 00:16:34.770

Village of Parish: Is that the villages median household income is still pretty high based on the census Bureau so you know that's going to knock you out of that that you know what that low median household income category, so we may have we may have to do another one.

84

00:16:37.200 --> 00:16:42.420

Village of Parish: So we'll we'll cross that bridge when we come to bomb the other.

85

00:16:43.560 --> 00:16:51.150

Village of Parish: Good news is that our application with rural development is still pending so that's what.

86

00:16:51.720 --> 00:16:58.260

Village of Parish: mayor i'm working on with avalon so there's some additional things that need to be done, we submitted the application.

87

00:16:58.800 --> 00:17:07.800

Village of Parish: And they sent it back to us there's component, the villages Sam system awards management status needs to be updated.

88

00:17:08.310 --> 00:17:17.010

Village of Parish: Which is that's a federal funding requirement you got to update it every year it's just you go online and update at the problem is that the village has an updated.

89

00:17:17.490 --> 00:17:30.840

Village of Parish: In a number of years, because you haven't had to and so some of the login information that loss so on and so forth, so i'm

working with I was on the phone with them for about half hour this morning with the same Program.

90

00:17:32.220 --> 00:17:43.050

Village of Parish: And I think i've got it figured out what the village needs to do some work with Evelyn on, there is a letter that's going to have to be signed and notarized that sent to them to give.

91

00:17:43.680 --> 00:17:56.250

Village of Parish: avalanche or the mayor, or whoever access to that account, so they can go in there, updated because nobody's nobody's in the system, right now, as a as a village content so.

92

00:17:57.540 --> 00:18:02.550

Village of Parish: So what we'll get that figured out, so the the other big one here, I wanted to talk about is.

93

00:18:03.750 --> 00:18:12.870

Village of Parish: There is another funding opportunity through the Community black development program Community development block or program I always say.

94

00:18:14.010 --> 00:18:27.630

Village of Parish: You know, we played that game before okay so so that program they do have a program for public infrastructure projects Okay, on the application and we had before.

95

00:18:28.770 --> 00:18:34.410

Village of Parish: So the application for this round is due march 5, which is soon.

96

00:18:35.460 --> 00:18:39.660

Village of Parish: And in order for that application to be submitted.

97

00:18:41.250 --> 00:18:48.330

Village of Parish: The village is required to hold a public hearing basically just stating that you intend to submit an application through the Program.

98

00:18:49.440 --> 00:18:58.770

Village of Parish: So we have a couple of options, I know you have a meeting next Wednesday correct, so we would really have to school to try to get.

99

00:19:00.660 --> 00:19:12.720

Village of Parish: The public hearing published it's got to be published studies, I had a public hearing and the paper and so on and so forth, and I don't know, are you able to take actions at this meeting.

100

00:19:13.980 --> 00:19:33.060

Village of Parish: No, no, no okay so so my understanding and we probably want to coordinate with your attorney is, I think you need to pad resolution to schedule that public hearing, so we may it may be pushing it to try to get this application in by March 5.

101

00:19:35.010 --> 00:19:46.860

Village of Parish: The application is cumbersome as lot of information that needs to be submitted sounds like you guys have been through see bbg before for some project right and.

102

00:19:48.330 --> 00:19:56.010

Village of Parish: So that that's an option, so we can we can try to make it work and try to get an application in by March 5 that's going to be a tall task.

103

00:19:56.490 --> 00:20:08.910

Village of Parish: To get them everything that they need, or you know we focus on this application will world development see what they come back with we can always submit it to see bbg at a later date and time so.

104

00:20:10.260 --> 00:20:21.330

Village of Parish: Unfortunately, the CD big announcement came out in January, and you know the program wasn't open for a number of months because of Colvin.

105

00:20:21.900 --> 00:20:35.670

Village of Parish: And you know it's just a short period of time they'll get an application her, I think I got the email late late January, regarding it right like I mentioned last week it don't budget workshops okay i'm interrupted right.

106

00:20:36.690 --> 00:20:47.190

Village of Parish: Do you think it's impossible or anything could we couldn't do what you see here it's an s to be advertised for one week before right one week so would have to go in by Wednesday well actually.

107

00:20:48.360 --> 00:20:58.740

Village of Parish: This Thursday night and Friday right so give it a week and then that last week of February yeah so you'd have to hold so you have to hold a special meeting.

108

00:20:59.220 --> 00:21:09.480

Village of Parish: That would do that will do it no absolutely showed a special meeting on Monday, because we already here alright well as a CEO you got to notice that the public to.

109

00:21:11.970 --> 00:21:22.650

Village of Parish: Your legal notice, we have to say, probably keep special meaning for purposes of conducting public caring for us being a cvt application here yeah you covering two things at once and for.

110

00:21:23.970 --> 00:21:27.450

Village of Parish: Sure, going to give majestic every time.

111

00:21:28.470 --> 00:21:32.160

Village of Parish: We held the public nearing now you got planning on one knee Yes it.

112

00:21:33.360 --> 00:21:40.230

Village of Parish: Does that work if we did a public hearing it will probably be in there or we're really well.

113

00:21:41.460 --> 00:21:46.650

Village of Parish: With this room is not occupied with here if this room is occupied world where there was a more you they're not.

114

00:21:48.510 --> 00:21:55.650

Village of Parish: Just gonna be a game like yeah you want to take that you know they're never be if we're still doing advise him.

115

00:21:56.700 --> 00:21:59.250

Village of Parish: To be possibly myself to chair.

116

00:22:01.140 --> 00:22:06.690

Village of Parish: This is for you know, two meetings on the same boat, place the planning, fair and work here.

117

00:22:09.420 --> 00:22:11.220

Village of Parish: About that I might be able to work that out.

118

00:22:12.960 --> 00:22:24.990

Village of Parish: Because we probably about say we only have a fiber board ourselves well getting I don't and I don't think we have any

problem hearing coming up anyway, so we wouldn't have extra bodies unless something shows up, that is not on the agenda because minute.

119

00:22:26.130 --> 00:22:28.170

So we could kind of play that Monday night.

120

00:22:30.600 --> 00:22:46.770

Village of Parish: So we're going to do the public hearing you just got to make sure that it's specific in that you are planning to submit an application to the CD big public facilities public infrastructure program for the fiscal year 2021.

121

00:22:47.850 --> 00:22:52.530

Village of Parish: that's saying that CG the program in a year Okay, and I have to say, this would assume.

122

00:22:54.360 --> 00:23:00.390

Village of Parish: In ups, you can say it's for wastewater treatment plan upgrade project, I mean that that'll work.

123

00:23:01.590 --> 00:23:18.930

Village of Parish: So just got to make sure that that way, which is in there, I just didn't lock somebody coming in here and think was really know what we're going to yeah alone for the life we all can understand, yes, I know these people he said was for public public infrastructure.

124

00:23:20.400 --> 00:23:23.700

Village of Parish: fiscal year ending you can just say for funding year.

125

00:23:25.980 --> 00:23:28.020

Village of Parish: didn't grab the things going on.

126

00:23:29.130 --> 00:23:37.500

Village of Parish: And it's just that yeah it's strictly that you're submitting a grant application that's all my brains not engaging my game probably infrastructure you're.

127

00:23:39.360 --> 00:23:43.230

Village of Parish: starting a program you're talking to my world.

128

00:23:50.790 --> 00:23:55.410

Village of Parish: Funding Europe this year, I would say funding year 2021.

129

00:24:00.720 --> 00:24:02.760

Village of Parish: Okay, all right um.

130

00:24:04.830 --> 00:24:17.280

Village of Parish: So what i'll need to submit with the application itself is proof of publication so i'll need a copy of that at least a copy of that notice a doubt you'll get the affidavit and times they usually take off.

131

00:24:17.880 --> 00:24:34.170

Village of Parish: In a meeting so on the proof of publication and well, that means they've been out of paper ball yeah let me know what what I would appreciate if somebody from the village would do that because I usually don't care, you know the local.

132

00:24:35.430 --> 00:24:49.230

Village of Parish: The local news, or just make a copy of it, you know, in the state it's clean central camden okay um and then i'll need a copy of the Minutes from the public hearing that was held.

133

00:24:50.310 --> 00:24:58.410

Village of Parish: Very So those are the two things on from that, and then the rest of the stuff all work with the Mayor to there's going to be.

134

00:25:00.390 --> 00:25:15.540

Village of Parish: Application forms that are going to need to be signed for that so we'll prepare it and then will you know work with the Mayor and i'm going to get signed once you sign like I say that's just as submit the application and try to get somebody on.

135

00:25:18.570 --> 00:25:24.000

Village of Parish: on it, I think it's a long shot, but you might as well try, you know, unless you try.

136

00:25:27.750 --> 00:25:34.860

Village of Parish: Okay, and then the only other thing and so there's another program that just came out for.

137

00:25:37.110 --> 00:25:40.770

Village of Parish: Through FC for a planning grant.

138

00:25:41.880 --> 00:25:50.550

Village of Parish: And we submitted an application on the villages behalf to do so this is separate from the wastewater treatment plant.

139

00:25:51.000 --> 00:26:00.930

Village of Parish: Obviously part of your notice a violation was for the collection system infiltration and Info so I know ken's talked about it a number of times you got.

140

00:26:01.380 --> 00:26:13.140

Village of Parish: areas in the collection system that are getting rainwater and inflow groundwater and it's causing you know huge Spikes of flaws that treatment plant during wet weather conditions so.

141

00:26:14.520 --> 00:26:15.600

Village of Parish: This is a study.

142

00:26:16.770 --> 00:26:21.270

Village of Parish: grant for the collection system that we submitted.

143

00:26:22.290 --> 00:26:27.660

Village of Parish: There is a 20% match, so we did a calculator the Max grandma was 100,000.

144

00:26:28.680 --> 00:26:38.760

Village of Parish: don't need that much to do a study of your collection system, so we submitted for logging the thousand which will require a 20% match from the village.

145

00:26:40.320 --> 00:26:54.750

Village of Parish: We send it in you know we'll see what happens if it gets awarded than the all you can make a decision, if you want to pursue it or not fight it's a beating percent you know grant opportunity for tab your collection system what.

146

00:26:55.920 --> 00:27:06.900

Village of Parish: We needed done, at least so I get it right, so you know what saw I actually submitted application this morning it's do it's not do till Friday I said.

147

00:27:08.970 --> 00:27:15.060

Village of Parish: Okay, so that's it for me any questions on the project or funding or.

148

00:27:16.320 --> 00:27:22.650

Village of Parish: Anything along those lines, I think we're doing pretty good yeah like I said I will keep fighting that so I told the mayor, I mean there's.

149

00:27:23.100 --> 00:27:32.160

Village of Parish: will get your money eventually mean the other program that's hopefully coming back this year that they canceled last year is that we have program through the state.

150

00:27:32.820 --> 00:27:40.860

Village of Parish: The good news is is you're on the intended use plants, we can submit an application through that program as well just another program that will look at.

151

00:27:41.700 --> 00:27:53.040

Village of Parish: They haven't made an announcement this year, whether or not they're coming back with it or not, that's a very lucrative program you got it we were successful, with that in 2018 for for a number of other communities and.

152

00:27:53.730 --> 00:28:07.530

Village of Parish: They said, be writing because it's when it comes out there's going to be a lot of people that are going to be fighting for those dollars and when we're writing I mean we're on the rodney intended us playing all we're going to have to do is send the application.

153

00:28:08.760 --> 00:28:10.350

Village of Parish: So I think we're in a good spot.

154

00:28:16.560 --> 00:28:17.820

Village of Parish: Any kind of.

155

00:28:19.950 --> 00:28:28.320

Village of Parish: Information we're waiting for, in terms of funding that is a media that will be getting a neighbor to know I know.

156

00:28:28.830 --> 00:28:39.840

Village of Parish: So, rural development, once we get the application turned back around, if you remember role development as a role program so they so once the application has been completed.

157

00:28:40.620 --> 00:28:50.940

Village of Parish: They will typically have a funding off return around within 45 days, so we got it's good I think it's going to take a couple of weeks for us to get the same registration things squared away.

158

00:28:51.420 --> 00:28:55.890

Village of Parish: Just from past experience it just you're dealing with the Federal Government it's going to take time.

159

00:28:56.520 --> 00:29:08.850

Village of Parish: it'll go offers back down for us to get updated this became a grant for to get structural firefighting here right, I know the tolerating the town of volunteering in the same problem, it took them a month for them to get the same status updated.

160

00:29:11.010 --> 00:29:16.380

Village of Parish: And I was on the whole I was on hold this morning when i'm 45 years already it's like.

161

00:29:18.240 --> 00:29:18.840

Ken Scherrieble: Just like.

162

00:29:19.920 --> 00:29:32.580

Village of Parish: Once we get it, we got to jump through all these hoops are all working from home, and you know again it, you know it is what it is we're we're doing us, we can and will keep fighting and eventually we'll we'll get some money we'll get some more.

163

00:29:36.420 --> 00:29:36.780

Village of Parish: Young.

164

00:29:40.200 --> 00:29:44.550

Village of Parish: Women to stick around for half hour that's up to you if you'd like or whatever.

165

00:29:46.290 --> 00:29:47.010

Village of Parish: I don't think a.

166

00:29:48.900 --> 00:29:51.000

Village of Parish: Little Hello Hello.

167

00:29:52.050 --> 00:29:52.950

Village of Parish: See Jackie.

168

00:29:54.720 --> 00:30:01.890

Village of Parish: engineers to support luminary port town Neil looked at Canada he's gonna take.

169

00:30:03.960 --> 00:30:04.320

Village of Parish: A look.

170

00:30:06.060 --> 00:30:06.270

here.

171

00:30:11.940 --> 00:30:12.510

Village of Parish: alright.

172

00:30:13.830 --> 00:30:25.050

Village of Parish: So thanks for doing that for bringing us up today for where we're at what's happening no okay Kevin from the budget for us here for the.

173

00:30:33.120 --> 00:30:42.180

Village of Parish: yep again this reminder that the the shows are revenues and expenditures as of December 31 2020 because that's, the last thing same type reconcile yes, the newest around my desk right.

174

00:30:44.400 --> 00:30:48.060

Village of Parish: So i'll have updated numbers for next week, but.

175

00:30:49.650 --> 00:30:55.800

Village of Parish: within the next couple of rounds, I should have getting i'll definitely have the bank reconciliation done by the media okay.

176

00:30:59.550 --> 00:31:01.500

Village of Parish: If that landline was muted as.

177

00:31:02.670 --> 00:31:03.000

Village of Parish: well.

178

00:31:04.230 --> 00:31:06.120

Village of Parish: hey crazy, we need a landline.

179

00:31:09.330 --> 00:31:17.670

Ken Scherrieble: Well, yes, because I believe no because now we do our usp owes on the.

180

00:31:18.810 --> 00:31:30.270

Ken Scherrieble: Computer I mean the only reason for landlines if somebody calls us we don't use it, I mean everybody's got a phone nowadays so only if you want to align for people to call the plan, otherwise you can just.

181

00:31:30.720 --> 00:31:35.010

Ken Scherrieble: Direct them to call the village office and there's really no reason to have that landline anymore.

182

00:31:37.740 --> 00:31:41.250

Village of Parish: Thank you, is there an answering machine down there somebody wants to call it.

183

00:31:41.850 --> 00:31:42.780

Ken Scherrieble: Yes, okay.

184

00:31:43.980 --> 00:31:52.950

Ken Scherrieble: yeah, the only thing I gotta check, I just have to check, I may have to take that back, I just have to check with Tom yeah.

185

00:31:53.820 --> 00:32:09.240

Ken Scherrieble: Because I do believe we still have alarm points that utilize the landline to call us out at the plan, but let me double check that because the pump stations are all cellular so i'm not sure about the planets if we've still using the landline for some of those points.

186

00:32:10.320 --> 00:32:11.310

Ken Scherrieble: i'll find that out.

187

00:32:18.240 --> 00:32:19.650

That discussion and content.

188

00:32:21.300 --> 00:32:29.160

Village of Parish: We had a security down there that's adequate for modern day where we're at I mean that that we have a Christ here and hopefully.

189

00:32:31.170 --> 00:32:48.870

Village of Parish: We had the inspectors converting we're going to update our building security and get in direction with the police, do we have to have such a player it's not a bad idea, I can tell you, we didn't include anything for that in the office down there that's, not to say that we can't include.

190

00:32:50.430 --> 00:32:58.620

Village of Parish: You know, some I mean really you know, maybe you want a camera with a team where yeah I mean obviously you wanted to be I think you know.

191

00:32:59.610 --> 00:33:08.760

Village of Parish: You got to gate now, so you know if you maybe you like camera to down there for pulled on the camera you know we can look at that with monitors.

192

00:33:09.210 --> 00:33:17.130

Village of Parish: Right, would be a bad idea, just because you don't know record breaking recording capability I don't care they don't have any down there now today.

193

00:33:18.180 --> 00:33:22.800

Ken Scherrieble: We do have a couple of cameras down there but they're really more for operations.

194

00:33:23.160 --> 00:33:30.900

Ken Scherrieble: i've got some on the flow, so we can look at the flow if we're not on site, and I do have another one in there.

195

00:33:32.160 --> 00:33:45.030

Ken Scherrieble: In case I need to talk to somebody need to show me something but it's not set up like an alarm type system like if somebody walks in I get an alarm it's just we can we can access it, but we probably should have ones with you know.

196

00:33:46.470 --> 00:33:53.310

Ken Scherrieble: If somebody walks in or something we get a you know beat or even have a door alarm or a proximity alarm.

197

00:34:04.740 --> 00:34:18.960

Village of Parish: yeah yeah like if we if the project moves forward we have contingency built into the budget, I mean that's not a that's a huge line item to add something like that so so we can definitely look at it, when the timer right.

198

00:34:20.490 --> 00:34:21.900

We start the budget.

199

00:34:24.780 --> 00:34:30.330

Village of Parish: First, one is general government support that there's the.

200

00:34:34.260 --> 00:34:41.610

Village of Parish: morning on renewal or or bionic are going for funding  
yep Okay, yes, you guys.

201

00:34:43.320 --> 00:34:44.520

Think that's good the way it is.

202

00:34:46.950 --> 00:34:49.140

You know, we haven't used that line long time so.

203

00:34:53.310 --> 00:34:53.850

We need.

204

00:34:57.420 --> 00:34:57.630

Village of Parish: To be.

205

00:34:58.680 --> 00:34:59.850

Village of Parish: About I don't know if we.

206

00:35:00.930 --> 00:35:19.500

Village of Parish: need a bonding attorney if we if we have is for big  
and we still need a lot oh yeah yeah I mean you're gonna have to take out  
short term financing, you know through role development definitely you're  
going to be the bottom okay 13,013.

207

00:35:22.620 --> 00:35:40.920

Village of Parish: So, so I guess I should clarify so those costs are  
covered through the project and there's, why does in the specific project  
budget, so you will get reimbursed for that, so I don't know if you want  
to Okay, how you want to handle that you know that that's a reversible  
expects to the project.

208

00:35:43.980 --> 00:35:44.490

Village of Parish: going to be where.

209

00:35:46.560 --> 00:35:47.130

Village of Parish: You are with.

210

00:35:48.450 --> 00:35:50.640

Village of Parish: Your family time right.

211

00:35:51.270 --> 00:36:01.770

Village of Parish: So yeah but in order for us to go, we can't just have Mr Canadians are nice to do it so last time ability to bond and va and stuff it was was grab check even like don't mind going up in watertown because they were.

212

00:36:01.980 --> 00:36:11.910

Village of Parish: wearing wearing this event, their Red Book attorneys that they they deal with bonds and you have to have a food bonnie an attorney to do the bonds and I believe.

213

00:36:12.990 --> 00:36:16.710

Village of Parish: They were pretty close to that 1300 you know, three quarters of it.

214

00:36:17.730 --> 00:36:18.810

Village of Parish: Okay well that's a good.

215

00:36:19.890 --> 00:36:33.480

Village of Parish: One would think so for right now with any like said we haven't used that line, a long time I just get their case we would need to go for it again yeah I mean i'll tell you for all projects such as this, we would probably have a line item for sure, like four or five.

216

00:36:34.740 --> 00:36:37.650

Village of Parish: What again, you know those are reversible to the project.

217

00:36:39.990 --> 00:36:40.740

Village of Parish: engineer.

218

00:36:42.750 --> 00:36:43.110

Village of Parish: You know you.

219

00:36:45.840 --> 00:36:46.920

Village of Parish: gotta we gotta leave it the way.

220

00:36:49.680 --> 00:36:51.000

Village of Parish: yeah we we got.

221

00:36:53.760 --> 00:36:57.030

Village of Parish: We got enough in our savings to cover that right.

222

00:37:08.520 --> 00:37:08.880

See.

223

00:37:12.120 --> 00:37:21.810

Village of Parish: The December, you had about 460 1000 62,000 and your savings account So here we could really can draw on there if we needed to yeah it's gonna be very first anyway.

224

00:37:25.110 --> 00:37:25.500

Ken Scherrieble: Okay.

225

00:37:27.480 --> 00:37:37.500

Village of Parish: Next is engineering an extra already have more of those coming in, before the end of our fiscal year anyway, because that will that will react yeah because this is for next fiscal year okay.

226

00:37:38.430 --> 00:37:53.310

Village of Parish: So you don't have any, how can we don't have anything in there for engineer well we didn't and we weren't using one until obviously this fiscal year Okay, and the 1400 and 55 years spent so far on him okay so.

227

00:37:58.950 --> 00:38:06.090

Village of Parish: This is just for his personal service it isn't this isn't for you then Eve is like contract we try, if you notice that number right below it right.

228

00:38:12.540 --> 00:38:13.170

Village of Parish: today.

229

00:38:15.570 --> 00:38:20.760

Village of Parish: On this project i'm gonna guess that number is gonna be a lot bigger oh yeah I was gonna say 3000.

230

00:38:22.890 --> 00:38:23.550

again.

231

00:38:25.200 --> 00:38:41.730

Village of Parish: You know the that price I don't know how you know how much you want to consider that project as part of the villages budget that's almost like its own its own entity, you know what I mean, because this is a, this is actually the sewer budget that right that the villages.

232

00:38:43.410 --> 00:38:54.120

Village of Parish: Ultimately, the taxpayers are as well, I should, and obviously they prefer to watch this gets paid separately, through a long term long a.

233

00:38:55.110 --> 00:39:06.480

Village of Parish: So basically or whoever so basically we put down right, but we still have to have something to covering him for his right so meaning the applications and right, whatever else he's done prior to that right so.

234

00:39:06.780 --> 00:39:14.910

Village of Parish: It hasn't been built already right, I say trying to 05 5000 yeah just to be on the same side.

235

00:39:15.930 --> 00:39:17.340

Village of Parish: Okay, that for personal services.

236

00:39:19.110 --> 00:39:19.380

yeah.

237

00:39:20.760 --> 00:39:20.910

Village of Parish: I.

238

00:39:24.810 --> 00:39:26.490

Village of Parish: mean 3500.

239

00:39:28.200 --> 00:39:29.130

Village of Parish: So okay.

240

00:39:31.920 --> 00:39:36.450

Village of Parish: Okay five personnel and contingencies.

241

00:39:37.980 --> 00:39:41.760

2525 25 and 20.

242

00:39:43.590 --> 00:39:45.420

Village of Parish: feet up my hearing aids are on.

243

00:39:48.930 --> 00:39:49.200

Village of Parish: here.

244

00:39:51.420 --> 00:39:54.030

Ken Scherrieble: I don't have been you feel that that's good cover you.

245

00:39:56.310 --> 00:39:59.640

Village of Parish: yeah I mean for for ancillary services.

246

00:40:01.140 --> 00:40:09.150

Village of Parish: You know, again, like you say, for you know the stuff we've got planned now should be more than enough if something major came up that.

247

00:40:10.980 --> 00:40:23.280

Village of Parish: You know, was outside of the scope of that project or something like blew off down there, and you guys don't want I don't want you guys saw I think it's fine I wasn't sure I think it's okay for.

248

00:40:26.760 --> 00:40:27.030

Village of Parish: me.

249

00:40:31.980 --> 00:40:36.060

Village of Parish: 90 almost 95 I think 13 is fine.

250

00:40:39.750 --> 00:40:40.050

Thanks.

251

00:40:54.060 --> 00:40:56.130

Village of Parish: need guys are going to start telling me what they buy.

252

00:40:57.330 --> 00:41:00.150

Village of Parish: Give me a little list daily times already.

253

00:41:03.030 --> 00:41:04.260

Village of Parish: You already had that but together.

254

00:41:04.770 --> 00:41:06.570

Ken Scherrieble: I think so, and I thought that was something.

255

00:41:26.250 --> 00:41:26.580

Village of Parish: Almost.

256

00:41:28.170 --> 00:41:34.950

Village of Parish: near forward that singular team, where you almost can get by Muslim and I can be enough.

257

00:41:40.200 --> 00:41:40.740

Village of Parish: right there.

258

00:41:43.980 --> 00:41:44.010

Ken Scherrieble: here.

259

00:41:44.700 --> 00:41:46.500

Ken Scherrieble: We got planned for me i'm building.

260

00:41:48.360 --> 00:41:50.130

Ken Scherrieble: For the building itself.

261

00:41:50.370 --> 00:41:50.640

Now.

262

00:41:52.080 --> 00:42:03.990

Ken Scherrieble: I think the major portion of that was was roofing in the past and just some repairs so on the building I don't see I don't see a ton of.

263

00:42:04.680 --> 00:42:15.000

Ken Scherrieble: You know I don't think we have to go any further than than where we were in the budget if we start adding other things that we've got on our list, but then that really building, those are pieces of equipment.

264

00:42:16.230 --> 00:42:17.940

Ken Scherrieble: yeah I do have.

265

00:42:19.200 --> 00:42:32.070

Ken Scherrieble: yeah I mean we should do like like the mayor said security also insecurity, I have about \$3,000 in next year for doors locks those those really are not working very well they're all the entire.

266

00:42:33.540 --> 00:42:34.320

Ken Scherrieble: work very well.

267

00:42:37.560 --> 00:42:38.910

Village of Parish: Here needs me okay.

268

00:42:38.970 --> 00:42:39.390

Village of Parish: yeah.

269

00:42:39.450 --> 00:42:48.930

Ken Scherrieble: That gives me up doors locks there's there's several doors on the building there's 123456 doors on the building.

270

00:42:50.250 --> 00:42:52.770

Ken Scherrieble: So let's replace all the doors and locks.

271

00:42:54.750 --> 00:42:56.460

Ken Scherrieble: Just look to see if there's anything else that.

272

00:42:56.760 --> 00:42:58.680

Village of Parish: Specifically, from building about.

273

00:43:00.120 --> 00:43:01.710

Village of Parish: 3000 broaden right.

274

00:43:02.430 --> 00:43:04.200

Ken Scherrieble: yeah 3000 and for those yeah.

275

00:43:05.160 --> 00:43:08.400

Village of Parish: Okay, so we have can in there, in case something.

276

00:43:10.470 --> 00:43:11.280

Ken Scherrieble: yeah do.

277

00:43:11.430 --> 00:43:12.270

Ken Scherrieble: You find with that.

278

00:43:15.810 --> 00:43:17.100

Village of Parish: That linking words yeah.

279

00:43:18.240 --> 00:43:19.170

Last year, you know.

280

00:43:24.900 --> 00:43:25.380

Obviously.

281

00:43:26.850 --> 00:43:29.400

Village of Parish: If that's part of the answer that you know.

282

00:43:45.000 --> 00:43:45.990

Village of Parish: Mary Chapel.

283

00:43:53.490 --> 00:43:57.930

Village of Parish: yeah that's very good financing it's all my cross by marriage apple right right so.

284

00:43:59.700 --> 00:44:00.870

Village of Parish: Okay, Linda grant writer.

285

00:44:02.340 --> 00:44:03.390

Village of Parish: A writer you.

286

00:44:07.350 --> 00:44:07.650

Village of Parish: know.

287

00:44:08.970 --> 00:44:10.230

Village of Parish: grant writer is.

288

00:44:11.760 --> 00:44:12.240

Village of Parish: grateful.

289

00:44:13.560 --> 00:44:14.100

Village of Parish: yeah we're.

290

00:44:29.820 --> 00:44:30.480

Village of Parish: In.

291

00:44:33.600 --> 00:44:34.110

The treatment.

292

00:44:36.120 --> 00:44:37.890

Village of Parish: operator at him.

293

00:44:43.980 --> 00:44:45.150

Ken Scherrieble: Contracts operator.

294

00:44:46.350 --> 00:44:48.060

Ken Scherrieble: you whether you got in there.

295

00:44:51.270 --> 00:44:52.920

Village of Parish: We currently have.

296

00:44:54.180 --> 00:45:04.620

Village of Parish: It last year, we have a current best for you, we had big thousand 424 77 yeah 50424.

297

00:45:06.030 --> 00:45:09.090

Village of Parish: And we have been 98.65 bad.

298

00:45:12.810 --> 00:45:17.370

Ken Scherrieble: But it's probably going to go up about 2% so and make it.

299

00:45:19.020 --> 00:45:19.470

Ken Scherrieble: recovery.

300

00:45:24.330 --> 00:45:24.720

Ken Scherrieble: yeah.

301

00:45:34.740 --> 00:45:37.170

Ken Scherrieble: If you want to put a little insurance money, and you can do that.

302

00:45:51.720 --> 00:45:52.050

Village of Parish: too.

303

00:45:56.070 --> 00:45:56.610

Ken Scherrieble: good idea.

304

00:45:58.680 --> 00:45:59.970

Ken Scherrieble: We know you're safe and even.

305

00:45:59.970 --> 00:46:00.330

Village of Parish: If the.

306

00:46:01.680 --> 00:46:02.070

Village of Parish: thought is.

307

00:46:04.020 --> 00:46:06.570

Village of Parish: Something I can sit around in here necessary.

308

00:46:16.110 --> 00:46:17.190

Village of Parish: Next, one zero.

309

00:46:18.300 --> 00:46:18.690

Village of Parish: If the.

310

00:46:20.310 --> 00:46:21.870

Village of Parish: office supplies the answer.

311

00:46:23.250 --> 00:46:24.420

way overshoot the target.

312

00:46:26.730 --> 00:46:28.380

Village of Parish: But at that also includes a.

313

00:46:29.430 --> 00:46:35.730

Village of Parish: Recording charts down at the plant that you guys up by once a year, maybe depends to go with the paper.

314

00:46:36.480 --> 00:46:37.620

Ken Scherrieble: It also includes yeah.

315

00:46:39.060 --> 00:46:39.300

Ken Scherrieble: that's.

316

00:46:43.950 --> 00:46:46.770

Ken Scherrieble: What we should we we spend Kevin.

317

00:46:49.140 --> 00:46:49.860

Village of Parish: How much you have.

318

00:46:50.880 --> 00:46:54.630

Village of Parish: 1101 74 so far they're here as of December.

319

00:46:56.010 --> 00:47:00.810

Ken Scherrieble: As of December and i've only got in the budget, I think 1000 bucks.

320

00:47:02.070 --> 00:47:02.940  
Village of Parish: You had 900.

321

00:47:04.380 --> 00:47:04.830  
Ken Scherrieble: yeah.

322

00:47:07.200 --> 00:47:11.820  
Ken Scherrieble: And those charts are just crazy expensive and pens are just phenomenal.

323

00:47:13.410 --> 00:47:17.610  
Ken Scherrieble: And there's only you know limited places, you can get them from so we probably should raise that.

324

00:47:18.870 --> 00:47:20.160  
Ken Scherrieble: By like 1500.

325

00:47:21.450 --> 00:47:23.070  
Village of Parish: whoa you sure.

326

00:47:23.790 --> 00:47:24.780  
Ken Scherrieble: You really mostly about.

327

00:47:24.810 --> 00:47:26.550  
Ken Scherrieble: 12 1200 already right.

328

00:47:28.470 --> 00:47:30.330  
Village of Parish: you're already ready okay.

329

00:47:51.300 --> 00:48:00.450  
Village of Parish: sort of ring ring premiums nearing the building, I mean are they plan on starting any kind of drying beds, or any other miscellaneous destruction around anywhere.

330

00:48:02.100 --> 00:48:06.480  
Ken Scherrieble: Well we've got a lot of yeah we've got a lot of improvements would like to make, did you.

331

00:48:08.340 --> 00:48:09.870  
Ken Scherrieble: Did you get our sheet.

332

00:48:10.980 --> 00:48:12.090  
Ken Scherrieble: or budget item sheet.

333  
00:48:13.860 --> 00:48:14.130  
Village of Parish: I.

334  
00:48:14.580 --> 00:48:21.180  
Ken Scherrieble: got to get to Evelyn and I think I don't know if I see see tomorrow, I thought I did.

335  
00:48:26.340 --> 00:48:27.930  
Village of Parish: We got here the one.

336  
00:48:29.070 --> 00:48:32.790  
Village of Parish: Like anything lines yeah accounting Program.

337  
00:48:47.190 --> 00:48:49.560  
Ken Scherrieble: At \$2,000 on the top right hand corner.

338  
00:48:50.610 --> 00:48:50.850  
Village of Parish: yeah.

339  
00:48:57.210 --> 00:48:57.990  
Ken Scherrieble: There you go.

340  
00:49:00.240 --> 00:49:00.750  
Ken Scherrieble: that's a.

341  
00:49:06.240 --> 00:49:16.620  
Ken Scherrieble: load of the things that we see that need to be taken care of and and I was waiting to hear what Ian had to say about funding.

342  
00:49:17.040 --> 00:49:30.030  
Ken Scherrieble: As to whether or not, some of these, we could we could you know take off, but we're probably not going to be able to because, even if we get funded at some point next year or something in we're still what you know, three years from from.

343  
00:49:31.350 --> 00:49:32.040  
Ken Scherrieble: construction.

344  
00:49:33.360 --> 00:49:38.190

Village of Parish: yeah I mean it yeah I mean next summer would be like the absolute earliest.

345

00:49:38.730 --> 00:49:40.110

Ken Scherrieble: Right, I mean that's really.

346

00:49:41.430 --> 00:49:43.440

Village of Parish: What would be if we got funded through our do.

347

00:49:44.370 --> 00:49:45.930

exactly that and outcome.

348

00:49:47.670 --> 00:49:48.600

Ken Scherrieble: So obviously.

349

00:49:48.660 --> 00:49:50.520

Ken Scherrieble: oh one the engineering for can come off because.

350

00:49:50.520 --> 00:49:51.870

Ken Scherrieble: you've already taken care of that.

351

00:49:56.490 --> 00:49:58.920

Ken Scherrieble: Oh, to repair the sledge transfer line.

352

00:50:02.040 --> 00:50:03.240

Village of Parish: A year long.

353

00:50:03.270 --> 00:50:03.870

what's that.

354

00:50:05.850 --> 00:50:07.350

Village of Parish: mean to you by your ear.

355

00:50:09.240 --> 00:50:10.050

Ken Scherrieble: Right now.

356

00:50:12.750 --> 00:50:13.890

Village of Parish: During your we definitely.

357

00:50:15.060 --> 00:50:15.630

Nothing so.

358

00:50:20.190 --> 00:50:20.580

Ken Scherrieble: anything.

359

00:50:22.590 --> 00:50:23.550

You just haven't gotten built.

360

00:50:26.430 --> 00:50:28.200

Village of Parish: We did oh man.

361

00:50:29.010 --> 00:50:30.030

Ken Scherrieble: You know, we did.

362

00:50:32.580 --> 00:50:32.940

Ken Scherrieble: We.

363

00:50:33.450 --> 00:50:36.390

Ken Scherrieble: yeah we did so, they just haven't send you an invoice yet.

364

00:50:38.160 --> 00:50:40.170

Ken Scherrieble: We bought new ones, new one.

365

00:50:42.390 --> 00:50:43.080

Ken Scherrieble: This year.

366

00:50:44.910 --> 00:50:46.140

Village of Parish: Back to new ones issue.

367

00:50:46.680 --> 00:50:47.460

Village of Parish: yeah okay.

368

00:50:47.520 --> 00:50:48.030

Village of Parish: So.

369

00:50:48.480 --> 00:50:49.440

Ken Scherrieble: guys haven't been in beta.

370

00:50:52.170 --> 00:50:53.970

Ken Scherrieble: Right now, we don't have any because.

371

00:50:54.840 --> 00:50:58.980

Ken Scherrieble: The rebuilt ones we've gone through and what's left over, we can't rebuild.

372

00:51:00.090 --> 00:51:02.310

Ken Scherrieble: So we're right now we don't have.

373

00:51:03.390 --> 00:51:06.060

Ken Scherrieble: I think we've got one on the shelf right now so we've got to pick up.

374

00:51:07.290 --> 00:51:23.700

Ken Scherrieble: Other ones everything else has been been put in place or was not able to be rebuilt there's one we can I when we when the electrical is just the electrical top we can rebuild the electrical top when it gets into the whole unit.

375

00:51:24.840 --> 00:51:30.360

Ken Scherrieble: it's it's not worth rebuilding you're better off just buying a new one, by the time to get done with the parts and everything so.

376

00:51:31.590 --> 00:51:37.710

Ken Scherrieble: Everything that we had pulled out, that we thought we could rebuild, we were not able to rebuild because it's really the whole guts of the thing it's not just the.

377

00:51:37.890 --> 00:51:43.320

Ken Scherrieble: Electrical box on the top what usually happens that its water in it and it Fries and we just swap it out it's no big deal.

378

00:51:44.130 --> 00:51:53.670

Ken Scherrieble: But so right now, we do need to I believe we bought two I believe we got one on the shelf, so we do need to would like to get at least another one on the shelf at this point.

379

00:51:55.050 --> 00:51:56.700

Village of Parish: And we get three new ones, because.

380

00:51:59.610 --> 00:52:01.680

Ken Scherrieble: I have to double check it might be three.

381

00:52:03.900 --> 00:52:04.350

Ken Scherrieble: check with.

382

00:52:05.520 --> 00:52:05.760

Village of Parish: well.

383

00:52:06.750 --> 00:52:08.490

Ken Scherrieble: We have some for parts.

384

00:52:08.940 --> 00:52:09.360

Village of Parish: Oh yeah.

385

00:52:10.380 --> 00:52:11.340

Ken Scherrieble: But both of those.

386

00:52:12.660 --> 00:52:13.710

Ken Scherrieble: What was that Neil.

387

00:52:16.380 --> 00:52:17.760

Village of Parish: yeah but again.

388

00:52:19.020 --> 00:52:24.180

Ken Scherrieble: All the ones that we, we could rebuild we have everything that's left over now is junk.

389

00:52:25.500 --> 00:52:33.180

Ken Scherrieble: Okay there's nothing really that I can I can rebuild at this point we've gone through all those so we really at the point now where we got to just put new ones on.

390

00:52:35.280 --> 00:52:38.490

Ken Scherrieble: And then, when we pull out in the future, hopefully we can rebuild.

391

00:52:43.710 --> 00:52:44.160

Village of Parish: So.

392

00:52:46.590 --> 00:52:47.550

Village of Parish: We okay.

393

00:52:52.770 --> 00:52:53.340

Ken Scherrieble: shelf.

394

00:52:57.240 --> 00:52:59.400

Village of Parish: what's the lifespan of these pumps.

395

00:53:01.980 --> 00:53:02.700

Village of Parish: years.

396

00:53:03.510 --> 00:53:13.560

Ken Scherrieble: yeah you know we've been fairly decent actually I mean we're getting five to 10 years out of most of them it's just the ones the ones that are really tough.

397

00:53:16.890 --> 00:53:25.170

Ken Scherrieble: Are the are the ones that are in those high areas like there's there's you know over by the grist mill and then where the.

398

00:53:28.830 --> 00:53:39.570

Ken Scherrieble: Health Center is and then it down that there's that one that's got like five or six homes coming to it out the end of I just went blank where's that pass the gas station they're going.

399

00:53:41.100 --> 00:53:44.010

Ken Scherrieble: What is it would enjoy yeah I would.

400

00:53:45.030 --> 00:53:48.960

Ken Scherrieble: yep and then Montgomery Montgomery also got a couple that are constantly going.

401

00:53:53.190 --> 00:53:55.440

Village of Parish: hey me three houses down.

402

00:53:57.210 --> 00:54:02.160

Ken Scherrieble: yeah it's constantly going to cut on what they do that thing lots of grease.

403

00:54:04.080 --> 00:54:05.490

Village of Parish: Okay, so.

404

00:54:08.580 --> 00:54:11.160

Village of Parish: Because of me about 9000 feet right.

405

00:54:11.970 --> 00:54:13.740

Ken Scherrieble: No, no, total that's that's for.

406

00:54:14.190 --> 00:54:16.020

Village of Parish: 9000 is for put like.

407

00:54:16.110 --> 00:54:16.830

Ken Scherrieble: Five more.

408

00:54:19.170 --> 00:54:22.020

Village of Parish: Well i'm just looking at this.

409

00:54:23.580 --> 00:54:27.600

Village of Parish: And you got for replacement grinder pumps \$9,000.

410

00:54:29.640 --> 00:54:31.500

Ken Scherrieble: For all four of them.

411

00:54:36.900 --> 00:54:39.270

Ken Scherrieble: But we have one brand new one on the shelf.

412

00:54:40.770 --> 00:54:41.130

Village of Parish: All right.

413

00:54:43.320 --> 00:54:47.100

Village of Parish: I think you can buy one more police you're on this buggy buggy here.

414

00:54:50.550 --> 00:54:52.530

Ken Scherrieble: yeah I think we can.

415

00:54:54.600 --> 00:54:56.280

Ken Scherrieble: Just kidding will have for.

416

00:54:58.530 --> 00:55:00.330

Village of Parish: The next year we'll pull for the budget.

417

00:55:01.890 --> 00:55:08.220

Village of Parish: For next year okay now where would they be that wouldn't be as dumb as well known how many do we have on the show.

418

00:55:08.280 --> 00:55:12.000

Ken Scherrieble: Right now 111 right now.

419

00:55:13.530 --> 00:55:18.600

Village of Parish: What we have is a mom actually for the bigger one because you guys have any the bigger trainers.

420

00:55:19.260 --> 00:55:19.980

Correct.

421

00:55:21.240 --> 00:55:22.590

Ken Scherrieble: that's that's part of that.

422

00:55:24.780 --> 00:55:25.290

Village of Parish: As part of that.

423

00:55:26.040 --> 00:55:27.240

Ken Scherrieble: Correct yeah.

424

00:55:29.070 --> 00:55:33.330

Village of Parish: that's all they where are we right now, and this Oh, I think we.

425

00:55:34.860 --> 00:55:36.420

Village of Parish: skipped a lot of space you.

426

00:55:38.760 --> 00:55:39.330

Village of Parish: know.

427

00:55:40.560 --> 00:55:49.380

Village of Parish: We weren't comes down to the bottom line is why we read revelation way to go into pumps until we get there right.

428

00:55:49.830 --> 00:55:50.580

Okay.

429

00:55:51.660 --> 00:55:52.290

Ken Scherrieble: So.

430

00:55:53.700 --> 00:55:57.360

Village of Parish: We got it right here, so now we're at.

431

00:56:00.300 --> 00:56:00.990

Ken Scherrieble: For line.

432

00:56:02.310 --> 00:56:04.380

Village of Parish: or for what was that.

433

00:56:05.160 --> 00:56:08.190

Ken Scherrieble: He throwing down the report go ahead, go ahead and do.

434

00:56:10.590 --> 00:56:14.220

Village of Parish: That oh you're on the wrong seat i'm gonna run.

435

00:56:16.380 --> 00:56:18.360

Village of Parish: A report, this one oh.

436

00:56:19.350 --> 00:56:19.830

Ken Scherrieble: that's okay.

437

00:56:20.490 --> 00:56:22.230

Ken Scherrieble: I can follow you no problem.

438

00:56:26.040 --> 00:56:27.630

Village of Parish: we're jumping up and down like oh.

439

00:56:28.410 --> 00:56:28.950

Ken Scherrieble: yeah go ahead.

440

00:56:30.990 --> 00:56:31.590

Ken Scherrieble: You go ahead.

441

00:56:33.120 --> 00:56:33.450

i'll try.

442

00:56:37.170 --> 00:56:37.560

Village of Parish: This.

443

00:56:41.280 --> 00:56:41.490

one.

444

00:56:42.780 --> 00:56:44.010

what's the next time.

445

00:56:46.950 --> 00:56:48.660

Village of Parish: He comes back the response line.

446

00:56:49.770 --> 00:56:53.910

Village of Parish: third line is lunch line and you're on regardless what.

447

00:56:56.430 --> 00:57:00.060

Village of Parish: Is that your eyeball Jean de leer hold up.

448

00:57:02.250 --> 00:57:09.870

Village of Parish: I can't do all this jumping what why don't we go over this list, like I gotta do now, then you go over this and then war, the bunch.

449

00:57:11.250 --> 00:57:12.210

Village of Parish: But that will reduce.

450

00:57:14.400 --> 00:57:14.760

doctor.

451

00:57:15.840 --> 00:57:19.860

Village of Parish: Right she's like Okay, the ones, but line.

452

00:57:22.890 --> 00:57:23.430

Village of Parish: For line.

453

00:57:27.810 --> 00:57:30.150

Ken Scherrieble: Right exactly so.

454

00:57:31.290 --> 00:57:41.370

Ken Scherrieble: So these were the things that that I was you know witnessing what Ian had to say so, if you look down this line these lines, most of these are, are you know.

455

00:57:41.700 --> 00:57:51.180

Ken Scherrieble: Things that are above and beyond what we normally look at so one is repairing the sludge line right now we use portable pumps over the top of the ground.

456

00:57:52.290 --> 00:58:01.800

Ken Scherrieble: to really get get it back so it's really operable, the way should be, we should repair those sledge lines that are underground vows etc and get everything working correctly.

457

00:58:03.690 --> 00:58:04.770

Ken Scherrieble: You know.

458

00:58:05.910 --> 00:58:06.540

Ken Scherrieble: Excuse me.

459

00:58:07.620 --> 00:58:10.110

Village of Parish: You know what's wrong with the bloodlines.

460

00:58:12.090 --> 00:58:14.010

Ken Scherrieble: Oh yeah if you look over to the right.

461

00:58:15.690 --> 00:58:16.440

Ken Scherrieble: you'll see that.

462

00:58:19.740 --> 00:58:38.190

Ken Scherrieble: I believe the sludge lines, what happens is you know, over time, the lines get smaller and smaller and smaller and we've we've tried blowing them out, we may be able to clean them out with a with a poly pig or something but valves have to be replaced and the lines.

463

00:58:39.240 --> 00:58:48.510

Ken Scherrieble: You know our fear is that we're not televised or anything, there may also be holes in it, so you know really kind of need to rip them out and put new ones in.

464

00:58:49.770 --> 00:59:00.150

Ken Scherrieble: Its kind of what we're looking at, are we are at least repair them see if we can get in there and see them, and I think a lot of it is about the vowels the valves have to be rebuilt replaced.

465

00:59:02.490 --> 00:59:05.370

Ken Scherrieble: We just don't want to move the good old crusty and the St.

466

00:59:10.620 --> 00:59:13.980

Ken Scherrieble: Well, we do get to get in there and clean them off take a look at them.

467

00:59:15.720 --> 00:59:20.790

Ken Scherrieble: and see how they look so we gave ourselves, you know \$5,000 hopefully we don't need all that.

468

00:59:23.580 --> 00:59:29.250

Ken Scherrieble: will be cheaper yes run lines above ground that can be just clean freak us out the.

469

00:59:30.780 --> 00:59:33.030

Ken Scherrieble: problem is is that they freeze during the.

470

00:59:35.700 --> 00:59:36.030

Right.

471

00:59:37.200 --> 00:59:53.520

Ken Scherrieble: that's why their best where they're below ground, and right now in order for us to transfer we do roll out hostess roll them out start up a you know, a trash pump we run them on the trash pump then we roll everything back in and again during the winter that's a pretty arduous task.

472

00:59:56.520 --> 00:59:56.940

Ken Scherrieble: So.

473

01:00:00.690 --> 01:00:02.190

Ken Scherrieble: So that's something we should look at.

474

01:00:03.810 --> 01:00:06.300

Ken Scherrieble: let's just go down through the list, and we can come back.

475

01:00:08.880 --> 01:00:10.860

Ken Scherrieble: Okay, just a little.

476

01:00:12.510 --> 01:00:18.450

Ken Scherrieble: We already talked about the doors and locks chemical analyzer This is one that we really should look at.

477

01:00:19.260 --> 01:00:27.240

Ken Scherrieble: We should put two new analyzers in the ones that we have right now really are not working, and so, most of what we're doing is by hand.

478

01:00:28.230 --> 01:00:37.080

Ken Scherrieble: For our chemicals we make some calculations and we figure out what the best route is but the analyzers really aren't working any longer, and they should be replaced.

479

01:00:37.470 --> 01:00:42.810

Ken Scherrieble: Because it is because you probably a little more in chemical because we're going to make sure we've got a good safety zone.

480

01:00:43.890 --> 01:00:46.050

Ken Scherrieble: After we do our calculations oh.

481

01:00:48.750 --> 01:00:50.130

Village of Parish: So how many.

482

01:00:51.270 --> 01:00:51.870

Village of Parish: One right.

483

01:00:53.430 --> 01:00:53.760

Ken Scherrieble: Now.

484

01:00:54.480 --> 01:00:58.050

Ken Scherrieble: there's 2000.

485

01:00:59.760 --> 01:01:02.070

Ken Scherrieble: that's for two of them yep 6000 apiece roughly.

486

01:01:08.850 --> 01:01:11.490

Ken Scherrieble: We already talked about through the grinder pumps.

487

01:01:13.980 --> 01:01:16.380

Ken Scherrieble: The main lifts stations to the big ones.

488

01:01:18.450 --> 01:01:25.110

Ken Scherrieble: They there Those are all 10 years old we've already replaced them in pillars and.

489

01:01:26.430 --> 01:01:39.300

Ken Scherrieble: Other things this really is for a PM for see work to come in and make sure when really should do this annually, make sure, everything is up to snuff and they've got all the tools and everything and.

490

01:01:41.940 --> 01:01:45.330

Ken Scherrieble: get everything back to original make sure after 10 years they.

491

01:01:46.410 --> 01:01:56.550

Ken Scherrieble: Say that you really you should be replacing the impeller is in there and we found the one impeller at river street was really bad when we pulled it apart.

492

01:01:57.870 --> 01:02:10.140

Ken Scherrieble: So we replaced that last year, but this is something that we should probably be doing an annual basis may not be as bad you know, in the in the second year for sure.

493

01:02:11.010 --> 01:02:12.510

Village of Parish: you're checking us every year right.

494

01:02:13.320 --> 01:02:20.430

Ken Scherrieble: yep yep, and this is all for this is all for replacements, and that kind of stuff for see where to come in and do all that.

495

01:02:21.180 --> 01:02:29.070

Ken Scherrieble: So we want to you know put a good budget because it's been like I said, the ones that we pulled we found the employers were really in bad shape so we're assuming that this first year.

496

01:02:30.150 --> 01:02:32.820

Ken Scherrieble: You know we're going to need to replace some more employers.

497

01:02:40.230 --> 01:02:40.590

Village of Parish: Okay.

498

01:02:41.700 --> 01:02:42.090

Ken Scherrieble: All right.

499

01:02:43.980 --> 01:02:44.760

Ken Scherrieble: lab equipment.

500

01:02:46.200 --> 01:02:46.530

Ken Scherrieble: yep.

501

01:02:47.790 --> 01:02:48.270

Ken Scherrieble: that's.

502

01:02:51.570 --> 01:02:53.940

Ken Scherrieble: 14 1400 in there.

503

01:02:55.740 --> 01:03:01.680

Ken Scherrieble: You know just just replacing lab equipment deck is going to be replaced after a while we haven't done it in a long time.

504

01:03:03.960 --> 01:03:07.440

Ken Scherrieble: we've also got gloves and rubber gloves in there and the D New Deal prob.

505

01:03:08.490 --> 01:03:14.130

Ken Scherrieble: are going to need because that deal pros only last two years, well we've got to replace that.

506

01:03:16.110 --> 01:03:17.280

Ken Scherrieble: Otherwise, that won't work.

507

01:03:20.220 --> 01:03:26.460

Ken Scherrieble: Chemicals we've already that's typical grease bugs that's typical cleaning supplies.

508

01:03:28.080 --> 01:03:29.790

Ken Scherrieble: Now we're down here to blowers.

509

01:03:32.130 --> 01:03:35.490

Ken Scherrieble: Your blowers are really making CIRCA 1977.

510

01:03:36.600 --> 01:03:42.600

Ken Scherrieble: So, now that we've done all these this new airline and we've got a good clean airline there's no holes in it everything's good.

511

01:03:44.070 --> 01:03:48.030

Ken Scherrieble: We actually are down to one blower right now we've been able to bring it down to one blower and run it.

512

01:03:48.570 --> 01:03:58.050

Ken Scherrieble: But we're still working on 1977 blowers, and the new blowers are much more efficient and i'm sure we would save money by upgrading to the blower's again.

513

01:03:58.530 --> 01:04:08.400

Ken Scherrieble: You know if if if we had money and we were able to move forward with a with a plant I wouldn't be advising to change these I just you know we'll just suffer for the next two years.

514

01:04:08.850 --> 01:04:21.120

Ken Scherrieble: and get it done we just don't know you know that's something that we really can't figure out until in you know, so we know if we can get some funding and the next thing is via fees or via fees are going back to 1990.

515

01:04:22.470 --> 01:04:27.840

Ken Scherrieble: useful life on via via the seven years, so that we got every dime out of those things.

516

01:04:32.730 --> 01:04:33.930

Village of Parish: What does it mean to be.

517

01:04:34.830 --> 01:04:48.540

Ken Scherrieble: Those a variable frequency drive and that allows us to change how much how fast the blowers running to change fine tune how much air we're sending into the to the basin's so.

518

01:04:49.080 --> 01:04:57.720

Ken Scherrieble: When we get situations like it's Nice and cold like this, we can turn them down and save electricity for the village during the summer we go speed them up get as much as we can and.

519

01:05:02.460 --> 01:05:04.140

Ken Scherrieble: Then we just pulling electrical.

520

01:05:05.970 --> 01:05:06.600

Ken Scherrieble: what's it.

521

01:05:08.670 --> 01:05:16.260

Village of Parish: say whatever you been doing vector go wide on the main plan, I can see it on the national grid those because they've been running around 900.

522

01:05:17.370 --> 01:05:24.930

Village of Parish: They used to run it anywhere from one to 1000 but now it seems to be around nine 959 nine somewhere in that range, depending on the month.

523

01:05:25.740 --> 01:05:26.460

Ken Scherrieble: yeah whatever you're.

524

01:05:27.060 --> 01:05:28.620

Village of Parish: putting down there right now.

525

01:05:28.830 --> 01:05:29.100

Well, the.

526

01:05:30.240 --> 01:05:31.440

Ken Scherrieble: Air pump you know that.

527

01:05:32.220 --> 01:05:32.940

Ken Scherrieble: That new air.

528

01:05:33.090 --> 01:05:35.430

Village of Parish: Airline long all.

529

01:05:36.930 --> 01:05:41.460

Ken Scherrieble: The new airline actually is helping Kevin because now we're not wasting so much air.

530

01:05:42.900 --> 01:05:57.690

Ken Scherrieble: So that's giving us more consistency enable enable us to reduce our usage, then, then this this one here is, we know 1500 dollars for parts and equipment miscellaneous oil, etc, for the tractor.

531

01:05:59.430 --> 01:06:05.400

Ken Scherrieble: A new lawn mower if you guys want to do lawn mower I just we just put it in there for you, and then a constituency.

532

01:06:10.410 --> 01:06:10.740

Where.

533

01:06:13.080 --> 01:06:15.960

Village of Parish: You know where do you want to buy buy you a new amore.

534

01:06:17.580 --> 01:06:19.890

Ken Scherrieble: no se, I mean you doesn't matter.

535

01:06:31.500 --> 01:06:42.420

Village of Parish: Yes, that's what I want to know well, I haven't we haven't really I gotta gotta at the next meeting we're going to talk about that alone lamar.

536

01:06:42.990 --> 01:06:44.430

Village of Parish: And boom.

537

01:06:44.760 --> 01:07:00.360

Village of Parish: She got whoever bids on it has to do certain things down there with a moment the outside inside we gotta we gotta weed whacker around them and then, once or twice a year they got to go all the way down to the creek.

538

01:07:01.140 --> 01:07:01.470

Village of Parish: You know.

539

01:07:01.530 --> 01:07:02.880

Ken Scherrieble: They knew that with that.

540

01:07:03.900 --> 01:07:04.770

Ken Scherrieble: yep oh yeah.

541

01:07:04.860 --> 01:07:13.620

Village of Parish: Okay, well, not a written up here Okay, but we have to also put in there, they want to use their own or do you want us to.

542

01:07:15.120 --> 01:07:15.960

Village of Parish: utilize down.

543

01:07:17.940 --> 01:07:18.840

Ken Scherrieble: yeah we should get it.

544

01:07:19.710 --> 01:07:25.920

Ken Scherrieble: Right, I mean you're probably better off getting somebody to use their own that way you don't have to deal with anything it's just done.

545

01:07:25.980 --> 01:07:26.550

Village of Parish: With your hands.

546

01:07:26.670 --> 01:07:30.270

Village of Parish: Of it well, we have a hard time with that to around here yeah.

547

01:07:34.890 --> 01:07:38.940

Village of Parish: so well, yes we're doing okay back to the budget yeah.

548

01:07:39.660 --> 01:07:40.800

Ken Scherrieble: yep all right.

549

01:07:52.050 --> 01:07:57.030

Village of Parish: Software supply software support desk the building program for super nice yeah.

550

01:07:59.280 --> 01:08:06.870

Village of Parish: I wouldn't I those like they hit us with a 2% I have to add on another 2% so make down probably another level of makeup 1100.

551

01:08:11.940 --> 01:08:12.570

Yes.

552

01:08:14.850 --> 01:08:23.550

Village of Parish: wires that that's a question for him the omni system is not going to be a yearly updated costs or is that just what we spent last year.

553

01:08:26.310 --> 01:08:27.540

Ken Scherrieble: Oh sorry, let me get.

554

01:08:29.460 --> 01:08:30.900

Village of Parish: The arm the system.

555

01:08:31.410 --> 01:08:33.030

Village of Parish: Oh yeah that we had to update this.

556

01:08:34.110 --> 01:08:34.410

Ken Scherrieble: Right.

557

01:08:34.620 --> 01:08:36.960

Village of Parish: Is that a yearly cost just a one time thing.

558

01:08:37.320 --> 01:08:39.540

Ken Scherrieble: um so how much was it on that one.

559

01:08:41.700 --> 01:08:43.800

Village of Parish: That was 1200 bucks we've spent.

560

01:08:45.270 --> 01:08:47.520

Village of Parish: Spent 1100 or so far this year.

561

01:08:47.520 --> 01:08:49.680

Ken Scherrieble: yeah that's the so that is annual.

562

01:08:50.400 --> 01:08:50.940

Ken Scherrieble: That is.

563

01:08:51.390 --> 01:08:55.710

Village of Parish: A one time though Okay, so what we got out every year.

564

01:08:57.510 --> 01:08:58.620

yep for sure it.

565

01:09:01.110 --> 01:09:02.010

was good yeah.

566

01:09:03.780 --> 01:09:04.290

Village of Parish: Internet.

567

01:09:08.730 --> 01:09:11.820

Village of Parish: We divide three four so far.

568

01:09:12.990 --> 01:09:13.590

Village of Parish: So.

569

01:09:16.080 --> 01:09:25.950

Village of Parish: yeah I think that's part of the new visions go which that gets split between them okay again down there yeah because it's only one split those the math on it every month, so we should be financial data.

570

01:09:29.730 --> 01:09:31.950

Village of Parish: Mining because here we.

571

01:09:33.330 --> 01:09:42.420

Village of Parish: I think we have the ratings what next year well that's what I mean actually we leave it the way I mean we leave it the way it is for next year, next year, but didn't.

572

01:09:43.500 --> 01:09:47.790

Village of Parish: realize that the expense be going up the next year could be.

573

01:09:49.170 --> 01:09:51.270

Village of Parish: anywhere close right now so.

574

01:09:53.850 --> 01:09:55.440

Village of Parish: You got five months yeah.

575

01:10:00.330 --> 01:10:02.610

Village of Parish: You can raise up to nine yeah.

576

01:10:13.980 --> 01:10:16.740

Village of Parish: is for the generator maybe we don't plan.

577

01:10:17.280 --> 01:10:18.810

Village of Parish: For the North, there was one of.

578

01:10:20.250 --> 01:10:21.180

Village of Parish: The backup generators.

579

01:10:22.770 --> 01:10:26.040

Village of Parish: How, then, the baby, the big generator down.

580

01:10:27.360 --> 01:10:29.460

Village of Parish: on it, the plan we get that finished.

581

01:10:30.870 --> 01:10:31.530

Village of Parish: We didn't get that.

582

01:10:32.580 --> 01:10:35.850

Ken Scherrieble: You need but yes yeah me the battery I think.

583

01:10:38.340 --> 01:10:39.360

Village of Parish: need a battery.

584

01:10:40.140 --> 01:10:41.250

Ken Scherrieble: No it's taken care of.

585

01:10:42.900 --> 01:10:43.770

Village of Parish: it's all taken care of.

586

01:10:44.520 --> 01:10:45.420

Ken Scherrieble: I believe it is.

587

01:10:46.200 --> 01:10:47.220

Ken Scherrieble: I will double check yeah.

588

01:10:48.090 --> 01:10:56.040

Village of Parish: There wasn't built a built for just a 12 volt battery is running a full is the general okay yeah I think I remember looking at it.

589

01:10:59.820 --> 01:11:01.350

Village of Parish: Like to listen to me.

590

01:11:02.940 --> 01:11:04.530

Village of Parish: Your propane and propane.

591

01:11:10.290 --> 01:11:10.680

Ken Scherrieble: Okay.

592

01:11:12.090 --> 01:11:12.480

Okay.

593

01:11:13.920 --> 01:11:15.330

Village of Parish: The same he said.

594

01:11:16.230 --> 01:11:16.500

Ken Scherrieble: To me.

595

01:11:18.420 --> 01:11:24.240

Village of Parish: yeah because I know so far, because it was down for a while he didn't.

596

01:11:26.790 --> 01:11:27.090

So.

597

01:11:28.680 --> 01:11:32.430

Village of Parish: that one is next one's electricity and 20,000.

598

01:11:33.810 --> 01:11:40.590

Village of Parish: US have been pretty steady signing I just leave it where is that yeah because the way if you guys have noticed like when I do the.

599

01:11:41.010 --> 01:11:52.080

Village of Parish: bills, I do the greater pumps out wants it all pretty standard than 88 big stations and I do go for the point you know that's fine i'll play and staying around 979 words and.

600

01:11:56.100 --> 01:12:04.680

Village of Parish: pump and pump station maintenance Okay, now that under under his from his list I was kind of going down the side down here.

601

01:12:08.610 --> 01:12:17.460

Village of Parish: pump and pump station, maybe that would be classified as his parts and PM for siebert main live pump stations okay we're just gonna be yes.

602

01:12:18.960 --> 01:12:21.450

Village of Parish: We got play down here yep yep.

603

01:12:21.540 --> 01:12:21.930

So.

604

01:12:23.430 --> 01:12:24.270

related.

605

01:12:32.790 --> 01:12:34.440

Ken Scherrieble: Unfortunately, things are getting old.

606

01:12:36.570 --> 01:12:37.050

Village of Parish: Why.

607

01:12:49.680 --> 01:12:50.460

Village of Parish: Are we doing with that.

608

01:12:55.650 --> 01:12:57.960

Village of Parish: Now that's station maintenance yeah yeah.

609

01:12:59.880 --> 01:13:08.700

Village of Parish: Now, now we got the equipment maintenance now, that is, that was the see the equipment maintenance we're.

610

01:13:13.500 --> 01:13:22.980

Village of Parish: out I marked under his his counter propaganda is category chemical analyzes I scribbled equipment off to the side of that oh five.

611

01:13:26.370 --> 01:13:29.130

Village of Parish: Now, if we get this other plan, do we really need to spend that money.

612

01:13:30.360 --> 01:13:30.600

Village of Parish: well.

613

01:13:32.490 --> 01:13:34.650

Ken Scherrieble: Right yeah that's the problem.

614

01:13:37.620 --> 01:13:39.930

Village of Parish: Even if we even if we.

615

01:13:41.220 --> 01:13:46.200

Village of Parish: get a new plant and three well it'll be at least five years before that new plants.

616

01:13:47.220 --> 01:13:48.810

Village of Parish: yep even considered.

617

01:13:49.560 --> 01:13:50.460

Ken Scherrieble: yeah you're correct.

618

01:13:52.050 --> 01:13:52.710

it's good for.

619

01:13:54.150 --> 01:13:56.220

Village of Parish: Along the lifespan these analyzes.

620

01:13:56.670 --> 01:14:00.150

Ken Scherrieble: Again, probably seven to 10 years.

621

01:14:01.530 --> 01:14:03.540

Village of Parish: So we should be all right okay.

622

01:14:05.430 --> 01:14:05.820

So.

623

01:14:13.590 --> 01:14:14.010

Okay.

624

01:14:16.920 --> 01:14:17.400

What am I.

625

01:14:24.420 --> 01:14:35.310

Village of Parish: mean if he's an equal if he said you as well that's right, we can take them out of there, and he put it yeah and then we got because your meantime because there.

626

01:14:39.420 --> 01:14:41.700

Ken Scherrieble: is quite a bit here I mean we you know.

627

01:14:42.810 --> 01:14:43.110

Village of Parish: We.

628

01:14:43.920 --> 01:14:47.880

Ken Scherrieble: try not to do much, but this year we've got quite a bit we're faced with.

629

01:14:49.410 --> 01:14:52.290

Village of Parish: yeah yeah dad tanker regal.

630

01:14:53.400 --> 01:14:53.760

Ken Scherrieble: yeah.

631

01:14:56.160 --> 01:14:56.790

Village of Parish: I don't know what.

632

01:14:58.650 --> 01:15:05.610

Village of Parish: The tank that's inside the plant that's the building that's bill, and I know it's outside outside but it's in the playground yeah.

633

01:15:06.270 --> 01:15:07.740

Ken Scherrieble: it's both the other stuff around.

634

01:15:12.960 --> 01:15:24.000

Village of Parish: You even affluent and you know we usually even, even if I yeah I think I cover, I think that will cover it now he's gonna listen is \$12,000.

635

01:15:26.160 --> 01:15:30.900

Village of Parish: Well that's for that's for board no chemical.

636

01:15:32.070 --> 01:15:33.150

Village of Parish: \$500.

637

01:15:34.200 --> 01:15:37.080

Ken Scherrieble: That equipment line item Kevin.

638

01:15:40.140 --> 01:15:42.870

Village of Parish: Not per se, I have any equipment maintenance line.

639

01:15:43.680 --> 01:15:48.810

Ken Scherrieble: Okay, but we don't have an actual equipment capital equipment, because that's where these would really all go.

640

01:15:50.820 --> 01:15:53.700

Village of Parish: Okay, I know that occasion when you put it under.

641

01:15:54.840 --> 01:15:58.140

Ken Scherrieble: Capital improvements right yes yeah that's right.

642

01:16:00.180 --> 01:16:02.280

Village of Parish: Capital improvements okay so we're not there yet.

643

01:16:06.180 --> 01:16:06.720

Village of Parish: No.

644

01:16:08.880 --> 01:16:10.800

Village of Parish: Improving the building, no.

645

01:16:12.330 --> 01:16:14.850

Ken Scherrieble: No it's actually your it's replacing what's there.

646

01:16:16.470 --> 01:16:22.500

Village of Parish: yeah so maintenance maintenance maintenance yeah all right.

647

01:16:24.600 --> 01:16:24.990

Ken Scherrieble: Okay.

648

01:16:28.200 --> 01:16:30.570

Village of Parish: Well, I mean I could let's see what.

649

01:16:31.650 --> 01:16:33.690

Village of Parish: I got to play with I don't know.

650

01:16:37.050 --> 01:16:38.220

Village of Parish: brings a sewer bill reshoot.

651

01:16:40.920 --> 01:16:42.240

Village of Parish: The way we're going.

652

01:16:43.440 --> 01:16:46.800

Village of Parish: I could, can we get with just getting one of these analyzers this year.

653

01:16:49.590 --> 01:16:50.070

Ken Scherrieble: Can we get.

654

01:16:54.810 --> 01:16:56.520

Ken Scherrieble: Let me look, let me look into that.

655

01:16:58.590 --> 01:16:58.920

Ken Scherrieble: Because.

656

01:16:59.010 --> 01:17:09.990

Ken Scherrieble: Unfortunately, the way they've got analyzers now if you buy one like PLC and then you can put 44 heads into it so.

657

01:17:10.650 --> 01:17:27.390

Ken Scherrieble: Believe it or not buying the second analyzers not as expensive as it sounds, because it's actually your cost is in the head and the first analyzer then your second analyzer is actually a little bit

cheaper, but let me get let me get exact numbers for it, so we can ferret that out.

658

01:17:27.990 --> 01:17:29.520

Ken Scherrieble: And so.

659

01:17:31.170 --> 01:17:34.650

Ken Scherrieble: We can do is, we can face some of these in I mean.

660

01:17:36.870 --> 01:17:45.660

Ken Scherrieble: Should we do the chemical analyzers yes, we should do the chemical analyzers can we get away without it and continue doing it, the way we've been doing it, yes, we can.

661

01:17:46.200 --> 01:17:59.550

Ken Scherrieble: So I don't want you to feel like you got a gun to your head and you got to do this, you know, this is, this is one of those things where should we do it, yes, we should do it if we don't do it is the world going to come to an end will survive.

662

01:18:01.320 --> 01:18:02.220

Ken Scherrieble: Will.

663

01:18:07.920 --> 01:18:08.430

Village of Parish: I will.

664

01:18:09.600 --> 01:18:10.350

Village of Parish: Let us know.

665

01:18:11.310 --> 01:18:11.640

Okay.

666

01:18:13.590 --> 01:18:17.280

Ken Scherrieble: yeah i'll get that i'll get that number right email that number to you.

667

01:18:20.610 --> 01:18:21.660

Village of Parish: vibrator perfect.

668

01:18:23.730 --> 01:18:26.340

Village of Parish: People waiting for registration and.

669

01:18:27.690 --> 01:18:28.620  
Village of Parish: All that's all right.

670  
01:18:29.730 --> 01:18:33.720  
Village of Parish: yeah cuz we're going to put that on the on the shelf  
right, so all three of those lines.

671  
01:18:36.000 --> 01:18:37.680  
Village of Parish: All the talking about putting in.

672  
01:18:39.750 --> 01:18:48.660  
Village of Parish: la jolla there's a there's a service called options  
international and a lot of towns are using for getting rid of their  
economy but.

673  
01:18:49.950 --> 01:19:07.170  
Village of Parish: he's taking our way to convince the know hiring  
departments are some there are some things through auction international  
now at the town us to sell some of their stuff is summer right thanks so  
yeah anything okay only listed on there and then yeah is there a fee for.

674  
01:19:08.700 --> 01:19:09.810  
Village of Parish: My community.

675  
01:19:10.980 --> 01:19:13.650  
Village of Parish: I think, maybe the buyer pays for that.

676  
01:19:14.700 --> 01:19:18.450  
Village of Parish: i'm not sure right right exactly I was imprinted.

677  
01:19:19.770 --> 01:19:20.880  
Village of Parish: On it right.

678  
01:19:22.020 --> 01:19:22.350  
Okay.

679  
01:19:23.760 --> 01:19:24.990  
Village of Parish: Property insurance.

680  
01:19:26.250 --> 01:19:27.150  
Village of Parish: By thousand.

681

01:19:28.230 --> 01:19:32.700

Village of Parish: Have be right there the actual sprint I was ready and so okay.

682

01:19:37.650 --> 01:19:43.890

Village of Parish: Again that's me playing yeah James yelling make sure we might get them going over.

683

01:19:45.000 --> 01:19:48.420

Village of Parish: So when we were going to wi fi yeah yeah okay.

684

01:19:49.980 --> 01:19:55.620

Village of Parish: Next, one is lab testing supplies okay now when he put on his feet here.

685

01:19:56.640 --> 01:19:59.250

Village of Parish: he's got down here ready equipment 1400.

686

01:20:00.270 --> 01:20:05.790

Village of Parish: And I call it, I consider that the Left just me for the supply that beakers yeah yeah right.

687

01:20:06.540 --> 01:20:07.380

Ken Scherrieble: Down there.

688

01:20:07.440 --> 01:20:13.590

Village of Parish: All we haven't added anything I just need that words that 3000 well wait a minute you guys got a another one here.

689

01:20:18.150 --> 01:20:18.540

Village of Parish: For.

690

01:20:21.090 --> 01:20:26.700

Village of Parish: Number one we gotta log off the cleaning supplies cleaning supplies.

691

01:20:27.870 --> 01:20:28.110

Village of Parish: And the.

692

01:20:29.340 --> 01:20:32.190

Village of Parish: office supplies, if anything, okay right they don't have a game.

693

01:20:33.960 --> 01:20:34.410

Village of Parish: to play.

694

01:20:35.370 --> 01:20:36.180

Ken Scherrieble: And Kevin I just.

695

01:20:38.340 --> 01:20:42.900

Ken Scherrieble: feel that you've got lab actual lab testing someplace else.

696

01:20:45.270 --> 01:20:55.230

Village of Parish: I do, I have the line one right now lab testing and supplies GA 113 point four, eight, I have 3000 in the budget, you have spent 2182 52 so far.

697

01:20:56.520 --> 01:20:57.030

Ken Scherrieble: Much.

698

01:20:57.720 --> 01:20:58.050

Village of Parish: More than.

699

01:20:59.520 --> 01:21:02.370

Village of Parish: Any of these number 30 you have been.

700

01:21:04.380 --> 01:21:04.650

Village of Parish: To.

701

01:21:05.460 --> 01:21:14.910

Ken Scherrieble: write on land so by so that so so a big portion of that is your monthly laboratory fees for lab work that we have to send out.

702

01:21:15.360 --> 01:21:17.400

Ken Scherrieble: So this 1400 dollars.

703

01:21:17.790 --> 01:21:34.800

Ken Scherrieble: I would say is in addition to that, for this year, or at least maybe not 1400 don't Let me give you a number three eight well yeah you have 1400 dollars is basically in addition to what we normally spend.

704

01:21:36.930 --> 01:21:37.980

Ken Scherrieble: But this is a one time.

705

01:21:39.210 --> 01:21:39.810

Ken Scherrieble: One time.

706

01:21:41.790 --> 01:21:46.470

Village of Parish: That would bring out the directors and bring that but in mind for the next fiscal year.

707

01:21:47.580 --> 01:21:51.660

Village of Parish: Ending any other adjustments to bring it up right now to go 40 4400.

708

01:21:52.410 --> 01:21:54.360

Ken Scherrieble: Right and then next year.

709

01:21:57.360 --> 01:21:59.160

Ken Scherrieble: It would go down your back.

710

01:22:00.210 --> 01:22:07.590

Ken Scherrieble: You know the following year would go back down by roughly that you know by nine roughly the same amount it would go back down.

711

01:22:14.190 --> 01:22:17.850

Village of Parish: What we're going for 45 minutes.

712

01:22:20.460 --> 01:22:21.000

45.

713

01:22:27.300 --> 01:22:27.750

minutes.

714

01:22:29.340 --> 01:22:36.420

Village of Parish: Okay now this he's got he's got that's all really pretty boring is under his chemicals line but.

715

01:22:37.650 --> 01:22:46.710

Village of Parish: We haven't broken out by each time he buys a piece of camera to be advice or by the polymer the foggy the high before right yeah all those three are separate items on a budget.

716

01:22:47.100 --> 01:22:47.610

Okay.

717

01:22:49.980 --> 01:22:51.540

Ken Scherrieble: what's our what's our numbers on that Kevin.

718

01:22:51.780 --> 01:22:52.740

Ken Scherrieble: Right now, will be.

719

01:22:53.550 --> 01:22:58.890

Village of Parish: By sulfites so far this year, you have spent nothing we had 500.

720

01:23:00.600 --> 01:23:01.050

Ken Scherrieble: Okay.

721

01:23:03.210 --> 01:23:03.540

Good.

722

01:23:07.140 --> 01:23:10.800

Ken Scherrieble: we're gonna we're gonna need no no go ahead, give me give them all to me and then we'll go back to a.

723

01:23:12.360 --> 01:23:19.530

Village of Parish: polymer you are you we had some 50 in the budget, you have been for 21.9 for.

724

01:23:22.380 --> 01:23:22.830

Village of Parish: them.

725

01:23:27.870 --> 01:23:28.320

Village of Parish: alright.

726

01:23:32.400 --> 01:23:36.750

Village of Parish: Alright 900 in the budget spent six or 6.5.

727

01:23:42.180 --> 01:23:42.600

Ken Scherrieble: Okay.

728

01:23:46.470 --> 01:23:46.950

Ken Scherrieble: that's it.

729

01:23:48.600 --> 01:24:01.620

Village of Parish: yeah that's what the chemicals, the rest of it is a musical charges that's three barrels and there's the diesel surcharge or whatever else and CAP, whatever else they throw on the invoice.

730

01:24:02.070 --> 01:24:02.340

Ken Scherrieble: We have.

731

01:24:03.450 --> 01:24:05.310

Village of Parish: To make the second out right.

732

01:24:06.390 --> 01:24:06.810

Ken Scherrieble: yeah.

733

01:24:09.090 --> 01:24:11.910

Ken Scherrieble: So I mean, I think you are.

734

01:24:12.960 --> 01:24:14.400

Ken Scherrieble: or by so fight budget.

735

01:24:16.050 --> 01:24:19.260

Ken Scherrieble: it's probably Okay, where it is and our closing budgets are.

736

01:24:20.400 --> 01:24:21.030

Ken Scherrieble: Probably.

737

01:24:22.740 --> 01:24:34.350

Ken Scherrieble: May we are going to spend what we're going to spend some money, even though we haven't, yet we are going to spend some as we go into the next disaffection season, so I would raise chlorine up to 1000.

738

01:24:35.520 --> 01:24:38.790

Ken Scherrieble: And polymer I think is fine, where it is and and by sulfite I would.

739

01:24:40.170 --> 01:24:47.130

Ken Scherrieble: raise to 600, but I think we're fine I don't know why he's got \$8,000 here I don't know what he was doing with that that's got to be a typo.

740

01:24:49.200 --> 01:24:52.440

Ken Scherrieble: And yeah I think you're fine so it's just minor minor increases.

741

01:24:54.990 --> 01:25:01.020

Village of Parish: Economic like you guys, do you order the stock round make it so that arrived in June with the bill.

742

01:25:01.560 --> 01:25:02.880

Village of Parish: yeah usually.

743

01:25:03.780 --> 01:25:04.770

Ken Scherrieble: yep so we try for.

744

01:25:08.460 --> 01:25:10.440

Village of Parish: What What about the miscellaneous.

745

01:25:12.030 --> 01:25:12.270

Village of Parish: know.

746

01:25:12.360 --> 01:25:13.260

Ken Scherrieble: How much you have in the.

747

01:25:16.740 --> 01:25:23.820

Village of Parish: miscellaneous chemical charges was 1500 spent 490 4.6 almost 500.

748

01:25:24.540 --> 01:25:25.860

Ken Scherrieble: yeah again.

749

01:25:26.700 --> 01:25:30.360

Village of Parish: That deep darkness caps barrels whatever else comes with it.

750

01:25:30.990 --> 01:25:34.470

Ken Scherrieble: yeah I mean he might even be able to take a little bit off of that.

751

01:25:36.630 --> 01:25:37.560

One on.

752

01:25:38.670 --> 01:25:44.070

Village of Parish: 1100 dollars 700 need releasing getting your your yard easier.

753

01:25:45.240 --> 01:25:51.870

Village of Parish: For that large target by a large Center That was the diesel prices went up in the late 30s.

754

01:25:53.250 --> 01:25:56.400

Village of Parish: range I didn't receive anything.

755

01:25:57.000 --> 01:25:58.290

Ken Scherrieble: Okay sounds good.

756

01:26:00.030 --> 01:26:03.750

Village of Parish: And then, again, if necessary, when I have to close out the interview right.

757

01:26:06.120 --> 01:26:08.730

Village of Parish: Before we raising the oregano oil stopping.

758

01:26:09.900 --> 01:26:10.470

Village of Parish: The band.

759

01:26:11.640 --> 01:26:18.540

Village of Parish: So pay 600,000 running.

760

01:26:20.490 --> 01:26:21.150

Ken Scherrieble: yep.

761

01:26:25.410 --> 01:26:32.190

Village of Parish: Okay he's got he's got grease bb gun here I don't know what those those were his entry reason hammers are that different bugs.

762

01:26:33.390 --> 01:26:34.290

Ken Scherrieble: Know that's correct.

763

01:26:37.350 --> 01:26:40.920

Village of Parish: Okay you've got 2000 in there, we budgeted.

764

01:26:41.970 --> 01:26:44.130

Village of Parish: We budgeted three is bent Vo.

765

01:26:45.600 --> 01:26:46.410

Village of Parish: And spending a year.

766

01:26:47.100 --> 01:26:57.540

Ken Scherrieble: Well we're going to spend will spend about 2000 well, we again we may spend some more in this budget year, what I would leave, I would just leave at 2000.

767

01:26:59.520 --> 01:27:00.150

Ken Scherrieble: I think we're fine.

768

01:27:02.040 --> 01:27:02.880

Village of Parish: So so.

769

01:27:02.970 --> 01:27:10.320

Ken Scherrieble: I think you have to do I need to take it to two because will buy some in this budget year and then by seven next question here that gives us 4000.

770

01:27:11.220 --> 01:27:13.380

Ken Scherrieble: Between the two budget here, so I think we'll be okay.

771

01:27:15.120 --> 01:27:19.920

Village of Parish: yep have you better pray want more of it, I think our team doesn't really change a whole lot.

772

01:27:21.150 --> 01:27:28.050

Ken Scherrieble: Know doesn't really change a whole lot because it does have a lifespan to it, so you don't want to buy too much of it and have it sitting around.

773

01:27:30.570 --> 01:27:30.960

Village of Parish: Okay.

774

01:27:32.610 --> 01:27:37.770

Village of Parish: yeah because we still have three in this you weren't years but it's so you got to to for next year, yes.

775

01:27:38.730 --> 01:27:39.180

Village of Parish: yeah.

776

01:27:39.300 --> 01:27:46.980

Ken Scherrieble: we'll be fine we'll buy like a lot will buy them what we need most of it in this year, we need more will get it in the next budget year.

777

01:27:51.150 --> 01:27:51.600

tipping.

778

01:27:52.800 --> 01:28:07.380

Village of Parish: yeah I think we all go up the wall I dry, you know I think the reason we got his biggest ones, because they took out a loan, because the speed permit expires, so they can get rolled over that's why it's so high, I don't need me to go with it.

779

01:28:09.270 --> 01:28:14.250

Village of Parish: We just say this before right, left right we're talking the last year, oh.

780

01:28:16.140 --> 01:28:27.600

Village of Parish: Well, this is current fiscal year, so we had 19 we don't have any sponsors on there right that's one things I think that 19 and didn't get dumped he got pulled over that's why we got all.

781

01:28:30.840 --> 01:28:36.540

Village of Parish: That sounds we do to knock on two deaths and quite a nightmare for us.

782

01:28:37.530 --> 01:28:50.070

Ken Scherrieble: yeah we were able, in 19 we were able to dry it out enough that we didn't fill it up and have to take it out, so what we did to dumps because we had we really had in 20 we actually did 19 and 20.

783

01:28:51.540 --> 01:28:52.680

Ken Scherrieble: Is what we ended up doing that.

784

01:28:54.150 --> 01:28:58.680

Ken Scherrieble: But you don't want to send a half a roll off out because it's just you know wasting money.

785

01:29:00.180 --> 01:29:01.860

Ken Scherrieble: Because it costs, you want to go, we gotta do.

786

01:29:07.530 --> 01:29:07.830

Ken Scherrieble: yeah.

787

01:29:09.480 --> 01:29:10.770

Ken Scherrieble: We should be good, with one a year.

788

01:29:14.010 --> 01:29:15.930

Village of Parish: One or year.

789

01:29:17.130 --> 01:29:18.090

Ken Scherrieble: What do we got in there.

790

01:29:18.540 --> 01:29:19.110

Ken Scherrieble: What do we spell.

791

01:29:19.980 --> 01:29:20.250

Get.

792

01:29:26.940 --> 01:29:28.560

Ken Scherrieble: What was that i'm sorry we got plenty.

793

01:29:32.160 --> 01:29:32.970

Ken Scherrieble: And what did we spent.

794

01:29:33.090 --> 01:29:33.900

Village of Parish: Last year.

795

01:29:35.190 --> 01:29:36.210

Last year we spent.

796

01:29:37.560 --> 01:29:46.650

Village of Parish: 4545 hours for this year, I mean right you're supposed to but also for to the 28 would be sufficient.

797

01:29:46.920 --> 01:29:47.070

Your.

798

01:29:49.890 --> 01:29:50.340

Great.

799

01:29:54.000 --> 01:30:01.170

Village of Parish: Work in the budget, I think we just faded last month and I think it was for 25 years of doing this is big on any.

800

01:30:02.730 --> 01:30:03.750

Village of Parish: Any evidence, based on this.

801  
01:30:04.170 --> 01:30:05.460  
Ken Scherrieble: shouldn't be any mpt like.

802  
01:30:07.590 --> 01:30:09.120  
Village of Parish: Okay, well, we that was.

803  
01:30:14.700 --> 01:30:29.340  
Village of Parish: Last year, you had us when we're putting a book together for the current year, you had something about your permit the whole municipal wastewater we budgeted 365 but, yet we have spent nothing is that still require a permit or was happy to pick up with a penny on the back.

804  
01:30:30.210 --> 01:30:32.850  
Village of Parish: Exactly, so we didn't get that.

805  
01:30:33.390 --> 01:30:35.880  
Village of Parish: you're okay that's not.

806  
01:30:37.440 --> 01:30:37.770  
Okay.

807  
01:30:38.910 --> 01:30:39.840  
very smart.

808  
01:30:48.720 --> 01:30:52.890  
Village of Parish: Now we're down to greater under purchase i'm component oh.

809  
01:30:54.780 --> 01:31:08.190  
Village of Parish: Kobe bryant or pump purchases, this is where he has under his for replacement granted he's got 9000 sitting there, so this would then we've got a currently have 6000 in the budget for this fiscal year.

810  
01:31:10.140 --> 01:31:12.690  
Village of Parish: So far, well he's just young girls yeah.

811  
01:31:14.610 --> 01:31:28.230  
Village of Parish: So do you want to raise that up to nine so you can get before we have them on the shelf well he's gonna buy another one this

year right so that will need to be in the budget for next do you think sex is fine, without them.

812

01:31:29.790 --> 01:31:32.250

Village of Parish: There was no one watching grand apiece.

813

01:31:34.470 --> 01:31:37.770

Ken Scherrieble: You have roughly 20 2500 I forgot what they were.

814

01:31:39.810 --> 01:31:40.500

Ken Scherrieble: hold on a second.

815

01:31:41.820 --> 01:31:49.050

Village of Parish: been 4194 and I believe that was right so put that number has about 2500 a month.

816

01:31:49.230 --> 01:31:49.500

yeah.

817

01:31:55.170 --> 01:31:59.850

Village of Parish: Sixth grade for next year okay yeah cuz you gotta you gotta buy another bone tissue right.

818

01:32:00.270 --> 01:32:03.300

Ken Scherrieble: I mean be perfectly okay correct.

819

01:32:04.170 --> 01:32:12.570

Village of Parish: Well, by me again, then you want three you have two new ones, but you get three more next year i'll give you.

820

01:32:12.600 --> 01:32:13.560

Ken Scherrieble: Five of us for.

821

01:32:14.850 --> 01:32:19.320

Ken Scherrieble: yep yeah because yeah you're right because we have one on the shelf right now you are correct.

822

01:32:20.640 --> 01:32:24.780

Village of Parish: yeah so any advice good advice to Nick you know I can three.

823

01:32:27.780 --> 01:32:34.680

Village of Parish: foot down, I thought we delivered dentist I thought we were going to do three here.

824

01:32:36.510 --> 01:32:41.640

Village of Parish: Yes, what percentage, are you saying about me when I will live on the front of us apiece so.

825

01:32:41.670 --> 01:32:52.560

Village of Parish: We get another 20 525 75 right, so we want.

826

01:32:54.780 --> 01:32:55.530

Village of Parish: Everyone to leave it.

827

01:32:56.670 --> 01:33:00.090

Village of Parish: they're not quite 25 so we leave it at seven.

828

01:33:03.480 --> 01:33:04.530

Village of Parish: Okay, I see.

829

01:33:05.790 --> 01:33:08.130

Village of Parish: Okay, I give them room for at least three.

830

01:33:10.410 --> 01:33:11.010

Ken Scherrieble: Okay, good.

831

01:33:18.180 --> 01:33:18.540

Village of Parish: well.

832

01:33:19.980 --> 01:33:20.940

Village of Parish: Is our debt service.

833

01:33:22.440 --> 01:33:23.190

Village of Parish: In.

834

01:33:26.010 --> 01:33:27.210

Ken Scherrieble: Kevin before you go there.

835

01:33:28.860 --> 01:33:29.010

Village of Parish: We.

836

01:33:29.400 --> 01:33:29.640

Just.

837

01:33:30.720 --> 01:33:37.620

Ken Scherrieble: We we did have on there we we we, as the two blowers in the three vs Ts on how the board feels about that.

838

01:33:40.650 --> 01:33:43.170

Ken Scherrieble: So it's 12,000 for the blowers and.

839

01:33:48.480 --> 01:33:48.870

Ken Scherrieble: yeah.

840

01:33:49.170 --> 01:33:50.400

Ken Scherrieble: Lawyers in the 50s.

841

01:33:53.010 --> 01:33:53.400

Village of Parish: We have.

842

01:33:55.740 --> 01:34:06.750

Village of Parish: So many somebody asked her I said yeah I can add any equipment just a straight out equipment line yeah I just have to create them on where I place it, you know it's funny isn't it we know it's gonna be a meeting where you going for.

843

01:34:07.290 --> 01:34:13.710

Village of Parish: But I carried out either one or two more places to you can see, the numbers i'm looking at you know, without numbers.

844

01:34:15.270 --> 01:34:20.280

Village of Parish: So that's my creativity, so I can I can add any equipment life, which would then or.

845

01:34:21.420 --> 01:34:28.920

Village of Parish: which would then be the holding spot for your keys blowers, and any other quick meant for the plant you okay.

846

01:34:30.000 --> 01:34:30.900

Ken Scherrieble: All right, just.

847

01:34:31.050 --> 01:34:31.380

Let.

848

01:34:33.570 --> 01:34:44.130

Village of Parish: me know I get that but they're all their old I know they're old and after replacing them so me working out in some way times there's nickel and diamond.

849

01:34:46.680 --> 01:34:48.570

Village of Parish: Now I get that I just hate this.

850

01:34:50.670 --> 01:34:50.910

lot.

851

01:34:52.230 --> 01:34:53.730

of people knowledge.

852

01:34:57.900 --> 01:34:58.410

knowledge.

853

01:34:59.730 --> 01:35:01.560

Ken Scherrieble: You have to yeah they're.

854

01:35:01.950 --> 01:35:02.760

expensive.

855

01:35:04.140 --> 01:35:06.480

Ken Scherrieble: that's yes, it was 6200 bucks apiece.

856

01:35:08.370 --> 01:35:12.780

Village of Parish: wearing a new glarus what would they come with the be at ease on them.

857

01:35:13.680 --> 01:35:14.250

know.

858

01:35:15.690 --> 01:35:16.080

Ken Scherrieble: That.

859

01:35:16.140 --> 01:35:17.040

Village of Parish: they're all separate all.

860

01:35:17.370 --> 01:35:17.610

Ken Scherrieble: Their you.

861

01:35:19.740 --> 01:35:33.600

Ken Scherrieble: know their separate I mean what we could do, maybe is do the three VF DS this year and then go with new blowers, you know piecemeal one, at a time over the next couple years.

862

01:35:36.120 --> 01:35:39.810

Ken Scherrieble: And we want to do something like that or do a bfd and a blower or you know.

863

01:35:40.980 --> 01:35:53.340

Ken Scherrieble: Again, if he had said hey we've got money and we're going to start this project, I would say, take that off don't even think about it, but now we're looking at five years what's going to happen in the next five years, you know what those blowers.

864

01:36:08.220 --> 01:36:08.640

For the.

865

01:36:10.080 --> 01:36:10.770

install you.

866

01:36:14.760 --> 01:36:15.720

Village of Parish: will be installed.

867

01:36:19.980 --> 01:36:26.580

Village of Parish: Be wired in are they going to do it, they probably do that you enjoy the wiring right if we buy food.

868

01:36:29.820 --> 01:36:31.500

Ken Scherrieble: We should be able to take care of that in house.

869

01:36:33.540 --> 01:36:38.040

Ken Scherrieble: yeah I don't think we've got to hire anybody else to do that, I think that includes all those costs.

870

01:36:39.090 --> 01:36:39.330

yeah.

871

01:36:41.070 --> 01:36:47.160

Village of Parish: I think i'm not right up to all the piping, and we just put in her or this all the piping NP change for the new bars.

872

01:36:47.370 --> 01:36:49.230

Ken Scherrieble: No we're not changing we're not changing anything.

873

01:36:50.520 --> 01:36:51.900

Ken Scherrieble: we'll go, so the amount right up.

874

01:36:53.850 --> 01:37:00.210

Village of Parish: There was a cold so on, you know as you're going to be thinking about right now that's the question because everything's.

875

01:37:00.660 --> 01:37:01.290

All wars.

876

01:37:03.180 --> 01:37:03.630

Ken Scherrieble: Right.

877

01:37:05.520 --> 01:37:07.650

Ken Scherrieble: Let me, let me just double check all that for you.

878

01:37:08.940 --> 01:37:24.630

Ken Scherrieble: i'm pretty sure every that's taken care of in this cost, but let me not say it and then come back to you and say I was wrong, so let me just get that to get that, at the same time I get that there's other answers for you on the coordinator, the chlorine chemical love.

879

01:37:26.190 --> 01:37:27.000

Ken Scherrieble: unix.

880

01:37:32.100 --> 01:37:33.960

Village of Parish: going to get one more this year.

881

01:37:35.280 --> 01:37:47.100

Village of Parish: I never forget when are we gonna wait wait on us as answers before we say yes or no reason, well, we have, what we need to put them in and so i'm saying, are we going to do that now already, we want to wake.

882

01:37:48.420 --> 01:37:50.430

Village of Parish: Up I don't have it, we could toast I could.

883

01:37:51.720 --> 01:38:09.060

Village of Parish: I could throw the maximum number in there and then, when we come back to the next round review if he's got the update

information I can still modify edit by So what we do want and one we're looking at what how much I was be at peace by himself, you know.

884

01:38:15.870 --> 01:38:17.700

Ken Scherrieble: 1500 1400 bucks apiece.

885

01:38:20.310 --> 01:38:21.510

Village of Parish: Right, so we do.

886

01:38:23.940 --> 01:38:25.140

Village of Parish: You 7500.

887

01:38:25.140 --> 01:38:31.200

Village of Parish: bucks for that one lower and one VIP efficient for just 90 every now we do one in one.

888

01:38:35.910 --> 01:38:38.670

Ken Scherrieble: Yes, 76 7700.

889

01:38:40.860 --> 01:38:41.130

Village of Parish: All right.

890

01:38:43.650 --> 01:38:43.950

Okay.

891

01:38:45.150 --> 01:38:45.330

here.

892

01:38:47.190 --> 01:38:47.580

Village of Parish: We go.

893

01:38:48.660 --> 01:38:49.410

Village of Parish: Okay i'm going to.

894

01:38:50.670 --> 01:38:53.550

Village of Parish: Get creative saw how adequately mind.

895

01:38:55.410 --> 01:38:56.130

Village of Parish: So are we.

896

01:39:01.620 --> 01:39:01.950

Village of Parish: Okay.

897

01:39:03.090 --> 01:39:03.480

Ken Scherrieble: Anything else.

898

01:39:04.680 --> 01:39:05.100

Village of Parish: Any of those.

899

01:39:11.100 --> 01:39:14.070

Village of Parish: debt service currently we only have.

900

01:39:15.900 --> 01:39:18.060

Village of Parish: That thinking.

901

01:39:19.080 --> 01:39:20.730

Village of Parish: yeah no si p.

902

01:39:23.790 --> 01:39:29.700

Village of Parish: gets Darwin is going to go up from 11 well that's going to 12,000 principle.

903

01:39:35.160 --> 01:39:36.900

Village of Parish: that's wonderful, yes it is.

904

01:39:38.970 --> 01:39:56.100

Village of Parish: You know not literally one or more years for your June June 20 2024 which of your 2425 bucks a year yeah monster will be gone Okay, now we got one of the great UFC that is a zero percent interest and that one is to standardize.

905

01:39:57.210 --> 01:40:00.780

Village of Parish: Here yeah and that was being out there until.

906

01:40:02.460 --> 01:40:05.700

Village of Parish: 820 or 42 or 4142 budget year yep.

907

01:40:07.080 --> 01:40:09.780

Village of Parish: Unless they add to what they gave us this one thing.

908

01:40:11.400 --> 01:40:14.700

Village of Parish: That I have know anybody I don't think they.

909

01:40:16.770 --> 01:40:17.610

Village of Parish: need it well.

910

01:40:18.810 --> 01:40:21.300

Village of Parish: Well yeah because there will be different be different.

911

01:40:23.220 --> 01:40:27.780

Village of Parish: yeah yeah because it starts off as a Vegas great bond.

912

01:40:29.670 --> 01:40:31.740

Village of Parish: there's only one code number for bonds.

913

01:40:35.310 --> 01:40:38.910

Village of Parish: Yes, there would be two separate ones, important to me and for accepting.

914

01:40:41.160 --> 01:40:41.790

Money am.

915

01:40:43.950 --> 01:40:49.470

Village of Parish: 70 interest, I will get with Mary chapels through and see if it will be interested for.

916

01:40:51.390 --> 01:40:52.170

Key bank when.

917

01:40:53.610 --> 01:41:07.980

Village of Parish: This year was 4447 the reason why we didn't have anything in here is because we expanded our super debt service reserve account for prior authorization and you're going to go up three or something like that, now that I know.

918

01:41:09.120 --> 01:41:12.810

Village of Parish: So basically it's coming out of your budget yes.

919

01:41:14.070 --> 01:41:17.850

Village of Parish: I don't know what the industry is when you do that, I will reach out to me reach apples fruit.

920

01:41:19.110 --> 01:41:19.380

That.

921

01:41:22.680 --> 01:41:25.590

Village of Parish: A year, there is no emc interest.

922

01:41:28.170 --> 01:41:38.400

Village of Parish: Nothing there's nothing there um we have only budgeted in this fiscal year \$1,000 for the principal for consent order, we want to hold that keep that there, yes.

923

01:41:45.000 --> 01:41:45.150

Village of Parish: He.

924

01:41:45.420 --> 01:41:46.920

Ken Scherrieble: Was it was that for me.

925

01:41:49.230 --> 01:41:53.940

Village of Parish: Well i'm throwing it out there well yeah you guys on the time in on the please do because.

926

01:41:58.890 --> 01:42:04.350

Ken Scherrieble: I don't think we've got anything, right now, because it's all based they gave us a good time table.

927

01:42:05.760 --> 01:42:08.190

Ken Scherrieble: So we should be fine right now.

928

01:42:09.150 --> 01:42:10.620

Ken Scherrieble: We have to add anything for that.

929

01:42:13.200 --> 01:42:15.960

Ken Scherrieble: Because they haven't told and they haven't told me if it's fine.

930

01:42:17.940 --> 01:42:21.300

Ken Scherrieble: You know what you probably should put \$1,000 in there.

931

01:42:22.590 --> 01:42:24.240

We already have it there, so.

932

01:42:25.860 --> 01:42:28.320

Ken Scherrieble: yeah just leave it there, just in case to hit us with a fine.

933

01:42:30.420 --> 01:42:32.370

Village of Parish: All right, that's what that word okay.

934

01:42:33.900 --> 01:42:39.300

Village of Parish: Okay, this transfers to our reserve that's the fun the restarted.

935

01:42:40.110 --> 01:42:57.090

Village of Parish: For future wastewater systems on three of us here wastewater plant in system upgrade to face to face that we don't want to get upgraded, so I might throw out yeah well we're going to we're going to do some of that this year yeah cuz we get a cake to redo right.

936

01:42:57.180 --> 01:42:57.810

Correct.

937

01:43:03.390 --> 01:43:08.250

Village of Parish: And if I can only get a certain accounts once a year yeah.

938

01:43:09.390 --> 01:43:16.350

Village of Parish: No that's a savings account so right now you've got as of December, there was only one five or nothing I only make a chance bro yeah.

939

01:43:17.760 --> 01:43:25.650

Village of Parish: So i'm not going to be this year so right now, you got 21,000 509 in there, as a member in the future systems operational.

940

01:43:26.970 --> 01:43:27.540

savings.

941

01:43:29.880 --> 01:43:34.140

Village of Parish: So we would feel six five there's no okay.

942

01:43:35.610 --> 01:43:38.130

Village of Parish: Okay yeah you're spending.

943

01:43:41.550 --> 01:43:47.670

Village of Parish: Oh baby do I think we have direct control over would be through or when so right now.

944

01:43:50.580 --> 01:43:53.730

Village of Parish: We didn't lose any, but I do have a question to transfer can.

945

01:43:55.830 --> 01:43:57.510

Village of Parish: Actually, the same category, but.

946

01:43:59.790 --> 01:44:07.530

Village of Parish: The county osceola county currently owns what was the what was the buddha's property over Montgomery street is now vacant land.

947

01:44:08.400 --> 01:44:21.480

Village of Parish: But i'm still going to account for a sewer and I, you know I don't need another guy my question is, I know it's been confirmed that the CAP was it appropriately gap, and do you guys have written confirmation or something to show that.

948

01:44:22.500 --> 01:44:23.430

Ken Scherrieble: I don't know.

949

01:44:25.080 --> 01:44:25.830

Ken Scherrieble: me anything.

950

01:44:28.080 --> 01:44:28.410

Village of Parish: wow.

951

01:44:34.770 --> 01:44:35.130

Ken Scherrieble: So.

952

01:44:37.230 --> 01:44:38.220

Ken Scherrieble: You know you're you're.

953

01:44:39.780 --> 01:44:44.040

Ken Scherrieble: building codes person if the county sent them anything but they didn't send me anything.

954

01:44:45.300 --> 01:44:59.130

Village of Parish: Okay, and my same fresh and interesting thing question, we have the old it used to be an old really purple house up on Friday gas station does, that means place it was invented burnt down kind of burnt.

955

01:45:00.300 --> 01:45:07.170

Village of Parish: Longer there either, and the lady came in one day and I filled it with you and I go to call a sewer you guys.

956

01:45:08.190 --> 01:45:12.990

Village of Parish: And then give me proof that it was capped off, so I don't know if again if that was capped off or not even.

957

01:45:15.480 --> 01:45:22.920

Ken Scherrieble: That one, I know, there was a conversation about, but again I don't believe I got a letter that was capped off, but I believe it was.

958

01:45:25.650 --> 01:45:28.350

Village of Parish: don't you guys have to go down and check that.

959

01:45:30.450 --> 01:45:33.480

Ken Scherrieble: Only new one, we we don't really you know.

960

01:45:33.930 --> 01:45:37.350

Ken Scherrieble: Again, I know that one there was was next door to me.

961

01:45:38.160 --> 01:45:39.810

Village of Parish: I mean it was already burned down.

962

01:45:40.860 --> 01:45:45.480

Village of Parish: I know when I dug it up, they come down and check it to make sure that I can't it.

963

01:45:50.160 --> 01:45:54.330

Village of Parish: wasn't you guys, but it was the it was the guy gloomy.

964

01:45:55.680 --> 01:45:56.070

Village of Parish: You know down.

965

01:45:58.260 --> 01:45:59.070

Village of Parish: To work down there.

966

01:46:00.540 --> 01:46:06.000

Village of Parish: I mean the latter than I basically said the board authorize me to remove from the list was he.

967

01:46:07.350 --> 01:46:19.200

Village of Parish: was accused that house at 871 North railroad the one that had we had a certified there and welcome back taxes and Mr monkey bought it and turning to overgrow shed yeah yeah that's the last one I have from.

968

01:46:20.220 --> 01:46:23.190

Village of Parish: My favorite tell that it was capped off, and that was closing.

969

01:46:24.810 --> 01:46:34.140

Village of Parish: ratio George this one didn't they demolish the fire part was my yeah there and said yes done, but he never got any paper.

970

01:46:36.630 --> 01:46:39.780

Village of Parish: know when I was like I said when we kept off the one.

971

01:46:41.250 --> 01:46:43.980

Village of Parish: Okay race came down to who's the one in.

972

01:46:43.980 --> 01:46:45.120

Village of Parish: charge kaveh sure.

973

01:46:47.160 --> 01:46:52.980

Village of Parish: He come down, yes, you look at it and looked at me, you know, make sure I kept it off right.

974

01:46:54.390 --> 01:46:55.320

Village of Parish: And everything else.

975

01:46:56.160 --> 01:46:57.750

Ken Scherrieble: So you got him and doing it right.

976

01:46:59.820 --> 01:47:06.540

Ken Scherrieble: Here there hasn't been any to do so i'm just second i'm pretty sure that one's been done, and we want to make sure.

977

01:47:10.230 --> 01:47:10.530

Village of Parish: well.

978

01:47:16.590 --> 01:47:18.240

Village of Parish: I think it was George why.

979

01:47:19.710 --> 01:47:22.980

Village of Parish: Was he so George should have a record over dead, there was kept on.

980

01:47:24.090 --> 01:47:24.570

Village of Parish: Between.

981

01:47:24.720 --> 01:47:25.050

You know.

982

01:47:30.300 --> 01:47:32.190

Ken Scherrieble: Give me really code enforcement is the one.

983

01:47:32.190 --> 01:47:43.020

Ken Scherrieble: Who should should note that, and they should code enforcement should call us to come down and expected to make sure it's done but code enforcement is the final purveyor of whether or not the code has been enforced.

984

01:47:44.370 --> 01:47:45.570

Ken Scherrieble: You know so okay i'm.

985

01:47:47.460 --> 01:47:47.820

Ken Scherrieble: Okay.

986

01:47:48.690 --> 01:47:50.490

Ken Scherrieble: i'm pretty sure that on the gun.

987

01:47:50.730 --> 01:47:52.560

Ken Scherrieble: i'm pretty sure that one was taken care of.

988

01:47:54.180 --> 01:47:54.480

Village of Parish: That.

989

01:47:57.060 --> 01:47:58.800

Ken Scherrieble: was pretty hard to forget.

990

01:48:01.980 --> 01:48:02.520

Village of Parish: My house here.

991

01:48:06.540 --> 01:48:07.470

Village of Parish: is probably that.

992

01:48:09.420 --> 01:48:09.780

Village of Parish: Was.

993

01:48:10.950 --> 01:48:12.510

Village of Parish: Probably for.

994

01:48:14.640 --> 01:48:15.780

Village of Parish: don't for us.

995

01:48:20.970 --> 01:48:23.460

Was that so all the roles in the tournament.

996

01:48:26.100 --> 01:48:26.490

So i'm.

997

01:48:27.570 --> 01:48:38.130

Not kidding we stop it before it is we, when we turn on this property was when we had that at that point, it was born oh yeah oh good one.

998

01:48:41.520 --> 01:48:59.160

Village of Parish: Yes, Well, no, they don't know tear down in Captain at office two different on you're still tearing stuff up, I mean usually don't you like to sit on your own yeah basically my you don't know when you're done that's where they get water from that's where I was kind of.

999

01:49:00.600 --> 01:49:05.130

Village of Parish: You know the day forget then kept it off in the water, the surface waters going right in there.

1000

01:49:06.570 --> 01:49:07.260

cuz I never.

1001

01:49:08.310 --> 01:49:10.920

Village of Parish: Unless i'm physically so i'm good.

1002

01:49:16.890 --> 01:49:17.490

Village of Parish: yeah but I.

1003

01:49:18.630 --> 01:49:19.470

Village of Parish: might be coming from.

1004

01:49:19.800 --> 01:49:31.290

Ken Scherrieble: Well, you could have even have a ton of them in the village from old buildings from years ago, you know i'm just update you the purple one was kept in the trailer a Montgomery was kept.

1005

01:49:32.730 --> 01:49:36.600

Village of Parish: Well Okay, so I can remove those two from bonnie board opposition at the next meeting.

1006

01:49:40.050 --> 01:49:40.290

Right.

1007

01:49:42.000 --> 01:49:42.300

Village of Parish: Right.

1008

01:49:45.300 --> 01:49:49.530

Village of Parish: But there are still he okay I before I was my thought.

1009

01:49:50.820 --> 01:50:00.180

Village of Parish: county has the Buddhist property, but there I did send the last go to them and I don't they have as yet not not paid they paid the highway department, but not that one.

1010

01:50:01.230 --> 01:50:09.240

Village of Parish: They may be so, so it was capped off, but was it inspected by the sure people well.

1011

01:50:09.510 --> 01:50:09.990

Yes.

1012

01:50:12.360 --> 01:50:14.160

Village of Parish: Okay, all right, I just want to.

1013

01:50:18.720 --> 01:50:22.290

Village of Parish: Probably in Canada, what is sitting on the bill okay.

1014

01:50:24.810 --> 01:50:34.320

Village of Parish: i've still got time before the march my computer chip next this board meeting me I can take it off my roster and that drops me down to two.

1015

01:50:36.330 --> 01:50:40.440  
Village of Parish: 190 \$999 going out the door.

1016  
01:50:41.580 --> 01:50:42.270  
Village of Parish: So some awesome.

1017  
01:50:44.460 --> 01:50:56.280  
Ken Scherrieble: there's another thing that we want to do this year, I want to get a hold of the company over in the old school building and inspect their facilities do a full inspection there it's not something we've done.

1018  
01:50:58.050 --> 01:51:01.110  
Ken Scherrieble: Just to see if we've got anything going on there that we should know about.

1019  
01:51:03.180 --> 01:51:15.030  
Ken Scherrieble: You know, they said they're separated everything and they actually showed me that a couple of different tags they've got, but I want to go on and do a full audit a whole building this year so we'll be we'll be doing that and hopefully over the next couple months.

1020  
01:51:16.590 --> 01:51:16.950  
Village of Parish: Okay.

1021  
01:51:19.140 --> 01:51:25.920  
Village of Parish: This is not part of village, but i'm on the planning board and where we are reviewing the village town comprehensive plan.

1022  
01:51:26.400 --> 01:51:37.920  
Village of Parish: And there's a section now on public sewer solve if i'll forward that to you, and you can give me the information from that and then I will also in my email to you for you the phone contact number that I have for bio spirits over here.

1023  
01:51:38.670 --> 01:51:40.260  
Village of Parish: Great it that's okay you.

1024  
01:51:41.130 --> 01:51:42.660  
Ken Scherrieble: Know that's fantastic Thank you.

1025  
01:51:44.700 --> 01:51:45.030  
Village of Parish: Okay.

1026

01:51:46.710 --> 01:52:00.810

Village of Parish: I think you sent me an email once before, so I asked you can you shoot me an email just back at me sometime in the next couple days, because I, my address book totally blew itself stupid, you might lost I lost my address book in my email.

1027

01:52:01.710 --> 01:52:02.490

Ken Scherrieble: i'll take care of him.

1028

01:52:04.350 --> 01:52:04.920

Village of Parish: Okay, thank.

1029

01:52:06.270 --> 01:52:06.540

Ken Scherrieble: God.

1030

01:52:09.150 --> 01:52:10.560

Ken Scherrieble: you're back i'm back.

1031

01:52:13.980 --> 01:52:21.180

Village of Parish: So, so that is my to quit my question on sewer revenue, so I I can project and see what we're going to look like on that side.

1032

01:52:22.590 --> 01:52:23.850

Village of Parish: Innocent counties.

1033

01:52:26.490 --> 01:52:34.680

Village of Parish: But it is i'm guessing it works on budget in six but we've actually taken in 36 53.23 and you will.

1034

01:52:41.550 --> 01:52:47.130

Village of Parish: see an interest in earnings we budgeted six we made 344 as of December.

1035

01:52:51.240 --> 01:52:58.050

Village of Parish: Unless you guys plan on selling any equipment yeah you are guess what sells equipment after the truck sales right getting them.

1036

01:52:59.310 --> 01:52:59.700

So.

1037

01:53:01.980 --> 01:53:04.620

Village of Parish: there's one passenger we don't get too much of it.

1038

01:53:05.820 --> 01:53:07.170

Village of Parish: You know the state.

1039

01:53:09.810 --> 01:53:20.640

Village of Parish: And plugging all the other numbers on the revenue side of all he was magical work on that last page and then you'll see the what effect it will have on your appropriated funding.

1040

01:53:21.660 --> 01:53:22.470

Village of Parish: mathematically.

1041

01:53:24.510 --> 01:53:26.220

Village of Parish: Very good, and.

1042

01:53:29.670 --> 01:53:30.330

Village of Parish: i'm saying.

1043

01:53:32.130 --> 01:53:34.470

Village of Parish: So next week we're gonna.

1044

01:53:36.480 --> 01:53:38.820

Village of Parish: tweet the general account.

1045

01:53:40.590 --> 01:53:43.020

Village of Parish: Based on what we projects last week.

1046

01:53:44.430 --> 01:53:47.520

Village of Parish: Maybe didn't protect something like something out.

1047

01:53:50.130 --> 01:53:56.190

Village of Parish: And i'll see if I can find the gift, because I was on least a year, or even finding good factor for going.

1048

01:53:57.270 --> 01:53:57.600

First.

1049

01:53:58.770 --> 01:54:00.960

Village of Parish: I don't think we need to not only.

1050

01:54:02.760 --> 01:54:04.710

Village of Parish: Usually release a week or two re.

1051

01:54:05.910 --> 01:54:16.740

Village of Parish: Releasing when we put mine on there's a general timeframe yeah and then getting their people working from home or whatnot i'm not sure what their schedules racing people owners productive.

1052

01:54:18.000 --> 01:54:25.620

Village of Parish: No actually actually actually probably comptroller's office when I got this unknown deposit in the account level what we can and I got no enough from the Church.

1053

01:54:26.610 --> 01:54:38.370

Village of Parish: From your controller only about only in fact that kind of as well as on the bank statement ago in landstuhl se counsel's office located they give me \$13,100 and 50 cents.

1054

01:54:39.450 --> 01:54:43.440

Village of Parish: A pound bonus number interrogation I got the way it goes oh yeah let me get right in touch.

1055

01:54:45.690 --> 01:54:46.080

Village of Parish: Oh that's.

1056

01:54:47.340 --> 01:54:48.000

Village of Parish: Okay, thank you.

1057

01:54:49.410 --> 01:54:56.640

Village of Parish: Well, the thing I know I know one company, if you have kids at home they don't want you to work at home they want you working.

1058

01:54:57.960 --> 01:55:06.240

Village of Parish: But if you're your kids are all grown up and everything on there, let you work the home page you see people with kids at home.

1059

01:55:07.560 --> 01:55:08.100

Village of Parish: or not.

1060

01:55:09.630 --> 01:55:12.270

Village of Parish: anymore, I have to be telling the kids instead of.

1061

01:55:18.150 --> 01:55:28.500

Village of Parish: Right exactly but yeah if you can hear in the background, as a little nine nine months or whatever little one running around, and I think every director and above before.

1062

01:55:29.640 --> 01:55:38.400

Village of Parish: She was still able to keep on working, while you're answering my question no drama on the agenda nervous oh yeah I think I heard it.

1063

01:55:39.540 --> 01:55:43.320

Village of Parish: All right, well, thank you for your input coming in.

1064

01:55:44.550 --> 01:55:47.190

Village of Parish: public hearing will be doing, we have a meeting Wednesday.

1065

01:55:57.840 --> 01:56:00.690

Village of Parish: we're doing today, tomorrow and.

1066

01:56:03.690 --> 01:56:05.130

Village of Parish: I can put you down.

1067

01:56:06.330 --> 01:56:06.630

Village of Parish: yeah.

1068

01:56:09.600 --> 01:56:10.320

Village of Parish: No, I got it.

1069

01:56:11.220 --> 01:56:12.360

Ken Scherrieble: Okay i'm going back to bed.

1070

01:56:20.700 --> 01:56:22.230

Village of Parish: never been on a plane in a while.

1071

01:56:24.060 --> 01:56:24.840

Ken Scherrieble: Not neither guy and.

1072

01:56:26.730 --> 01:56:28.020

Village of Parish: I haven't been on a couple weeks.

1073

01:56:28.530 --> 01:56:32.670

Ken Scherrieble: yeah I gotta I gotta get down there it's just been it's been crazy with this.

1074

01:56:33.810 --> 01:56:34.980

Ken Scherrieble: coven craziness.

1075

01:56:36.690 --> 01:56:37.920

Ken Scherrieble: All right, good night everyone.

1076

01:56:45.210 --> 01:56:46.560

Village of Parish: Are you have my email address.

1077

01:56:47.370 --> 01:56:49.080

Ken Scherrieble: This hold on one, second, let me see no.

1078

01:56:52.170 --> 01:56:52.650

Village of Parish: You don't like.

1079

01:56:55.290 --> 01:56:56.760

Ken Scherrieble: Hello see what's going to give it to me.

1080

01:56:59.940 --> 01:57:02.520

Village of Parish: it's a village village treasurer.

1081

01:57:04.230 --> 01:57:05.670

Ken Scherrieble: Try sure.

1082

01:57:08.040 --> 01:57:08.460

Ken Scherrieble: well.

1083

01:57:10.740 --> 01:57:11.010

Village of Parish: Just.

1084

01:57:12.240 --> 01:57:13.710

Village of Parish: Yet, are you still you still need to read.

1085

01:57:13.860 --> 01:57:16.770

Ken Scherrieble: Those treasurer don't you know here at all so go ahead, can give it.

1086

01:57:16.770 --> 01:57:17.040

Village of Parish: To me.

1087

01:57:18.120 --> 01:57:19.560

Village of Parish: Okay, good and evil.

1088

01:57:19.620 --> 01:57:20.400

And sign.

1089

01:57:22.620 --> 01:57:24.570

Village of Parish: parish pra things, obviously.

1090

01:57:27.030 --> 01:57:32.310

Village of Parish: hyphen or dash ny.us.

1091

01:57:33.450 --> 01:57:37.380

Ken Scherrieble: Food treasure and parish dash and way.us.

1092

01:57:38.790 --> 01:57:40.110

Village of Parish: yeah and y.us yeah.

1093

01:57:40.350 --> 01:57:41.160

Ken Scherrieble: it's coming out you.

1094

01:57:42.900 --> 01:57:43.500

Village of Parish: Know right.

1095

01:57:44.850 --> 01:57:45.120

Village of Parish: Now.

1096

01:57:46.200 --> 01:57:48.690

Village of Parish: I know Pam Thank you know she got.

1097

01:57:51.930 --> 01:57:52.470

Village of Parish: Her the.

1098

01:57:54.690 --> 01:57:55.170

Village of Parish: notary.

1099

01:57:59.280 --> 01:57:59.730

Village of Parish: Yes.

1100

01:58:11.790 --> 01:58:12.930

Village of Parish: I think she does I don't know.

1101

01:58:15.540 --> 01:58:18.630

Village of Parish: Just later and I told her that I saw you.

1102

01:58:21.060 --> 01:58:21.300

Village of Parish: there.
