1

00:04:58.260 --> 00:05:00.090

Steve Ganetis: Just as a warning, I think you guys are muted.

2

00:19:31.980 --> 00:19:33.330

Village of Parish: Because a New York state.

3

00:19:35.160 --> 00:19:38.790

Village of Parish: authorize it, but the federal government hasn't yet.

4

00:19:40.230 --> 00:19:45.150

Village of Parish: Okay, then we're afraid, it might be a conflict, you know.

5

00:19:46.710 --> 00:19:49.650

Village of Parish: I don't I don't think there were the original one.

6

00:19:51.810 --> 00:19:54.600

Village of Parish: federal government's gonna do in California.

7

00:19:55.620 --> 00:20:00.390

Village of Parish: we're not doing a good job, I mean that's not that's not an argument right.

8

00:20:00.960 --> 00:20:15.900

Village of Parish: But you don't you know it hasn't come out yet so i'm just trying to you right, but your whole your whole point about what the Federal Government allows and what they might do they're not affecting any other State they're not they're not just New York they might I mean it is.

9

00:20:18.420 --> 00:20:21.270

Village of Parish: What you're saying, but the same way they're not doing any of these other places.

10

00:20:22.440 --> 00:20:30.060

Village of Parish: I think we're losing a great opportunity for this potentially free opportunity to have extra tax base in this village.

11

00:20:31.410 --> 00:20:34.350

Village of Parish: Then to us and said, if we are not at this time.

12

00:20:35.430 --> 00:20:42.510

Village of Parish: anytime we can get back in without right but it's gonna be hard to get it back in I don't think that it is hidden state is that it will be no.

13

00:20:43.980 --> 00:20:48.450

Village of Parish: need to conquer so that if you opt in now, and you find out down the road you don't like whatever.

14

00:20:49.560 --> 00:20:55.590

Village of Parish: Information on some New York state regarding specific so you can opt out at a future date no, you cannot that what you're in.

15

00:20:56.370 --> 00:21:09.540

Village of Parish: that's why at this point it's probably best to get all the information decide what we want to do, whether we want to be a part of whatever legislation they come up with in the future because they're still getting their act together at the higher levels and haven't.

16

00:21:10.590 --> 00:21:22.560

Village of Parish: figured out oh power language is going to be mandated so we if we postpone it, as we said anytime in the future and get in but once you're in you can't get out.

17

00:21:23.790 --> 00:21:31.800

Village of Parish: There also talking about extending the deadline, they hit Okay, they said the other day, they were talking about extended deadline for us to do this, another year out okay okay.

18

00:21:32.760 --> 00:21:55.050

Village of Parish: They also I read an article in one of the magazines, are they saying that if we do an APP and then he will have to supply and area for these people to smoke marijuana I haven't no I haven't, no, no, no it's just it's just like alcohol, just like alcohol as well, then the.

19

00:21:56.130 --> 00:22:00.420

Village of Parish: magazine from New York say is got it wrong because that's what's in there.

20

00:22:01.440 --> 00:22:02.280

Village of Parish: What magazine.

21

00:22:03.510 --> 00:22:04.050

Village of Parish: The.

22

00:22:05.940 --> 00:22:07.770

Village of Parish: New to this state.

23

00:22:08.940 --> 00:22:11.430

Village of Parish: municipality magazine thing yeah miss a belly.

24

00:22:13.050 --> 00:22:15.870

Village of Parish: hear me, did you Jeff steinman you're failing.

25

00:22:18.660 --> 00:22:19.920

Village of Parish: I think what you're reading is.

26

00:22:21.000 --> 00:22:31.230

Village of Parish: If it's legal like you don't have to provide us it's like cigarette smoke on school grounds can smoke in public public areas is what that.

27

00:22:31.740 --> 00:22:44.550

Village of Parish: yeah but what a shame, is that they wanted, if you have a place that you want to have a smoking area providers right like you could have a bar with does need a foreigner the park whatever for smoking.

28

00:22:45.090 --> 00:22:50.850

Village of Parish: Cigarettes right understand okay yeah basically like if they have say they build the shop here in town.

29

00:22:51.360 --> 00:23:04.380

Village of Parish: Then that shop needs to have a place where they can have a whole smoking area right on their property, not the village doesn't have to do anything for the town doesn't have to do anything for it on the property owner or the shop owner or the renter Lisa whoever.

30

00:23:06.630 --> 00:23:14.370

Village of Parish: that's my understanding is they have to provide it, or just you know you can just open a dispensary right, but if you're going to open up a.

31

00:23:15.960 --> 00:23:21.750

Village of Parish: Like a restaurant type deal where you can sit down and eat and smoke and they have to provide you.

32

00:23:25.320 --> 00:23:30.300

Village of Parish: Know cuz that going to oversee the one this is on smoking in any.

33

00:23:32.580 --> 00:23:40.470

Village of Parish: restaurant public public places, I mean a restaurant is and you get by your variety, we.

34

00:23:42.000 --> 00:23:43.740

Village of Parish: Not food okay.

35

00:23:45.120 --> 00:23:48.870

Village of Parish: You only got one right down there here between here in class guy.

36

00:23:50.640 --> 00:23:56.820

Village of Parish: Okay Okay, and so I went there is one that tax money that revenue.

37

00:23:58.290 --> 00:24:02.010

Village of Parish: Is it going to be significant yes well you think so well.

38

00:24:03.990 --> 00:24:13.230

Village of Parish: Today, I think that we're missing we keep saying we want to bring businesses to parish and we want to implement, we need to expand this is something that I don't.

39

00:24:14.040 --> 00:24:20.700

Village of Parish: know why we would turn it down and there's no guarantee we even get from what I understand that we would get a dispensary, but it was an option.

40

00:24:21.690 --> 00:24:35.550

Village of Parish: And so the the application fee is \$25,000 someone's gonna have a lot of money to open one and the insurance is going to be

through, and if you don't get it if you don't get the licensed use a five man that's a huge us.

41

00:24:36.690 --> 00:24:37.110

Village of Parish: So.

42

00:24:38.250 --> 00:24:42.120

Village of Parish: here if we allow it there's not there's no saying that there's got to be one.

43

00:24:43.770 --> 00:24:50.850

Village of Parish: will be somebody has an opportunity to make you exactly wanted to absolutely no no business business.

44

00:24:52.680 --> 00:24:57.810

Village of Parish: I mean we're looking at 4% sales tax those development of that we get 75%.

45

00:24:58.860 --> 00:25:03.960

Village of Parish: Of the 4% so you're looking at you know, was it for brad he said 3%.

46

00:25:05.280 --> 00:25:15.930

Village of Parish: i'm grabbing for the state website it's 4% and we get to the ability to get 75% village town whatever gets 75% of that 4% are we had to share with you.

47

00:25:16.680 --> 00:25:26.850

Village of Parish: Know it's just wait list if it's in the village i'm going to guess that's not very clear in the way it's listed right it just has a village language isn't real clear know there's there's right there's a lot but.

48

00:25:27.630 --> 00:25:40.920

Village of Parish: I don't think you know if you take it, you know 15,000 if they do \$2,000 in sales a day you're looking at \$15,000 a year in tax right back to this village by allowing see if we have.

49

00:25:42.240 --> 00:25:43.620

Village of Parish: The town town.

50

00:25:45.060 --> 00:25:52.830

Village of Parish: Sharing that's right and same thing goes the other way if we allow it, and it comes into the village that's village tax money.

51

00:25:54.750 --> 00:26:02.010

Village of Parish: I mean you guys want everyone spring water into the talent that could potentially not a lot of that cost off by allowing if somebody was to.

52

00:26:03.750 --> 00:26:05.250

Take we're shooting ourselves in the foot of the.

53

00:26:08.490 --> 00:26:14.520

Village of Parish: down the road we can opt in it and the language and you're right that's what it says there's really no.

54

00:26:16.110 --> 00:26:19.350

Village of Parish: elbow you know, once we.

55

00:26:25.980 --> 00:26:30.000

Village of Parish: Word choose to opt out today yeah we get chewed out that candidate and.

56

00:26:31.830 --> 00:26:33.120

Village of Parish: Unless they change the rules.

57

00:26:35.640 --> 00:26:44.040

Village of Parish: Application for not for something that's how I do it and they might change the rules that if there's a dispensary X nine miles and i'm not gonna lie to you don't know what.

58

00:26:45.150 --> 00:26:45.810

Village of Parish: My gate.

59

00:26:48.390 --> 00:26:49.890

Village of Parish: yeah very good point.

60

00:26:51.810 --> 00:26:52.320

Village of Parish: I mean is.

61

00:26:54.480 --> 00:26:55.590

Village of Parish: He wants to say something.

62

00:27:12.150 --> 00:27:12.450

13156258121: Okay.

63

00:27:19.410 --> 00:27:33.540

13156258121: All right, excellent so you had at you're bringing up the fact of whether this was a to do with providing spots where people smoke not be the case don't worry about that that's me whether we opt in we opt.

64

00:27:33.540 --> 00:27:36.630

13156258121: out that's going to be typical smoking.

65

00:27:49.140 --> 00:27:50.040

13156258121: Can you guys hear me.

66

00:28:04.440 --> 00:28:06.180

Village of Parish: The report.

67

00:28:24.840 --> 00:28:25.470

Village of Parish: Your.

68

00:28:29.400 --> 00:28:29.700

Village of Parish: cause.

69

00:28:48.090 --> 00:28:48.450

Village of Parish: hey.

70

00:29:13.920 --> 00:29:14.430

Village of Parish: Thank you.

71

00:32:03.330 --> 00:32:03.960

Village of Parish: that simple.

72

00:32:09.390 --> 00:32:10.140

Ken Scherrieble: Hello everyone.

73

00:32:13.080 --> 00:32:14.370

Village of Parish: yeah you're.

74

00:32:20.910 --> 00:32:21.960

Village of Parish: Right, we got the.

75

00:32:23.850 --> 00:32:26.280

Village of Parish: front of you attended a meeting.

76

00:32:29.340 --> 00:32:30.060

Village of Parish: With the motion.

77

00:32:38.880 --> 00:32:40.680

Village of Parish: Of the public turning over.

78

00:32:44.010 --> 00:32:44.550

Village of Parish: really would.

79

00:32:50.070 --> 00:32:51.090

Village of Parish: Like to.

80

00:33:14.460 --> 00:33:14.850

Village of Parish: words.

81

00:33:22.980 --> 00:33:24.090

Village of Parish: are pretty damn right here.

82

00:33:27.930 --> 00:33:33.180

Village of Parish: And that's needed some sources that way.

83

00:33:50.850 --> 00:33:51.690

Village of Parish: October for.

84

00:33:55.560 --> 00:33:56.370

Village of Parish: Most of the emotionally so.

85

00:34:04.410 --> 00:34:05.850

Village of Parish: I really communication.

86

00:34:07.620 --> 00:34:12.060

Village of Parish: out is that something innovative and maintenance for the boiling.

87

00:34:14.250 --> 00:34:28.800

Village of Parish: maintenance, we also had the sentences because i've been playing or have divisions of the planning board and Kevin is going to take the position is related to the elections we.

88

00:34:30.300 --> 00:34:33.630

Village of Parish: might happen there and the physician for Ben.

89

00:34:34.800 --> 00:34:41.520

Village of Parish: battle is often used to find a person to consider them family physicians events.

90

00:34:43.410 --> 00:34:44.310

Village of Parish: You know, some.

91

00:34:45.990 --> 00:34:48.120

Village of Parish: once a month last month we have.

92

00:34:49.620 --> 00:34:49.980

Village of Parish: open.

93

00:34:59.040 --> 00:34:59.460

Village of Parish: town.

94

00:35:05.910 --> 00:35:06.240

Village of Parish: for that.

95

00:35:11.970 --> 00:35:12.840

Village of Parish: or video here.

96

00:35:14.910 --> 00:35:15.240

Village of Parish: You can.

97

00:35:18.450 --> 00:35:18.990

Village of Parish: say.

98

00:35:20.490 --> 00:35:20.820

Village of Parish: hey.

99

00:35:22.710 --> 00:35:23.130

Village of Parish: Larry.

100

00:35:27.150 --> 00:35:28.650

Village of Parish: Well, what you can do.

101

00:35:31.170 --> 00:35:32.250

Ken Scherrieble: Good evening how are you.

102

00:35:33.270 --> 00:35:33.660

Village of Parish: Sorry i'm.

103

00:35:34.260 --> 00:35:41.460

Ken Scherrieble: Not there with you this evening, but I was told I was in contact with somebody has tested positive for coven so I.

104

00:35:42.570 --> 00:35:45.930

Ken Scherrieble: figured I gotta go get tested now and stay away from everybody for a couple of days.

105

00:35:51.120 --> 00:36:02.760

Ken Scherrieble: And you seen in September, it was a fairly normal month we did have the issues with the grinder pump on Montgomery and writer that we've we've covered previously.

106

00:36:03.540 --> 00:36:10.320

Ken Scherrieble: With the wipes and the hygiene products that I believe we have notified the neighbors and the village have notified the neighbors.

107

00:36:12.600 --> 00:36:21.900

Ken Scherrieble: We got to have the i&i cat epon I think Tom can you would deliver for more do we get those done in October, Tom.

108

00:36:24.780 --> 00:36:26.160

Ken Scherrieble: You gotta unmute yourself Tom.

109

00:36:27.690 --> 00:36:28.350

Ken Scherrieble: Tom.

110

00:36:29.580 --> 00:36:30.420

Ken Scherrieble: he's talking away.

111

00:36:33.000 --> 00:36:34.500

Ken Scherrieble: hey Tom you gotta unmute there you go.

112

00:36:36.300 --> 00:36:48.540

Tom B: yeah we we we've got a knock at a plant and we will put those in but I was going to reach out with Chapter time and have them have them come with us when he's got time and we'll put them in.

113

00:36:51.900 --> 00:36:52.470

Ken Scherrieble: Here right.

114

00:36:56.400 --> 00:37:10.740

Ken Scherrieble: Those of the i&i caps caps that go into manholes to try to stop the water from coming into the surface so we've got two of them in we've got four more down at the plant, and so we just want to, I think we should we put it in Tom.

115

00:37:12.510 --> 00:37:13.680

Ken Scherrieble: The one over.

116

00:37:24.570 --> 00:37:30.360

Tom B: One one by one, between South railroad ignore and the apartments like.

117

00:37:30.360 --> 00:37:31.110

Tom B: A sad movie.

118

00:37:32.490 --> 00:37:35.430

Tom B: And then we also put the law school.

119

00:37:36.720 --> 00:37:50.130

Ken Scherrieble: Okay, all right so get those two and then we want to get for more in, and I think we want to do the one down by the far are there you're the one in the field in school and they'll get the other one at the at the front of the old school.

120

00:37:51.690 --> 00:37:57.840

Tom B: And then, though, the one that's on that shortcut road that goes down the hill behind the.

121

00:37:59.100 --> 00:38:01.650

Tom B: Plant what behind the fuel place.

122

00:38:03.000 --> 00:38:11.520

Tom B: Yes, I was Dallas I would draw that together, Daniel was raining in the water, just flowing down that road, and it's just going read into that manhole that's that's on the hill.

123

00:38:12.450 --> 00:38:14.220

Ken Scherrieble: Alright, so we'll get we'll get those places.

124

00:38:14.610 --> 00:38:15.480

Village of Parish: of holding next week.

125

00:38:16.140 --> 00:38:19.050

Village of Parish: whoa whoa whoa whoa.

126

00:38:20.490 --> 00:38:20.820

Village of Parish: whoa.

127

00:38:22.200 --> 00:38:24.090

Village of Parish: whoa whoa whoa.

128

00:38:25.380 --> 00:38:25.740

yeah.

129

00:38:26.760 --> 00:38:28.950

Ken Scherrieble: wasn't mill street at the bottom.

130

00:38:38.070 --> 00:38:39.480

Ken Scherrieble: So we want to make sure we get one in there.

131

00:38:40.830 --> 00:38:42.600

Ken Scherrieble: So we'll take care of that next week.

132

00:38:43.740 --> 00:38:56.910

Ken Scherrieble: Now what's not on the report and mirror I know you've been you've been getting updates from Tom about this and Tom you may want to go into this in a little more detail is everything that's going on with the North side as far as the sweeper arm and.

133

00:38:58.230 --> 00:39:03.810

Ken Scherrieble: we're gonna have to get a crane in there and pick it up and all that good stuff and Tom do you want to go into that a little more for the board.

134

00:39:04.230 --> 00:39:10.200

Tom B: yeah that the the stripper arm the shaft itself is broken and it came off the bottom of the Center point where it.

135

00:39:10.710 --> 00:39:27.600

Tom B: spins around on reality, the tank out one to the other tank temporarily, we thought that we could get it fixed but it's going to be a long, long term fix I believe the other tank what we've got to do is we're adjusting it trying to get we got the air going to it but.

136

00:39:28.950 --> 00:39:35.670

Tom B: Our variation in our mix liquors are terrible and what we're going to have to do on the first of the month is.

137

00:39:36.090 --> 00:39:41.790

Tom B: pumped those all out and start fresh So what we got to do is we've got some room left.

138

00:39:42.240 --> 00:39:48.000

Tom B: But once we pump the zone one, two and three out we're not gonna have any room for anything during the winter.

139

00:39:48.390 --> 00:40:03.690

Tom B: So you're probably might have to get a hold of the company like God to do and hall that stuff that's there out to our out to maybe watertown if they're taking it that that's not cheap, nor is this.

140

00:40:05.430 --> 00:40:16.500

Tom B: Repair on the North side, going to be cheap either that's that complete sleeper i'm assemblies gotta be rebuilt so i'll keep you posted as to how we're going on and what we're doing so.

141

00:40:18.960 --> 00:40:19.950

Tom B: It is what is this.

142

00:40:21.480 --> 00:40:24.960

Village of Parish: thing isn't working what isn't working.

143

00:40:26.190 --> 00:40:28.410

Tom B: The North side is not working at all.

144

00:40:28.920 --> 00:40:30.510

Village of Parish: Well we'll take it.

145

00:40:32.400 --> 00:40:39.900

Tom B: yeah the south side, let me see, let me see I gotta get my websites i'm traveling yeah the from traveling east.

146

00:40:41.700 --> 00:40:54.240

Tom B: The South side is the one that that we're going to need a repair and right now we're dealing with that it's not you know, has the error of veils don't work.

147

00:40:55.200 --> 00:41:05.280

Tom B: But we're just we're kicking along it's it's, we have to do a little special effort to try to get it to work better, but we gotta work and we got air.

148

00:41:06.000 --> 00:41:19.530

Tom B: We haven't violated yet on our i'm off cones so we've actually past it's a little murky but there's no stability so tomorrow is our speed test i'm not sure if we're going to pass everything on the speedy steps.

149

00:41:22.620 --> 00:41:26.610

Village of Parish: That we have been using all along, but this time.

150

00:41:29.730 --> 00:41:30.180

Tom B: it's the.

151

00:41:31.770 --> 00:41:40.080

Tom B: let's see the north side is the one that's down the we've been using all the stripe the south sides, one that that that's been known for a long time.

152

00:41:40.080 --> 00:41:42.930

Village of Parish: to grow bigger than legal.

153

00:41:58.080 --> 00:41:58.500

Village of Parish: well.

154

00:41:59.220 --> 00:42:07.140

Tom B: hey you're looking from the building the tank on the Left was the one that you've been using all this time and then that's the one that needs to be around.

155

00:42:08.490 --> 00:42:11.130

Village of Parish: Long long road with.

156

00:42:13.980 --> 00:42:14.610

Village of Parish: Their end.

157

00:42:15.870 --> 00:42:16.710

Village of Parish: And everything.

158

00:42:19.140 --> 00:42:26.310

Village of Parish: And now, when they're had issues in the pumping down before, because some part of it, one thing on it sounds had issues.

159

00:42:32.670 --> 00:42:33.150

Village of Parish: Right now.

160

00:42:43.800 --> 00:42:47.910

Ken Scherrieble: Where we're directionally challenged over here, yes.

161

00:42:51.690 --> 00:42:58.320

Ken Scherrieble: So yeah so that's where we are in that mirror, have we heard anything from because I haven't heard anything from our.

162

00:42:59.340 --> 00:42:59.850

Ken Scherrieble: From.

163

00:43:01.260 --> 00:43:04.770

Ken Scherrieble: In about whether anything has come from the usda have you.

164

00:43:08.340 --> 00:43:10.170

Ken Scherrieble: cool, what do you got to tell us.

165

00:43:13.980 --> 00:43:19.050

Village of Parish: process and we're going to talk about that a little bit they are.

166

00:43:20.130 --> 00:43:24.960

Village of Parish: Asking the village to interview a certain amount of money to the project.

167

00:43:26.430 --> 00:43:31.470

Village of Parish: So we need to have a discussion about that tonight, and the reason why i'm here.

168

00:43:34.980 --> 00:43:39.420

Village of Parish: And we're going to submit a grant for the week program that just opened back up.

169

00:43:40.830 --> 00:43:47.940

Village of Parish: But we should get together there's money for emergency repairs to so.

170

00:43:48.960 --> 00:43:52.590

Village of Parish: You know I don't know if this could be it sounds to me like.

171

00:43:53.730 --> 00:43:56.760

Village of Parish: We don't have redundancy right now correct correct.

172

00:43:57.300 --> 00:43:57.960

Correct.

173

00:43:59.010 --> 00:44:04.410

Village of Parish: So in my opinion, that would qualify for emergency repair so.

174

00:44:05.670 --> 00:44:07.950

Village of Parish: we'll talk about that to something.

175

00:44:09.990 --> 00:44:15.750

Village of Parish: That would come from either program what the state program is a better option.

176

00:44:17.730 --> 00:44:27.900

Village of Parish: Basically, they they fought me the money and then you gotta you know to do the repair and then you get the final you know long term long term financial program happens.

177

00:44:30.630 --> 00:44:43.440

Village of Parish: I mean if you have an emergency, you know it's a different program so you can try that can you guys got any estimate to any idea how much it's gonna cost.

178

00:44:44.610 --> 00:44:45.210

Village of Parish: So.

179

00:44:47.040 --> 00:44:50.670

Ken Scherrieble: we've got some preliminary Tom do you have everything or just or.

180

00:44:51.150 --> 00:44:59.130

Tom B: just looking i'm looking at that what's got to be done to that tank that needs to the super on replay and I i'm pretty sure that.

181

00:45:00.330 --> 00:45:01.500

Tom B: Roughly 40 K.

182

00:45:04.080 --> 00:45:04.410

Tom B: You know.

183

00:45:04.950 --> 00:45:05.400

Ken Scherrieble: What we need.

184

00:45:07.170 --> 00:45:10.590

Tom B: I mean we get we should be treating this as a definitely an emergency.

185

00:45:11.400 --> 00:45:13.020

Village of Parish: Okay, all right.

186

00:45:15.180 --> 00:45:21.840

Ken Scherrieble: So we're at 40 K and just to do that fixed, but then we look at the cell whatever side the right side.

187

00:45:23.580 --> 00:45:32.250

Ken Scherrieble: That also needs probably another easy 40 K worth of repairs to get us back to redundancy probably more really when you sit down look at it.

188

00:45:33.660 --> 00:45:40.830

Ken Scherrieble: To get us back to have any kind of redundancy and right now we're just lumping without the tank that we you know we did all the work in.

189

00:45:41.940 --> 00:45:48.300

Ken Scherrieble: is the one that now has as got this issue the tank that we haven't done much work in is the tank that we're having.

190

00:45:53.610 --> 00:46:00.120

Ken Scherrieble: Now so there's no air for sale so we're definitely at 100,000 you know pretty easily.

191

00:46:08.490 --> 00:46:13.620

Ken Scherrieble: we're trying to avoid a hotel a new plant got here, but that is taking a lot longer than any of us hoped.

192

00:46:16.080 --> 00:46:16.290

Village of Parish: know.

193

00:46:24.510 --> 00:46:27.360

Village of Parish: stations bear with it just had a recent.

194

00:46:30.870 --> 00:46:32.430

Ken Scherrieble: i'm sorry with the with the weather.

195

00:46:33.390 --> 00:46:34.080

Village of Parish: Well yeah.

196

00:46:36.930 --> 00:46:45.900

Tom B: Three I think two or three complete village power outages and when that happens we've got we got to call out because we have to come out and check.

197

00:46:46.200 --> 00:46:57.360

Tom B: The plan actually shuts itself down, even though the generator the street around turns off the chemical pumps turn off and the blower's turn off, so we have to send a guy out not only just check the the.

198

00:46:57.810 --> 00:47:09.390

Tom B: Each one of the limitations which were all out to read, make sure they're going to have to go back to the plant that makes sure that in turn back the blower's back on and run through the whole system so.

199

00:47:10.650 --> 00:47:22.350

Tom B: it's kind of a it's nice to have the generator there and the generator kicks in for the lift station and the main limitation down in North Korea and also kicks on the planet, but the only thing it does is to give you like.

200

00:47:25.170 --> 00:47:32.190

Village of Parish: One day, six or 7.5 minutes I came back at 10 after five.

201

00:47:35.820 --> 00:47:36.600

Ken Scherrieble: Good for equipment.

202

00:47:38.370 --> 00:47:42.120

Village of Parish: Any other questions, we need to have another meeting.

203

00:47:49.290 --> 00:47:52.020

Village of Parish: Okay, what would be November eight.

204

00:47:54.750 --> 00:47:55.230

Ken Scherrieble: November.

205

00:47:55.320 --> 00:48:01.980

8.

206

00:48:07.860 --> 00:48:08.280

Ken Scherrieble: Okay.

207

00:48:11.340 --> 00:48:12.060

Ken Scherrieble: 630.

208

00:48:13.110 --> 00:48:13.740

Village of Parish: Okay.

209

00:48:15.360 --> 00:48:15.630

Ken Scherrieble: Okay.

210

00:48:23.940 --> 00:48:24.300

Village of Parish: yeah.

211

00:48:24.630 --> 00:48:24.870

yeah.

212

00:48:29.550 --> 00:48:30.180

Village of Parish: you're meeting.

213

00:48:36.990 --> 00:48:39.540

218

00:49:03.150 --> 00:49:05.730

Village of Parish: Okay, so during the month of September.

219

00:49:07.080 --> 00:49:17.790

Village of Parish: building permits for building inspections were performed subbing building permits were both all three building permits were extended and nine violation were corrected.

220

00:49:19.020 --> 00:49:24.870

Village of Parish: and tell me who is holding meetings with tenants of cover as well as the planning word and and Tom budget workshop.

00:49:26.190 --> 00:49:41.460

279

00:57:55.290 --> 00:58:11.460

Village of Parish: sort of first item in your packet it's just a printout from that service program i've seen any community and a lot of that website and find out exactly where it stands at any time terms of what actions have been completed, how many places.

280

00:58:13.050 --> 00:58:18.660

Village of Parish: And then there's also some information about what some neighboring communities in social work.

281

00:58:20.550 --> 00:58:31.050

Village of Parish: So, as the mayor said reactions have been completed, only two of those actions actually carry points for, for instance movers.

282

00:58:34.290 --> 00:58:39.450

Village of Parish: So we'll just code enforcement officer didn't attend the training over.

283

00:58:43.170 --> 00:58:50.610

Village of Parish: But we are offering a new version of the new training system state code to change manager at our office in Syracuse.

284

00:59:02.670 --> 00:59:03.270

Village of Parish: So.

285

00:59:05.520 --> 00:59:09.540

Village of Parish: One more action in order to get this information which is.

286

00:59:13.260 --> 00:59:15.000

Village of Parish: very easy.

287

00:59:23.610 --> 00:59:33.690

Village of Parish: So the next package is a spreadsheet that we've put together in our office we call it a points estimator tool and what it does, is it at the top.

288

00:59:34.170 --> 00:59:45.450

Village of Parish: The top right is just a summary of the current points so again 900 points, is where the gold stands right now and those items that have been achieved are shown in blue.

289

00:59:46.830 --> 01:00:00.390

Village of Parish: And what i've done is just gone ahead and kind of shown some of the actions and I think the village could complete within a relatively short amount of time let's say the next six months 12 months, and those are shown in very short term.

290

01:00:01.980 --> 01:00:08.460

Village of Parish: Okay, so by completing those I can go to those in the moment that would bring the village to 2500 points.

291

01:00:09.420 --> 01:00:30.510

Village of Parish: Okay, and then there's some longer term actions that i've shown in this orange color and that would bring the village up to

5100 points that would actually qualify the village if to deliver to earn those 5000 points for \$70,000 in additional grants, on top of the \$5,000.

292

01:00:32.130 --> 01:00:35.400

Village of Parish: So, in terms of some of these shorter term actions.

293

01:00:36.840 --> 01:00:49.260

Village of Parish: Surely green morning to discuss the energy code training coming up on November 17 that's all day training our office and Syracuse that's worth 200 points that will be for to actions and qualified.

294

01:00:50.760 --> 01:00:52.350

Village of Parish: For the.

295

01:00:54.330 --> 01:01:00.090

Village of Parish: Training 17 November 17 okay that's after this after election.

296

01:01:04.440 --> 01:01:13.680

Village of Parish: awarded us toward or for one can be can be used for any clean energy project so could be used towards the installation of the ev charging station okay.

297

01:01:15.150 --> 01:01:21.780

Village of Parish: If the village were to move ahead and purchase the ev charging station that would also be an action and then qualify.

298

01:01:24.450 --> 01:01:27.210

Village of Parish: So it'd be an either work in order to get that.

299

01:01:29.730 --> 01:01:32.340

Village of Parish: Nobody has the fourth action which because after.

300

01:01:33.390 --> 01:01:37.830

Village of Parish: We qualify for the 5000 can turn into music for the.

301

01:01:40.950 --> 01:01:41.220

Village of Parish: worst.

302

01:01:45.360 --> 01:01:46.890

Village of Parish: Finally, reading my emails.

303

01:01:50.580 --> 01:02:00.270

Village of Parish: We just held one last week in our office, I think we had a dozen or so code officers there folks seem to really appreciate it it's just a good refresher.

304

01:02:01.500 --> 01:02:03.300

Village of Parish: Current information on the updated state.

305

01:02:08.790 --> 01:02:18.030

Village of Parish: So some of the other actions are just described very quickly for consideration, and I can follow up with more information there's more information I sort of Program.

306

01:02:21.000 --> 01:02:36.240

Village of Parish: There is an action that necessarily follows the clean heating and cooling DEMO and that can be achieved by installing air source to pump, for example in a village building we've done this in the village of class guy in their village office and libraries.

307

01:02:39.870 --> 01:02:54.780

Village of Parish: led street lights, I know the village has done the Cobra had lights we weren't sure if there are decorative lights within the village at all sort of the host top style and lights that's a separate action.

308

01:03:01.590 --> 01:03:03.600

Village of Parish: Welcome, one of the maximum little life both were.

309

01:03:06.750 --> 01:03:12.840

Village of Parish: So, so I started as a requirement is there needs to be a minimum of 10 of errors in order to qualify.

310

01:03:13.860 --> 01:03:15.990

Village of Parish: For that so that's not the case with.

311

01:03:18.480 --> 01:03:29.040

Village of Parish: Two other ones that a lot of municipalities have done in central New York and are really fairly easy to do our benchmarking things using EPA has a software called.

312

01:03:30.900 --> 01:03:40.830

Village of Parish: Energy Star portfolio management and we would work with you to collect the energy bills and the information about square footage in the building entered into the Program.

313

01:03:41.340 --> 01:03:51.120

Village of Parish: And it's really easy to do the benchmarking advanced reporting just requires the village trustees to pass a resolution saying you'll post that information on the website.

314

01:03:52.590 --> 01:04:00.270

Village of Parish: So those are two those two don't sound like you can hide easy to do at no cost to do so again, a lot of the missing values.

315

01:04:01.500 --> 01:04:01.740

On.

316

01:04:02.820 --> 01:04:08.640

Village of Parish: The next one in green is the charging stations that we've been talking about and i'll go into some information about costs.

317

01:04:09.570 --> 01:04:23.280

Village of Parish: and other grants available, besides, Mr pay for those and then the final one is showing in green is an item so to close Community campaigns and the idea of that is that.

318

01:04:24.420 --> 01:04:33.900

Village of Parish: The disabilities can help organizations like ours, which is currently running the heat smart see ny campaign it's really a consumer education outreach campaign.

319

01:04:34.320 --> 01:04:44.670

Village of Parish: Where we hold workshops now of course online with webinars we have contractors We selected for an rfp process based on their quality of workmanship and so forth.

320

01:04:45.780 --> 01:04:51.960

Village of Parish: And we help Homeowners and small business owners, mostly to install their source.

321

01:04:53.370 --> 01:05:01.410

Village of Parish: and disabilities can really help to spread the word within their communities, I doing things like posting a link to our web page on your website.

322

01:05:02.790 --> 01:05:13.770

Village of Parish: Putting an announcement out flyers and office things like have you found that can really help with doing that, right now, the talent families, for example, that.

323

01:05:15.630 --> 01:05:22.290

Village of Parish: So those are just some of the easier ones that we're seeing municipalities kind of gravitate towards I found I will just share with you.

324

01:05:23.310 --> 01:05:24.330

Village of Parish: A little bit tonight.

325

01:05:25.410 --> 01:05:41.040

Village of Parish: So then, just turn into these quickly the next two sheets in the handout are these colorful ones, what we've done in the offices it's just trying to answer we here as the most common questions in the cockpit.

326

01:05:44.580 --> 01:05:55.470

Village of Parish: So this first one is becoming a basis it's kind of like ED station, one on one just describes the different kinds of stations Level one level two and Level three.

327

01:05:56.880 --> 01:06:04.620

Village of Parish: In terms of what kind of electrical circuit, you need to connect to how quickly they can recharge your vehicle.

328

01:06:05.910 --> 01:06:14.010

Village of Parish: costs per each type, there is a range there, you can see, so cost for equipment and then installation costs.

329

01:06:14.550 --> 01:06:22.680

Village of Parish: The reason there's such a big range on the installation costs is that it really does depend on how close you want to install the station to.

330

01:06:23.070 --> 01:06:34.650

Village of Parish: A building that already has good electrical service right so oftentimes you know thinking about the village of Jordan, they actually mounted it right next to the village office just connect.

331

01:06:35.520 --> 01:06:50.940

Village of Parish: Electrical panel in the office building a simple, but the town of do when we installed it fairly the middle essentially of

their parking lot so national grid that to extend the life in the street into the parking lot was just a more costly.

332

01:06:52.650 --> 01:06:53.190

Village of Parish: process.

333

01:06:55.260 --> 01:07:05.910

Village of Parish: A little bit of information about the installation process that's the role and electrician or installer that you would hire we can give you references to a number of Installers.

334

01:07:06.750 --> 01:07:19.830

Village of Parish: For listen to what's the role of the utility basically the utility does everything from the street to your location, the electrician does everything in the building, like the electrical panel upgraded.

335

01:07:23.130 --> 01:07:24.120

Village of Parish: And then on the back.

336

01:07:25.230 --> 01:07:26.760

Village of Parish: we've got some information there about.

337

01:07:27.900 --> 01:07:33.060

Village of Parish: What would be involved if you wanted to charge electric vehicle drivers to users.

338

01:07:34.620 --> 01:07:40.470

Village of Parish: A lot of municipalities, we work with actually charge anything for thinking, there is.

339

01:07:41.700 --> 01:07:49.920

Village of Parish: At this point there aren't so many ease on the road that you're going to get a ton of folks using the station, right now, at least in the next year or two.

340

01:07:51.120 --> 01:07:56.370

Village of Parish: And it's probably not worth it, to try to track pay for the fees to do all the.

341

01:07:57.990 --> 01:08:03.390

Village of Parish: Most misspelled we just sort of giving it away as a service to their essentially.

342

01:08:04.620 --> 01:08:07.620

Village of Parish: The way, maybe attract the business, instead of being.

343

01:08:13.800 --> 01:08:22.320

Village of Parish: Part of phase one life by your face yeah those are not actually owned by the city itself as.

344

01:08:24.360 --> 01:08:25.080

Village of Parish: A third party.

345

01:08:26.490 --> 01:08:27.480

Village of Parish: So, starting with.

346

01:08:28.560 --> 01:08:31.110

Village of Parish: Paper a person right.

347

01:08:32.880 --> 01:08:37.500

Village of Parish: Whatever yeah yeah for some cross got to the.

348

01:08:43.350 --> 01:08:54.270

Village of Parish: supermarket, I mean a big store down there with all the other stores In it I can't think of the name of number why destiny destiny yeah yeah yeah got it they got a bunch of new.

349

01:08:55.410 --> 01:08:56.400

Village of Parish: See that's why I believe.

350

01:08:59.520 --> 01:09:08.730

Village of Parish: If you don't want to do it, a fee that basically works in a couple of different ways, you can charge by the kilowatt hour or how much power users, you can charge by.

351

01:09:09.900 --> 01:09:12.450

Village of Parish: The time where you can turn your life.

352

01:09:26.490 --> 01:09:27.900

Village of Parish: Good into communities.

353

01:09:29.430 --> 01:09:37.440

Village of Parish: they're becoming pretty popular, we see how many vehicles really are out there, using the left of it yeah So when I started as.

354

01:09:38.310 --> 01:09:46.770

Village of Parish: Data on that there's about I would say 3000 electric vehicles register in central New York at this point mix of.

355

01:09:47.190 --> 01:10:06.690

Village of Parish: Those that are my tesla all battery and, like the one I am which is like a plug in hybrid so I charge my here, and I can drive 30 miles on the electric and then it switches over to the to the hybrid gas interested if travel, but not electricity polling.

356

01:10:07.740 --> 01:10:08.610

Village of Parish: yeah so.

357

01:10:09.900 --> 01:10:17.460

Village of Parish: That is kind of shown here in this top information Level two will give you about 20 miles.

358

01:10:18.660 --> 01:10:22.470

Village of Parish: per hour of charging at the 240 volt.

359

01:10:24.330 --> 01:10:28.440

Village of Parish: So you can do the calculation and how many kilowatt hours of math right now.

360

01:10:30.930 --> 01:10:43.770

Village of Parish: that's very different from the ones are doing like on the thruway to try these Level three like at the dewitt rest up, they have one now Eric power for he's putting a lot of those using that Volkswagen lawsuit my.

361

01:10:45.150 --> 01:10:48.630

Village of Parish: Post yeah these will be scandal money.

362

01:10:49.680 --> 01:10:53.550

Village of Parish: So you know I just used for my car I just plug it into my one.

363

01:10:55.770 --> 01:11:10.830

Village of Parish: Charles my 30 miles overnight, yes, it goes through the convert the same plugin that goes your car exactly yeah yeah yeah works works pretty well, but the ones that diminish the power, these are doing these Level two stations and you see the picture on that the town.

364

01:11:12.180 --> 01:11:18.000

Village of Parish: And that's a charge point station that's probably the most popular company in the country.

365

01:11:19.320 --> 01:11:19.830

installed.

366

01:11:21.150 --> 01:11:26.730

Village of Parish: So I think we've seen maybe 20 minutes or so, in the last two years.

367

01:11:28.320 --> 01:11:30.120

Village of Parish: So we are becoming more popular.

368

01:11:31.710 --> 01:11:36.960

Village of Parish: So then, just turning to like the grants and rebates second sheet.

369

01:11:38.010 --> 01:11:48.360

Village of Parish: there's a few different programs, I want to just call out one is every utility has what they call a make ready program so national managers, need to be here they've got.

370

01:11:48.930 --> 01:12:04.800

Village of Parish: A pretty program that pays for any of the infrastructure work so like I mentioned when I was small and I rode into the parking lot the town of clay, we had to trench across the parking lot from the building, because they installed it at the other end.

371

01:12:06.990 --> 01:12:16.230

Village of Parish: So that will pay up to 90% of the cost of all that trenching work we have seen some municipalities do some of that themselves the tenant Hamilton.

372

01:12:17.430 --> 01:12:17.940

Village of Parish: This one.

373

01:12:22.740 --> 01:12:25.620

Village of Parish: So that's that's a good Program.

374

01:12:26.790 --> 01:12:29.340

Village of Parish: it's it pays based on.

375

01:12:30.780 --> 01:12:39.300

Village of Parish: The median income of the Community so for parish we looked it up will be 90% of the cross sectional.

376

01:12:44.550 --> 01:12:48.000

Village of Parish: Then the last program is through the dtc.

377

01:12:49.290 --> 01:12:51.600

Village of Parish: And it's zero emission vehicle or.

378

01:12:52.950 --> 01:12:53.700

Village of Parish: Infrastructure.

379

01:12:55.230 --> 01:13:01.470

Village of Parish: Now, and I talked to the Mayor about this one, a little bit the applications are actually at the end of.

380

01:13:04.050 --> 01:13:15.540

Village of Parish: The four o'clock it's through grants gateway I don't know if the village is already registered to grants gateway but I don't think so it's a pretty easy process to do.

381

01:13:16.530 --> 01:13:28.530

Village of Parish: You would need to have some quotes in hand, I think, at least one quote from installer to submit with the application and again we've given you for references.

382

01:13:30.660 --> 01:13:36.450

Village of Parish: So you can call around and see if any of you know, could come if you are interested in pursuing this.

383

01:13:38.160 --> 01:13:41.610

Village of Parish: This will cover up to 90% of the cost of the equipment.

384

01:13:43.380 --> 01:13:55.530

Village of Parish: So between the zeff program and national grid program you didn't think about 90% of the cost of the equipment and the installation structure.

385

01:13:59.010 --> 01:14:15.090

Village of Parish: So if we assume that you know the charging station was going to be in a not in a very remote place maybe would be \$20,000 all in so between those two programs or share would be something like 2000.

386

01:14:20.820 --> 01:14:25.080

Village of Parish: dca if you turn to the back of the second sheet also has a program for vehicles.

387

01:14:26.520 --> 01:14:27.180

Village of Parish: I don't know if.

388

01:14:28.410 --> 01:14:29.190

Village of Parish: The vehicle.

389

01:14:32.250 --> 01:14:36.600

Village of Parish: Ray Davis departments, but there is funding to get a vehicle as well.

390

01:14:38.940 --> 01:14:43.500

Village of Parish: That sort of has a program called Dr clean, which is also for vehicles.

391

01:14:45.180 --> 01:14:55.020

Village of Parish: New York has a truck voucher program for heavier duty vehicles and then the clean energy community programs which we've been talking about as well.

392

01:14:56.460 --> 01:14:57.180

Village of Parish: As Asian.

393

01:14:58.980 --> 01:15:05.520

Village of Parish: So it's a really great time right now to to think about you know either nav or charging station.

394

01:15:07.980 --> 01:15:19.290

Village of Parish: State is putting a lot of resources into this because transportations the biggest source of greenhouse gas emissions, air pollution so they're really trying to make it.

395

01:15:22.020 --> 01:15:28.080

Village of Parish: last thing in your sheet is just a fact sheet from the DC specifically on that stuff.

396

01:15:31.170 --> 01:15:34.830

Village of Parish: With a little bit more information and then to the website.

397

01:15:36.150 --> 01:15:49.290

Village of Parish: find the application itself, you know I would say, it would be a tight schedule to try to meet this deadline, you know if we really hustled and again called you know some of those Installers.

398

01:15:50.640 --> 01:15:54.300

Village of Parish: come out, you will close the application.

399

01:15:55.410 --> 01:15:58.710

Village of Parish: But if that's not an option really at this time.

400

01:15:59.850 --> 01:16:06.780

Village of Parish: You could go to the clean energy and I sort of program get that \$5,000 grant and I think that was more than cover.

401

01:16:08.460 --> 01:16:17.580

Village of Parish: Like October 29 in mind that there be a deadline and you say yes good question, this has been an annual program so if we don't need it.

402

01:16:18.780 --> 01:16:21.000

Village of Parish: Next year, typically opens up to the Spring.

403

01:16:22.920 --> 01:16:24.030

Village of Parish: And then it's open to.

404

01:16:30.270 --> 01:16:31.410

Village of Parish: Other questions in.

405

01:16:36.240 --> 01:16:40.530

Village of Parish: The village have a spot picked out on a spot.

406

01:16:41.790 --> 01:16:52.650

Village of Parish: We talked about the village parking lot and we going to mention that I mentioned that one time itself by the Methodist church that we have a spot where.

407

01:16:53.940 --> 01:17:09.510

Village of Parish: overnight parker's never been there, so is that the church that's down the road here to the left of the Elder yeah Okay, is there a electrical pole with their lights yeah they could pull for a there okay.

01:30:08.730 --> 01:30:14.220

Village of Parish: How are they for night vision, because you know somebody does something it's going to be dark more than likely.

538

01:30:15.210 --> 01:30:26.850

Village of Parish: So if it doesn't have very good night vision or you know clear picture at night megapixel or is it depends on the camera yeah right and they're not telling you know, without actually.

539

01:30:28.050 --> 01:30:37.590

Village of Parish: It just says, you know eight megapixel cameras they're not telling you what kind of cameras were using so you don't know what the qualities are going to be so it's kind of hard.

540

01:31:13.980 --> 01:31:15.450

550  
01:32:05.190 --> 01:32:06.150

01:32:51.630 --> 01:32:53.970

Village of Parish: To just as one camera, but the main lobby.

559

01:32:59.190 --> 01:33:03.870

Village of Parish: So you know they don't know they don't say it's funny don't camera or anything it's very vague.

560

01:33:13.260 --> 01:33:14.550

Village of Parish: Like hands down and how much.

561

01:33:17.580 --> 01:33:19.860

Village of Parish: Money we're investing well.

562

01:33:21.060 --> 01:33:23.700

Village of Parish: I think the town all the paper part of it.

563

01:33:28.680 --> 01:33:32.550

Village of Parish: But, in most cases, I know they're not going to they're complaining now.

564

01:33:36.090 --> 01:33:38.250

Village of Parish: So well yeah cuz we're gonna raise it again.

565

01:33:41.280 --> 01:33:42.990

Village of Parish: These are high enough to get them out of here.

566

01:33:44.640 --> 01:33:45.780

Village of Parish: No, I didn't say that.

567

01:33:46.800 --> 01:33:47.100  
13156258121: We.

568  
01:33:48.420 --> 01:33:49.320  
13156258121: were raised in rent.

569  
01:33:51.930 --> 01:34:08.340  
13156258121: Next month notice if we're raising rent it's part of the least one of the things Watson we happily granted, but we need six months written notice Okay, so if we're going to raise the rent We just need to do so in writing and wait six months afterwards okay.

570  
01:34:11.250 --> 01:34:11.670  
Village of Parish: Sophie.

571  
01:34:16.710 --> 01:34:18.720  
Village of Parish: This one this one can be upgraded.

572  
01:34:22.170 --> 01:34:25.110  
Village of Parish: Motion detectors smoke alarms glass break.

573  
01:34:27.360 --> 01:34:28.440  
Village of Parish: So before.

574  
01:34:30.330 --> 01:34:35.790  
Village of Parish: You look at tells you this this rural South Bay fire well you know, there might be better because.

575  
01:34:37.350 --> 01:34:41.550  
Village of Parish: Who knows, I mean we don't do we have a smoke detectors in here now.

576  
01:34:45.120 --> 01:34:47.940  
Village of Parish: So I don't know that it can be.

577  
01:34:50.190 --> 01:34:54.660  
Village of Parish: Price no no that doesn't matter those will be you know system.

578  
01:34:56.100 --> 01:34:57.540  
Village of Parish: I know they got one upstairs.

579

01:35:01.860 --> 01:35:02.130  
Right.

580

01:35:04.260 --> 01:35:23.010  
Village of Parish: I think we all go with one system, so this is what gives us more options gives us more options to most expensive to yeah I think it's also expensive on honestly button I think it's you know depends what you guys we think we need, for you know also carriers in this building.

581

01:35:24.300 --> 01:35:32.070  
Village of Parish: Oh, we tell them on just the panic button was initially had started yeah I mean if you guys just want to just put the panic button and.

582

01:35:32.670 --> 01:35:48.120  
Village of Parish: Then you know just go with one of these that the actual security in there, where you're going to have you know camera be able to go back and say you know something happened whatever you can say, well, these people were in the building at this point so we know where to start looking.

583

01:35:49.170 --> 01:35:57.630  
Village of Parish: I go with Cicero yep so it really depends what you guys want to do with the thing I think sister rose have better.

584

01:35:58.710 --> 01:35:59.400  
Village of Parish: it's more.

585

01:36:01.980 --> 01:36:04.440  
Village of Parish: button I think that's today's world.

586

01:36:07.020 --> 01:36:08.310  
Village of Parish: record for the 911 is.

587

01:36:12.270 --> 01:36:14.130  
Village of Parish: that's probably our call service.

588

01:36:15.930 --> 01:36:27.930  
Village of Parish: It probably goes right to cicerone this this role will talk to they know they have to sister what would have to call 911 I know it's kind of weird.

589

01:36:29.130 --> 01:36:41.850

Village of Parish: problem i'm thinking yeah Cicero if they're in Cicero a dial 911 is going to go to county onondaga county communication Center on a diet county woman related to our sweet your current communication Center and dispatch we're smart enough.

590

01:36:44.730 --> 01:36:45.810

Village of Parish: To our fire.

591

01:36:47.670 --> 01:36:48.660

This location.

592

01:36:50.040 --> 01:36:54.750

Village of Parish: Okay bro volunteer car company 911 and they would go to the Center and as we go.

593

01:36:55.830 --> 01:36:56.010

Village of Parish: yeah.

594

01:36:57.480 --> 01:36:58.350

Village of Parish: i'm Todd.

595

01:37:01.350 --> 01:37:02.070

Village of Parish: Todd said.

596

01:37:05.610 --> 01:37:08.160

Village of Parish: locally to take that back yeah.

597

01:37:17.040 --> 01:37:18.150

Village of Parish: doesn't really say where would.

598

01:37:19.560 --> 01:37:20.490

Village of Parish: generate to.

599

01:37:23.040 --> 01:37:28.560

Village of Parish: be good question, I know you know if something was to happen or something alarm off, where does it go.

600

01:37:32.040 --> 01:37:36.450

Village of Parish: can't go where are they yeah that'd be good to find out or.

601

01:37:37.800 --> 01:37:38.700

Village of Parish: Is you know.

602

01:37:39.990 --> 01:37:47.250

Village of Parish: Specific goes to lunch bag and telling them back to a swig of tiny then back to the parish or someone should make a phone call tomorrow and find out.

603

01:37:48.360 --> 01:37:49.170

Village of Parish: What we table then.

604

01:37:50.670 --> 01:37:50.940

Village of Parish: I.

605

01:37:52.230 --> 01:37:55.110

Village of Parish: can connect I don't care i'll do what I can talk on the phone down.

606

01:37:56.280 --> 01:37:58.380

Village of Parish: There, so a table that.

607

01:38:01.170 --> 01:38:03.330

Village of Parish: yeah good information for winning a real.

608

01:38:04.800 --> 01:38:06.150

Village of Parish: table that until next month.

609

01:38:14.160 --> 01:38:15.300

Village of Parish: I guess I guess the number.

610

01:38:19.650 --> 01:38:21.780

Village of Parish: What number did not just killing me all.

611

01:38:25.470 --> 01:38:26.550

Village of Parish: Right, so my.

612

01:38:28.650 --> 01:38:29.760

Village of Parish: theory here from Kathy.

613

01:38:31.050 --> 01:38:33.810

Village of Parish: she's gonna be walking materials and be more than happy to do it.

614

01:38:35.700 --> 01:38:36.030

Village of Parish: Right.

615

01:38:37.470 --> 01:38:40.710

Village of Parish: She know what we need to submit yes yeah yeah yeah.

616

01:38:44.280 --> 01:38:49.980

Village of Parish: We can move ahead and run a permission to turn the Porsche so they could actually see the sign.

617

01:38:51.150 --> 01:38:52.110

Village of Parish: To find a message.

618

01:38:53.310 --> 01:39:00.120

Village of Parish: cool to practice the village can't feel part oh okay try one out of all.

619

01:39:01.380 --> 01:39:04.380

Village of Parish: welcome sign house coming along.

620

01:39:08.040 --> 01:39:11.610

Village of Parish: So I don't see it happening this year with all her.

621

01:39:12.990 --> 01:39:19.380

Village of Parish: drama classes and everything Okay, can we do it in the spring, they want to do all three of.

622

01:39:20.580 --> 01:39:20.940

Village of Parish: us.

623

01:39:23.190 --> 01:39:24.420

Village of Parish: In the spring drama to.

624

01:39:28.770 --> 01:39:29.220

Village of Parish: The other.

625

01:39:32.010 --> 01:39:42.720

Village of Parish: was kept Kathy said I would love to do is assign Bridget mentioned it again recently with the village cover the cost of what it looks like the poster fine, I would just need to purchase awards for designer.

626

01:39:43.170 --> 01:39:52.290

Village of Parish: Another thing that would be great as that Bush could be cut back a bunch so the flower racks it gets light and people can actually see the signs or whereas those.

627

01:39:53.370 --> 01:40:08.160

Village of Parish: guys she's she is talking about the same size, no we're not done back to the fact that one right here, what about the little park down here next to buy the post office, yes, what did apple tree down.

628

01:40:09.630 --> 01:40:10.050

Village of Parish: Oh yeah.

629

01:40:11.520 --> 01:40:18.750

Village of Parish: No one trim it because it's over the sidewalk yeah they were talking we've been talking about.

630

01:40:20.220 --> 01:40:23.520

Village of Parish: Getting not doing stuff with it, I just going to cut the whole thing that.

631

01:40:29.070 --> 01:40:30.900

Village of Parish: You just want to say i'm sticking a smoker.

632

01:40:33.300 --> 01:40:41.820

Village of Parish: Smokers close to a high fat high tension line oh yeah no criminal notice it's getting on him defend trimmed in the past, but it does continue to grow.

633

01:40:42.390 --> 01:40:59.790

Village of Parish: Okay, all right continue our basement weapons room is nearing completion and will be hopefully shifting boxes in their proper location, I think we need to get some shelving units to put in there, but other than that so be ready to go, we have one just.

634

01:41:01.260 --> 01:41:02.310

Village of Parish: just doing the final.

635

01:41:04.830 --> 01:41:08.970

Village of Parish: do need a motion to do that Shelby.

636

01:41:16.290 --> 01:41:19.200

Village of Parish: Shelby whatever they whatever they think.

637

01:41:28.080 --> 01:41:33.210

Village of Parish: Okay i've been on property we had inquiry on that and.

638

01:41:34.920 --> 01:41:46.110

Village of Parish: rick Miller was trying to sell it because fan taxes on a landmark piece, and the count of the proposal was that we put in a right of way and they.

639

01:41:47.730 --> 01:42:02.490

Village of Parish: won't sell us as a writer when asking, they can have the right away put in he paid the expenses on that and I had received a letter last we yeah a letter from last month, we are in.

640

01:42:03.750 --> 01:42:14.430

Village of Parish: The Office represents rich and Solana we spoken to Richard and Mr Jason parcel owned by the proposes the village brand him and he's and right away.

641

01:42:16.590 --> 01:42:28.230

Village of Parish: From Bangalore road to the southwest corner property poses that it would be 20 feet wide running along the boundary is described above, he would request the right to maintain the right of way.

642

01:42:29.340 --> 01:42:37.740

Village of Parish: But in paving or gravel and his election, with the right to maintain the driveway to the inclusion of snow removal on regular.

643

01:42:38.340 --> 01:42:52.830

Village of Parish: yearly maintenance no structure would be placed upon the event, and it would be used for the purpose of ingress and egress only if acceptable to the for my client would provide survey and bear the expensive document prep preparation and recording.

644

01:42:54.000 --> 01:43:09.000

Village of Parish: So that's what we that's what we that's what we recommended the last time we met with the sale, no, no, no, that was done before that we had a meeting after that and we said that if he wants put it right away, and he has to do all the.

645

01:43:10.290 --> 01:43:11.370

Village of Parish: Work you know or.

646

01:43:13.980 --> 01:43:17.280

Village of Parish: What the letter says hey everything yeah that's what we that's what we.

647

01:43:18.390 --> 01:43:21.150

Village of Parish: that's what the man, and I was talking about the other day.

648

01:43:22.230 --> 01:43:23.190

Village of Parish: With that yeah.

649

01:43:26.610 --> 01:43:42.870

Village of Parish: I don't know if there's any liability, you know for people crossing the property to get if he sells it and we put it right away now do we have any liability if somebody were to get hurt crossing that property no that's I don't think so, I think I don't know.

650

01:43:45.810 --> 01:43:46.170

That.

651

01:43:47.850 --> 01:43:56.730

13156258121: I don't believe so, I don't think that that's something that's going to cause any harm, especially since he's in charge of any of the maintenance.

652

01:43:57.240 --> 01:44:08.280

13156258121: So, quite literally, if he if someone does a slip and fall, they have some ice or something he's responsible for clear the ice so they'd be liable in that case.

653

01:44:10.020 --> 01:44:28.140

13156258121: frame so really there's no sort of negligence or other issues that we truly need to worry about and even so, our think our insurance policy would cover it, and this is in terms of our exposure for this sort of thing i'm not worried and i'm always worried.

654

01:44:30.150 --> 01:44:30.990

Village of Parish: That worries me, though.

655

01:44:35.580 --> 01:44:40.860

Village of Parish: I just don't want you know if somebody gets off of the easement and enter the property then gets her you know I mean.

656

01:44:42.450 --> 01:44:45.360

Village of Parish: Well, once he has a heat map.

657

01:44:46.830 --> 01:44:47.820

Village of Parish: Then we'll pull up.

658

01:44:49.380 --> 01:44:50.850

Village of Parish: No trespassing sign.

659

01:44:52.560 --> 01:44:54.360

Village of Parish: On our part of it.

660

01:44:55.710 --> 01:45:06.810

Village of Parish: I understand, but it doesn't you're you're you're kind of opening yourself up to the availability for people to a song on there just because you have no trespassing sign doesn't mean that.

661

01:45:07.920 --> 01:45:13.740

Village of Parish: They will try, but when he got the proper signs up and they're labeled bright correctly.

662

01:45:14.850 --> 01:45:17.070

Village of Parish: go to court, nothing they can do.

663

01:45:18.240 --> 01:45:18.930

Village of Parish: Because I know.

664

01:45:19.620 --> 01:45:25.020

13156258121: I wish it was that simple meal, but there are unfortunately ways in which even with proper signage.

665

01:45:25.860 --> 01:45:26.460

Village of Parish: I understand.

666

01:45:30.180 --> 01:45:41.940

13156258121: Like that there's factors to consider, so we are opening ourselves up to people going on the property, to a certain degree, that being said, it's going to be a gravel road going to a guy's house.

667

01:45:42.720 --> 01:45:49.440

13156258121: i'm not too worried I don't think that we there's no like creek or pond or anything like that.

668

01:45:50.250 --> 01:46:03.150

13156258121: Water feature or something incredibly fun looking like a weird shape head shape rock or something I don't think we're to the property is pretty much just going to be used for them getting themselves out of land lock.

669

01:46:04.830 --> 01:46:11.160

Village of Parish: All right, he can't build is just it's always going to be a vacant piece of property unless he gets road frontage.

670

01:46:12.030 --> 01:46:22.890

Village of Parish: So it's just a piece is basically an easement so you can go back there are who are or he can sell to whoever because that's the point where it says he wants to sell it he can't sell it unless he gets access to it.

671

01:46:23.340 --> 01:46:25.200

Village of Parish: So he sees me to sell.

672

01:46:27.150 --> 01:46:30.750

13156258121: yeah but if he's okay so, unfortunately.

673

01:46:31.980 --> 01:46:39.720

13156258121: We would be respond if he request an easement we'd have to bear the cost we'd have to do all the work and i'd still get the damn these men this way.

674

01:46:40.290 --> 01:46:51.000

13156258121: Someone else is doing the work someone else who's getting it and someone else's paying for it, so there if they request an easement we really can't say no.

675

01:46:51.840 --> 01:47:01.410

13156258121: that's just unfortunate my understanding of reading through right away laws and things like that may I probably should maybe take another class some of those laws, but.

676

01:47:02.430 --> 01:47:12.420

13156258121: This is the least because they would be able to get it, and just do it themselves and bear all the costs, I think this is the easiest way for the village to go about this.

677

01:47:13.290 --> 01:47:13.920

Village of Parish: Is it I can't.

678

01:47:15.810 --> 01:47:18.330

Village of Parish: Even put a shut up, no, no.

679

01:47:21.480 --> 01:47:24.840

Village of Parish: I just you know, making sure we know.

680

01:47:26.460 --> 01:47:35.610

13156258121: All our SEC day before every sort of view of the sorts of things I really appreciate when people really look into it and they're really looking out for these sorts of things.

681

01:47:36.870 --> 01:47:46.470

13156258121: That being said, we really can't fight me as men, so if they if they tried to force us to do it we'd probably have to do it so we're just saving ourselves time, money and car costs.

682

01:47:48.750 --> 01:47:56.310

13156258121: that's my view and i'll look i'll look up is not spent a whole lot of time with easement and right away law i'll do another quick glance.

683

01:47:56.670 --> 01:48:09.300

13156258121: Over the weekend, or something and i'll have a better answer, but my position from my the one i've looked at so far is it's better to just make him do the work and since we'd have to pay for it, otherwise let them do it.

684

01:48:12.420 --> 01:48:17.550

Village of Parish: I mean, yes it is pretty common, as I say, we just don't make the most and have a nice.

685

01:48:19.380 --> 01:48:19.800

Village of Parish: All right.

686

01:48:23.250 --> 01:48:24.540

Village of Parish: I have to get back to rick and.

687

01:48:32.370 --> 01:48:34.260

Village of Parish: Neil your banners.

688

01:48:37.980 --> 01:48:39.420

Village of Parish: ready order the Christmas ones.

689

01:48:41.220 --> 01:48:42.630

Village of Parish: From downtown.

690

01:48:47.040 --> 01:48:47.310

and

691

Village of Parish: is still gonna hang on the fly ball yeah.

696

01:49:08.880 --> 01:49:17.070

Village of Parish: The db hanging on these which we already got I think 10 Oh well, i'm not quite sure how many we got in the village.

697

01:49:18.690 --> 01:49:19.230

But.

698

01:49:20.970 --> 01:49:29.400

Village of Parish: He said that he gave 10 to the school, so I know we got two or three in the village, so I may have to order some more of those.

699

01:49:32.460 --> 01:49:35.280

Village of Parish: At \$2 for one bracket to break it.

700

01:49:36.810 --> 01:49:37.500

705

01:50:28.170 --> 01:50:33.330

Village of Parish: I know I was here last month, asking for authorization move money around again rolling back again.

706

01:50:33.660 --> 01:50:50.100

Village of Parish: For me, because if once that bill for trusting Murphy when she was at this service springs this one's for \$518 I need to move that 518 36 from the contingency plan up to trustee contractual otherwise it's kind of drive that line, the whole.

707

01:50:51.480 --> 01:50:56.850

Village of Parish: Yes, there's a currently \$125 in there now because I obviously the last month they'll get paid I.

708

01:50:58.740 --> 01:51:00.780

Village of Parish: Make emotion that you do that.

709

01:51:03.210 --> 01:51:09.360

Village of Parish: Thank you on that part and now we will move on to all in agreement from No.

710

01:51:10.590 --> 01:51:11.160

Village of Parish: Agreement yeah.

711

01:51:12.390 --> 01:51:13.440

Village of Parish: No, no, I was.

712

01:51:15.660 --> 01:51:17.100

Village of Parish: I was thinking about.

713

01:51:18.960 --> 01:51:20.880

Village of Parish: That same thing Evelyn.

714

01:51:23.130 --> 01:51:31.200

Village of Parish: Well, if you once you if you guys are authorized the payment to be made in the bill send our cover that Okay, because that's that that's coming out of Canada fun thing right all right all right.

715

01:51:32.190 --> 01:51:38.280

Village of Parish: Because it comes out because you know I thought, maybe i'll double check make sure it's coming out of Jana payroll.

716

01:51:47.820 --> 01:51:51.390

Village of Parish: Right now, I never woman that started in December.

717

01:51:53.460 --> 01:52:04.320

Village of Parish: she's out of town doing, and she said mid December that she would take over, and she could do it every day like it was done before, but we will do it like twice a week.

718

01:52:09.630 --> 01:52:22.140

Village of Parish: till mid December yeah okay on that note, you will need to do on a report for now pain replacing Ben we're playing and send that over to county resources just for different people and call.

719

01:52:23.790 --> 01:52:25.740

Village of Parish: Most of them would only do one day.

720

01:52:26.910 --> 01:52:33.900

Village of Parish: And most of mine in like \$20 an hour, they said other places where the clean there's only.

721

01:52:38.730 --> 01:52:41.730

Village of Parish: thing I don't think Ben Ben was not getting minimum wage.

722

01:52:44.280 --> 01:52:45.900

Village of Parish: We got to figure out what you want to.

723

01:52:47.340 --> 01:52:49.650

Village of Parish: Budget is right now \$10 and 40 cents an hour.

724

01:52:51.030 --> 01:53:10.590

Village of Parish: 13 1410 four yes, I know, minimum wages up to 13 something away your Center warranty yeah so we we paying them because there are missing right yeah Okay, nobody anyone talk to no one's going to work for that anymore.

725

01:53:11.820 --> 01:53:13.590

Village of Parish: we're in the middle of a buddy we can't go.

726

01:53:15.180 --> 01:53:17.910

Village of Parish: into the whole well I put my resignation about.

727

01:53:21.480 --> 01:53:23.040

Village of Parish: Your question to clean.

728

01:53:27.600 --> 01:53:29.130

Village of Parish: Say money honestly.

729

01:53:31.050 --> 01:53:34.320

Village of Parish: That is something that we do our budgets for next year.

730

01:53:35.910 --> 01:53:37.020

Village of Parish: Okay, all right.

731

01:53:39.030 --> 01:53:48.690

Village of Parish: Good job okay and Ian I know I got a communication from you CC have you to miss what's her name over and marcy.

732

01:53:50.310 --> 01:53:51.000

Village of Parish: yeah yeah.

733

01:53:52.200 --> 01:53:59.400

Village of Parish: Now he's seen as subsequently sent me back and own way of basically what's up and I go well for you, after the board meeting tonight.

734

01:54:01.140 --> 01:54:01.650

Village of Parish: yeah so.

735

01:54:04.170 --> 01:54:17.640

Village of Parish: Yes, alright so Okay, I am okay i'm going to use my numbers off of my most recent report because those are probably the closest one so here's a copy of my monthly report for you guys the original was already here.

736

01:54:20.970 --> 01:54:21.390

Village of Parish: and

737

01:54:22.920 --> 01:54:26.520

Village of Parish: we're looking at the general fund and the general savings sewer savings.

738

01:54:29.010 --> 01:54:32.220

Village of Parish: savings, savings, yes, was missing man.

739

01:54:34.710 --> 01:54:44.790

Village of Parish: Reason okay now, before we get knee deep into this one, I did call the comptroller's office and asking for guidance.

740

01:54:45.960 --> 01:55:07.230

Village of Parish: counselor's Office said, be asking you, is it a town, and I said no it's a town factor it's a village, she said, is it the same tax base being served, yes, they are, for we can, in this instance us general Fund money to put towards the project so here is my thinking.

741

01:55:08.280 --> 01:55:11.250

Village of Parish: And, before I before I start my thinking process.

742

01:55:12.990 --> 01:55:20.550

Village of Parish: Just as a background the aarp money has been transferred from our general savings into its own account.

743

01:55:21.450 --> 01:55:39.270

Village of Parish: 21 897 and some changes in its own account getting some interest that was October 1 I did that also the dollar 33 from Sue debt service reserve is now in sewer savings Okay, so that account will probably disappear or may not disappear off my list.

744

01:55:40.380 --> 01:55:48.090

Village of Parish: You know this girl my handwritten generated this, but other computer probably won't worry yeah so that money's been moved around to general sewer savings.

745

01:55:48.480 --> 01:55:59.880

Village of Parish: The aarp money is now out of general savings angel its own funds and your own account at the end of May, so okay so here's my here's my thinking.

746

01:56:01.170 --> 01:56:06.660

Village of Parish: On sewer savings okay i'm not worried about it because I am okay here's my thinking.

747

01:56:08.370 --> 01:56:15.720

Village of Parish: we're sending out sewer bills at about 40,000 a quarter yeah okay i've got 40,000 already out there that are coming in, or most of them are coming in.

748

01:56:16.860 --> 01:56:21.960

Village of Parish: that's to i've got two more rounds of 40,000 to go out the door this fiscal year.

749

01:56:23.700 --> 01:56:32.160

Village of Parish: My thinking was to take one of those rounds out of savings 40,000 take that out of sewer savings inside that towards the.

750

01:56:34.080 --> 01:56:53.040

Village of Parish: Whatever we need to put it at whatever she's calling the usda stuff okay now with the information that general save general funds can be used because the same tax base being drawn from Okay, and also based on a prayer discussion tonight because of the key bank building.

751

01:56:56.070 --> 01:57:06.360

Village of Parish: Prior to that, I was thinking we could I could take 20,000 out of that 353 I I write it down to a simple number 350 thousand on the general savings.

752

01:57:07.020 --> 01:57:21.450

Village of Parish: So I was thinking, I was thinking prior to the board meeting tonight and the discussion with key bank of taking 20,000 sorry 20% of that 350 home in general savings which would be 70,000.

753

01:57:22.800 --> 01:57:38.940

Village of Parish: But, based on the conversations between you guys down here tonight, regarding the key bank building I got it now that's kind of changed my number, because we have to keep the 76 by in there, which is going to satisfy her question where else we're going to need it for.

754

01:57:40.080 --> 01:57:50.610

Village of Parish: So that 76 five do have to stay interested in general, saving thing so that's going to change that number resident at 273 510 20% of that.

755

01:57:52.200 --> 01:57:53.880

Village of Parish: you're looking at 54 seven.

756

01:57:54.990 --> 01:58:03.270

Village of Parish: So maybe \$50 because i'm just you know see what I don't know if it's maybe it's my perception the way she told her message.

757

01:58:03.960 --> 01:58:18.420

Village of Parish: it's like she's after all my money or I say my image or yeah but, again, the village is money, so we wanted to jump in a little yeah so again, you know in collaboration Kevin here I wanted the water that's good I think it's important so.

758

01:58:20.010 --> 01:58:32.340

Village of Parish: Just as a you know outline of sequence of events here, so we submitted the application for wastewater treatment plant project development and beginning as well.

759

01:58:33.450 --> 01:58:39.060

Village of Parish: As part of their evaluation they take a walk into villages financial okay.

760

01:58:39.570 --> 01:58:48.030

Village of Parish: So i'm i've got an email here that i'm going to reference, and this is back from early September, so the numbers probably don't.

761

01:58:48.390 --> 01:58:59.820

Village of Parish: don't jive because this will basically what they did is they identify that you have a surplus and you're sure fun and you have a surplus and your general fund, which is what cabinet.

762

01:59:01.890 --> 01:59:05.010

Village of Parish: So i'm going to read you read on what the role of Allah road.

763

01:59:06.540 --> 01:59:17.400

Village of Parish: I will read a letter from the village that details what those remaining phones in the sewer fund and the general fund will be used for otherwise those funds will need to be put towards the project.

764

01:59:18.060 --> 01:59:27.480

Village of Parish: So we challenge this I challenged yeah I think haven't challenged and said how in the world can you ask you know the village to completely deplete you know all their phones.

765

01:59:27.930 --> 01:59:36.480

Village of Parish: and put it towards the project so subsequently that got run up the flagpole Okay, we got a response from rural developments.

766

01:59:37.680 --> 01:59:42.210

Village of Parish: State program director okay she's the one in charge of you know program for.

767

01:59:44.010 --> 01:59:45.450

Village of Parish: This is a response, whenever you.

768

01:59:46.500 --> 01:59:54.450

Village of Parish: Are underwriting the flyers that any phones on hand have more than 25% Okay, so that you know what the original.

769

01:59:55.110 --> 02:00:03.150

Village of Parish: email said last be used towards the infrastructure project, unless there is a specified approve purpose by the village.

770

02:00:03.720 --> 02:00:10.950

Village of Parish: We cannot just allow the village to reserve these phones, as that is not allowable in our underwriting of projects.

771

02:00:11.400 --> 02:00:22.140

Village of Parish: We must have a designated purpose for both the general answer our phones in a race email or letter from the village or toward resolution from the village board.

772

02:00:22.500 --> 02:00:25.770

Village of Parish: Indicating the use of the funds and both their funds.

773

02:00:26.190 --> 02:00:38.550

Village of Parish: villages are not restricted in their use of general funds for enterprise projects like towns are restricted, so the village

must account for both the general and sewer fund balances that are available.

774

02:00:39.060 --> 02:00:59.100

Village of Parish: So that gives you more context I think into what you know cabinet is taller so either what they're saying is is either you need to allocate 75% of your surplus on your general and you're super fun to the project or you need to justify what that money is being used for.

775

02:01:01.020 --> 02:01:12.270

Village of Parish: As opposed to being towards the problem Okay, so I might actually can report tonight, or is he still on board, because he wanted to see what you had to say yeah i'm not sure.

776

02:01:14.460 --> 02:01:16.380

Village of Parish: cancel can have not.

777

02:01:17.610 --> 02:01:23.250

Village of Parish: Okay, so, and the reason that i'll say not my reserve.

778

02:01:26.310 --> 02:01:31.380

Village of Parish: The 8700 or 80,000 there, possibly talk to them sewer the arms of two tanks.

779

02:01:32.790 --> 02:01:41.340

Village of Parish: As he used right there correct yeah so recently I you know I think my personal opinion, you know the village shows.

780

02:01:42.270 --> 02:01:54.810

Village of Parish: very carefully look at and determine ways to justify how you're going to spend that money, other than on the spectrum of that project now if you choose to put yellow somebody towards a project.

781

02:01:55.560 --> 02:02:11.850

Village of Parish: that's fine you know what it is what it is, but um you know I think it's in my own personal opinion egregious for that to ask you to completely deplete your funds or deplete their fathers by 75% to put towards the problem so.

782

02:02:12.930 --> 02:02:24.270

Village of Parish: that's you know my my thoughts and you know where i'm at I completely agree yeah yeah yeah yeah Okay, we have money set aside for.

783

02:02:25.980 --> 02:02:33.780

Village of Parish: pumps every year and we put aside this is, in our budget production or login yeah, then we also have.

784

02:02:35.070 --> 02:02:42.360

Village of Parish: money set aside for capital improvement which is probably what we can do, we can put that into.

785

02:02:43.530 --> 02:02:49.110

Village of Parish: What she was sure I think he was accounting for that let's get this this was here tonight, yes.

786

02:02:50.730 --> 02:02:52.860

Village of Parish: So he was he was counting on.

787

02:02:53.880 --> 02:02:59.850

Village of Parish: Yes, she was her her math at that time, based on the July information as human human time.

788

02:03:01.110 --> 02:03:07.110

Village of Parish: Based on July on July records she's counting the 21 eight to 833 from aarp from there, we got.

789

02:03:08.460 --> 02:03:13.410

Village of Parish: All the 21 808 67 from next tues amount and using the.

790

02:03:15.270 --> 02:03:25.800

Village of Parish: From the wwe tp system proven fun yeah she's counting on he was counting those three up that comes about to end in July that came to 6897.

791

02:03:27.210 --> 02:03:37.770

Village of Parish: So, but, as you can see, obviously i'm using October numbers because our more recent because I just did your explanations, this week so here's the numbers we're looking at okay so pharmacy.

792

02:03:38.850 --> 02:03:45.990

Village of Parish: Well, of the rhino you can see, as 24 580 to 95 per WW tp in the wastewater savings.

793

02:03:48.600 --> 02:03:55.230

Village of Parish: And 20 and I also I did correspond back are saying hey oh baby we get the extra X number of dollars.

794

02:03:56.580 --> 02:04:06.330

Village of Parish: For the a rp a rp money which is 21 he was like 8907 or eight something like that extra.

795

02:04:07.020 --> 02:04:15.930

Village of Parish: Because, apparently, it was missing some places chose not to put in their application, so the States that are the Treasury Department whoever's in charge that oh.

796

02:04:16.350 --> 02:04:30.060

Village of Parish: This guy you ain't you guys answered here you go have some more money so that's why we're up to 2897 and some change on a rp and next year would be probably about the same amount the at now so coming in awesome.

797

02:04:31.980 --> 02:04:33.210

Village of Parish: goes into the general account.

798

02:04:35.910 --> 02:04:37.500

Village of Parish: Yes, because.

799

02:04:38.790 --> 02:04:53.670

Village of Parish: The State has the general savings on their record because that's where they send our aim payments to okay so rather than try and give the account now I give this day in new account over then when we close out accounting on so so basically.

800

02:04:55.200 --> 02:04:57.570

Village of Parish: You said 50 out of the sewer.

801

02:04:59.670 --> 02:05:25.410

Village of Parish: Take 40,000 out of a sewer okay and 50 out of the general \$70,000 general, but that was before the kiva yeah yeah so obviously that number comes down a bit because you would I have 50 \$50 okay so so that gives you 90,000 okay how about this 68,000 that I don't know what that was.

802

02:05:26.760 --> 02:05:28.050

Village of Parish: That was that was her some.

803

02:05:29.070 --> 02:05:35.340

Village of Parish: Time okay tells her so i'm told that the money that we get free now we're going to put towards it okay so.

804

02:05:37.800 --> 02:05:39.120

Village of Parish: I don't think 90 is going to hurt.

805

02:05:43.110 --> 02:05:44.580

Village of Parish: Because you're only taking.

806

02:05:46.290 --> 02:06:05.580

Village of Parish: 40 out of this and now bring it down to 340 360-343-5033 there's 393,000 savings, right now, and I was going to take 40,000 hours oh OK OK so maybe 303,000.

807

02:06:07.470 --> 02:06:21.180

Village of Parish: But then, you know if if those two tanks are really hard to see it doesn't consume your time and you guys have to do something with it you're going to need at least 80,000 plus or minus a color that Nigerians probably gonna be close to 100 and reality.

808

02:06:22.440 --> 02:06:23.370

Village of Parish: You well.

809

02:06:25.530 --> 02:06:34.770

Village of Parish: They should have had that stupid North tank fixed by now we're putting it off that's on us week, no, no, we didn't put it off, they should have.

810

02:06:35.100 --> 02:06:46.800

Village of Parish: When they shut that down and put it over to the other side, they should have started maintaining some of the stuff so they could switch the thing back again they did not because we told them not to.

811

02:06:48.150 --> 02:06:59.400

Village of Parish: read it, we did I don't remember saying we told them not to do anything with it because we're trying to do something else who were trying to get moving forward and I figured that there were no would be fine.

812

02:07:00.360 --> 02:07:08.610

Village of Parish: Okay nevermind because we were they told us a long time tank was gonna need it and we were hoping to get something tank has been out.

813

02:07:10.530 --> 02:07:19.110

Village of Parish: At least five years six years, because it was it was when I left the board, the first time okay.

814

02:07:20.940 --> 02:07:38.100

Village of Parish: They were it had been at least a year year and a half, when they were using the other one i'm trying to get them to say okay so fix the things you need to fix on it, they can't fix about last time we did when we didn't know that was when you guys came in.

815

02:07:39.120 --> 02:07:46.800

Village of Parish: Okay, so you're saying, five years ago they were called to fix it yeah when they ever they said that they said they had other project, they were working on.

816

02:07:47.880 --> 02:07:48.150

I.

817

02:07:49.230 --> 02:08:05.100

Village of Parish: wasn't here yeah I understand that that's what i'm saying back in it, you know, but on the other hand, I don't know I just know so so so you take you take what you think we're going to need hundred thousand to fix those two things.

818

02:08:07.440 --> 02:08:07.830

Village of Parish: Right.

819

02:08:08.850 --> 02:08:09.720

Village of Parish: yeah I think that's.

820

02:08:11.610 --> 02:08:18.930

Village of Parish: What he's saying they're having trouble right now with the North tank because they're not getting enough air to it.

821

02:08:26.610 --> 02:08:29.640

Village of Parish: And what do you think we need to submit a letter, a resolution.

822

02:08:30.540 --> 02:08:42.120

Village of Parish: yeah so basically to make a determination on how much money you think you need more or how much money you're going to allocate to the project or that you intend to allocate for the project.

823

02:08:42.570 --> 02:08:49.620

Village of Parish: Whatever you do not allocate 75% of those two budgets, you need to justify what else that is being spent on.

824

02:08:50.640 --> 02:08:55.380

Village of Parish: That seems easy enough to do really I mean we got you know places this.

825

02:08:57.510 --> 02:09:07.440

Village of Parish: Grand in the bank to me the budget that you know we got some advice other side other that's in there for that, but that can you give enjoy it and I could be awesome.

826

02:09:09.120 --> 02:09:13.650

Village of Parish: So i've been to justify where that might be your mark for is really kind of easy.

827

02:09:20.190 --> 02:09:21.660

Village of Parish: Right I transfer my honor.

828

02:09:23.040 --> 02:09:24.090

Village of Parish: on a quarterly basis.

829

02:09:26.250 --> 02:09:29.070

Village of Parish: yeah that's the guessing game on my part.

830

02:09:34.080 --> 02:09:38.730

Village of Parish: I think you know, obviously i'm not saying you have to deplete all of it, but they want to know where.

831

02:09:40.260 --> 02:09:40.470

Village of Parish: Only.

832

02:09:41.700 --> 02:09:42.510

Village of Parish: Certain percentage.

833

02:09:43.770 --> 02:09:45.660

Village of Parish: I think it needs to do.

834

02:09:49.320 --> 02:09:53.850

Village of Parish: Some extra added that 60 day CD is is there.

835

02:09:56.070 --> 02:10:06.690

Village of Parish: desire to that so we don't want to show us or toasted we see the CPA sit there and then that would be your really backup reserved right I think we'd better off leaving.

836

02:10:08.400 --> 02:10:13.290

Village of Parish: us, so no I mean yeah sweet brown breaks and there's you know 3040 grand.

837

02:10:14.490 --> 02:10:20.820

Village of Parish: So did you know say we're going to give you this much in itself happens off the planet, whatever happens.

838

02:10:23.760 --> 02:10:27.750

Village of Parish: Right, let me go find really emergency money right.

839

02:10:39.600 --> 02:10:40.560

Village of Parish: satisfy your.

840

02:10:41.850 --> 02:10:43.830

849

02:11:39.720 --> 02:11:45.690

Village of Parish: The shenanigans going on her on Saturday, for over four hours and those people were double parked.

850

02:11:46.140 --> 02:11:57.030

Village of Parish: The people at our insurance company had to ask them to move either way, so they could get back out and i'm thinking what the heck and something happens and our insurance, but it was just crazy things I want you to.

851

02:11:58.260 --> 02:11:59.130

She said that they took first place so.

857

02:12:39.540 --> 02:12:45.030

Village of Parish: Make sure that we're probably, especially when our insurance company called something to what was going on down there.

858

02:12:46.800 --> 02:12:47.400  
Village of Parish: Well that's the.

859  
02:12:51.510 --> 02:12:57.090  
Village of Parish: whole day tomorrow they didn't know it was just saying  
element, the last.

Village of Parish: No nonprofit.

868  
02:13:38.280 --> 02:13:40.380  
Village of Parish: Organizations we never charge before.

869  
02:13:42.510 --> 02:13:51.360  
Village of Parish: yeah, but I think we did charge \$50 and they get it  
back when they when the place was cleaned afterwards, if it was walking

870  
02:13:52.620 --> 02:13:54.150

Village of Parish: Yes.

877

02:14:40.230 --> 02:14:40.650

Village of Parish: Yes.

878

02:14:41.850 --> 02:14:42.210

Village of Parish: Yes.

879

02:14:43.410 --> 02:14:43.800

Village of Parish: emotion.

883

02:15:13.530 --> 02:15:13.890

Village of Parish: emotion.

884

02:15:15.030 --> 02:15:15.570

Village of Parish: emotion.

885

02:15:16.950 --> 02:15:17.430

Village of Parish: To.

886

02:15:20.010 --> 02:15:22.440

Village of Parish: way smarter right yeah for the wasteland.

887

02:15:24.930 --> 02:15:31.800

Village of Parish: you're picking.

889

02:15:36.060 --> 02:15:36.750

Village of Parish: providers.

890

02:15:38.580 --> 02:15:40.380

Village of Parish: Right now okay.

891

02:15:41.850 --> 02:15:42.480

Yes, I can.

892

02:15:46.320 --> 02:15:46.770

Village of Parish: Yes.

893

02:15:50.160 --> 02:15:53.340

Village of Parish: Yes, yes, yes.

894

02:16:02.970 --> 02:16:03.420

Village of Parish: Okay.

895

02:16:05.130 --> 02:16:05.280

Village of Parish: Good.

896

02:16:09.510 --> 02:16:09.810

Village of Parish: All right.

897

02:16:11.850 --> 02:16:14.400

Village of Parish: Number one here, thank you.

898

02:16:16.380 --> 02:16:18.390

Village of Parish: For someone to the cannabis law.

899

02:16:19.650 --> 02:16:22.830

Village of Parish: 131 are making motion that we.

900

02:16:26.490 --> 02:16:26.820

Village of Parish: know.

901

02:16:33.570 --> 02:16:36.810

Village of Parish: motion to accept the status.

902

02:16:38.280 --> 02:16:39.780

Village of Parish: and make a motion to accept the.

903

02:16:40.860 --> 02:16:42.960

Village of Parish: Second, or second day right.

904

02:16:44.010 --> 02:16:45.810

Village of Parish: Take roll call vote and.

905

02:16:49.080 --> 02:16:49.980

Village of Parish: Just the children.

906

02:16:55.020 --> 02:16:55.590

Village of Parish: say no.

907

02:16:58.980 --> 02:16:59.460

Village of Parish: Yes.

908

02:17:01.020 --> 02:17:01.350

Village of Parish: No.

909

02:17:07.200 --> 02:17:07.620

Village of Parish: Yes.

910

02:17:09.540 --> 02:17:14.790

Village of Parish: No, we didn't do know needing to opt out, no yeah that's what you just said yes to.

911

02:17:16.170 --> 02:17:17.010

Village of Parish: Local la.

912

02:17:18.180 --> 02:17:20.760

Village of Parish: la pop out to the local law, which is opting out.

913

02:17:22.710 --> 02:17:27.030

Village of Parish: But it failed because there are only two emotions and favor there was one against.

914

02:17:29.160 --> 02:17:29.520

Village of Parish: So.

915

02:17:36.300 --> 02:17:40.170

Village of Parish: bring it up next month, maybe, maybe my head will be more clear.

916

02:17:43.980 --> 02:17:44.250

Village of Parish: again.

917

02:17:47.910 --> 02:17:50.970

Village of Parish: The question for your attorney if you have a public hearing.

918

02:17:51.990 --> 02:17:54.960

Village of Parish: reject it, but I don't know a freaky sorry.

919

02:17:56.430 --> 02:17:56.790

Village of Parish: about my.

920

02:17:58.290 --> 02:17:58.650

Village of Parish: journey.

921

02:18:00.030 --> 02:18:00.390

Village of Parish: there.

922

02:18:03.390 --> 02:18:04.920

Village of Parish: Only for.

923

02:18:07.860 --> 02:18:10.710

13156258121: baxter with a little bit of fuzzy there what was that Paul.

924

02:18:11.610 --> 02:18:13.260

Village of Parish: I was just saying that.

925

02:18:15.150 --> 02:18:26.250

Village of Parish: i've never encountered a situation where a board elder public hearing failed to pass the subject of the hearing and then revisited the subject I don't know whether a.

926

02:18:26.760 --> 02:18:39.240

Village of Parish: New public hearing is required at that point or not I mean they had the required public hearing and what was proposed, but I don't know if that extends past the initial vote after that I suggested they talked to the Attorney.

927

02:18:40.260 --> 02:18:53.250

13156258121: yeah i'll have to look that up my understanding is, I think that as long as the public hearing has been done and the public has had a chance to go, they can revisit the issue that's my gut reaction, I will confirm that, though.

928

02:18:54.120 --> 02:18:57.060

Village of Parish: that's not like there's any changes since time so.

929

02:19:01.860 --> 02:19:04.770

13156258121: This is obviously not something that you deal with every day so.

930

02:19:06.330 --> 02:19:09.780

13156258121: The best part about being a lawyer is you can say I I don't know i'll find out.

931

02:19:12.270 --> 02:19:14.040

Village of Parish: i'll have an answer prior to your neck.

932

02:19:15.750 --> 02:19:16.170

Village of Parish: Yes.

933

02:19:20.040 --> 02:19:21.510

Village of Parish: Alright, so what did you add.

934

02:19:23.700 --> 02:19:27.810

Village of Parish: Next month, and then that time, people can file a petition.

935

02:19:28.980 --> 02:19:37.800

Village of Parish: Have a hearing or have a special election either 10 days after that vote or before 60 days and that's before March election.

936

02:19:38.580 --> 02:19:54.000

Village of Parish: that's what I learned that they now need to go home excellent nursing by understanding is is the public has the chance to present a position within 45 days of your action right and then i'm I don't know the timetable is for scheduling the actual.

937

02:19:55.020 --> 02:19:57.870

Village of Parish: has to be for from yeah in before.

938

02:19:59.100 --> 02:20:13.680

Village of Parish: But, but the key point is is, if you voted in next month, if you do vote to opt out next month, you will have done so before the end of the year deadline you don't have to go through everything else, before the end of the year, only the up though or.

939

02:20:14.730 --> 02:20:15.240

Village of Parish: So if.

940

02:20:16.650 --> 02:20:26.430

Village of Parish: You didn't vote dropped off next month, and you started to the time clock potential challenge to that type of background on your.

941

02:20:29.520 --> 02:20:30.300

Village of Parish: application.

942

02:20:32.790 --> 02:20:34.800

Village of Parish: Right nicer to.

943

02:20:37.290 --> 02:20:38.370

Village of Parish: We want to do their.

944

02:20:38.610 --> 02:20:40.440

Village of Parish: Business proposals.

945

02:20:41.640 --> 02:20:46.050

Village of Parish: I was still interested in the vase and if we get.

946

02:20:48.120 --> 02:20:54.600

Village of Parish: Codes officer to attend that meeting with completed before we can qualify for eligible 5000.

947

02:20:55.620 --> 02:20:56.070

Village of Parish: words.

948

02:20:58.710 --> 02:21:15.090

Village of Parish: We don't get a closed off the city to cooperate and give it a second you have extra we may have a different codes right, I mean it's not like it has to be the way he was talking we're going to be, you know oh yeah another round on the next June and.

949

02:21:17.700 --> 02:21:22.320

Village of Parish: We don't have to push through this easy thing and then the money from that can go forward.

950

02:21:23.010 --> 02:21:34.830

Village of Parish: or anything, so we have to find a place to even put like a ev charging port and all that, so it is asking, we have the library or the writing lot, so we have those options available, but I think it would be a good little.

951

02:21:35.370 --> 02:21:47.400

Village of Parish: cloud much worse, but might have no but I mean like the library would be good, because there's it's a really good place if you put it up on the church it's really not you people aren't really want a Park area that will walk you know.

952

02:21:48.450 --> 02:21:50.640

Village of Parish: Big fun well kindle like an ad.

953

02:21:52.650 --> 02:21:54.450

Village of Parish: Right encounter with barbaric turn.

954

02:21:56.940 --> 02:22:08.190

Village of Parish: To decide if you are interested in that angle, I mean I think it's a decent idea, but then it comes down to do we charge or do we just do it, as you know, basically a public service to people in the village.

955

02:22:09.720 --> 02:22:22.800

Village of Parish: Again that's what something with right yeah I agree so yeah because we need to discuss, or even a minimal charge, we can do that, we can give it free for a year or two until they start getting more people buying them and then even one out.

956

02:22:23.970 --> 02:22:26.370

That picture just shows us sitting out there by itself.

957

02:22:27.780 --> 02:22:39.780
