152

00:17:57.840 --> 00:18:08.580

Village of Parish: For our folders for next month, we could do the cyber security, because I think that's already in your folder from last year, so is there a motion to accept the computer Internet policy.

153

00:18:10.170 --> 00:18:12.330

Village of Parish: Since that's already been in our folders.

154

00:18:13.740 --> 00:18:20.310

Village of Parish: really want to make a motion to this all right, and then need a second Jackie.

155

00:18:21.390 --> 00:18:37.080

Village of Parish: Alright, so those are done and then for next month we'll look at cyber security and, as I said, he did it it's got some questions with it will address those next month and try and get some of these items that he's highlighted clarified all right.

156

00:18:38.430 --> 00:18:40.890

Village of Parish: And that was resolved from.

157

00:18:42.120 --> 00:18:42.870

Village of Parish: The insurance.

158

00:18:44.850 --> 00:18:54.480

Village of Parish: follow through on that so that's why that was being added on to our show I policy folder I can make a motion to adjourn me.

159

00:18:56.490 --> 00:19:00.990

Village of Parish: yeah I guess that's covered basically our organizational section.

160

00:19:04.260 --> 00:19:13.230

Village of Parish: With the signatures want to read through the policies be familiar with those and then indicate your knowledge receipt of the policies.

161

00:19:13.890 --> 00:19:25.950

Village of Parish: And the folder you got either return to the Cork or keep but as long as it's somewhere that you know and then she's got a sign up sheet or a sign in sheet that you've addressed them all right, thank you.

162

00:19:51.360 --> 00:19:51.780

271

00:32:46.950 --> 00:32:48.960

Village of Parish: that's the question at hand yep.

272

00:32:52.920 --> 00:32:56.310

Village of Parish: Right, the two different sets and should only one should have been distributed.

273

00:33:08.010 --> 00:33:11.040

274

00:33:12.510 --> 00:33:14.250

Village of Parish: This is the one that says.

275

00:33:15.870 --> 00:33:17.190

Village of Parish: Next 10 minutes you come to me before they go out and get approved so any changes and alterations can be made prior to distribution law work.

280

00:33:54.150 --> 00:33:54.360

Village of Parish: Now.

281

00:33:56.100 --> 00:33:58.140

Village of Parish: Now we don't alter the Minutes, I realized that.

282

00:33:59.610 --> 00:33:59.910

Village of Parish: I.

283

00:34:00.930 --> 00:34:09.570

Village of Parish: realized, there are some information there that's that can be misconstrued if we aren't careful so we'll go with that one at the moment.

284

00:34:11.970 --> 00:34:18.900

Village of Parish: Right i'm items for communications most anything I received it forward the board, there is a.

Village of Parish: National Grid had a phone conference today and I participated with that as results of some of the recent and current.

288

00:35:08.400 --> 00:35:24.090

Village of Parish: win and damage situation with wins in the snow heavy snow and wet that we've had so they were addressing that for the different area counties and the immediate area I don't know as as we go with really.

289

00:35:25.320 --> 00:35:31.050

Village of Parish: hit as hard as some of the other areas, but some of the lower counties below us we're.

290

00:35:32.250 --> 00:35:39.720

Village of Parish: Having some power outages and things I don't know if this, we had the power outages but I presume there might be some small areas.

291

00:35:41.970 --> 00:35:48.390

Village of Parish: See and answers there and another thing that I had received information from.

292

00:35:51.030 --> 00:35:57.780

Village of Parish: mud Murphy, who is is was mayor of central Square and what they're trying to do is.

293

00:35:59.820 --> 00:36:11.160

Village of Parish: find a way they can have reduced fees Butler roll off fees for wastewater sewage treatment plant effort to reduce the dumping sees.

294

00:36:12.060 --> 00:36:31.350

Village of Parish: So that everybody doesn't get hit as hard as they are, and if they could collectively have a fee for all small municipalities that would be very helpful I haven't heard back yet as to where he went with that and how I fared with it, but her beautiful state thing when you.

295

00:36:37.380 --> 00:36:42.630

Village of Parish: Know that's all based on county it's all based on your okay your.

296

00:36:44.610 --> 00:36:46.020
Village of Parish: fees at the county.

297
00:36:48.330 --> 00:36:55.920
Village of Parish: Trying to see if they can get a reduction because they're hitting some of the smaller municipalities really hard.

298
00:36:57.570 --> 00:37:03.120
Village of Parish: All right, till legislator full width is Sam camden route report.

299
00:37:04.560 --> 00:37:06.390
Village of Parish: Right, so this.

300
00:37:09.480 --> 00:37:20.340
Village of Parish: One is that the other month on the 31st we got the new air system in and everything is working very nicely, and now that we've built into our system and we're only running on one blogger, which is going to help.

301
00:37:21.360 --> 00:37:22.170
Village of Parish: The electric bill.

302
00:37:23.580 --> 00:37:35.880
Village of Parish: That like we don't have to have to blowers running in order to get air the system able to blow up and running, we couldn't get the system for this just so bad, but now was now we've got that Nice new I don't know anybody some photo.

303
00:37:36.930 --> 00:37:39.300
Village of Parish: photo I can share with you.

304
00:37:43.050 --> 00:37:45.810
Village of Parish: we've got that nice little air system right now and it's.

305
00:37:47.490 --> 00:37:48.090
Village of Parish: it's been.

306
00:37:51.060 --> 00:37:54.030
Village of Parish: Do me a favor email to text me that photo.

307
00:37:55.650 --> 00:37:57.270

Village of Parish: nevermind i've got it right here.

308

00:38:01.650 --> 00:38:03.870

Village of Parish: So here's here's the new.

309

00:38:05.130 --> 00:38:07.200

Village of Parish: So the the ones that will be in the tank.

310

00:38:08.430 --> 00:38:19.800

Village of Parish: You put it on the House so on the outside Okay, so the one that was inside the tank was all rotted so then we went around we put all around and dropping the headers all in so it's working much, much better.

311

00:38:21.180 --> 00:38:24.000

Village of Parish: job I want to hear yep nope, we know that live bucks.

312

00:38:25.980 --> 00:38:30.630

Village of Parish: We should be, we should be in good shape moving forward running running on one blower and stuff too.

313

00:38:31.530 --> 00:38:45.270

Village of Parish: So so yeah so we're just we're still waiting on that they're lower, and we have these but we'll meet the timelines assuming those different that the DCS estimate so we're good i've already let.

314

00:38:46.290 --> 00:38:50.940

Village of Parish: You know that we've got that work done so they're happy about that.

315

00:38:53.220 --> 00:39:02.250

Village of Parish: didn't help before we were able to get that that blower in we had or the that piping in we had a blockage.

316

00:39:04.530 --> 00:39:11.370

Village of Parish: To basically two days in a row, we had we had a tank blockages probably because of all the stuff that was sitting there over the years.

317

00:39:11.670 --> 00:39:23.460

Village of Parish: With we tried to clear it internally ourselves, we thought we had it cleared, but then it just goes more rags and Duncan whatever got in there and then we had a backdrop In fact it out, so we didn't have that issue again.

318

00:39:23.940 --> 00:39:37.140

Village of Parish: Since then it's been working great and we haven't had any issues and those blockages cause the setup ourselves violation wasn't caused by the process not working as well, but I think blockages, but I think.

319

00:39:38.340 --> 00:39:39.810

Village of Parish: in good shape now moving forward.

320

00:39:43.110 --> 00:39:50.160

Village of Parish: Those are really those are really the two big things on hand and now it's it's really on you.

321

00:39:51.360 --> 00:39:52.920

Village of Parish: To get the long term stuff but.

322

00:39:55.020 --> 00:40:17.010

Village of Parish: Are we able to get that out fine reduced anymore, and it was we got down 1000 bucks so we went from 4000 to 3000 but I will tell you I had a meeting yesterday with matt Marco the regional director and he was he was a little frustrated that we got him even though that much so.

323

00:40:18.120 --> 00:40:19.530

Village of Parish: Even though we signed it.

324

00:40:20.820 --> 00:40:30.000

Village of Parish: Is we're not sure what will happen don't quote me on anything but he was he was he was he was feeling bad for the village.

325

00:40:30.570 --> 00:40:44.910

Village of Parish: For you know the work that we've done three times we took us to get up the PG grant and here's let me look into this in the early discussions as well you know he's got so much on his plate that he.

326

00:40:46.710 --> 00:40:56.250

Village of Parish: What I brought it up to him and we started talking about it, he went back to his emails and is, I had to basically go back through all in okay.

327

00:40:57.330 --> 00:41:07.440

Village of Parish: um let's see what I can do so I don't know if anything will come of it, but at least he knows that you know we're trying right and that's good when the regional director.

328

00:41:09.390 --> 00:41:09.600

Village of Parish: So.

329

00:41:12.870 --> 00:41:21.330

Village of Parish: I know I worked Monday night so yeah so you do that, you got out yeah and who was he is his name banana correspondence or is Marco.

330

00:41:23.910 --> 00:41:30.300

Village of Parish: is one of the signs up Okay, please, please, like me, I guess next next.

331

00:41:32.880 --> 00:41:34.050

Village of Parish: You sign somebody checks you just.

332

00:41:36.150 --> 00:41:37.440

Village of Parish: So, so you know.

333

00:41:39.030 --> 00:41:44.700

Village of Parish: I think at least now that he's personally involved it'll help us as we move forward with the long term that.

334

00:41:46.470 --> 00:41:48.990

Village of Parish: i've got an update on kind of where we are now.

335

00:41:51.090 --> 00:41:52.650

Village of Parish: You already do that now yeah.

336

00:42:20.100 --> 00:42:24.120

Village of Parish: kendra good segue into what I wanted to talk about tonight is all.

337

00:42:25.200 --> 00:42:33.480

Village of Parish: bad news first you mentioned announcement yesterday, for your program unfortunately those tears researching the play project is not on that list.

338

00:42:35.160 --> 00:42:44.100

Village of Parish: All I can include is that, for whatever reason it hasn't scored high enough priority wise on there and maintain it's not for lack of trying.

339

00:42:44.850 --> 00:42:56.010

Village of Parish: You know, we had six other news on that list that we had submitted from the applications for themselves, I certainly think now that the consent order is executed and finalize.

340

00:42:56.850 --> 00:43:06.390

Village of Parish: If the project doesn't get funded now you know it's ever going on, so I mean I never see a project, where they said we're not yet on funding so.

341

00:43:07.080 --> 00:43:14.550

Village of Parish: we'll try again this year, you know, several of the programs are through what's called the consolidated from the application.

342

00:43:15.210 --> 00:43:30.300

Village of Parish: That is June June 17 of this year, so will resubmit to the wi fi programs to see you got to do is rf and with that concern you know it should skyrocket your point to as far as priority score.

343

00:43:31.590 --> 00:43:42.780

Village of Parish: Okay, so we'll keep trying to get you know more money funding for the project The good news is that you know we did receive a funny offer from usda rural development.

344

00:43:44.370 --> 00:43:56.970

Village of Parish: That funny offer was lonely okay so even offering a grant project they actually did their underwriting and are requesting that those contribute hundred \$50,000 of your.

345

00:43:57.420 --> 00:44:06.510

Village of Parish: own money into the project, which is relatively common if you've got money in a super fun balance, they want you to you know have skin in the game also so.

346

00:44:07.050 --> 00:44:15.840

Village of Parish: I just did a quick break down just to give everybody an idea of where we are at financially at this point and it's the second page attached to.

347

00:44:16.830 --> 00:44:23.910

Village of Parish: Here and i'm going to skip over the first part that's basically just the process, the net for the project as a whole.

348

00:44:24.570 --> 00:44:38.610

Village of Parish: This is what's included in the proletariat engineering report so for our last cost estimate the total project cost you about halfway down the page total project cost is 2.47 million.

349

00:44:40.530 --> 00:44:55.080

Village of Parish: So, with the goal just contribution when the wall provided by rural development, which is that interest rate of 1.25%, which is a very good interest rates, interest rates are you guys got another good time, industry and so starting on back up.

350

00:44:56.280 --> 00:45:11.910

Village of Parish: I believe every industry is up to one and a half and they're just a quarterly so I won't be surprised if interest rates go up about a percent because you get a free 1231 yeah yeah yeah not done yet okay.

351

00:45:13.410 --> 00:45:16.920

Village of Parish: This is just as up today okay just give everybody an idea.

352

00:45:18.210 --> 00:45:19.710

Village of Parish: or certainly other options.

353

00:45:22.020 --> 00:45:29.040

Village of Parish: But based on these numbers, considering the long term, are you requires a payback period of three years.

354

00:45:30.000 --> 00:45:38.520

Village of Parish: we're talking and manual that service for you, based on your number of units and yeah the village of about \$290 from here.

355

00:45:39.480 --> 00:45:47.730

Village of Parish: All and costs, you know estimated based on what we think is going to take to operate the plan and the collection system.

356

00:45:48.510 --> 00:46:10.170

Village of Parish: you're looking at about four and \$41 per year and then you, you have a good system that service that still needs to be paid okay so as of now, this was based on the 2021 sewer budgets, probably we're allowed to do that, but not far off, you know that that service is about 140 for our.

357

00:46:11.520 --> 00:46:29.490

Village of Parish: residents are your property owners and residents are currently paying now so adding all that off, you know if we were to start the project today and finance the project today we'd be talking about a total estimated cost at all hundred \$83 per year for one year residential you.

358

00:46:30.510 --> 00:46:33.120

Village of Parish: Know right now, your folks are playing 622.

359

00:46:34.890 --> 00:46:40.890

Village of Parish: that's based on your flat rate charge I think it's hundred \$55 a quarter or whatever yeah.

360

00:46:41.910 --> 00:46:58.080

Village of Parish: So it's a difference about \$261 per year so that's if we were you know more funding and wanting to move forward with all its funny offer some point he was per month, so in my opinion on that certainly think that we can get more money now because settlers.

361

00:46:59.520 --> 00:47:17.130

Village of Parish: And that's what we are today right solve for that's essentially worst case scenario, and when did you do the projected cost So this was when we submitted the application so November a plane one so it's well it's you know it's going to have to be updated.

362

00:47:18.540 --> 00:47:27.090

Village of Parish: You know, we do have 15% contingency in the escalation included in there, so there's about 20% contingency fee on top of this cost estimate.

363

00:47:27.540 --> 00:47:39.450

Village of Parish: But we'll, certainly when we resubmit in June and our costs, again we go through that exercise the last three months, I know I want you know you'll be one of your last three months.

364

00:47:40.860 --> 00:47:51.420

Village of Parish: We have to open a bit I don't think since October of last year and i'm open i'm open three in the last three months yeah and they're all 50% plus yeah.

365

00:47:52.110 --> 00:48:01.320

Village of Parish: What we originally thought so this number two high more almost a number right, so we got out, we certainly got to go through an update this number one recent.

366

00:48:03.150 --> 00:48:05.580

Village of Parish: Number gets us a bigger graph right so.

367

00:48:08.790 --> 00:48:11.010

Village of Parish: Oh user down now once it down to now.

368

00:48:12.030 --> 00:48:17.100

Village of Parish: Work too well as building a house and go back up again, the only bye.

369

00:48:18.270 --> 00:48:18.450

Village of Parish: bye.

370

00:48:20.790 --> 00:48:23.280

Village of Parish: So much a single floor.

371

00:48:25.050 --> 00:48:33.540

Village of Parish: So a couple of things on you know that's why I wanted to get my hands on this consent order because I wanted to see what the schedule wasn't here.

372

00:48:34.110 --> 00:48:44.760

Village of Parish: and basically as far as when the vc is requiring us to comply with the what they're calling the long term, maintenance is yeah is.

373

00:48:45.660 --> 00:48:57.390

Village of Parish: Essentially, dictated by loss which is great news, so they haven't put it online yeah they basically said we don't implementation of the capital project is based on the schedule.

374

00:48:58.650 --> 00:49:00.060

Village of Parish: For so.

375

00:49:01.260 --> 00:49:05.280

Village of Parish: Now that we've got the air system, and you know, things are working okay for now.

376

00:49:06.930 --> 00:49:15.030

Village of Parish: Do we have two options essentially a we could start right now on a project, you know, keep things moving for funding applications.

377

00:49:16.020 --> 00:49:23.610

Village of Parish: Or we can wait and you know start the engineering work, you know, see the fall winter of this year.

378

00:49:24.210 --> 00:49:30.990

Village of Parish: Like it server That is something else going on, so somebody else goes wrong, and we would have just being.

379

00:49:31.500 --> 00:49:39.540

Village of Parish: So what are the sooner we can get to a point where we have design documents without on the screen to build the better.

380

00:49:40.110 --> 00:49:52.110

Village of Parish: On the other thing is what kind of time frame, are we on with the consent we're at and all that deal to have something like I said it really is based on us so right, so we we get the opportunity to kind of dictate that.

381

00:49:52.590 --> 00:50:04.230

Village of Parish: So so Ian can write this, as you know, this is the timeline and so we're thinking in 2004 when break ground and by the end of 2025 or will have something I wasn't sure if there was something in writing with the idea.

382

00:50:05.700 --> 00:50:11.580

Village of Parish: That open working with us okay so they're working with us and we can cause meeting that the timeline together.

383

00:50:12.000 --> 00:50:24.450

Village of Parish: And they may very well have known that this project wasn't getting funded this year and that's why they do that also you know getting the understanding the understanding into you know they know that they know that.

384

00:50:24.870 --> 00:50:32.940

Village of Parish: You know what's the consent orders issue that's where anything start getting serious solid so that that's essentially what I wanted to talk to the.

385

00:50:33.540 --> 00:50:48.270

Village of Parish: board about today is whether or not you wanted us to start design now or when I would say started now I was listening to the same thing, honestly, is a couple things to consider okay first off would be paying at this point in time so.

386

00:50:49.440 --> 00:51:01.440

Village of Parish: Our fee for design on this project, I want to say is around \$100,000 so you have two options, you know you can either take out what's called a short term lower band, which is very common.

387

00:51:01.920 --> 00:51:13.290

Village of Parish: For these projects or you can pay that amount out of your general fund for now and then you'll be reimbursed when the time comes, on I can, I can tell you, the issue that we're running into.

388

00:51:14.190 --> 00:51:18.960

Village of Parish: By the anticipation notice is that they have to have to make a payment within two years have taken them out.

389

00:51:19.650 --> 00:51:31.650

Village of Parish: So the longer you can wait to take them out the better, because as can't mention prices are or boys were bidding jobs that we gotta chase extra money is taking six months and.

390

00:51:32.310 --> 00:51:47.790

Village of Parish: So there's just there's a financial aspect that needs to be considered, so you end up funding what, which is a big family that's for the I started today Okay, so you guys definitely and that's for specifically for the Einstein.

391

00:51:50.940 --> 00:51:51.540

Village of Parish: So.

392

00:51:53.070 --> 00:51:57.540

Village of Parish: that's a decision that needs to be made is, if we want to start now that's completely fine.

393

00:51:58.260 --> 00:52:03.360

Village of Parish: You know we're going to start sending the bills, whether you want to pay my general for me see what happens is.

394

00:52:03.720 --> 00:52:11.850

Village of Parish: If we pay our bills out of the general fund as soon as you take out that band, because you, you get eventually, you have to take it out, because you got to pay for the construction right.

395

00:52:12.390 --> 00:52:28.650

Village of Parish: Then you're going to pay your general phone back for whatever you know you've had paid us today anybody else you know if you paid your attorneys or bond counsel, or you know any bills and you've paid that are eligible you know project related costs will reimburse you.

396

00:52:29.970 --> 00:52:30.420

Village of Parish: So.

397

00:52:32.220 --> 00:52:36.210

Village of Parish: So yeah so that essentially that's the decision has to be made was started as I now everyone.

398

00:52:37.260 --> 00:52:43.620

Village of Parish: will understand what word continue to seek additional funding, while we're working on the design of the project.

399

00:52:45.540 --> 00:52:54.960

Village of Parish: Right now we've got it we've got a plenary engineering report so we're okay to go for funding at this point absolutely so we've addressed their last round of comments.

400

00:52:55.380 --> 00:53:03.330

Village of Parish: And you know that's one of the items that's on me so in the consent or 90 days from execution, they need approval PR.

401

00:53:03.840 --> 00:53:15.330

Village of Parish: And so we would address their last round of condoms are in their hands, you know i'll probably call out within the next week or so and say yeah with the parishes meeting I know the consumers in place.

402

00:53:15.840 --> 00:53:23.580

Village of Parish: certainly want to make sure we need this this 90 day deadline only common I have, by the way, and as I really don't want the bag and really just have another set drivers.

403

00:53:24.510 --> 00:53:35.910

Village of Parish: Okay talk about yeah we're certainly going to talk about that, because that you know that's going to change here that's going to change and there were asked to resend our response that we sent to a last time and.

404

00:53:36.450 --> 00:53:50.130

Village of Parish: So by if that's you know the way you want to go and we'll talk about a time when there's something on the email to all the bags they wanted to use a work or something like that yeah so they wanted to know you know how they were utilized there there.

405

00:53:51.300 --> 00:53:54.360

Village of Parish: There are too many of those types of systems in your state.

406

00:53:55.500 --> 00:54:06.450

Village of Parish: We use them elsewhere throughout the country and had really good luck with them all the Midwest in indiana there's five or six applications out there and.

407

00:54:08.160 --> 00:54:25.170

Village of Parish: We want to don't want to go there out and it's an appointment, so I mean at see i've never seen one right, you know it's basically a like I say it's a bag in a dumpster with the waters, you know, a u haul it away, what are we, good for salads out of it ah.

408

00:54:26.310 --> 00:54:34.800

Village of Parish: I don't recall exactly what what the percentages, but I mean it's it's it's certainly enough to justify you know the technology.

409

00:54:36.000 --> 00:54:42.720

Village of Parish: To where it is a water after goes out of these bad dreams and there's a drain and it goes right back in just like it does.

410

00:54:43.740 --> 00:54:49.410

Village of Parish: So let's just talk about it yeah so so but I think we ought to.

411

00:54:50.910 --> 00:55:00.360

Village of Parish: think we ought to get started, I like the idea of doing need input from Kevin even the bunny person that's overseeing those checks on my general.

412

00:55:02.220 --> 00:55:05.700

Village of Parish: What right whatever funnel you want to pay the gas that's okay well.

413

00:55:07.350 --> 00:55:17.730

Village of Parish: we'll have to get a contract in place so prepare that for you, if that's like I said, you want to start now yeah I think we ought to start it now, because I I got a funny feeling that we're going to have more problems.

414

00:55:18.270 --> 00:55:22.590

Village of Parish: that's what I was thinking, the youngest not get any younger exactly, and I think the longer we wait, the more.

415

00:55:25.710 --> 00:55:34.710

Village of Parish: I think the longer you wait, the more yes we're going to have something drastic the bag link, not the plan doesn't cost us even more money right and we just can't afford it so.

416

00:55:35.970 --> 00:55:39.060

Village of Parish: i'll make emotion that we go ahead with the engineer.

417

01:13:18.150 --> 01:13:22.770

Village of Parish: Somebody checking on the furnace down there are actually doing the lay of the furnaces.

556

01:13:24.780 --> 01:13:26.340

Village of Parish: To get that ready okay.

557

01:13:27.990 --> 01:13:28.530

Village of Parish: Thank you.

558

01:13:29.760 --> 01:13:49.770

Village of Parish: Alright, the village town lease agreement they have received the statement, the agreement and we don't think we've heard back anyway, I haven't heard anything so they're still discussing it, or whatever they're doing with it, but it has been presented to them, and they have a copy of it.

559

01:13:51.930 --> 01:14:01.260

Village of Parish: The manhole cover have had various ones, look at it and apparently the condition as it exists now, is not a problem.

560

01:14:01.920 --> 01:14:13.860

Village of Parish: I did get a statement from the insurance company that if we wanted to include Superman covers it's not in the policy now we want to include it, we need to.

561

01:14:14.370 --> 01:14:33.090

Village of Parish: Give them exact locations of each one each one and see need exact locations and values of those if we want to include it in their policy if not we just leave it as is but i'm not sure for sure we want to go with that.

562

01:14:35.340 --> 01:14:36.390

Village of Parish: it's just for.

563

01:14:38.340 --> 01:14:39.090

Village of Parish: Two years or.

564

01:14:40.140 --> 01:14:52.830

Village of Parish: Did he how much was going to cost, no, they just wanted to know, right now, if Luke how many we've gotten how much where the locations are then they give us some information on that, but I don't know whether it's.

565

01:14:53.850 --> 01:15:00.660

Village of Parish: worth having coverage I don't know how many I think Tom was out and about with the numbers do you know how many we.

566

01:15:01.470 --> 01:15:11.610

Village of Parish: haven't I don't I don't know I do know there's a couple of pride, you need some looking action yeah, but I think what he was working with Canada, I believe, so around and doing that so.

567

01:15:13.560 --> 01:15:19.200

Village of Parish: I think there's only like four or five minutes in the road, everything else is off the road.

568

01:15:20.700 --> 01:15:31.110

Village of Parish: And then to if they know they know they're going to go fix them up as high not likely when I don't look like they're actually sinking down the road there's like I was down by the fire department by the.

569

01:15:32.550 --> 01:15:40.470

Village of Parish: White car wash there and there's a manhole right there, and you can just see the water that is a that's a storm storm.

570

01:15:41.310 --> 01:15:55.740

Village of Parish: Storm drain, it is not a lower okay well either way, you can see the blacktop yeah let's say there's a whole around it learns just getting washed out around it eventually is no means so yeah yeah yeah i'll just say it needs to be looked at and taken care of, for you know something happens.

571

01:15:56.850 --> 01:16:04.650

Village of Parish: somebody comes on, so the car hits it does damage shouldn't be yeah he's off the road let's have you seen people drive.

572

01:16:06.570 --> 01:16:08.370

Village of Parish: Right no not really.

573

01:16:09.390 --> 01:16:11.010

Village of Parish: I just pay attention to what I.

574

01:16:12.660 --> 01:16:15.180

Village of Parish: Do we want to address that and not worry about the covers and.

575

01:16:16.680 --> 01:16:17.280

Village of Parish: cost.

576

01:16:20.460 --> 01:16:24.840

Village of Parish: yeah let's wait on that cuz I gotta know somebody's gonna have to.

577

01:16:26.070 --> 01:16:39.240

Village of Parish: Well, no doubt, what we do it will increase her oh yeah so we can get away get away without and we know where they're going to be addressed and updated them will probably pretty well covered that way.

578

01:16:41.100 --> 01:16:41.670

Village of Parish: All right.

579

01:16:45.750 --> 01:16:50.130

Village of Parish: How we doing on the security system security systems.

580

01:16:52.920 --> 01:17:08.070

Village of Parish: she's waiting for the next installation and I think they're waiting for the next their payment older yeah yeah so I haven't heard from him of recent, but they are there and the books to come back and finish the.

581

01:17:10.020 --> 01:17:12.480

Village of Parish: Paper this at all patent.

582

01:17:19.710 --> 01:17:24.030

Village of Parish: office security there are they going to help us cover any other substance.

583

01:17:27.000 --> 01:17:36.150

Village of Parish: I am not sure, and I don't they haven't been approached on that I don't think they have no so I guess, we need to find out what.

584

01:17:37.440 --> 01:17:37.950

Village of Parish: they're.

585

01:17:39.810 --> 01:17:40.230

Village of Parish: Doing.

586

01:17:40.740 --> 01:17:41.250

Stephen Ganetis: what's up.

587

01:17:41.850 --> 01:17:49.470

Village of Parish: We mentioned that they said that your rv landlords and covered covered safe environment.

588

01:17:50.610 --> 01:17:58.500

Village of Parish: So, providing for security systems for the Court room and area does that put any.

589

01:17:59.580 --> 01:18:06.510

Village of Parish: Reimbursement from the village or from the town to security systems or us being the landlord that's for us to cover.

590

01:18:07.110 --> 01:18:09.360

Stephen Ganetis: I think you got to ask them see what they'll do.

591

01:18:11.100 --> 01:18:11.220

It.

592

01:18:12.750 --> 01:18:23.580

Village of Parish: says that his court county court but it's all kind of the judicial system for visual district, maybe there's something that the court system.

593

01:18:24.750 --> 01:18:26.760

Village of Parish: In its why ranging.

594

01:18:27.990 --> 01:18:28.860

Village of Parish: REACH and.

595

01:18:29.070 --> 01:18:29.430

Stephen Ganetis: I don't.

596

01:18:29.790 --> 01:18:31.920

Stephen Ganetis: My concern is they never asked for it.

597

01:18:33.120 --> 01:18:39.300

Stephen Ganetis: And because we're we're just doing it might just be seen as an improvement that you've made upon the House.

598

01:18:41.100 --> 01:18:46.200

Village of Parish: I think he's right, but the court system is the one that mandated that joe's having a state or.

599

01:18:49.290 --> 01:19:03.960

Stephen Ganetis: I don't know I obviously need to look into this I don't have an answer off the top my head my my concern comes down to this is something that you don't try to get reimbursement for after the fact, you do it after you before you do it.

600

01:19:08.310 --> 01:19:09.690

Village of Parish: Again, said anything have.

601

01:19:11.130 --> 01:19:15.570

Village of Parish: occurred, so he doesn't say yay or nay either which way.

602

01:19:17.160 --> 01:19:19.890

Village of Parish: To go to me might be obliging.

603

01:19:22.260 --> 01:19:24.780

Village of Parish: Okay, well, this will find out.

604

01:19:26.010 --> 01:19:32.340

Village of Parish: And it may be something that we're saying just it's our responsibility as the landlord's it's up to us.

605

01:19:32.910 --> 01:19:43.110

Village of Parish: I think if they asked for it then he's going, he said, you know we'd have all more ground to stand on but, seeing as it were just doing it again right we're not going to put anything in here.

606

01:19:44.130 --> 01:19:46.950

Village of Parish: We are cameras won't hear any.

607

01:19:54.960 --> 01:19:57.120

Village of Parish: All right, anything else for.

608

01:19:58.530 --> 01:20:01.650

Village of Parish: All business um.

609

01:20:03.150 --> 01:20:09.420

Village of Parish: let's see that right away business get resolved Steve for a doll road.

610

01:20:10.110 --> 01:20:21.180

Stephen Ganetis: i'm not sure, did you send in the tp 505 to Mr finance office yeah yes, then we should be done, I haven't heard from in a while, which is probably indication that's done okay.

611

01:20:21.240 --> 01:20:23.490

Village of Parish: I haven't heard anything either which way so.

612

01:20:24.060 --> 01:20:30.330

Stephen Ganetis: Well, they were doing it like you know they were calling my office almost every other day or every day, so I think we're okay.

613

01:20:30.780 --> 01:20:32.100

Village of Parish: let's look at what they wanted.

614

01:20:32.190 --> 01:20:42.780

Village of Parish: Okay, and the keys issue with the town is still in discussion so they hasn't been this been resolved.

615

01:20:44.580 --> 01:20:51.330

Village of Parish: Yes, I have that will probably come up with join April may join us in June so.

616

01:20:52.740 --> 01:20:54.000

Village of Parish: let's see where that goes.

617

01:20:55.980 --> 01:20:59.400

Village of Parish: All right, anything else yeah I business okay.

Village of Parish: They look Nice.

620

01:21:11.970 --> 01:21:12.510

Village of Parish: Okay.

621

01:21:15.240 --> 01:21:16.620

Village of Parish: goes in there every day but i'm.

622

01:21:18.150 --> 01:21:18.690

Village of Parish: Out there.

623

01:21:20.430 --> 01:21:21.540

Village of Parish: All right, new business resolutions all right we've gone through our I nice resolutions ABC and D that's what that was about to get that hundred way and out of the way.

628

01:21:55.140 --> 01:22:08.250

Village of Parish: So request Kevin you had a request that you wanted to share with the for us back in March, I was I receive a handwritten note from property owner Kathy Barry.

629

01:22:09.780 --> 01:22:10.770

Village of Parish: Who indicated her.

630

01:22:12.240 --> 01:22:15.870

Village of Parish: For me problem was that it will never reached her location.

631

01:22:17.040 --> 01:22:17.640

Village of Parish: we'll.

632

01:22:19.200 --> 01:22:29.850

Village of Parish: When I sent the iceberg nuts, not their current ones have written down, but the ones ending in March, I sent it out to the address I have on file to 1929 19 East Main Street fairs New York.

633

01:22:30.660 --> 01:22:47.400

Village of Parish: He came back with the yellow sticky from a post office says no receptacle well gee that's funny because I go by there, I see a mailbox that says 2919 East Main Street The numbers are on the mailbox but anyway, I received enough probably I probably.

634

01:22:49.980 --> 01:23:00.570

Village of Parish: Well sure handwritten note includes a regression was why the bill was never sent to her address at 132 state route 69 am Parish and just I don't have.

635

01:23:02.340 --> 01:23:10.470

Village of Parish: That you send it to us to tell us the address that I always write on one of our sentences so she returned your call that's what the problem was.

636

01:23:12.180 --> 01:23:12.690

Village of Parish: Basically.

637

01:23:14.160 --> 01:23:19.080

Village of Parish: At the time I talked to her, she was looking for the penalty to be relieved because she didn't get the bill.

638

01:23:20.550 --> 01:23:26.760

Village of Parish: I said, well, I don't have that authority to relieve the county I will bring into the fort worth and export me oh April 20.

639

01:23:27.600 --> 01:23:40.830

Village of Parish: And she couldn't make it she's not here, no she worked at night she's working she works at night right oh yeah and she asked me with the members of the board, so I answered your question she said well i'll get in touch with Neil I don't know if she did or no, yes, she did okay.

640

01:23:41.850 --> 01:23:42.330

Village of Parish: So.

641

01:23:43.350 --> 01:23:49.260

Village of Parish: I just told her and i'll bring it up bring up to the board, and to some extent the letter right now.

642

01:23:49.860 --> 01:24:04.500

Village of Parish: This what handwritten note was apparently she wasn't taking care of business with the town clerk also oh I receive an outside return the call was march 24 she said, I believe 858 years i've always been very low on time, you know can't advise give me a break.

643

01:24:07.110 --> 01:24:16.860

Village of Parish: But she does she admitted she doesn't live here anymore her son has not lived at this location in three years right and she can she's been getting the bills sent to that place.

644

01:24:17.190 --> 01:24:22.080

Village of Parish: And all of a sudden, she went down with to doubt the post office to they need to know yeah.

645

01:24:22.950 --> 01:24:30.600

Village of Parish: But that was just yourself right see I said, well, I don't have any other answers for you, you can't talk to the town girl, and I know.

646

01:24:31.500 --> 01:24:45.600

Village of Parish: That my job to talk to another that's another municipality, you know did she notify anybody when that should have been melted her new address no not until the day she she's not she's been getting she's been getting the mail right along.

647

01:24:47.370 --> 01:24:50.400

Village of Parish: But if she nobody's living at the property whether somebody is.

648

01:24:51.630 --> 01:24:55.860

Village of Parish: they're the ones that were getting it to her then right somebody was yeah.

649

01:24:58.290 --> 01:25:11.730

Village of Parish: He was he was claiming them at the post office with all the stuff is getting me the bill, so I don't know ma'am i've actually 2918 that's the address that this went to right and it's been going through all this time, and all of a sudden, he stopped.

650

01:25:13.200 --> 01:25:25.680

Village of Parish: Because he came back in March with return to sender know male receptacle on able to forward so, but if you drive by that location there's a mailbox there but anyway, I guess, this is an issue because.

651

01:25:27.150 --> 01:25:41.880

Village of Parish: April 18 the Clerk login a payment which included the penalty right she just wanted and I went in the bank today yeah you ready, you can make the Bank so because she said she wanted to pay it off, but she was hoping she might get some of that back.

652

01:25:43.170 --> 01:25:43.320

To.

653

01:25:45.480 --> 01:25:53.430

Village of Parish: Your guys's I kind of love, is why didn't she notifying whoever's interview, or whoever it that this needed to be mad at her because she didn't know until.

654

01:25:53.880 --> 01:25:55.770

Village of Parish: until she didn't been moved for Hello.

655

01:25:56.160 --> 01:26:05.910

Village of Parish: Okay she's been getting it, but she can't showcase you're looking at for last three years with the wrong address on it, knowing that the wrong address know she's been picking it up not picking it up, but that's my point, though.

656

01:26:06.570 --> 01:26:16.950

Village of Parish: i'm picking up there, or she picking up in the office from you know no she didn't pick up on them from her mail box whatever yeah premium access in front of the hops Okay, but.

657

01:26:17.790 --> 01:26:33.960

Village of Parish: If she's she's claiming it was the wrong address well it's the right address but it wasn't getting to her address right I didn't know her, but she moved or mucci she owns a house correct well yeah she owns a property that actually is her father.

658

01:26:35.400 --> 01:26:41.880

Village of Parish: be delivered to that property has been delivered it properly, she does not reside at that promises no okay.

659

01:26:42.810 --> 01:26:55.680

Village of Parish: A lot of other people don't resided the promises that front, whatever and we mail it to their physical address right so but but because she's been getting it at that I address, I understand that no you don't I do yeah.

660

01:26:56.640 --> 01:27:08.580

Village of Parish: she's beginning of that data address okay now when she didn't get it, she knew she old and didn't get it, she contacted him I understand i'm just trying to al she's all she's.

661

01:27:09.090 --> 01:27:15.810

Village of Parish: Only after I sent the next quarterly bill here's what i'm asking yeah she even has she notified you to change the address yeah.

662

01:27:17.130 --> 01:27:26.610

Village of Parish: Prior to this prior to me talking to Mr fairy forth no Okay, but she has now yes yeah Okay, she always facing don't kindly probably never been an issue.

663

01:27:27.090 --> 01:27:33.300

Village of Parish: She did see the issue and you know that's all I was trying to figure out as if she had notified about you.

664

01:27:34.080 --> 01:27:50.340

Village of Parish: jumping, no, no, no, another thing you should know she's paying for three units Okay, good for her it wasn't my question, you know the three years she paid a fine over \$100 I wasn't questioning either any of that I wasn't going to go either way I was asking a question.

665

01:27:51.540 --> 01:27:52.950

Village of Parish: You got all worked up no.

666

01:27:54.120 --> 01:28:02.610

Village of Parish: I didn't understand I didn't understand I was given to her, she notified any way to change the mailing address to it that's what I was getting it oh.

667

01:28:03.690 --> 01:28:11.100

Village of Parish: Well, she didn't realize you had to change it Okay, I was just asking she has done it now i'm almost done okay That was my question yeah.

668

01:28:13.140 --> 01:28:20.010

Village of Parish: OK, so the question is, what do we do with that if she had made the proper notifications for change.

669

01:28:21.540 --> 01:28:27.390

Village of Parish: Right it's not going to get changed until she makes that notification which he's done now correct yeah.

670

01:28:29.970 --> 01:28:34.290

Village of Parish: So I asked the post office wife wasn't delivered and.

671

01:28:35.910 --> 01:28:37.320

Village of Parish: At the new gmail.

672

01:28:38.430 --> 01:28:40.440

Village of Parish: And they said, well, nobody lives there, so we didn't.

673

01:28:41.730 --> 01:28:43.680

Village of Parish: that's not their call, and I agree.

674

01:28:44.700 --> 01:28:53.220

Village of Parish: But post office is your own okay right they seem to So what are we gonna do with him, excuse me.

675

01:28:55.020 --> 01:29:01.380

Village of Parish: I don't see or what are your feelings, how much was it Do you remember.

676

01:29:02.490 --> 01:29:13.920

Village of Parish: Your room and I regret I just enjoyed it I just did my data entry today so i'll probably call it up and let you know i'll be right back because I shared was about \$100 stuff with the entire bill that I entered was 1049 and some change.

677

01:29:19.260 --> 01:29:21.510

Village of Parish: But it's a property owner I think they have to be.

678

01:29:22.650 --> 01:29:23.220

Village of Parish: responsible.

679

01:29:24.720 --> 01:29:30.930

Village of Parish: I agree with that, but as long as she was still getting there yeah then she couldn't figure out how come, all of a sudden she's not getting.

680

01:29:31.560 --> 01:29:42.540

Village of Parish: And then she said, well, I know it's doing another second one is do that's what he tried to figure out what why she hadn't been getting it, so I think she had tried.

681

01:29:43.980 --> 01:29:47.400

Village of Parish: didn't get it, because she don't know why she didn't get it.

682

01:29:49.530 --> 01:29:53.400

Village of Parish: And she taught what it came back to Kevin she figured that Kevin might.

683

01:29:54.930 --> 01:30:00.540

Village of Parish: Question you're watching this live with the post office yes.

684

01:30:02.250 --> 01:30:03.660

Village of Parish: The post officer bill.

685

01:30:13.920 --> 01:30:18.900

Village of Parish: Okay, though, is 933 penalty was \$116 and 63 cents.

686

01:30:25.530 --> 01:30:25.890

Village of Parish: So.

687

01:30:29.100 --> 01:30:36.000

Village of Parish: Quarterly though I thought we only charging 35% interest rate 20% penalty.

688

01:30:37.140 --> 01:30:39.660

Village of Parish: Was \$25 and 45%.

689

01:30:46.230 --> 01:30:46.800

Village of Parish: So.

690

01:30:47.970 --> 01:30:55.140

Village of Parish: What are the board well my thought is that she did reach out she didn't never get the bell she came in you looking for the bell correct.

691

01:30:55.620 --> 01:31:02.790

Village of Parish: i'm to comment before she called you looking for Nazi left a handwritten note right, but she and I called Okay, but she was.

692

01:31:03.450 --> 01:31:07.860

Village of Parish: She was there, she reached out to us, and when I wear this was she knew that it was all correct.

693

01:31:08.550 --> 01:31:17.040

Village of Parish: Okay, I say honestly because she did take initiative that we just kind of this mess up because she did yes Okay, she should have changed address the address has been changed now.

694

01:31:17.520 --> 01:31:26.790

Village of Parish: There will be some of that with the data right, but she made she made the effort she knew that it was dope granted, yes, she should have changed the address years ago.

695

01:31:27.450 --> 01:31:43.530

Village of Parish: Yes, and we could just say no, because you put up, but she didn't know that it was deal and she came in wondering Maybe she messed up a few days, whatever of her actually getting in here she works nights you said, Neil yeah sure, so I mean I I think you know people work makes three to.

696

01:31:44.820 --> 01:31:45.240

Village of Parish: I think she.

697

01:31:46.950 --> 01:31:56.370

Village of Parish: I think she took initiative, and I think we ought to just look OK that's just my opinion on it make emotion emotion, we just missed the lt okay second.

698

01:31:57.690 --> 01:31:59.130

Village of Parish: Second, you know I can.

699

01:32:00.630 --> 01:32:07.620

Village of Parish: sense the bill has already been hey let's see I can take that off it might wind up some sort of her credit.

700

01:32:08.790 --> 01:32:16.920

Village of Parish: On the next bill, which will be fine with her i'm sure
161 1663.

701

01:32:18.120 --> 01:32:21.000

Village of Parish: And 16.63 was the penalty.

702

01:32:27.120 --> 01:32:27.900

Village of Parish: All in favor.

703

01:32:30.660 --> 01:32:31.860

Village of Parish: I mean, of course, somebody that didn't.

704

01:32:34.620 --> 01:32:38.820

Village of Parish: Know delinquent or a different story all right, thank
you.

705

01:32:39.900 --> 01:32:46.050

Village of Parish: And Kevin did you want to discuss this fiscal stressor
mentioned no or yes okay.

706

01:32:47.670 --> 01:32:50.430

Village of Parish: Do you want to take out of the elephant in the room
first.

707

01:32:51.480 --> 01:33:11.670

Village of Parish: Open room retailing come back to it, and if you want
all right, do you want to do budgets first whichever doesn't matter all
right all right next item is our budget vote we had our public hearing
and presented the public with the budget and.

708

01:33:13.020 --> 01:33:18.360

Village of Parish: See, we had to do that by the 15th of April yep and
then we make them can.

709

01:33:19.380 --> 01:33:22.530

Village of Parish: pass them out until packing list of companies have.

710

01:33:23.640 --> 01:33:24.900

Village of Parish: This is the general fun.

711

01:33:29.340 --> 01:33:34.260

Village of Parish: Work some of them, but i've been really busy doing other crap I just.

712

01:33:37.110 --> 01:33:38.190

Village of Parish: So basically.

713

01:33:39.330 --> 01:33:42.300

Village of Parish: One for Tom jackie's got hurt for.

714

01:33:43.590 --> 01:33:44.070

Village of Parish: So.

715

01:33:47.070 --> 01:33:48.930

Village of Parish: He general fund budget.

716

01:33:50.250 --> 01:33:50.970

Village of Parish: We are.

717

01:33:54.750 --> 01:34:00.360

Village of Parish: actually went through all of our budget workshops basically we're looking we're spending.

718

01:34:01.650 --> 01:34:04.500

Village of Parish: The last page tells us what we're spending.

719

01:34:06.720 --> 01:34:10.530

Village of Parish: You know, basically, basically, that the short and short story is.

720

01:34:11.880 --> 01:34:12.930

Village of Parish: we're spending.

721

01:34:14.400 --> 01:34:25.590

Village of Parish: we're going to take if you guys spoke to a group the current general fund budget as it stands, you would be taking \$41,570 out of your for creating fund balance.

722

01:34:28.260 --> 01:34:30.030

Village of Parish: Because I know, sometimes I say what's my balance.

723

01:34:31.980 --> 01:34:32.220

Village of Parish: Okay.

724

01:34:34.080 --> 01:34:34.950

Village of Parish: yeah that.

725

01:34:37.980 --> 01:34:38.640

Village of Parish: Case something.

726

01:34:40.380 --> 01:34:47.970

Village of Parish: For us, this is only as of now, and also, if you notice it does include the expenditures fresh revenues as of March 31 because, obviously, if.

727

01:34:49.140 --> 01:34:49.830

Village of Parish: you're fabulous.

728

01:34:52.440 --> 01:34:53.040

Village of Parish: Okay.

729

01:34:59.010 --> 01:35:16.920

Village of Parish: So as of March 31 the general Fund had total liabilities and fund balance of 651 to 7576 so obviously that can actually take the 14, what do you want thousand hit not too bad still deal with it.

730

01:35:18.000 --> 01:35:22.620

Village of Parish: that's their property taxes go up to three would be correcting.

731

01:35:23.700 --> 01:35:44.280

Village of Parish: Property taxes on your revenues page line 81001 property taxes would go from 91 695 to 93 5.9 which is within the growth factor, and when I did my math at 1.1 point 2001 and two tenths percent because we are.

732

01:35:45.750 --> 01:35:52.860

Village of Parish: Though inflation factor, rather than that factor, so we will base icon who's in the book.

733

01:35:54.030 --> 01:35:59.280

Village of Parish: yeah yeah and hopefully that only raises our cat.

734

01:36:01.050 --> 01:36:08.400

Village of Parish: keen sense they go up to \$4 and 15 cents per thousand five cent increase since last year over last year.

735

01:36:09.570 --> 01:36:12.390

Village of Parish: We can spend it all on the general fund.

736

01:36:13.950 --> 01:36:31.740

Village of Parish: So, and that also does have active in some sort of estimated pay increase in case of the because the Commissioner of Labor sets the new minimum wage that's not going to happen until October so we're we're estimating and worst case, killing them going 14 because the janitor.

737

01:36:33.330 --> 01:36:38.070

Village of Parish: And then also there's also 4% increase for both the treasurer and the Clerk.

738

01:36:39.090 --> 01:36:39.450

Village of Parish: Most.

739

01:36:40.950 --> 01:36:41.520

Village of Parish: passion.

740

01:36:42.570 --> 01:37:01.200

Village of Parish: So security was correct someone gets to me so that's an increase of five cents yeah yes that's acceptable to lecture no no it's like one or two cents, I have to go back and look but yeah it was like last year for 10 issues on the 14.

741

01:37:04.350 --> 01:37:04.620

yeah.

742

01:37:05.760 --> 01:37:06.270

Village of Parish: Somebody will.

743

01:37:07.650 --> 01:37:08.520

Village of Parish: You will often.

744

01:37:10.320 --> 01:37:12.570

Village of Parish: Alright, so moving on to.

745

01:37:15.150 --> 01:37:16.710

Village of Parish: Moving on to be sure.

746

01:37:18.060 --> 01:37:18.420

Village of Parish: yeah.

747

01:37:22.380 --> 01:37:24.660

Village of Parish: Can I be excused from the rest of the afternoon.

748

01:37:29.010 --> 01:37:34.080

Village of Parish: Hopefully this sewer increase won't be as great next year we're gonna hit it take the hit this year but.

749

01:37:35.490 --> 01:37:48.420

Village of Parish: The sad part is well, but what I was just thinking what I was discussing in budget workshop, so the paperwork that he just gave us yeah I wasn't that far off without even without even having a favor can you give me one other folks.

750

01:37:49.980 --> 01:37:55.890

Village of Parish: I know it's good he's not here in St Louis servers where did I miss.

751

01:37:57.420 --> 01:37:58.320

Village of Parish: That would be why.

752

01:38:03.870 --> 01:38:06.660

Village of Parish: let's see one for each guy yeah so.

753

01:38:11.130 --> 01:38:12.690

Village of Parish: Your copies right here in the.

754

01:38:15.780 --> 01:38:18.090

Village of Parish: User experience ever prayed on my treasure can.

755

01:38:19.800 --> 01:38:25.320

Village of Parish: Sometimes when you're lost like somebody could use mine so anyway okay so last budget workshop.

756

01:38:28.110 --> 01:38:43.050

Village of Parish: and kick presented a worst case scenario from that worst case scenario we're raising the sewer rates for and even \$45 and 50 cents to bring it up to \$200 per order obviously times for for to bring you up to 800.

757

01:38:44.550 --> 01:39:07.740

Village of Parish: Okay, so one of the trustees at the budget workshop did not like that the suggested they go up 20 bucks so this particular budget reflects a \$20 increase, so it goes from 155 50 to 175 50 right multiply that by 200 per month once every 30 times for 702.

758

01:39:08.910 --> 01:39:18.900

Village of Parish: A year right multiply that by the 258 and a quarter units we currently have in the village and, if you look at your G 2120 line.

759

01:39:19.920 --> 01:39:23.280

Village of Parish: That would be how much we're looking for consumer fees.

760

01:39:24.360 --> 01:39:37.710

Village of Parish: As a \$20 increase a basic it's one at one 292 actually in the mouth is point at one 291 50 so I can either go up or go down, so I went up to 9222 92.

761

01:39:39.390 --> 01:39:40.620

Village of Parish: But in retrospect.

762

01:39:42.720 --> 01:39:43.890

Village of Parish: just keep presenting.

763

01:39:45.120 --> 01:39:46.440

Village of Parish: It really wasn't that far off.

764

01:39:47.760 --> 01:39:54.510

Village of Parish: On my suggestion, but penguin was what the board trustee suggested so that's the budget that's in front of me right now.

765

01:39:57.930 --> 01:40:01.140

Village of Parish: And that one early art is.

766

01:40:03.690 --> 01:40:07.470

Village of Parish: Well, one reason outside is the sewers highest because you're looking at.

767

01:40:09.120 --> 01:40:12.510

Village of Parish: Plant maintenance down there at \$3,000 on plant maintenance.

768

01:40:14.610 --> 01:40:18.300

Village of Parish: That was what the fees and flowers and whatnot says.

769

01:40:21.060 --> 01:40:29.490

Village of Parish: The work, I think that yeah go on there yeah and I see there's also something I saw on the next page under the.

770

01:40:30.930 --> 01:40:36.240

Village of Parish: My page to have expenditures sewage treatment is for anything that's at 130.

771

01:40:37.320 --> 01:40:50.220

Village of Parish: Major part part of that was contract operative some point we gave him cost of living increase of 7.5% because we figured this was gonna go hmm so that's his that's his new rate 55 or six eight.

772

01:40:51.480 --> 01:40:54.540

Village of Parish: In Kenya was sending us richly all these numbers per.

773

01:40:56.820 --> 01:40:58.920

Village of Parish: request that right.

774

01:40:59.970 --> 01:41:11.370

Village of Parish: No, no, we knew, because the previous year, though he was put in there question before yeah he didn't get the right number, and I said to him, because his lady sector, whatever call back.

775

01:41:12.390 --> 01:41:22.650

Village of Parish: Now this is what I, but she did she is all connected, it was like she was looking for four and a half percent in for it to be whatever so anyway he's over 55 or six eight.

776

01:41:23.820 --> 01:41:32.520

Village of Parish: going down electricity, and if you looked at the medical bills, this year the electricity line has been shocked.

777

01:41:34.740 --> 01:41:37.320

Village of Parish: yeah, as you can see we're so March.

778

01:41:39.270 --> 01:41:44.550

Village of Parish: we've already spent 24 seven we can stay on a new.

779

01:41:47.400 --> 01:41:49.530

Village of Parish: Order already, yes, we did.

780

01:41:51.270 --> 01:41:58.530

Village of Parish: yeah 3000 that should be our car went out yesterday morning at least yesterday's my own.

781

01:41:59.640 --> 01:42:09.330

Village of Parish: Oh say electricity were raised it to 28,000 i'm thinking that probably was not a bad idea, because 2014 we still got April and May, have to go through.

782

01:42:12.270 --> 01:42:17.370

Village of Parish: The other big one, there was 50,000 right below it for Thompson station maintenance.

783

01:42:18.480 --> 01:42:28.350

Village of Parish: or 50,000 so that so in case we keep having these national grid infrastructure malfunctions as timing goes power goes off camera and goog gets called out.

784

01:42:30.870 --> 01:42:43.680

Village of Parish: The there's nothing we can do to keep that from happening is I have other than yell at mega mama I mean I national not that i'm aware of, so I figured are gonna look around it's telling yeah yeah.

785

01:42:44.910 --> 01:42:47.160

Village of Parish: And if it's a line this way in the middle of.

786

01:42:48.540 --> 01:42:52.710

Village of Parish: All Marsfamous woods, or whatever, and it takes attract vehicle to get to it.

787

01:42:56.670 --> 01:42:57.270

Village of Parish: See okay.

788

01:42:58.380 --> 01:42:59.970

Village of Parish: Other than that.

789

01:43:01.770 --> 01:43:09.090

Village of Parish: We were still lobbying are still anticipating putting money into buying new new compton grinder pumps at 7000.

790

01:43:10.500 --> 01:43:14.130

Village of Parish: views are always fine, but there is made by new phones.

791

01:43:15.300 --> 01:43:27.990

Village of Parish: And also, there is money to pay off our debt, which is on page three now pay it off, but make our payments on it, the good news is that statutory installment monster from 2009.

792

01:43:30.180 --> 01:43:35.580

Village of Parish: Next year is 13,000 and we've got two years left on 14 and 14,000 each.

793

01:43:37.950 --> 01:43:38.400

Village of Parish: One we got.

794

01:43:39.600 --> 01:43:57.450

Village of Parish: To keep like we got our fingers because word mistake is done in 23 or 24 we just go you're 2324 23 or more payments of 14,000 each and every week done with that just in time for the new year that's great.

795

01:43:58.470 --> 01:44:07.230

Village of Parish: The next one, a UFC statutory from that's our 2217 that's all there until 2041 42 somewhere in our best interest group.

796

01:44:09.210 --> 01:44:25.170

Village of Parish: Zero interest with Mary Mary Chapel help us get that one yeah good interest obviously so next one is destroyed, some of our interest see we're making a bigger principal payments, the interest rates, a little bit less or that's right that's down 46% that call their estrogen.

797

01:44:29.820 --> 01:44:47.580

Village of Parish: course now tea maker send you this thinking statement on time, because when they don't send it on time and I have a little reminder notes from Mary chapels people that's what I used to make my payment, so a couple of times I overpaid on the on this year, so he makes product yet.

798

01:44:49.770 --> 01:44:59.430

Village of Parish: Okay, then, then we, we still have 2000 air for the EC consent order but that can always be shifted around somewhere else in the budget, should the necessity arise.

799

01:45:00.510 --> 01:45:19.800

Village of Parish: we're off and also we're still continuing to set money aside or wastewater treatment and system upgrades because we know, yes we're going to be paying 38 years worth of debt, but we probably still set set aside to something might go wrong on the field is it easy doesn't like the.

800

01:45:21.000 --> 01:45:25.410

Village of Parish: Greater pumps over pipelines or whatever so we're still continuing to set money aside.

801

01:45:27.420 --> 01:45:30.660

Village of Parish: So basically the only portion of that one is.

802

01:45:32.040 --> 01:45:33.900

Village of Parish: Anything that gets middle revenues.

803

01:45:35.730 --> 01:45:42.540

Village of Parish: In your balances that against each other you're looking to spend 320 \$3,475 this year, which is.

804

01:45:44.460 --> 01:46:02.250

Village of Parish: About a 65% increase over last year or the current fiscal year 196 or seven really ugly part is going to take 60 gets out of your appropriate in front balance so 136 939 down to 300 right and we're gonna need 100 and whatever that well you.

805

01:46:05.670 --> 01:46:05.850

Village of Parish: know.

806

01:46:07.890 --> 01:46:08.340

Village of Parish: We need.

807

01:46:10.740 --> 01:46:15.480

Village of Parish: All of this fair with what ian's been telling us now with our expenses.

808

01:46:17.100 --> 01:46:17.940

Village of Parish: Know sure.

809

01:46:19.680 --> 01:46:32.130

Village of Parish: we'll have to raise it again next year yeah like I said in retrospect, knowing what tonight huh what we do here at ian's numbers at budget earlier, it would have helped him yeah cuz turns out I wasn't that far off no.

810

01:46:32.850 --> 01:46:49.380

Village of Parish: Well that's based on you know, based on his numbers which are going to guarantee the envelope right half million dollars, if not more right oh yeah she gets her accent, for you know this link search open bids up on that job he doesn't like those numbers, I can tell you right now.

811

01:46:50.400 --> 01:47:03.270

Village of Parish: So, on my march i'm looking at my march monthly report here for the seward fun total liabilities and fund balances 911,003 70 and 98 so we take them on 36 nine out of it work.

812

01:47:04.680 --> 01:47:11.700

Village of Parish: Yes, a little bit bigger number than i'd like to have go out year, but I think we can still I can still think we.

813

01:47:12.900 --> 01:47:14.010

Village of Parish: need to get the paperwork and.

814

01:47:15.720 --> 01:47:18.300

Village of Parish: Still handle it okay well yeah.

815

01:47:19.950 --> 01:47:20.610

Village of Parish: Second, in.

816

01:47:22.230 --> 01:47:22.680

Village of Parish: The belt.

817

01:47:23.820 --> 01:47:24.990

Village of Parish: Hopefully, can be.

818

01:47:26.100 --> 01:47:27.840

Village of Parish: on guard as well, so.

819

01:47:29.310 --> 01:47:29.700

Village of Parish: I guess.

820

01:47:31.410 --> 01:47:36.420

Village of Parish: Everybody wants to hand in their pockets on their money packet mm hmm so.

821

01:47:38.100 --> 01:47:47.550

Village of Parish: But yeah we may have to look at what's this debt comes through we may have worked with raising the rates close to what he is protecting.

822

01:47:49.170 --> 01:47:57.330

Village of Parish: And then we've increased it this year and, like you said best at our last meeting we're going to have to increase a little bit each year, I think, to cover these costs.

823

01:47:59.370 --> 01:48:06.450

Village of Parish: And we've been pretty generous over the past few years i've been taking money out of the funds for last couple years and balances bill.

824

01:48:07.140 --> 01:48:19.830

Village of Parish: and realistically, we should raise it couple years ago a little bit just a little bit at a time and I don't feel the pinch has been I mean as much as it sucks to have traceability 20 bucks or even you know, whatever it is what it is.

825

01:48:21.750 --> 01:48:26.310

Village of Parish: We don't have the extra money to keep paying you know and then Scott, to be fixed it's got to be maintained.

826

01:48:27.810 --> 01:48:39.180

Village of Parish: Do you can only take out of your research for so long before you right right, I mean the Le X money never have to pay, you know, to get that even if we took the fun that he showed us tonight.

827

01:48:39.840 --> 01:48:50.460

Village of Parish: What do we need for that 100 and some thousand dollars parties are 15,000 so you take that out there, brings it down to culture 300 savings which isn't a lot of money when you're looking at the grand scheme of things yeah.

828

01:48:51.960 --> 01:49:03.960

Village of Parish: and actually that savings is going to get reduced tonight, because I have to transfer money to the checkbook to cover that \$93,000 right, so there there's two there's two quarters of bills just shot right there right there.

829

01:49:05.310 --> 01:49:13.830

Village of Parish: Normally we don't spend that much in a month, obviously, but only 1002 electricians another number is not we can do about that yeah but we.

830

01:49:15.210 --> 01:49:17.370

Village of Parish: will put that in insurance company.

831

01:49:19.080 --> 01:49:23.520

Village of Parish: or or or for the new wiring you had to put down.

832

01:49:25.170 --> 01:49:39.900

Village of Parish: It went into savings right what the money's, no, no, no he's asking if the claim insurance claim on the sewer Oh, and the sewer not on the bill we just had, for the sewer plant know that did the.

833

01:49:40.920 --> 01:49:41.520

Village of Parish: For the electric.

834

01:49:43.980 --> 01:49:49.950

Village of Parish: yeah mobile left Robert electric right no we haven't submitted yet we're waiting for bilson till they all come in and then i'll.

835

01:49:50.400 --> 01:50:00.810

Village of Parish: Can you show them to the church yeah or nivea well i'll send them the insurance and tell them to play okay well that's all I was yeah wish that that would that.

836

01:50:01.260 --> 01:50:09.990

Village of Parish: Hopefully yeah if that system works out that means whatever interests my would come back in, and I can, it would be inbound as revenue, but it would go against.

837

01:50:10.530 --> 01:50:22.500

Village of Parish: That particular account code right knock that name number down a little bit yeah yeah all right it's not totally destroying but yeah I get that sounds good to me.

838

01:50:23.670 --> 01:50:24.840

Village of Parish: As far as coming up with that.

839

01:50:26.610 --> 01:50:36.300

Village of Parish: Oh, I was, I was insane as far as Ian say we, you know right he was speaking on the super fun or the general fund, because remember when we were starting this yeah there's no word.

840

01:50:36.900 --> 01:50:49.440

Village of Parish: Count because we're dealing with the same pot of taxpayers, we can take from the general fund so that helps them as yeah yeah.

841

01:50:50.550 --> 01:50:52.860

Village of Parish: Just right now the superfund happens every interaction on.

842

01:50:55.980 --> 01:51:10.230

Village of Parish: The join rolling it would be with the new fiscal building in June going on June, where did you go down so yeah that would take back then Okay, I guess, thank you, is what I will make a motion.

843

01:51:11.490 --> 01:51:13.110

Village of Parish: To accept the sewer bill.

844

01:51:15.690 --> 01:51:35.850

Village of Parish: Both of them are individual however you guys are doing for the other ones that we've done a whole total budget I make a motion that we ship, the total is presented as a second all right Alan Taylor hi URL COM.

845

01:51:38.070 --> 01:51:40.080

Village of Parish: rusty chatterton yes.

846

01:51:41.580 --> 01:51:44.130

Village of Parish: Yes, Christie Murphy yes.

847

01:51:45.360 --> 01:51:46.590

Village of Parish: near perfect yes.

848

01:51:48.120 --> 01:51:55.350

Village of Parish: Would you like to just add a major motion just to include the wording both sewer and john are fun that way there's no makes up 10 minutes.

849

01:51:56.430 --> 01:52:05.760

Village of Parish: i'm good Thank you alright well, thank you Kevin for all those computations and numbers and sorting it through a really good news.

850

01:52:09.870 --> 01:52:10.830

Village of Parish: You know.

851

01:52:11.940 --> 01:52:12.990

Village of Parish: that's part of the budget.

852

01:52:16.170 --> 01:52:25.710

Village of Parish: email, which is about time for the email that came up in the comptroller's office on our show this fiscal stress report report so basically.

853

01:52:28.110 --> 01:52:36.390

Village of Parish: For fiscal year there's 350 years presented this is based on the review of the 2021 and report, which is already long since been filed.

854

01:52:37.980 --> 01:52:41.460

Village of Parish: And they completed they're reviewing as of February 28 so.

855

01:52:42.600 --> 01:53:03.210

Village of Parish: In fiscal year and then this this stress is broken down into two sections one section, we have direct control over outside the other section we don't have direct control because that's environmental so anyway here goes so for fiscal year ending our score on physical stress was 1.7.

856

01:53:06.630 --> 01:53:24.270

Village of Parish: If you want to leave you guys copies right only pretty one copy from tonight's but there's it tells how they score it out as an entire 20 page manual on how to read it, but basically a short time our fiscal your score for fiscal year 2019 was 1.7 which means there's either no designation.

857

01:53:25.380 --> 01:53:36.390

Village of Parish: Some just goes to us involved or like the town was at one time insignificant discuss dress significance of the top that's the worst case we're not there.

858

01:53:36.840 --> 01:53:46.140

Village of Parish: Word Madam, I like that word good at the bottom so and then our environmental side was 26.7 still indicates know designation Cisco stress.

859

01:53:47.160 --> 01:53:50.100

Village of Parish: fiscal year 2020 numbers held the same.

860

01:53:53.220 --> 01:54:09.660

Village of Parish: How I did it, but in this be your ending 2021 our score for physical stress was doubles equals 0.0 good as still no designation or environmental stress went down to 13.3 still in the know designation category.

861

01:54:11.100 --> 01:54:24.540

Village of Parish: Then the disco stuff is what we have direct control over and they take all their calculations in and then assign it basically basically looks at assigned and unassigned fund balances are total fund balances and they they do their stuff.

862

01:54:27.270 --> 01:54:32.190

Village of Parish: And then assigns a science and they take a look at your debt service also, which is part of the report.

863

01:54:32.910 --> 01:54:39.090

Village of Parish: And they do their calculations and we're working so basically on the physical stress side.

864

01:54:39.810 --> 01:54:50.700

Village of Parish: If your parents are anywhere from zero to 44 you're in those eight designation know designation so at the bottom of the file that's the big part if you're planning to 65 200 significant justice justice, we have a problem.

865

01:54:51.930 --> 01:54:52.860

Village of Parish: Probably on me.

866

01:54:54.480 --> 01:55:02.550

Village of Parish: But anyway, so that that's that's how we got to those numbers, the environmental part that's stuff that we really.

867

01:55:03.090 --> 01:55:18.900

Village of Parish: have no control over because it's part of it is changing your population or anybody moved out must be able to doubt so people must have gone away, either died or died we've got it we've got to the village whatever went away somehow they got there.

868

01:55:20.490 --> 01:55:23.760

Village of Parish: So I take that into account, they take into your household on public assistance.

869

01:55:24.900 --> 01:55:29.130

Village of Parish: I don't even know how many households, on her on public assistance, what do they consider public assistance.

870

01:55:30.270 --> 01:55:33.900

Village of Parish: or fair I don't know snap maybe I don't know I couldn't.

871

01:55:35.310 --> 01:55:37.200

Village of Parish: But there's a 20 page million on how they feel.

872

01:55:40.770 --> 01:55:46.260

Village of Parish: A part of that part of that comes into this, the tax base well that's kind of we don't have control over the tech space that's the assessment part.

873

01:55:47.400 --> 01:55:54.960

Village of Parish: That kind of comes from Albany to also again that's further we have no control over median household income, we definitely have no control on that.

874

01:55:56.910 --> 01:56:10.260

Village of Parish: The unemployment rate mean yeah there's people out there, joining an employment because jobs are crappy in this area, again, that the environmental part, we have no control with anyway they're they're pretty point system on, that is, by the time they're all done.

875

01:56:12.480 --> 01:56:21.690

Village of Parish: If you're anywhere from zero to 29 you're in know designation that's where 13.3 that the middle of that target range, which is still good know designation.

876

01:56:22.560 --> 01:56:29.490

Village of Parish: If you're anywhere from 50 to 100 here at the top here in significant physical stress so we're still at the bottom on both counts i'm happy.

877

01:56:31.620 --> 01:56:31.950

Village of Parish: it's good.

878

01:56:33.720 --> 01:56:34.170

Village of Parish: Thank you.

879

01:56:38.370 --> 01:56:42.960

Village of Parish: Okay Community cleanup scheduled for.

880

01:56:43.980 --> 01:56:54.300

Village of Parish: Point four and the town board is organizing that, with the assistance of Neil, and I will end up sending the county letter the letter.

881

01:56:55.860 --> 01:57:00.990

Village of Parish: And I don't know what the town's going to be doing if you're doing the work and well no God got an organized.

882

01:57:02.250 --> 01:57:06.120

Village of Parish: My partner is josh i'm done he volunteered.

883

01:57:08.280 --> 01:57:19.470

Village of Parish: And he says we're going to the only thing that we're going to ask the county or somebody is where we're going to take all this electronic crap.

884

01:57:20.520 --> 01:57:26.580

Village of Parish: Because they know the dump they're taking it all in I think we'll transition at all, or just.

885

01:57:28.050 --> 01:57:37.770

Village of Parish: How are you won't be able to take it to that, but but we're going to go and talk to them and see see what situation you're going to be collecting it or not yet.

886

01:57:39.570 --> 01:57:43.140

Village of Parish: we're not sure, but we will, by the time will know by then yeah.

887

01:57:44.160 --> 01:57:44.580

Village of Parish: All right.

888

01:57:46.260 --> 01:57:47.130

Village of Parish: Well, to this stuff.

889

01:57:51.120 --> 01:57:52.470

Village of Parish: first year we had nine.

890

01:57:55.080 --> 01:57:55.830

Village of Parish: All right.

891

01:57:57.060 --> 01:58:18.000

Village of Parish: So let's see john Neil, and then the town who's on the town board and usually it's a very effective clean up session now gets a lot of a lot of dumpsters yeah we usually end up, we end up using five and you're going to be for forums are.

892

01:58:19.590 --> 01:58:23.130

Village of Parish: Through three to four will be already down there okay.

893

01:58:24.810 --> 01:58:25.590

Village of Parish: All right, very good.

894

01:58:26.790 --> 01:58:29.580

Village of Parish: damn access some I had a note from.

895

01:58:30.840 --> 01:58:45.900

Village of Parish: From time Tom send the shoulder mill street was washed away no danger to traffic but it's basically the walkway to the dam and cold, I mean that that time yeah i'm Tom tell what it was, it was the old.

896

01:58:46.950 --> 01:58:55.650

Village of Parish: bridge and they had to go from bill Sri to the island okay there used to be a house on a years ago.

897

01:58:57.510 --> 01:59:01.890

Village of Parish: No House there anywhere and, yes, that collapsed.

898

01:59:03.120 --> 01:59:04.110

Village of Parish: Somebody put a.

899

01:59:05.190 --> 01:59:08.010

Village of Parish: Four by 444 hundred blocks law.

900

01:59:09.090 --> 01:59:10.110

Village of Parish: department did.

901

01:59:11.280 --> 01:59:21.150

Village of Parish: That there's one, there is one there, but the part that collapse, I was the blacktop section yeah the blackout yeah but we covered by someone with a yellow color is still working.

902

01:59:22.290 --> 01:59:26.400

Village of Parish: yeah cuz I checked with blinders come out of course water is coming out in the middle.

903

01:59:29.160 --> 01:59:31.650

Village of Parish: yeah my screen so.

904

01:59:32.880 --> 01:59:36.900

Village of Parish: far as i'm concerned that's all for that post property.

905

01:59:38.400 --> 01:59:45.690

Village of Parish: holidays yeah I believe he called and talk to the town supervisor right and tasks were at home, setting is private property.

906

01:59:46.560 --> 02:00:02.370

Village of Parish: there's nothing they can do it, no, no, so any color and touring them don't do nothing right he already said he doing yeah from the fire protection by the cheapest almost every company that sells it is still usable so we still have it yeah.

907

02:00:04.590 --> 02:00:07.230

Village of Parish: Okay, you don't have a pumpkin for your trucks.

908

02:00:10.410 --> 02:00:20.220

Village of Parish: We have trashed line on the engine crash land on a ladder truck oh so you can actually we have a portable on the tanker Okay, we can go thank or by portable pump.

909

02:00:20.700 --> 02:00:35.790

Village of Parish: Well, because i'm this each of the engine the engine does have heart started, so we can really cause a heart surgeon to length of it okay clearly broken off to somewhere, so they don't think so that's how we could put the engine well that's the ladder truck yeah.

910

02:00:36.990 --> 02:00:42.180

Village of Parish: I miss I did the bridge and it used to be a place that you drive right up to yeah and yeah.

911
02:00:44.040 --> 02:00:44.880
Village of Parish: I still there, that.

912
02:00:45.960 --> 02:00:52.860
Village of Parish: that's perfect that worked out, no, no right next door, so in this it breaks down on the ocean rich okay.

913
02:00:53.880 --> 02:00:59.970
Village of Parish: So this is not decided by when we use we were worried with back, like the engine in yeah tanker.

914
02:01:01.140 --> 02:01:11.220
Village of Parish: truck side right, we might just change our backup pattern a little bit, if necessary, you should go next to the wall there and it was is still the heart section oh yeah.

915
02:01:13.200 --> 02:01:13.500
Okay.

916
02:01:14.670 --> 02:01:15.210
Village of Parish: Okay.

917
02:01:16.470 --> 02:01:18.780
Village of Parish: All right, anything else for all business.

918
02:01:21.180 --> 02:01:31.110
Village of Parish: New business right, if not, then we move on to the date Sir may 18 monthly board meeting at seven May 28 yard sale.

919
02:01:32.880 --> 02:01:39.420
Village of Parish: Memorial Day weekend June for cleanup and Saturday June joint board meeting.

920
02:01:40.800 --> 02:01:42.990
Village of Parish: and payment of bills.

921
02:01:45.180 --> 02:01:48.270
Village of Parish: General general fund Boucher.

922
02:01:49.470 --> 02:02:03.270

Village of Parish: win at 86 to two or 130 thousand \$618 and 83 cents emotional.

923

02:02:07.260 --> 02:02:08.070

Village of Parish: surefire refined.

924

02:02:14.520 --> 02:02:15.150

Village of Parish: culture.

925

02:02:16.770 --> 02:02:19.080

Village of Parish: 130 to 130.

926

02:02:20.820 --> 02:02:30.750

Village of Parish: ml \$93,480 and 72 cents oh my gosh my.

927

02:02:32.280 --> 02:02:33.240

Village of Parish: Second okay.

928

02:02:34.380 --> 02:02:36.330

Village of Parish: Okay, p amp a.

929

02:02:41.040 --> 02:02:54.660

Village of Parish: 1729 7892 \$3,684 and 44 cents oh my gosh.

930

02:02:56.280 --> 02:02:56.580

Village of Parish: yeah.

931

02:03:01.350 --> 02:03:09.030

Village of Parish: yeah I said i'm making motion we join know any anything else, where to go who oh.

932

02:03:11.670 --> 02:03:20.730

Village of Parish: Very cool all right emotions and nothing else for the agenda their motion to adjourn from Neil second second it.

933

02:03:25.470 --> 02:03:27.420

Village of Parish: was an advertisement do you want me to show yeah.

934

02:03:29.640 --> 02:03:31.560

Village of Parish: yeah go wrong turn away.
