

WEBVTT

1

00:00:12.010 --> 00:00:16.570  
The Village of Parish: Alright.

2

00:00:20.080 --> 00:00:22.750  
The Village of Parish: I don't know.

3

00:01:04.069 --> 00:01:06.860  
The Village of Parish: We can have it. Come down and take a look for conditions

4

00:01:07.020 --> 00:01:08.450  
The Village of Parish: to explore.

5

00:01:08.560 --> 00:01:14.980  
The Village of Parish: Hello! There!

6

00:01:25.230 --> 00:01:32.339  
The Village of Parish: Yes, because there's a drop

7

00:03:36.660 --> 00:03:40.260  
Village of Parish: alright. So

8

00:03:40.500 --> 00:03:42.060  
it is local.

9

00:04:03.560 --> 00:04:07.099  
Village of Parish: Are you here?

10

00:04:07.340 --> 00:04:27.349  
Village of Parish: I'm Jennifer Harle with the type of information

11

00:05:01.330 --> 00:05:02.030  
Village of Parish: of

12

00:05:02.720 --> 00:05:10.559  
Village of Parish: you want to leave an email. That's great, too. I have email from everybody also

13

00:05:10.810 --> 00:05:11.590

system.

14

00:05:27.010 --> 00:05:29.280

Village of Parish: Okay.

15

00:06:02.140 --> 00:06:04.340

thank you.

16

00:07:06.300 --> 00:07:07.250

Village of Parish: Morning.

17

00:09:07.330 --> 00:09:08.090

Village of Parish: No.

18

00:09:08.690 --> 00:09:17.330

Village of Parish: Was there somebody else on the front that I didn't.

19

00:09:19.250 --> 00:09:30.729

Village of Parish: I have a sign in sheets from hand up. I already signed it. Oh, okay, good.

20

00:09:31.400 --> 00:09:32.070

Okay.

21

00:09:37.670 --> 00:09:38.350

yes.

22

00:09:45.110 --> 00:10:09.010

Village of Parish: he's home.

23

00:10:09.780 --> 00:10:10.830

Village of Parish: Great beef!

24

00:10:10.910 --> 00:10:23.759

Village of Parish: For those of you that don't know Jennifer Harwell. I'm the project director at the top of Michigan. So nice to see you again. It's been about 2 months. Technically, it's been 2 months since we met the end of July.

25

00:10:23.940 --> 00:10:40.339

Village of Parish: The first thing I'd like to do is introductions again. So we can just go around the room. So I'll start. I'm Jim Bernas, the town supervisor. Okay, Jeanette.

26

00:10:41.380 --> 00:10:44.509

Village of Parish: Morning service. So I didn't know

27

00:10:45.080 --> 00:10:48.479

Village of Parish: this first Member society.

28

00:10:52.420 --> 00:10:54.579

Village of Parish: Here's some historical question.

29

00:10:55.050 --> 00:10:59.550

Village of Parish: Sandy Bench treasure and the Parish Town Historical Society.

30

00:10:59.990 --> 00:11:03.399

Village of Parish: Nancy Morgan from.

31

00:11:03.500 --> 00:11:04.540

Village of Parish: So it's okay.

32

00:11:08.770 --> 00:11:09.910

Village of Parish: Jennifer.

33

00:11:10.170 --> 00:11:11.440

the second.

34

00:11:11.560 --> 00:11:15.839

Village of Parish: Tesla. B. Thank you. Murphy Mayor removed parish

35

00:11:26.050 --> 00:11:30.050

Village of Parish: and Katie Melanes. She's on zoom. So

36

00:11:30.370 --> 00:11:31.750

Village of Parish: Hi everyone

37

00:11:31.840 --> 00:11:43.110

Village of Parish: aye. Okay. so the first item on the agenda that I have introductions and then notes from our meeting on July 20, fourth.

38

00:11:43.180 --> 00:12:00.050

Village of Parish: 2 pages basically is what we discussed at that first meeting, and on the very back page. There was the 2 to the to do list. So that was the how we made the agenda today was to follow up on all this to do

39

00:12:00.280 --> 00:12:10.159

Village of Parish: so we have a minute. I'll give you a minute to look these over. If there's any inactive receives or things that should be added, please, I missed. Please let me know. I'll get that corrected.

40

00:12:36.370 --> 00:12:46.170

Village of Parish: There's nothing other notes or things that we talked about. You can always email me, or probably to make any corrections on our notes from July.

41

00:12:46.500 --> 00:13:04.859

Village of Parish: So moving on our agenda, so one of the things we had to do. Jacky was. Talk about this. Can you talk a little bit about the the National Grid Office?

42

00:13:15.490 --> 00:13:16.930

Village of Parish: My feather?

43

00:13:18.070 --> 00:13:25.870

Village of Parish: I would. I don't have one. Anyone from the North, one confirm this.

44

00:13:33.840 --> 00:13:43.059

Village of Parish: 20,000 of it.

45

00:13:44.070 --> 00:13:51.239

Village of Parish: 28, 2,800, sorry, 2,800,

46

00:13:52.360 --> 00:13:56.429

Village of Parish: and then that will come out of a national grid bill or second one a month from now.

47

00:13:57.470 --> 00:14:00.250

Village of Parish: So the cost of the audit itself was 4,000.

48

00:14:00.670 --> 00:14:18.709

Village of Parish: Yeah.

49

00:14:28.670 --> 00:14:33.300

Village of Parish: I know how bright it is!

50

00:14:33.760 --> 00:14:39.390

Village of Parish: They said. It came on Thursday and started, and they finished up yesterday would be all cyclists.

51

00:14:46.230 --> 00:14:48.230

Village of Parish: It's not one. It's not a wonderful thing.

52

00:14:51.080 --> 00:14:53.849

Katie Malinowski: So, Jackie, did you just say that they've already done the work?

53

00:14:53.930 --> 00:15:09.869

Village of Parish: Wow! That was fast.

54

00:15:17.690 --> 00:15:19.349

Village of Parish: So that's that's

55

00:15:34.840 --> 00:15:38.890

Village of Parish: that's good. Thank you for that.

56

00:15:40.280 --> 00:15:43.529

Village of Parish: And then most of our discussion would be around.

57

00:15:44.390 --> 00:16:08.800

Village of Parish: Well, first, I'm gonna I'm gonna jump around on my agenda here. The one of the questions that we had leaving the last meeting was whether or not the town could contribute to the cost of the historic side being here, and I know you talk to Weird. So if you if you wanna go ahead and talk to the group about that, wondering how I can place this into my budget.

58

00:16:08.830 --> 00:16:21.199

Village of Parish: As we currently have nothing other than the historian. You know her personal services. For salary and her clerk salary as well as very small amounts for contractual items.

59

00:16:21.290 --> 00:16:26.880

Village of Parish: So I spoke with Laird and Laird basically told me that we could do it.

60

00:16:27.720 --> 00:16:34.249

Village of Parish: I would just have to put it in kinda as rent, and I would put that in my contractual line.

61

00:16:34.380 --> 00:16:40.360

Village of Parish: So if the historian had an office here, we could pay rent to the village.

62

00:16:41.290 --> 00:16:58.859

Village of Parish: So that is how we would contribute, we would still office. You know, we have the historian here, and we could move forward that way. And we can book direct taxpayers that this is what we're doing with their money, and we're putting some this way. So

63

00:16:59.070 --> 00:17:01.079

Village of Parish: it's just a matter of how much.

64

00:17:01.310 --> 00:17:18.980

Village of Parish: and if my board will go, I don't know. My stance is with the board. We haven't had any budget discussions, and I'm working on my tentative budget. I've included it in my budget.

65

00:17:19.630 --> 00:17:21.419

Village of Parish: What as to how much.

66

00:17:21.579 --> 00:17:26.650

Village of Parish: according to what I saw. One thing set a thousand dollars.

67

00:17:27.050 --> 00:17:28.920

Village of Parish: and in the

68

00:17:29.250 --> 00:17:33.650

Village of Parish: the other page is at 1,500,

69

00:17:33.960 --> 00:17:41.980

Village of Parish: so I don't know which one that what we're looking for, but also just so you understand where we are

70

00:17:43.300 --> 00:17:45.469

Village of Parish: have to now buy furniture

71

00:17:45.690 --> 00:17:55.679

Village of Parish: alright. Well, according to this. It says that you know it says that. Agreed that we would, you know.

72

00:17:55.930 --> 00:18:22.850

Village of Parish: do what is necessary as far as furniture shelves looking into it. But I can't go back, you know, and all this is happening this week. My budget is due at the end of the week.

73

00:18:23.170 --> 00:18:29.220

Village of Parish: I have a question. What I've included is the 1,000 or 1,500

74

00:18:29.420 --> 00:18:31.130

Village of Parish: that was my assumption

75

00:18:32.180 --> 00:18:34.140

Village of Parish: according to

76

00:18:35.740 --> 00:18:45.229

Village of Parish: the annual expenses, and according to revenues, I mean, most revenues are based on per year. and it says, town of parish annual expenses.

77

00:18:45.750 --> 00:18:50.900

Village of Parish: so \$1,500 on this one page and 1,000 on the other line.

78

00:18:51.580 --> 00:19:08.339

Village of Parish: I have a question before we get too far. Furniture taking care of meaning furniture for the Historical Society, like desk and table, and all that taken care of by the village. Okay, like a donation. Yes.

79

00:19:10.520 --> 00:19:12.490

Village of Parish: And another question

80

00:19:12.580 --> 00:19:15.460

Village of Parish: I know, like, around 10 years ago.

81

00:19:15.710 --> 00:19:16.440

of

82

00:19:16.920 --> 00:19:18.270

Village of Parish: libraries

83

00:19:18.340 --> 00:19:30.980

Village of Parish: included over the town budget, the idea there was a certain. But the idea was it was libraries important to the town.

84

00:19:35.580 --> 00:19:37.580

Village of Parish: So it was put in

85

00:19:37.750 --> 00:19:41.460

Village of Parish: the library

86

00:19:41.850 --> 00:19:42.790

Village of Parish: because of

87

00:19:49.530 --> 00:19:56.019

Village of Parish: service of the community to anybody if it it couldn't work like this. But anybody that wants to

88

00:19:56.180 --> 00:20:01.669

Village of Parish: find out more about the history of town with the genealogy or something. If you come here

89

00:20:01.920 --> 00:20:06.450

Village of Parish: and so I don't know. Something could be looked into this year, so

90

00:20:06.550 --> 00:20:08.150

Village of Parish: could be done with.

91

00:20:08.540 --> 00:20:11.049

Village of Parish: And there's a budget having

92

00:20:12.110 --> 00:20:13.320

Village of Parish: to help

93

00:20:13.970 --> 00:20:39.800

Village of Parish: it. It absolutely can be done, and what we learned and what we have in our have a gift out there. The town ability can contribute as long as it's not as long as there's a contract in an

agreement in place it doesn't have to be just for a cash exchange. It can be like you're saying for services. So it's absolutely doable.

94

00:20:40.090 --> 00:20:42.900

Village of Parish: So absolutely. Yeah.

95

00:20:43.370 --> 00:20:51.140

Village of Parish: Question. Maybe I misunderstood you said that if indeed this is accepted it would be

96

00:20:51.250 --> 00:20:56.049

Village of Parish: It would be used as rent to the village.

97

00:20:56.180 --> 00:21:03.539

Village of Parish: but if the village but it we are going to be.

98

00:21:04.870 --> 00:21:11.620

Village of Parish: or or maybe I just misunderstood right, and maybe I was wrong, and save that as well.

99

00:21:11.860 --> 00:21:19.870

Village of Parish: I just have to have somebody to send a chat to and the village owns the building, so I assume that the village

100

00:21:21.820 --> 00:21:24.020

Village of Parish: would receive that money cause. They own the bill would

101

00:21:24.430 --> 00:21:37.380

Village of Parish: cause, and they're leasing it to you, or whatever whatever agreement the Historical Society has for the village. I just have to give the check to to somebody, and I like, I said. I assume there's a village cause they open.

102

00:21:37.890 --> 00:21:46.260

Village of Parish: I don't think they're transferring over ownership. So

103

00:21:46.680 --> 00:21:48.060

Village of Parish: okay.

104

00:21:48.100 --> 00:21:51.589

Village of Parish: okay, I didn't read that experience like that.

105

00:21:56.740 --> 00:22:08.160

Village of Parish: So let's let's follow up on that. How that would look right, either you in the village or

106

00:22:09.250 --> 00:22:11.860

Village of Parish: so I think we can go ahead.

107

00:22:13.470 --> 00:22:15.470

Village of Parish: So thank you of you.

108

00:22:16.110 --> 00:22:32.449

Village of Parish: One of the things. Let's let's look at the draft budget, because I think that will help us inform if we get some of these details, maybe then go into the the number.

109

00:22:33.080 --> 00:22:34.110

Village of Parish: So

110

00:22:34.980 --> 00:22:46.849

Village of Parish: I just wanna go through this and see I. Some of these numbers are provided through Sandy right from her for her expenses. Did these look accurate? These look

111

00:22:47.500 --> 00:22:52.859

Village of Parish: like what we would be looking for for annual expenses for the Historical Society.

112

00:22:54.510 --> 00:22:59.619

Village of Parish: A \$1,000 in electricity, a thousand dollars for heating oil.

113

00:23:00.180 --> 00:23:04.680

Village of Parish: 800 pursuers. How do these numbers look next?

114

00:23:04.840 --> 00:23:16.059

Village of Parish: Could be 2,200 a year.

115

00:23:19.370 --> 00:23:20.240

Village of Parish: Bye.

116

00:23:20.590 --> 00:23:38.409

Village of Parish: we don't know that that's probably a high company propane here, and that's not occupied. Right? So that's probably in

117

00:23:38.420 --> 00:23:43.979

Village of Parish: high fifties or sixties. And then and then the other question is,

118

00:23:44.400 --> 00:24:07.229

Village of Parish: I don't know what type of a furnace is here, but if we had, maybe a thermostat that was more economically friendly, I don't know how much that would cost to install, and in the long line might make more sense

119

00:24:07.370 --> 00:24:11.680

Village of Parish: new one, or actually in the past 5 years.

120

00:24:12.060 --> 00:24:14.889

Village of Parish: Oh, you don't remember when they put this down there

121

00:24:14.940 --> 00:24:34.490

Village of Parish: remotely

122

00:24:34.640 --> 00:24:45.319

Village of Parish: every year. Seems like upgraded to say, become more efficient. That's where I was looking for is a more efficient.

123

00:24:45.880 --> 00:24:50.549

Village of Parish: I don't know. It's that's probably connected to your condition as well.

124

00:24:51.170 --> 00:24:54.020

Village of Parish: anybody? Oh, no.

125

00:24:55.430 --> 00:25:02.910

Village of Parish: So maybe that would be something that we could look into in the future to save one month.

126

00:25:07.300 --> 00:25:08.480

So it's

127

00:25:10.180 --> 00:25:20.939

Village of Parish: okay. So up to 200. I'm sorry. Up to \$2,200 a year could be the Protein Bill, and that's it is. Maybe that's assuming that the Historical Society is here.

128

00:25:22.100 --> 00:25:25.250

Village of Parish: That's why I'm here. Yeah, well.

129

00:25:25.350 --> 00:25:42.750

Village of Parish: right thing, because, you know, like my son has that in his house, and he can control that. You know, we have an unusual. So somebody forgets to turn it down.

130

00:25:42.760 --> 00:25:45.729

Village of Parish: That's what I'm saying. That's what this does for.

131

00:25:50.120 --> 00:25:57.260

Village of Parish: Yeah, the programmable one automatically. I don't know what this is

132

00:25:59.230 --> 00:26:08.070

Village of Parish: so we're ahead of 800. Okay, I don't know. If the Historical Society was planning on Internet

133

00:26:11.040 --> 00:26:15.910

Village of Parish: providers and

134

00:26:16.110 --> 00:26:18.900

Village of Parish: it may not be.

135

00:26:19.890 --> 00:26:26.379

Village of Parish: That's probably in the could be higher.

136

00:26:26.560 --> 00:26:29.380

Village of Parish: So we should say,

137

00:26:29.520 --> 00:26:35.559

Village of Parish: 1,500 instead of 7 50, you take 9, 30.

138

00:26:39.310 --> 00:26:42.409

Village of Parish: We pay 900 a year just for

139

00:26:43.050 --> 00:26:44.410

Village of Parish: recognition.

140

00:26:49.770 --> 00:26:51.559

Village of Parish: Not at least

141

00:26:54.930 --> 00:27:18.420

Village of Parish: you mentioned content insurance, too, at 1 point. Sorry content insurance. That would be something you'd have to protect your collection and and Nancy, tenant policy is one thing. Okay.

142

00:27:18.590 --> 00:27:21.519

Village of Parish: a full owner chip is another. I

143

00:27:22.000 --> 00:27:29.740

Village of Parish: I don't know, Jackie. Are you just covered right now, just for the building and that

144

00:27:31.130 --> 00:27:34.290

Village of Parish: 1440,

145

00:27:34.350 --> 00:27:40.450

Village of Parish: Cynthia, does she ever get back to you about

146

00:27:40.530 --> 00:27:48.889

Village of Parish: the price occupancy? It's just.

147

00:27:49.190 --> 00:27:59.540

Village of Parish: It's just right. It's it's just for 1440

148

00:27:59.740 --> 00:28:11.860

Village of Parish: they would. They would develop a different type of occupancy. Empty buildings carry different implications for liability. Everything so.

149

00:28:12.320 --> 00:28:18.579

Village of Parish: and everyone has been in touch with Cynthia, brother, she got back to the price.

150

00:28:23.180 --> 00:28:24.020

Village of Parish: Second.

151

00:28:25.400 --> 00:28:41.090

Village of Parish: liability.

152

00:28:46.750 --> 00:28:53.960

Village of Parish: So 1,800 to 2,000 cover content and the occupants right? Okay.

153

00:28:54.470 --> 00:28:55.340

Village of Parish: thank you.

154

00:28:56.160 --> 00:28:59.670

Village of Parish: The Charter. Renewal.

155

00:28:59.740 --> 00:29:12.100

Village of Parish: I think, was with 60 or 75. Evelyn, I know you said you've been in contact with them, and they're not getting back to you. So let's come back to that. We can talk about that in a second

156

00:29:13.660 --> 00:29:20.070

Village of Parish: kill box. Reynolds, is that 75?

157

00:29:21.650 --> 00:29:23.639

Village of Parish: So we have 75,

158

00:29:23.790 --> 00:29:29.809

Village of Parish: probably not to make a landline I'm assuming. Or do we need a landline

159

00:29:30.370 --> 00:29:31.270

Village of Parish: article?

160

00:29:33.180 --> 00:29:45.159

Village of Parish: Oh, and then supplies, you know I didn't. These were just things we we talked about with sandy things to think about, cleaning supplies, office supplies. I don't know if those are fair numbers. If you want to leave them or take them up for. Now I don't.

161

00:29:45.490 --> 00:29:53.490

Village of Parish: I think we're gonna see more than that, cause we're starting from scratch. So when the Max buckets

162

00:29:54.220 --> 00:30:03.009

Village of Parish: sanitizing stuff cleansing stuff office supplies all kinds. So I I'd say, we do

163

00:30:03.220 --> 00:30:08.010

Village of Parish: higher than that. You wanna make the beach 2 50.

164

00:30:08.890 --> 00:30:12.850

Village of Parish: yeah, I think that's so, okay.

165

00:30:14.880 --> 00:30:15.710

Village of Parish: yeah.

166

00:30:16.960 --> 00:30:19.900

Village of Parish: And then again, on the equipment side. I didn't know

167

00:30:20.580 --> 00:30:25.329

Village of Parish: Historical Society already. Have like a laptop, you know.

168

00:30:29.320 --> 00:30:32.780

Village of Parish: and I wondered about who said the furniture was taken care of

169

00:30:33.380 --> 00:30:47.339

Village of Parish: that include the fax machine. Would you want a fax machine?

170

00:30:47.780 --> 00:30:50.330

Village of Parish: I think we should

171

00:30:54.870 --> 00:30:56.770

Village of Parish: everything so.

172

00:31:38.470 --> 00:31:51.389

Village of Parish: And then somebody mentioned the ring camera. I don't know how much they are.

173

00:31:51.650 --> 00:31:55.019

Village of Parish: But does it come with a subscription? That's the next question

174

00:31:55.350 --> 00:31:57.530

Village of Parish: I can't.

175  
00:32:04.100 --> 00:32:06.200  
Village of Parish: or that consideration.

176  
00:32:06.860 --> 00:32:07.560  
Village of Parish: So

177  
00:32:15.240 --> 00:32:17.660  
Village of Parish: I'm gonna do some quick math here.

178  
00:32:23.600 --> 00:32:26.059  
Village of Parish: but 1,000 for electricity. Okay.

179  
00:32:27.180 --> 00:32:30.430  
Village of Parish: up to 2,200 for

180  
00:32:31.110 --> 00:32:34.280  
Village of Parish: about 2,000 for insurance.

181  
00:32:35.220 --> 00:32:36.919  
Village of Parish: 800%

182  
00:32:39.430 --> 00:32:41.780  
Village of Parish: \$1,000 for.

183  
00:32:42.970 --> 00:32:43.990  
Village of Parish: and then

184  
00:32:47.080 --> 00:32:49.549  
Village of Parish: 75 for the church.

185  
00:32:50.870 --> 00:32:54.460  
Village of Parish: 500 group supplies.

186  
00:32:55.790 --> 00:32:59.380  
Village of Parish: or left home 300

187  
00:32:59.860 --> 00:33:00.920  
Village of Parish: happier

188  
00:33:02.760 --> 00:33:04.840

Village of Parish: \$100 in security.

189

00:33:04.910 --> 00:33:20.700

Village of Parish: That gives us just over 9,000 \$9,045 if there's do you wanna just round that to \$10,000? First, okay. Educated. \$10,000 for the first year?

190

00:33:20.750 --> 00:33:27.759

Village of Parish: Oh, that's just the cost for the Historical Society to operate from there license.

191

00:33:28.170 --> 00:33:31.160

Village of Parish: Whatever else so unaccompanied.

192

00:33:35.270 --> 00:33:42.680

Village of Parish: I and I apologize. I have the numbers track, you know, 2 different numbers so either one could work.

193

00:33:47.350 --> 00:33:53.620

Village of Parish: I'm looking at the village expenses. So we we built sort of the the draft.

194

00:33:54.000 --> 00:34:07.090

Village of Parish: starting off my discussion. Period of a year. And II heard you say, 6 months. Okay, well, II think so too.

195

00:34:07.820 --> 00:34:13.699

Village of Parish: I think it's the I think there's pros and cons to both. I think they need a better sense of what?

196

00:34:33.889 --> 00:34:57.990

Village of Parish: So giving it a year from the time to sign, okay, and obviously no one signing anything so you can. I'm I've put the insurance back

197

00:34:57.990 --> 00:35:04.519

like that. 0 snow removal is there cost there? I figured about us

198

00:35:04.520 --> 00:35:06.829

Village of Parish: \$300, because

199

00:35:07.240 --> 00:35:09.260

Village of Parish: if it's like

200

00:35:09.460 --> 00:35:11.010

Village of Parish: 5 months.

201

00:35:11.050 --> 00:35:23.379

Village of Parish: if they have to plow. I think the general charge for power is between 20 and \$30 a time. That's something we have to put out to bid.

202

00:35:23.740 --> 00:35:27.169

Village of Parish: because we're cold in the winter. We need them to.

203

00:35:39.660 --> 00:36:04.030

Village of Parish: That isn't.

204

00:36:19.160 --> 00:36:32.570

Village of Parish: and often they do not but the last few winters haven't done that. They have.

205

00:36:39.070 --> 00:36:46.390

Village of Parish: no. So if we, if we should happen to decide that we are going to do

206

00:36:47.030 --> 00:36:56.640

Village of Parish: a few days during the winter, we're saying we don't have to shovel, and we don't have to

207

00:36:56.680 --> 00:36:59.069

with the insurance

208

00:36:59.600 --> 00:37:07.679

Village of Parish: heard me, either. We're either gonna so have to say, Hey, absolutely. Nobody can come in this building from then till then

209

00:37:08.620 --> 00:37:09.740

I don't know.

210

00:37:10.760 --> 00:37:24.969

Village of Parish: Viability. I don't know. I know today's world everything.

211

00:37:25.050 --> 00:37:27.759

Village of Parish: So 300,

212

00:37:28.980 --> 00:37:33.789

Village of Parish: yes, and that would fall on the Historical Society.

213

00:37:35.960 --> 00:37:39.369

Village of Parish: Sorry, Historical Society. Oh, yeah.

214

00:37:56.770 --> 00:38:07.580

Village of Parish: you talked about the A/C. A/C. And it needs somebody, said the A/C. Unit. I don't know didn't work, I don't know.

215

00:38:08.170 --> 00:38:12.320

Village of Parish: and I actually call

216

00:38:12.950 --> 00:38:34.900

Village of Parish: after our last meeting, and I still

217

00:38:34.900 --> 00:38:45.630

Village of Parish: I don't. I don't know. I guess my concern is after a year is quite work out, does it? Then is it weird, individual historical society?

218

00:38:46.100 --> 00:38:52.649

Village of Parish: I don't know

219

00:39:11.950 --> 00:39:13.790

Village of Parish: our

220

00:39:14.950 --> 00:39:21.610

Village of Parish: okay.

221

00:39:22.260 --> 00:39:38.360

Village of Parish: We're gonna have the same questions then about the building and the maintenance approved. Something happens to the furnace, you know. Does that? Is that? How? How does that get covered here? You're saying no more expense to the village. But then I also know that the village

222

00:39:38.800 --> 00:39:45.420

Village of Parish: for a period of time to launch the building. So some questions there, that's what we need to be talking to other people and find out

223

00:39:45.550 --> 00:39:46.640

one of

224

00:39:47.150 --> 00:39:48.919

Village of Parish: I really do not want

225

00:39:51.530 --> 00:39:53.559

Village of Parish: 40,000 annuals already

226

00:40:00.790 --> 00:40:02.410

Village of Parish: that would have been more effective.

227

00:40:10.390 --> 00:40:17.699

Village of Parish: There's no charge.

228

00:40:18.550 --> 00:40:23.750

Village of Parish: We're gonna get a quote on the the A/C unit and cleaning the furnace.

229

00:40:24.970 --> 00:40:30.689

Village of Parish: You talked about a gate that gate. I see what you're saying. Okay.

230

00:40:31.510 --> 00:40:34.259

Village of Parish: so it could very well be that this 10,000 is only

231

00:40:34.700 --> 00:40:43.589

Village of Parish: a bit more. Yeah, 300 yeah

232

00:40:50.890 --> 00:41:07.519

Village of Parish: and the propane tank is all covered over with weeds and stuff that's all got to be clean, but also have to be maintained. Air conditioners out there, you know, we can't have leads hanging around that works, and you know

233

00:41:08.120 --> 00:41:27.849

Village of Parish: that would not be an efficient way to run 75%. And if they came and took it out they would reimburse the village. Whatever is left in there.

234

00:41:29.930 --> 00:41:36.370

Village of Parish: I have another question. Currently the village owns this property. So we're not being taxed

235

00:41:36.440 --> 00:41:38.140  
taxes on.

236

00:42:04.210 --> 00:42:18.639  
Village of Parish: That's why I wasn't sure how it would work some of those items right now, Jones, that you're not paying those.

237

00:42:24.090 --> 00:42:30.350  
Village of Parish: maybe something for thought. And you guys continue to try to run this building

238

00:42:30.370 --> 00:42:37.349  
Village of Parish: on your own after that, what does the 501

239

00:42:38.670 --> 00:42:42.910  
Village of Parish: same with the school fact right? Also. Now, it's a

240

00:42:43.500 --> 00:42:46.039  
Village of Parish: textual piece of property. Right?

241

00:42:56.650 --> 00:43:00.310  
Village of Parish: Okay? So there's a little more money that we're thinking about.

242

00:43:02.620 --> 00:43:16.169  
Village of Parish: Yeah, let's take a look. Let's take a look for the draft agreement. See how this looks anymore and see if we can get any more. paper as far as a structure

243

00:43:18.400 --> 00:43:25.930  
Village of Parish: and very graph. Just the starting point. The very first page. Most of these

244

00:43:27.460 --> 00:43:30.740  
Village of Parish: came right from the Historical Society charter.

245

00:43:31.580 --> 00:43:34.990  
Village of Parish: So we go for the first, second

246

00:43:35.170 --> 00:43:36.270

4.

247

00:43:53.340 --> 00:44:01.929

Village of Parish: I do have a little bit of info. But the one we're really trying to understand better is the very similar to this.

248

00:44:02.040 --> 00:44:11.790

Village of Parish: Supervisor. There's had some medical research looking at the other surroundings. A lot of them

249

00:44:11.860 --> 00:44:23.430

Village of Parish: give us a little more time. Hopefully we can get in touch with Chip up and leave town, and see where they're at.

250

00:44:24.390 --> 00:44:30.189

Village of Parish: So we go down just to the 1, 2, 3, 4, 5, 6,

251

00:44:30.830 --> 00:44:32.740

Village of Parish: maybe the seventh bullet.

252

00:44:32.830 --> 00:44:36.959

Village of Parish: That's where we started adding some different

253

00:44:37.020 --> 00:44:39.260

Village of Parish: assumptions. Right.

254

00:44:39.380 --> 00:44:52.869

Village of Parish: the town. The Historical Society doesn't currently have a publicly accessible based operation. The town wishes to provide dedicated space for the historic historian and records

255

00:44:52.990 --> 00:44:54.909

Village of Parish: for conducting business.

256

00:44:55.590 --> 00:45:04.180

Village of Parish: that the the keeping building not occupy it was donated to the village for to use for the benefit community

257

00:45:04.380 --> 00:45:09.090

Village of Parish: owned by the village for the prefer.

258

00:45:09.250 --> 00:45:15.809

Village of Parish: If a one year trial period does that still sound

259

00:45:16.100 --> 00:45:31.729

Village of Parish: so? The intent of the trial period period is determined at the Historical Society can effectively manage the day to day finances required to occupy the building. Go on to the second page, and we just make the assumption that the greater parish community

260

00:45:31.850 --> 00:45:35.719

Village of Parish: definitely benefit from the services provided in this building.

261

00:45:37.110 --> 00:45:40.770

Village of Parish: and we get into the agreed statements. and

262

00:45:41.820 --> 00:45:45.129

Village of Parish: that everybody supports the above

263

00:45:46.360 --> 00:45:56.150

Village of Parish: that the the everybody agrees to support the use of this space by the Historical Society to provide access to the records and artifacts

264

00:45:57.760 --> 00:46:08.570

Village of Parish: that the entities will further coordinate and evaluate this agreement in one year effective ones. All the parties have signed the agreement, so we'll hear from when it's executed.

265

00:46:10.930 --> 00:46:11.910

Village of Parish: Whoa!

266

00:46:13.000 --> 00:46:13.830

Village of Parish: Hello!

267

00:46:14.740 --> 00:46:21.800

Village of Parish: Oh, I thought maybe you had something okay

268

00:46:23.090 --> 00:46:29.310

Village of Parish: that the that the entities will discuss and evaluate at the end of the trial period.

269

00:46:30.940 --> 00:46:36.879

Village of Parish: the ability of the Historical Society to provide rental payments to the village. But what we're saying is.

270

00:46:37.100 --> 00:46:48.890

Village of Parish: or the grant you'd want them to just take over ownership. Would there be rent to own payments. Would there be

271

00:46:49.010 --> 00:46:54.309

Village of Parish: 1,500?

272

00:47:02.450 --> 00:47:03.180

Village of Parish: Yes.

273

00:47:03.640 --> 00:47:12.919

Village of Parish: I know you're trying. I know that you're reaching out to Lauren.

274

00:47:13.870 --> 00:47:16.099

Village of Parish: If we can be of any assistance in that

275

00:47:20.160 --> 00:47:34.960

Village of Parish: the next bullet. and and this outlines the day to day operating costs, including when that limited to all the things we just talked about. that the Historical Society will be will maintain regular hours.

276

00:47:35.860 --> 00:47:47.099

Village of Parish: you know. Post the hours that that they'll be open, and the timeframe will be open. and then that the village will retain ownership of the building. I guess that

277

00:47:48.460 --> 00:47:53.939

Village of Parish: we have to talk about that one little more ownership of the building, and like, during the one year

278

00:47:55.170 --> 00:48:05.590

Village of Parish: prior period what is covered. And you're saying we'd rather be nothing right that that you'd rather have that beef

279

00:48:23.750 --> 00:48:44.849

Village of Parish: I don't wanna see that

280

00:48:45.360 --> 00:48:51.939

Village of Parish: I don't like that. I wanna make sure this is open

281

00:48:52.080 --> 00:49:01.460

Village of Parish: and hands for everybody. That's what I want, and

282

00:49:01.540 --> 00:49:03.299

Village of Parish: for sure.

283

00:49:04.630 --> 00:49:08.770

Village of Parish: And then that last bullet I changed that 1,000 to 1,500 annually

284

00:49:09.050 --> 00:49:17.920

Village of Parish: again. We'll have to look into that Historical society.

285

00:49:18.520 --> 00:49:27.679

Village of Parish: like, I said. Well, if they do, if we do hold on to that. Then that would be a way for us to pay for the insurance.

286

00:49:28.770 --> 00:49:32.400

Village of Parish: So there's 7 new ones service.

287

00:49:35.690 --> 00:49:36.770

I believe this.

288

00:49:37.260 --> 00:49:45.899

Village of Parish: Are you okay with that last bullet being 1,500 plus, you know, furniture or the furniture being donated to the service. Id available for

289

00:49:46.220 --> 00:49:52.040

Village of Parish: yeah, we're talking office.

290

00:49:52.180 --> 00:50:02.530

Village of Parish: And so I would like to tell us story to have their own desk right. But so I mean I

291

00:50:03.410 --> 00:50:22.859

Village of Parish: I can put it into my budget in the contingency line enough to buy, you know, Bridget, a new gas and a new chair that would travel with us, and he says, doesn't work. I could use it. You know what

I'm saying, and that way it would just stay would be town property, anything to do with the talent story. And I can put that into my budget.

292

00:50:23.020 --> 00:50:32.330

Village of Parish: okay. as well as you know. Maybe some shelves I could. You know. I can see what I can come up with as far as a

293

00:50:32.820 --> 00:50:47.950

Village of Parish: money to put into into her contingency line to cover those costs for this year, then it will be, you know, this falls apart.

294

00:50:48.340 --> 00:50:51.889

Village of Parish: so it would separate any, you know.

295

00:50:52.030 --> 00:51:00.419

Village of Parish: and that would only be a one time. Charge for the town.

296

00:51:00.490 --> 00:51:01.730

Village of Parish: Take your brain.

297

00:51:02.810 --> 00:51:07.809

Village of Parish: I would probably put that in a different bullet one side

298

00:51:08.050 --> 00:51:11.470

Village of Parish: should be able to. She'll have her own cause right now. She has her own

299

00:51:11.610 --> 00:51:18.679

Village of Parish: contingency line for like paper and stuff like that. I'm sure she use more. She's in here.

300

00:51:18.790 --> 00:51:26.029

Village of Parish: But

301

00:51:27.330 --> 00:51:32.299

Village of Parish: right? And so so this will give her somewhere to actually go.

302

00:51:32.420 --> 00:51:37.220

Village of Parish: Yeah, II think it'd be benefit to every10, yeah, so

303

00:51:37.580 --> 00:51:40.779

Village of Parish: I could put those them out. I think I can cover some of that.

304

00:51:41.310 --> 00:51:46.520

Village of Parish: A lot of the employees that didn't have offices.

305

00:51:46.600 --> 00:51:56.190

Village of Parish: Yeah.

306

00:51:56.230 --> 00:51:58.699

Village of Parish: Question, maybe of the home, you know.

307

00:52:20.310 --> 00:52:25.570

Village of Parish: Until

308

00:52:25.730 --> 00:52:42.770

Village of Parish: I know they always said

309

00:52:42.870 --> 00:52:49.220

Village of Parish: I do have

310

00:52:49.380 --> 00:52:53.270

Village of Parish: equipment.

311

00:52:59.300 --> 00:53:02.029

Village of Parish: We do. We do a lot by

312

00:53:02.260 --> 00:53:09.450

Village of Parish: email to how many people

313

00:53:10.110 --> 00:53:12.200

Village of Parish: something on every evening?

314

00:53:27.380 --> 00:53:36.450

Village of Parish: Yeah, every phone, yeah, or something that I'll check it. So we. So the interest is there.

315

00:53:36.810 --> 00:53:45.599

Village of Parish: and and a lot of people like to come here to see things, and they want to go and see where their families live.

316

00:53:46.180 --> 00:53:52.850

Village of Parish: It's not that we couldn't store it someplace that we could do something, but they come. They want to see what parish looks like.

317

00:53:53.040 --> 00:53:58.139

Village of Parish: and there's one gentleman

318

00:53:58.680 --> 00:54:00.090

Village of Parish: ways away

319

00:54:08.610 --> 00:54:12.539

Village of Parish: of the property that you know who's family.

320

00:54:18.360 --> 00:54:19.460

Village of Parish: and

321

00:54:19.600 --> 00:54:24.449

Village of Parish: took pictures, and then we sent to him, and he was so happy

322

00:54:25.060 --> 00:54:28.430

Village of Parish: to see what it looked like. At least, you know.

323

00:54:28.530 --> 00:54:45.329

Village of Parish: come back.

324

00:54:46.500 --> 00:54:49.249

Village of Parish: you know. Don't

325

00:54:59.090 --> 00:55:05.380

Village of Parish: why, solely

326

00:55:12.110 --> 00:55:24.519

Village of Parish: one of the things I would obviously need to do is rework this budget a bit, because I think the Historical Society and the other thing I think, that we need to know is

327

00:55:24.890 --> 00:55:35.899

Village of Parish: at the end of the trial period. Is there a sale, or is it a donation, or is it a one like a contract, or like, how does that work? Yes.

328

00:55:39.190 --> 00:55:40.760

Village of Parish: it's the most part they will.

329

00:55:41.250 --> 00:55:47.980

Village of Parish: They can do this. They just learn more fans potential. I think it's pretty darn good idea.

330

00:55:49.230 --> 00:55:55.889

Village of Parish: I realize that people, age 40 and under are not right. I think we enjoy that.

331

00:55:59.180 --> 00:56:05.339

Village of Parish: Katie. You've been quiet. Do you have any thoughts or

332

00:56:05.540 --> 00:56:13.110

Village of Parish: ideas to share? No, I think it's good that everyone's looking at the budget really carefully and trying to get

333

00:56:13.160 --> 00:56:31.099

Katie Malinowski: as much possible realistic handle on what the money will look like for the Historical Society cause it's gonna be different than how you've been, you know, operating till now. And I think it's good working through the Mo. 2 and clarifying some of the roles. And who does what I guess you know.

334

00:56:31.320 --> 00:56:33.210

Katie Malinowski: One thought I've had is.

335

00:56:33.930 --> 00:56:44.030

Katie Malinowski: you know, and you kind of we're touching on it a little bit. There just now, like, what does it look like at the end of a trial period? Is it? Does it have to? Could it just?

336

00:56:44.200 --> 00:56:52.659

Katie Malinowski: Could it be a donation, or is it a sale, or is it just? It's working out really well as the with the village holding the property and the

337

00:56:52.710 --> 00:56:55.120

Katie Malinowski: historical sighting covering, the

338

00:56:55.580 --> 00:57:03.129

Katie Malinowski: operating expenses, and the town pitching in. And maybe that would be another potential option for continuing into the future. I think.

339

00:57:03.290 --> 00:57:12.450

Katie Malinowski: You know, there's a lot of different ways. You can skin it. I think everyone wants to make sure there's the costs are being reasonable and are spread out

340

00:57:12.750 --> 00:57:23.150

Katie Malinowski: in an even handed sort of way amongst those who are receiving the benefits of a better, you know, more expanded Historical Society. So I think

341

00:57:23.210 --> 00:57:31.599

Katie Malinowski: I think it's just good that everyone's talking. And let's keep an open mind about how it looks. And you know, going forward, because

342

00:57:32.060 --> 00:57:38.209

Village of Parish: just I guess all I got to say. If that makes any sense.

343

00:57:41.080 --> 00:57:48.000

Village of Parish: I don't want to say end of discussion, because if there's questions before I to discuss I think we should.

344

00:57:48.310 --> 00:57:49.550

Village of Parish: There's anything else.

345

00:57:50.110 --> 00:57:53.719

Village of Parish: as far as the town goes. I could even

346

00:57:54.450 --> 00:57:55.670

Village of Parish: possibly.

347

00:57:56.830 --> 00:58:02.109

Village of Parish: if the Board would like to raise the amount that we're gonna donate to this.

348

00:58:02.200 --> 00:58:25.110

Village of Parish: so that's open. If you know, if these guys were gonna close because they didn't have, you know, \$500 extra a month or a year. Then, you know, that's where the talent could possibly increase. It's just so hard for the first year.

349

00:58:25.150 --> 00:58:27.000

Village of Parish: For us to.

350

00:58:27.130 --> 00:58:45.550

Village of Parish: I would appreciate it.

351

00:58:45.670 --> 00:58:52.899

Village of Parish: Continue spending a little bit of money as well towards this, you know. I mean, we're not talking

352

00:58:53.110 --> 00:58:56.240

Village of Parish: \$60,000 is already gone

353

00:58:56.730 --> 00:59:11.870

Village of Parish: but even if we put in, you know each to try to get this going, it would be well worth the village, you know. I mean a little bit, because right now your cost for the village are higher than the town

354

00:59:12.430 --> 00:59:19.489

Village of Parish: and put you guys on the building so you would eventually just take the building back if it doesn't.

355

00:59:19.810 --> 00:59:26.380

Village of Parish: Well, and you guys have already invested in it. So it's sitting there. So you have to invest and maintain what you have.

356

00:59:26.480 --> 00:59:33.189

Village of Parish: And you're only still looking at for the village owning the property for their first year. Still

357

00:59:33.650 --> 00:59:36.299

Village of Parish: need to write around \$5,000

358

00:59:36.530 --> 00:59:46.570

Village of Parish: and spread out amongst the taxpayers. It's not a lot, and that's why I think you know. Possibly the town put up there, Annie, a little bit and help as well. If it's you know.

359

00:59:46.640 --> 00:59:48.770

Village of Parish: it's something that is definitely gonna help.

360

00:59:50.410 --> 00:59:58.069

Village of Parish: I just have to. Comfortable putting in there for this year.

361

00:59:58.230 --> 01:00:01.080

Village of Parish: I could confident, you know. I mean

362

01:00:04.180 --> 01:00:06.490

Village of Parish: that divide a desk.

363

01:00:06.880 --> 01:00:19.960

Village of Parish: Comfortable chair. Some shelves. So there's probably 1,500 at least somewhere in there, for, you know desks, or now or outreach. Just not just a simple one like this. We'll get her something that's

364

01:00:20.330 --> 01:00:22.749

suitable for an office.

365

01:00:24.800 --> 01:00:28.730

Village of Parish: So we're still talking 1,500 there, I mean yearly.

366

01:00:32.190 --> 01:00:33.080

Village of Parish: I can

367

01:00:35.080 --> 01:00:42.689

Village of Parish: not even supposed to be saying this out loud. \$2,500

368

01:00:43.020 --> 01:00:53.950

Village of Parish: more than you guys expected. So this may help you guys a little bit more

369

01:00:54.120 --> 01:00:58.089

Village of Parish: in realizing your goals. So you don't have an avenue to

370

01:00:58.100 --> 01:01:15.110

Village of Parish: directly. And the board.

371

01:01:15.250 --> 01:01:19.650

Village of Parish: we don't believe in that. And majority rules, you know, maybe not believe in. You know

372

01:01:19.980 --> 01:01:24.630

Village of Parish: anything that II can't control, so that we go through the budget line by line.

373

01:01:28.620 --> 01:01:33.110

Village of Parish: Can the town financially support the Historical Society.

374

01:01:33.680 --> 01:01:39.669

Village of Parish: Yeah, I mean, yes, II think we can like, I said. I think we can do it. II can put it into my budget

375

01:01:39.710 --> 01:01:49.629

Village of Parish: my problem this year. I don't wanna say it's a problem. But I'm trying very, very hard in my tenured budget. Come up with a 0.

376

01:01:49.750 --> 01:02:03.010

Village of Parish: No increase at all. That is my goal is to bring a 0 to the people. How I get there 10,000 last month

377

01:02:03.420 --> 01:02:14.920

Village of Parish: that I'm gonna be pretty close and getting 0, you know, so I can add, you know, little bit. Here, take away a little bit more from here, and that's why I believe that I'm I'm hopeful

378

01:02:14.990 --> 01:02:17.749

Village of Parish: that I can get the town board

379

01:02:18.030 --> 01:02:22.839

Village of Parish: to approve, you know, at least something. Yes, so it

380

01:02:22.900 --> 01:02:33.540

Village of Parish: it doesn't go out to the town residence. Then for road it just has to be. It will eventually the tenant of budget comes out.

381

01:02:33.690 --> 01:02:59.749

Village of Parish: the board accepts the tenant budget we work at becomes our preliminary. But okay, and then our preliminary budget. There's always a public hearing after that. So we take advice from the residents.

At this public hearing. Nobody shows up it pretty much. Just goes into the final budget right now. However, if there's 20 million people that come out and they're opposed to this, and they don't want to pay an extra

382

01:03:00.360 --> 01:03:15.380

Village of Parish: quarter of pieces, probably with the \$2,500 me, and I'm just talking numbers out, and I probably shouldn't be doing that. But that's realistically, you know. It may only be a very small amount per taxpayer to to fund this. But in the overall picture

383

01:03:15.770 --> 01:03:21.930

Village of Parish: like I said, I'm talking for zeros this year, right? The only reason I brought that up is I did the

384

01:03:22.400 --> 01:03:31.930

Village of Parish: the petitions out in the town. I didn't. I wasn't connected to the village petitions, and I weren't entirely. There were 2 people

385

01:03:31.940 --> 01:03:37.220

Village of Parish: I went to. I think there was 18 or 19 residents.

386

01:03:37.350 --> 01:03:50.309

Village of Parish: There were 2 people who were in favor of the Historical Society taking over the bank, the other some of the others. First question.

387

01:03:50.600 --> 01:04:06.209

Village of Parish: if it's gonna cost me money. I don't wanna do it. I'm not gonna have. I'm not gonna have my taxes raise. I don't wanna do it. That was the only reason I asked that question so it would definitely. If I can get it in, there still remain at 0.

388

01:04:06.300 --> 01:04:23.369

Village of Parish: The people will be happy. You will be happy. Everybody will be happy. Can I do that? We'll find out here in the next couple of days. But like, I said, even even if I come in with zeros doesn't mean my board will go higher.

389

01:04:24.210 --> 01:04:32.460

Village of Parish: So it's always majority rules. And it's not every line. Yeah. So it's gonna be. If I need zeros.

390

01:04:32.780 --> 01:04:40.290

Village of Parish: That will be a good thing. We're gonna try to take care of some people still take care of things. We haven't done the town in a while. So.

391

01:04:40.560 --> 01:04:59.699

Katie Malinowski: Jim, that was a really good explanation. And I just think I think the question was, is there a public vote on the budget? No, there's not a public vote on the budget. But there's a public hearing, and which is what exactly what you said, Jim. So the the Board votes on the budget. The public has the opportunity to weigh in at the hearing.

392

01:04:59.960 --> 01:05:10.759

Village of Parish: I have one more, if I may.

393

01:05:23.010 --> 01:05:24.930

Village of Parish: The village board

394

01:05:25.720 --> 01:05:31.830

Village of Parish: the building for a year, giving us the opportunity to

395

01:05:33.420 --> 01:05:34.080

perfect

396

01:05:35.550 --> 01:05:37.140

Historical Society

397

01:05:45.780 --> 01:05:54.539

Village of Parish: this year that we would be in this negotiation, and for a year so

398

01:06:08.740 --> 01:06:20.629

Village of Parish: legal, so that at the end of year. If we pull, we could not do it financially. Then the plan were already in place. What to do with billing

399

01:06:20.690 --> 01:06:44.410

Village of Parish: is that? Have I got that straight? I think so. And I think when I'm hearing, then is when we talk about this budget. Yeah, we'll do it for year one and then do a budget for year? 2. Yeah, sort of shifting those. Right? If if okay.

400

01:06:44.410 --> 01:06:54.419

Village of Parish: just about period. Yeah, this is a trial. And who's determined

401

01:06:54.610 --> 01:06:57.650

Village of Parish: the validity of this at the end of the trial.

402

01:06:57.850 --> 01:07:10.640

Village of Parish: like, who has just like you know what I'm saying. I'm nervous that we felt a whole lot of our money trying to pay all these bills and get up and running and outfit this suit. Everybody.

403

01:07:10.880 --> 01:07:15.210

Village of Parish: you know, want some needs. Where are we really? At the end of the year.

404

01:07:15.930 --> 01:07:32.099

Village of Parish: because it doesn't guarantee us any. I think, if I understand, if I understand this, basically what this is is a budget representing the Historical Society, paying the operating expenses for the building for the year.

405

01:07:32.250 --> 01:07:55.250

Village of Parish: That doesn't really reflect the entire cost of Operational bill. One thing, when you have a building like this, you will have recurring major capital expenses. You may need to do foundation work. You may need to put a new roof on the place. You may need a new furnace or water heater, or something like that. Well, what I'm saying is what you're paying is not actually the the cost of

406

01:07:55.280 --> 01:08:15.690

Village of Parish: occupying that space. If you're not paying part of those costs of the expected capital expenses that will come up way. Municipality sometimes do that is, they put aside money every year towards a capital phone, where, when they have something, major that comes along, they have some money saved up so they're not taking it all in the same

407

01:08:15.730 --> 01:08:27.580

Village of Parish: tax here. But I guess what I'm saying is, from the standpoint of the Historical Society. I don't think Historical Society is being asked to do any more than just cover the bear

408

01:08:27.580 --> 01:08:53.850

Village of Parish: operating expenses it would cost for you to occupy and use this space. It doesn't really cover the entire cost, and if you were to only building down the road you would expect to probably a significant

increase in your budget above this operating expense budget, because you would then be picking up those capital expenses, either on a one shot basis where you have to finance it, or by putting money aside. So you have the capital fund to

409

01:08:53.920 --> 01:09:08.480

Village of Parish: fun things that you know you're gonna need. Everybody who has a house knows you need a new.

410

01:09:09.080 --> 01:09:37.859

Village of Parish: I think they somebody's going to have, and if the village is owning it, then any cost to come up or cost that they're going to have to bear until some other arrangement. So because right now I don't think the memo of Understanding has any provision for you to pick up additional expenses as may occur.

411

01:09:38.010 --> 01:09:52.080

Village of Parish: and looking at some of these things, we won't have to spend as much as

412

01:09:52.080 --> 01:10:08.920

Village of Parish: several.

413

01:10:08.980 --> 01:10:15.869

Village of Parish: There was another group that he referred me to, but some of these things.

414

01:10:16.460 --> 01:10:19.269

Village of Parish: we have to. One of them said that.

415

01:10:19.490 --> 01:10:39.329

Village of Parish: one of them said.

416

01:10:40.790 --> 01:10:41.480

Okay.

417

01:10:42.290 --> 01:10:55.060

Village of Parish: but

418

01:10:55.160 --> 01:10:58.180

Village of Parish: and he gave you some examples of.

419

01:10:58.790 --> 01:11:01.170

Village of Parish: you know, different.

420

01:11:01.500 --> 01:11:19.729

Village of Parish: I had gone for

421

01:11:32.960 --> 01:11:45.849

Village of Parish: you know region would be the way to go, but since I talked with him we had fires. We've lost

422

01:11:46.730 --> 01:11:50.559

Village of Parish: a lot of what you call Main Street.

423

01:11:51.270 --> 01:11:56.320

Village of Parish: We we get some you know, some.

424

01:11:56.400 --> 01:12:00.110

Village of Parish: So they he said. He definitely got goals within that

425

01:12:00.120 --> 01:12:05.500

Village of Parish: fall under there anymore. And then

426

01:12:05.850 --> 01:12:12.290

Village of Parish: Some of the the only one we have now

427

01:12:12.430 --> 01:12:16.309

Village of Parish: in the town of Paris. She's the cemetery.

428

01:12:20.900 --> 01:12:23.519

Village of Parish: I'd like to do your application.

429

01:12:26.620 --> 01:12:30.700

Village of Parish: Let us, returning up. recommended now.

430

01:12:31.120 --> 01:12:34.410

Village of Parish: Myself.

431

01:12:48.760 --> 01:12:50.980

Village of Parish: Think this could be done too.

432

01:12:51.060 --> 01:12:53.299

Village of Parish: if we had a place where we could

433

01:12:53.730 --> 01:12:59.840

Village of Parish: put the things out, you know, probably spend years. So it's something in their house. I

434

01:13:00.080 --> 01:13:06.069

Village of Parish: whole file that I pull up under my coffee table with my portable file.

435

01:13:06.070 --> 01:13:30.490

Village of Parish: and then I have, and I didn't do well

436

01:13:30.490 --> 01:13:41.910

Village of Parish: and And so, you know, we really have

437

01:13:41.930 --> 01:13:46.760

Village of Parish: where we could all come together, you know

438

01:13:47.700 --> 01:13:48.890

Village of Parish: I think we do.

439

01:14:10.390 --> 01:14:21.139

Village of Parish: and what you know, what keeps us going? And people respond to it.

440

01:14:21.140 --> 01:14:28.939

Village of Parish: Yes, we're

441

01:14:42.240 --> 01:14:43.370

Village of Parish: restrict

442

01:14:43.710 --> 01:14:48.820

Village of Parish: period time and see how it works. I mean, I think we save money.

443

01:14:49.130 --> 01:14:51.810

Village of Parish: II really

444

01:14:52.200 --> 01:15:21.150

Village of Parish: This year we even got money in the budget

445

01:15:21.450 --> 01:15:43.110  
Village of Parish: ownership.

446

01:15:43.140 --> 01:15:55.549  
Village of Parish: If it could continue for one more year, and then we put together 2. But it's here's the trial year for the villages as it is, and then second year, here's what it looks like you'll have a better idea of.

447

01:15:56.260 --> 01:16:11.270  
Village of Parish: We can estimate it

448

01:16:11.530 --> 01:16:16.830  
Village of Parish: with the township going to the village technically for rent.

449

01:16:16.870 --> 01:16:22.600  
Village of Parish: and then they would take their cost down, you know, and so the village, you know.

450

01:16:23.190 --> 01:16:33.279  
Village of Parish: it'd be a little. It'll be easier for them to swallow 3,500 a year, 3,000 a year, whatever it may be, you know, to be spread out.

451

01:16:33.860 --> 01:17:02.370  
Village of Parish: I don't know this. This really is probably not helpful, but it's just, I guess, for Fyi. I did an incoming expense from 2021, which is really it was still on the covid. Yes, but for that year we took in \$220. And we are expenses for 180,

452

01:17:02.370 --> 01:17:15.340  
Village of Parish: 31. So basically for that year, we realize \$31 and 69 cents. However, in 2022 we were a lot more active.

453

01:17:15.590 --> 01:17:18.049  
Village of Parish: And we actually

454

01:17:18.200 --> 01:17:30.709  
Village of Parish: our income was \$1,732 and 50 cents. However, a thousand of that is mentioned in the Historical Society Annual

455

01:17:30.780 --> 01:17:49.470

Village of Parish: Donation for a couple of ever, and I believe it was for children. Pearl, and I believe it was the children who made \$1,000 donation ever again.

456

01:17:49.750 --> 01:17:52.030

Village of Parish: So

457

01:17:52.450 --> 01:18:22.020

Village of Parish: \$1,000 for that year we made \$732 and 50 cents and \$210 expenses, and again, it wasn't exactly clear where the 730 and sales of the books and all this stuff, the Raffles, and that kind of thing.

458

01:18:22.020 --> 01:18:33.190

Village of Parish: If there was another domain, II don't know. It wasn't document. And then for 2023 up until yesterday.

459

01:18:33.490 --> 01:19:05.439

Village of Parish: our was \$667 and 50 cents, and we actually only spent \$110 this year, and 70 of that was for the Post office box. So this year, so far, today, we realize \$556 and 83 cents. Now, the good thing is, we have Cds.

460

01:19:05.480 --> 01:19:15.789

Village of Parish: And for our interest that we earn from our Cds 2022 is \$19 and 32 cents.

461

01:19:16.150 --> 01:19:23.909

Village of Parish: So at our last meeting we decided we had Mr. Gepper, who's

462

01:19:24.360 --> 01:19:41.469

Village of Parish: Tony, who is a broker, and he works for a Welsh management company, and he gave us those meeting. He gave us suggestions. He cannot help us, but he told us to go. Local Bank local Credit Union

463

01:19:41.470 --> 01:20:01.670

Village of Parish: could give us 2 things, one the best interest and 2 help with small business advice. So I was waiting all last week. Everyone and I are the 2 signatures on this checking account for the Historical Society. So that's what we're going to do. We're going to see

464

01:20:01.910 --> 01:20:12.049

Village of Parish: where we can get the best deals. Bring it back.

465

01:20:13.590 --> 01:20:22.249

Village of Parish: So I have some questions cause my main concern is not about the next year. This society has some resources and savings, and

466

01:20:22.360 --> 01:20:35.410

Village of Parish: but then we'll have a budget for going through a year or 2. But I'm concerned about 3 or 4 10 years down the road, if they assume ownership of the building, and I don't think we have

467

01:20:35.540 --> 01:20:40.229

Village of Parish: the fundraising resources a place to be able to stay. Sustain that

468

01:20:40.270 --> 01:20:43.060

Village of Parish: we're not not even talking about like

469

01:20:43.070 --> 01:20:44.889

Village of Parish: building repairs, but

470

01:20:45.000 --> 01:20:52.410

Village of Parish: able to sustain the annual expenses for the building for several years down the road.

471

01:20:52.600 --> 01:20:57.120

Village of Parish: and we don't really have resources to go out and apply for

472

01:20:57.300 --> 01:21:14.839

Village of Parish: the type of grants that we would need. So is that something that and what what could you do, or what would you advise us that we'd be doing looking down the road? Not just for the next 12 or

473

01:21:15.260 --> 01:21:21.159

Village of Parish: alright. So one of the things you talked about last time was like

474

01:21:21.350 --> 01:21:22.949

Village of Parish: a real simple

475

01:21:23.010 --> 01:21:30.610

Village of Parish: building conditions report that sort of gives you snapshot and time of the, you know.

476

01:21:30.930 --> 01:21:46.670

Village of Parish: Keep it with with the idea in mind, keeping in mind this work structure and what it looks like, and what it would take to maintain it or fix it if anything wrong, and that's that's a small grant that's like a \$4,000 cost share, I believe. Katie.

477

01:21:47.400 --> 01:21:50.069

Village of Parish: from there, if go ahead.

478

01:21:50.300 --> 01:21:54.700

Katie Malinowski: I was just gonna say, yes, building conditions report. We could probably

479

01:21:54.770 --> 01:22:11.090

Katie Malinowski: do it for fairly small amount of money, and that would give you a better sense of you know anything underlying, especially with historical a elements. And then, I think, to Janet's other question like we could definitely help you write grants. As they are identified to support

480

01:22:11.340 --> 01:22:13.570

Katie Malinowski: things. A lot of times.

481

01:22:13.780 --> 01:22:23.250

Katie Malinowski: I think the grants are more project based. Like, let's say you have some collection that you want to have somebody come in and assess and get the right

482

01:22:23.530 --> 01:22:45.109

Katie Malinowski: way. It's stored and displayed. You know those kind of things are grantable. The operating expenses. People don't usually want to pay for that with grants. So I do think you have make a good point. I think that's Janet. Hi, Janet! And I think that's what the first year or 2 are going to be critical for the Historical Society, because now that you'll have a storefront.

483

01:22:45.210 --> 01:23:00.450

Katie Malinowski: and you'll have all your things in one place where people can come in and appreciate them, and maybe get interested. And you're gonna have to do fundraisers. You know, it's gonna be. It's gonna be a lot of work. But that's gonna be your window of time, I think, to see

484

01:23:00.490 --> 01:23:13.869

Katie Malinowski: how you can ramp up those numbers that the other lady was just going over. You know you had tiny amounts of income. And they're

slowly growing. But having a space and having your stuff available, it's a really great opportunity. And I think

485

01:23:13.880 --> 01:23:17.130

Katie Malinowski: that's where you're gonna have to try to drum up. You know those

486

01:23:17.220 --> 01:23:26.919

Katie Malinowski: memberships, the the donations to cover those operating expenses. Maybe some money would come from grants for some of that, but it'd be tough.

487

01:23:26.970 --> 01:23:39.099

Katie Malinowski: so I think he makes some good points. Janet. That would all the more reason to bite off one. Take one bite at a time at this, not getting over your head from the beginning, and then you kind of put the whole. You know. The whole effort kind of goes down

488

01:23:39.360 --> 01:23:44.540

Village of Parish: right?

489

01:23:44.680 --> 01:23:48.250

Village of Parish: Not necessarily fundraising. We could.

490

01:23:49.340 --> 01:24:15.750

Village of Parish: I mean, we could come in and do just some strategic planning with you, and, you know, share some thoughts and lessons learned from other things like territory. Yeah, you know, we can basically come and help you gather what what's working great, what's not working great. We could try to help you get those things on paper right?

491

01:24:16.500 --> 01:24:26.669

Village of Parish: and then there are things that do come through the Cfa. But they're like structural. They're more programming

492

01:24:26.990 --> 01:24:40.830

Village of Parish: anything that I cause I've been doing some help from another organization as well. Yeah, that's successful. Receiving everything we applied for.

493

01:24:41.450 --> 01:24:53.290

Village of Parish: There is a there aren't gonna get money for operating expenses or salaries, or even building improvements. Are pretty.

494

01:24:55.140 --> 01:25:00.579

Village of Parish: I think that we have to be aware that, like that

495

01:25:00.680 --> 01:25:06.469

Village of Parish: we have to have other sources that we're looking for outside assistance besides.

496

01:25:06.770 --> 01:25:08.349

Village of Parish: But right here and there.

497

01:25:09.190 --> 01:25:09.890

So

498

01:25:15.010 --> 01:25:16.770

Village of Parish: just a video

499

01:25:18.550 --> 01:25:19.910

Village of Parish: chat boxes.

500

01:25:21.250 --> 01:25:31.109

Village of Parish: Oh, Katie just dropped out of the session.

501

01:25:32.560 --> 01:25:33.700

Village of Parish: Yeah.

502

01:25:36.560 --> 01:25:38.750

Village of Parish: But yeah, there's some things we can do.

503

01:25:43.660 --> 01:26:10.409

Village of Parish: We may get some more donations.

504

01:26:11.560 --> 01:26:25.049

Village of Parish: guest speakers

505

01:26:25.380 --> 01:26:28.660

Village of Parish: from her pictures that she puts on.

506

01:26:29.240 --> 01:26:33.959

Village of Parish: and someone will ask the question, and then maybe 4 or 5 people respond.

507

01:26:59.710 --> 01:27:06.649

Great. So we

508

01:27:06.990 --> 01:27:15.870

Village of Parish: can't do that. It was interesting because I was able to call push down the highway.

509

01:27:26.540 --> 01:27:35.390

Village of Parish: and then each time I seems like I talk to her 2 or 3 times about zoom and

510

01:27:49.270 --> 01:27:58.899

Village of Parish: dam over there

511

01:27:59.060 --> 01:28:03.660

Village of Parish: billions of information. Maybe we can

512

01:28:04.720 --> 01:28:08.850

Village of Parish: or recorded some memories and who those

513

01:28:10.510 --> 01:28:18.030

Village of Parish: shadow issues. So I'm that will help, too.

514

01:28:19.980 --> 01:28:24.330

Village of Parish: So yeah, if there's a need in the future for the historical study. Certainly

515

01:28:24.450 --> 01:28:27.950

Village of Parish: put us in your your tool box, equal to

516

01:28:28.760 --> 01:28:46.880

Village of Parish: come on if we need help. So so the Rat kept you an hour and a half, almost. So I wanna try to summarize what we talked about today. we're gonna talk. We're gonna talk to later. Look into more how this Mo works, and then the rent check goes to the village right? I think that's how it's gonna work. But

517

01:28:47.240 --> 01:28:51.250

Village of Parish: we'll we'll double check that

518

01:28:52.990 --> 01:29:06.190

Village of Parish: We'll look into the how? The 501 c. 3. Would that protect for the Historical Society in the future that will affect your budget? If that property taxes and that kind of thing, of course.

519

01:29:06.240 --> 01:29:14.900

Village of Parish: we're gonna ask the village to make teams their ownership for at least the first year.

520

01:29:14.940 --> 01:29:17.270

Village of Parish: Provide 2 budgets.

521

01:29:17.360 --> 01:29:36.169

Village of Parish: Okay, you're gonna we're gonna make your contributions 2,500 with a question mark. Hopefully, your board will determine the validity of this accurate, or how do we

522

01:29:36.380 --> 01:29:40.139

Village of Parish: evaluate this after one year? That's gonna be part of the.

523

01:29:41.410 --> 01:29:42.530

Village of Parish: And

524

01:29:44.000 --> 01:29:46.089

Village of Parish: I get it up. That's what I like to do.

525

01:29:48.030 --> 01:29:51.349

Village of Parish: Sound good. Yeah.

526

01:29:51.550 --> 01:29:54.410

Village of Parish: Okay.

527

01:29:56.500 --> 01:29:57.869

Village of Parish: let's go

528

01:29:59.030 --> 01:30:00.889

Village of Parish: circle back. Maybe.

529

01:30:01.310 --> 01:30:05.479

Village of Parish: Let's see, we're gonna get to October and October's

530

01:30:05.910 --> 01:30:07.480

Village of Parish: busy busy month.

531

01:30:08.660 --> 01:30:10.380

Village of Parish: What if we get to November

532

01:30:11.840 --> 01:30:13.890

Village of Parish: to try and do this in

533

01:30:15.200 --> 01:30:23.149

Village of Parish: Thanksgiving. The 20 third.

534

01:30:24.130 --> 01:30:29.950

Village of Parish: I think if they had something already. you know.

535

01:30:34.150 --> 01:30:37.109

Village of Parish: first Tuesday, November fourteenth.

536

01:30:41.960 --> 01:30:42.690

Fred.

537

01:30:43.530 --> 01:30:46.379

Village of Parish: what kind of way is the

538

01:30:48.010 --> 01:30:52.289

Village of Parish: take place. Are you looking at

539

01:30:52.340 --> 01:31:04.110

Village of Parish: ideally with the agreement going objects? Okay? Right?

But

540

01:31:25.310 --> 01:31:26.800

Village of Parish: sorry

541

01:31:28.100 --> 01:31:30.659

Village of Parish: is the character of the television.

542

01:31:31.170 --> 01:31:31.960

Village of Parish: Okay?

543

01:31:32.570 --> 01:31:34.049

Have a door, Slider?

544

01:31:48.830 --> 01:31:51.160

Village of Parish: Or do we have to hire more?

545

01:32:03.190 --> 01:32:05.380

Village of Parish: Yeah. But no.

546

01:32:06.960 --> 01:32:10.580

Village of Parish: But there's, another yeah.

547

01:32:10.710 --> 01:32:20.780

Village of Parish: okay, so we'll have to

548

01:32:34.540 --> 01:32:38.890

Village of Parish: okay, well, that's not sorry, I didn't hear anything.

549

01:32:39.430 --> 01:32:46.150

Okay? Well, I thought, we, we're still

550

01:32:48.810 --> 01:32:57.630

Village of Parish: the later year.

551

01:33:19.420 --> 01:33:23.589

Village of Parish: But if nobody is willing or

552

01:33:24.290 --> 01:33:28.890

Village of Parish: able to work during a bad weather.

553

01:33:29.640 --> 01:33:43.369

Village of Parish: then we're so much further ahead. Yeah, but I don't know what you mean by work. Okay, I've heard amongst our members that we do not want to be open, and I don't think most of our members are going to do anything.

554

01:33:43.690 --> 01:34:10.210

Village of Parish: Okay? So

555

01:34:10.350 --> 01:34:32.320

Village of Parish: take ownership of the building, or

556

01:34:32.320 --> 01:34:45.320

Village of Parish: like winter hours. And then

557

01:34:45.480 --> 01:34:53.359

Village of Parish: and I just thought I had.

558

01:35:33.330 --> 01:35:45.459

but when my son came, he thought, the

559

01:36:00.670 --> 01:36:01.750

Village of Parish: the.

560

01:36:02.090 --> 01:36:29.530

Village of Parish: it's not easy.

561

01:36:37.440 --> 01:36:48.620

You have the insurance, right?

562

01:36:54.850 --> 01:37:16.930

Village of Parish: So does that mean? And do we not have to have a prior inspection and a to open up a museum.

563

01:37:40.240 --> 01:37:54.550

Village of Parish: Yeah.

564

01:37:56.780 --> 01:37:59.960

Village of Parish: safety in the back. That's probably why

565

01:38:00.650 --> 01:38:05.589

Village of Parish: \$35 to get a date and have somebody who is a screwdriver

566

01:38:16.310 --> 01:38:38.140

Village of Parish: and you know, I just my

567

01:38:38.660 --> 01:38:54.859

Village of Parish: I'm gonna get you off something within the next couple of days to reach you, and then

568

01:38:54.920 --> 01:38:57.170

Village of Parish: alright. So we gotta find

569

01:39:44.940 --> 01:39:49.170

Village of Parish: eighteenth call. Jim. Is there anything else you need from us?

570

01:39:49.430 --> 01:39:54.040

Village of Parish: My knowledge?

571

01:39:54.480 --> 01:40:20.590

Village of Parish: October.

572

01:40:20.870 --> 01:40:22.220

Village of Parish: Yeah.

573

01:40:58.650 --> 01:41:01.989

Village of Parish: yes, they were delicious.
