

WEBVTT

1

00:00:05.310 --> 00:00:06.460

Okay.

2

00:00:07.760 --> 00:00:09.349

Village of Parish: So we have no special.

3

00:00:09.510 --> 00:00:10.200

Okay?

4

00:00:11.900 --> 00:00:37.790

Village of Parish: So yeah. Yeah. And we'll we'll say that way just in case we didn't make it easier at all with the fraction of a place Howard.

5

00:00:38.670 --> 00:00:51.539

Village of Parish: I'll I'll second it.

6

00:00:54.390 --> 00:00:56.980

Village of Parish: I mean you have new vision.

7

00:00:58.130 --> 00:00:59.050

Village of Parish: Oh.

8

00:00:59.690 --> 00:01:01.409

Village of Parish: yes, I think

9

00:01:24.820 --> 00:01:33.810

Village of Parish: oh, maybe it's one of those cases where we pass away like 20 years ago.

10

00:01:43.360 --> 00:01:46.409

Village of Parish: Then I guess another people nature

11

00:02:00.850 --> 00:02:05.590

Village of Parish: funding and all that.

12

00:02:06.350 --> 00:02:08.080

Village of Parish: The opportunity.

13

00:02:22.650 --> 00:02:27.980

Village of Parish: I think we're alive now

14

00:02:28.770 --> 00:02:32.770

Village of Parish: I'm here.

15

00:02:32.810 --> 00:02:39.350

Village of Parish: I'll just pass that around. No bars.

16

00:02:56.820 --> 00:03:24.060

Village of Parish: Awesome, awesome, hey? So with the eclipse I was wondering, is there like? What if there's somewhere where you can get free the the glasses

17

00:03:24.060 --> 00:03:30.179

Village of Parish: really we order. I get 10. We order to pay 10 or something.

18

00:03:38.060 --> 00:03:55.750

Village of Parish: Yeah, my image is beginning worse, you know, from all my accounting, staring at screen all day, so I don't. I mean, I look at the lunar ones. I don't know if that's bad, too, but I know there's a couple people in the dough get a lot of work.

19

00:03:57.120 --> 00:04:03.270

Village of Parish: I think they're probably in Germany. There's only a football stadium.

20

00:04:03.610 --> 00:04:29.849

Village of Parish: and you know, soccer, where every week people are paid to wear white suits covering their head and everything, and they sit in the stands in the shape of the team mobile.

21

00:04:30.330 --> 00:04:53.150

Village of Parish: All the people around them are all white, just just to mess with T-bo.

22

00:04:53.380 --> 00:05:00.449

Village of Parish: Alright. So not here. So that means you're up off.

23

00:05:00.620 --> 00:05:01.390

Village of Parish: Good.

24

00:05:27.780 --> 00:05:30.100

Village of Parish: So we already print my report off there.

25

00:05:30.210 --> 00:05:40.789

Village of Parish: Oh, there we go! I don't worry.

26

00:05:41.400 --> 00:05:51.449

Village of Parish: No, no, this one was in message. There we go! There you go, and you got my reporting, I guess. Hello! There we go. Oh, thank you.

27

00:05:51.990 --> 00:06:07.089

Village of Parish: Okay. Like information in conjunction with the office of the State Controller is hosting a municipal fraud, prevention and detection workshop. On Thursday, February 20 ninth. You can go to Boonville, or you can also get it via zoom

28

00:06:07.150 --> 00:06:12.050

Village of Parish: registration is required, and registration can be done online or by

29

00:06:12.710 --> 00:06:21.860

Village of Parish: the lines approaching the best registration rate for 2024 to plug your local Government conference scheduled for March May first and second turning stone.

30

00:06:22.430 --> 00:06:25.030

the rates increase. Starting on April second.

31

00:06:25.260 --> 00:06:29.589

Village of Parish: There's the link for the forms. I got more forms printed with me, and

32

00:06:29.710 --> 00:06:30.930

descriptions of the

33

00:06:30.960 --> 00:06:39.879

Village of Parish: program offerings are at that link there, and I should mention that because you are Saman Rivers, fiscal agents is something I talked to Kevin about.

34

00:06:41.080 --> 00:06:45.569

Village of Parish: we, the Senators Council. The Government's is one of the sponsors of the

35

00:06:45.840 --> 00:06:48.259

Village of Parish: conference, and with that the

36

00:06:48.500 --> 00:07:06.549

Village of Parish: seminar accounts for governments get one free admission that they can designate to whoever and typically, traditionally, we've offered it to the chair of the cog first, and if they don't take you up on the fiscal agent or somebody in the fiscal agent community. So the

37

00:07:06.800 --> 00:07:29.369

Village of Parish: Seminars chair is not using that this year, so you could use it for Kevin or the mayor, or whatever, and save the village a little bit of money by not having to pay one registration that you would ordinarily have to pay. So so I just wanted to mention that to you when you're thinking about doing your registrations, that you can include one for free. And Kevin has a paperwork on that.

38

00:07:29.420 --> 00:07:44.440

Village of Parish: and beyond that. The first hour of council, the Government's meetings for this year we're looking at dates in the second half of March. and just as a reminder, the Commission does move its meetings around the Togio region through the course of the year to make them available. Anybody who's interested in

39

00:07:44.510 --> 00:07:59.820

Village of Parish: sitting in on one. And they're gonna be right up the road in the last guy on March eighteenth, and they'll be right down the road in Central Square around Monday, May tenth, and those rotate every year. So next year the meeting in the San Rivers area could be in parish, or it could be in

40

00:08:00.160 --> 00:08:23.369

Village of Parish: and boy, or it could be in. You know.

41

00:08:30.630 --> 00:08:33.420

rules report. Anybody want to accept that?

42

00:08:51.900 --> 00:08:52.800

Village of Parish: I

43

00:08:53.800 --> 00:08:54.780

Village of Parish: alrighty.

44

00:08:56.190 --> 00:08:57.210
Village of Parish: Okay.

45
00:08:58.220 --> 00:09:16.489
Village of Parish: this past month.

46
00:09:16.930 --> 00:09:46.040
Village of Parish: 1,000 a day, as far as flow goes, because of the wet weather, the warm weather and and and the flow of this, and and the and the meltdown, you know the snow coming in and melt, and all goes into I and I, and again on the i and I the intrusion that's happening. We narrowed it down to the section on Main Street that way, going that way. Which

47
00:09:46.360 --> 00:09:51.900
Village of Parish: we're gonna have camera as much as we can

48
00:09:52.090 --> 00:10:10.649
Village of Parish: with every manhole that we can find. We had 5 days of non-compliance for the setability, because of the heavy flows that we've got. It's just that now, I guess. So like I gave the clerk a a copy of the Aquifacts report that we sent out

49
00:10:10.690 --> 00:10:14.810
Village of Parish: So they they analyze what is going on.

50
00:10:14.890 --> 00:10:16.950
Village of Parish: We found that we had that

51
00:10:17.040 --> 00:10:18.560
Village of Parish: group fungus

52
00:10:18.650 --> 00:10:19.740
Village of Parish: all over.

53
00:10:19.880 --> 00:10:32.099
Village of Parish: and they also recognize that, too, and they gave us a couple of solutions that we'll be able to do to to try to remedy the situation right now. Right now. The

54
00:10:32.280 --> 00:10:37.560
Village of Parish: the the set of bill setable salad it's comes in a called.

55

00:10:37.980 --> 00:10:55.859

Village of Parish: It's cloudy. Usually it's like like water, like click clear like water. But nothing's really settling. It's just just dispersed, which is hard to have a blanket, and it's hard to process the bugs, and they don't like it. So we'll see what happens on that

56

00:10:56.290 --> 00:11:03.930

Village of Parish: other than that. I think I think we'll be okay. it's it's been a light winter.

57

00:11:04.050 --> 00:11:08.609

Village of Parish: So we're not gonna get a lot of meltdown hopefully. And so we should be okay

58

00:11:09.930 --> 00:11:28.620

Village of Parish: and find out

59

00:11:28.620 --> 00:11:55.469

Village of Parish: in the in the fall. We went through and we measured compared to rain event and a normal event, and found out that that main Street lipstation was really running during a main event. More, almost 5 times more than so. A lot of intrusion is coming through those main holes that are in the. There's a, you know, there's a a whole line that goes in the woods. It goes down.

60

00:11:55.550 --> 00:12:06.450

Village of Parish: Yeah. So yeah, it's yeah.

61

00:12:06.800 --> 00:12:11.009

Village of Parish: we'll we'll get it. And hopefully, in time for the new plant.

62

00:12:11.120 --> 00:12:32.119

Village of Parish: And I hope that that 2,025 date is good date, really. Zoom. that's good.

63

00:12:32.930 --> 00:12:40.829

Village of Parish: Well, that is based on, based on our flows that we've had historically, within 10 years worth of data

64

00:12:40.980 --> 00:12:43.049

Village of Parish: which we have stored

65

00:12:44.090 --> 00:12:45.170

Village of Parish: over.

66

00:12:47.050 --> 00:12:48.350

Village of Parish: we'll see what happens.

67

00:12:49.710 --> 00:12:58.080

Village of Parish: and and the the cloudiness is stuff besides the fungus that's among us, the

68

00:12:58.120 --> 00:13:06.579

Village of Parish: we have the the 22 list stations, the grinder stations, and we get the 4 listings. So everything comes into the milkshake for that.

69

00:13:06.580 --> 00:13:31.490

Village of Parish: Normally, what would happen some other plants that I that I deal with is that when you got those kind of listations that are mixing everything up, it goes into a settling or any equalization tank settles, and then then we process it? Well, we just goes right straight into the process immediately. Right? But we've also had. We. Also, we're able to run 2,

70

00:13:31.490 --> 00:13:45.260

Village of Parish: keeping up with it

71

00:13:45.420 --> 00:13:47.550

Village of Parish: snow removal.

72

00:13:48.290 --> 00:13:49.790

Village of Parish: So hopefully.

73

00:13:50.190 --> 00:14:19.550

Village of Parish: yeah, it doesn't snow anymore.

74

00:14:19.550 --> 00:14:22.130

Village of Parish: I'll second it all in favor.

75

00:14:22.130 --> 00:14:25.800

Village of Parish: Okay.

76

00:14:32.070 --> 00:14:43.449

Village of Parish: Alright, janitor. We got a real nice little janitor right now I was talking to

77

00:14:43.660 --> 00:14:54.079

Village of Parish: turns out her boyfriend, and he mentioned it to her. She used to run a cleaning service or something, and so she lives nearby, and it just worked out. I was just talking it

78

00:14:54.080 --> 00:15:18.770

Village of Parish: to people I know who is part time gigs, and you know it's not a lot of money, but it's something

79

00:15:18.770 --> 00:15:48.150

Village of Parish: payroll

80

00:15:48.150 --> 00:16:14.670

Village of Parish: the reschedule breakdown which you know has it. It's all based on bills all based on how many employees and pay schedule or something monthly by week. Weekly. I didn't see I didn't see any quarterly rates there, cause that's how we're paying yeah, that that this is the standard one. You didn't have time to Taylor Taylor. But yeah, so for us, then that'll be even less so you could take the something monthly for that, and then deduct even less. You know.

81

00:16:32.730 --> 00:16:38.109

Village of Parish: you know, most of our employees are quarterly, as it turns out,

82

00:16:39.030 --> 00:17:06.859

Village of Parish: because that would be monthly 50. So

83

00:17:06.859 --> 00:17:26.250

Village of Parish: every month. So the quarter, the base rate record is 1, 75. But that's if, which is on the next page. But that's if there's no payroll. So for like 0 activity. So we would just basically probably pay that 58, once a quarter, and then the 51 have. you know every payroll.

84

00:17:26.380 --> 00:17:29.789

Village of Parish: So 102 a month for that. Well, I mean

85

00:17:30.640 --> 00:17:38.260

Village of Parish: interface. Well.

86

00:18:01.710 --> 00:18:17.649

Village of Parish: paycheck irs.

87

00:18:17.750 --> 00:18:24.260

Village of Parish: website, file it log in the T. And a account, because that's where it comes from directly.

88

00:18:24.520 --> 00:18:28.979

Village of Parish: because when right now, when I'm doing payroll.

89

00:18:29.590 --> 00:18:38.239

Village of Parish: I do check from the general fund over to DNA to deposit, which amounts to that covers of payroll people, services, the

90

00:18:38.360 --> 00:18:43.009

Village of Parish: taxes on employment, insurance, social security, and Medicare, and the

91

00:18:43.140 --> 00:19:08.170

Village of Parish: since New York, March 30 first quarter returns.

92

00:19:08.170 --> 00:19:17.709

Village of Parish: and then, what whoever we bring payroll to will enter, and everything after the fact essentially so, they'll enter their first quarter stuff, and then the April, you know.

93

00:19:17.710 --> 00:19:28.200

Village of Parish: If he takes over, he'd enter in April's payroll and their system, and then they take over all the quarterly and everything. After that they file everything. So they they so their way. So

94

00:19:29.260 --> 00:19:35.620

Village of Parish: okay, so I wouldn't have to. I wouldn't be filing because New York State mandates that file online electronically.

95

00:19:35.840 --> 00:19:46.900

Village of Parish: And the Irs is also they don't mandate. I mean, you can follow through the software. Or you could do a paper. You could send the paper return, I think, from the 9 41. But the 45 requires to say requires that you correct. Well, actually.

96

00:19:47.480 --> 00:19:54.920

Village of Parish: but they could work. They'll work with you, and right whatever, when I'm saying right, whatever the controller requires, or whatever whether you wanna send in a chat as well as well.

97

00:19:55.030 --> 00:19:57.989

Village of Parish: That's I guess my question would be.

98

00:19:58.040 --> 00:20:00.220

Village of Parish: they're filing the paperwork

99

00:20:00.230 --> 00:20:06.259

Village of Parish: for us. But are they making the payment come out of our checking account, or Tna Fund

100

00:20:06.570 --> 00:20:35.410

Village of Parish: has an issue with nobody should be wandering around in my my account for right? Correct from the general account. Yeah, so they could just set up the payment to the Fts payment monthly file, or I'm assuming, well, right now I file it monthly, and then all I do is with Quarterly 941 time

101

00:20:35.410 --> 00:20:40.759

Village of Parish: comes out. I just basically sign it, print it. My name, my title, phone number.

102

00:20:41.010 --> 00:20:55.209

Village of Parish: copy, mail it off. Now, is that so? Yeah, we could follow them. They go back and forth because they could do that for you, too. They could E file the 941, I mean, the payments are being made. So if you don't know anything on return, you just e file the file, the 941. They're not a problem.

103

00:20:55.210 --> 00:21:19.480

Village of Parish: But I mean, unless it's unless you have to sign it also need to be turned over the county because most of keep sending

104

00:21:19.690 --> 00:21:22.310

Village of Parish: emails out just like nice. Wait

105

00:21:22.380 --> 00:21:43.620

Village of Parish: down the road. So

106

00:21:43.860 --> 00:21:45.350

Village of Parish: yeah, but

107

00:21:46.200 --> 00:22:07.310

Village of Parish: we could, we could hold off and get more quotes if you guys wanted or or you guys, gonna I don't wanna make a motion on anything, since it's somebody that I know.

108

00:22:07.560 --> 00:22:11.140

Village of Parish: and I didn't know why

109

00:22:11.780 --> 00:22:29.819

Village of Parish: they wanted me to make him an admin. II make him admin gentleman, send them right over to me, he said. Oh, you're you have privileges.

110

00:22:29.820 --> 00:22:51.410

Village of Parish: So then I needed a call, so I call the company back, and another people. Oh, you can't access them. So I'm thinking that this is not a company I want to work with

111

00:22:51.410 --> 00:22:54.029

Village of Parish: Deck and Benson.

112

00:22:54.590 --> 00:23:11.700

Village of Parish: I don't know whether it says, be considered, or just say that if the if the prices can match our unusual payroll requirements being quarterly, because we don't know that officially from this that we go ahead and use them transfer to them

113

00:23:11.980 --> 00:23:22.950

Village of Parish: cheaper than what we're paying right?

114

00:23:31.570 --> 00:23:48.319

Village of Parish: Oh, I just because I know him. I don't want. I don't want to be so you're abstain. And so I would have to.

115

00:23:48.380 --> 00:23:49.990

Village of Parish: Good morning.

116

00:23:50.520 --> 00:23:52.810

Village of Parish: alright.

117

00:23:54.550 --> 00:24:08.849

Village of Parish: Hey, Steve, this is gonna have to do with one of our laws, and I'll have you look at over the sewer law. We would like to check. Charge them for 4 sewer units.

118

00:24:09.070 --> 00:24:33.240

Village of Parish: dunkin donuts.

119

00:24:33.240 --> 00:24:41.259

Village of Parish: and for the other place. So our rule typically those, if you're one sewer connection. But at the same token

120

00:24:41.260 --> 00:24:59.829

Village of Parish: they have greater usage. They got. So they got 2 bathrooms 4 toilets in each or 2 toilets, and then they've got the sinks and the usage for Duncan and Subway.

121

00:24:59.830 --> 00:25:12.810

Village of Parish: 2 full kitchens and yeah, 2 full, 2 full bathrooms and 2 full kitchens at least 4. There used to be a house between where whereabout was

122

00:25:12.940 --> 00:25:16.180

Village of Parish: and the other Glenden property that was tore down.

123

00:25:16.480 --> 00:25:24.390

Village of Parish: So we lost 2.

124

00:25:26.780 --> 00:25:33.679

Village of Parish: Sure, I'm not sure it was a few years ago. Moreavid realized that they were paying on an empty box, so they submitted

125

00:25:34.000 --> 00:25:38.869

Village of Parish: requisition, or they appeared in front of the board at that time and board.

126

00:25:38.970 --> 00:25:55.540

Village of Parish: Relieve that that property off. So I'm showing that one as an inactive property. Now, when they did their expansion to what they look like now, they did tear down the wind and house, which was one viable sewer unit. So yes, they did tear that house down.

127

00:25:55.840 --> 00:26:06.249

Village of Parish: So I also have that one as enacted because it was capped. which I got information from Canada Group that it was appropriately capped. And there's nothing at that lot now.

128

00:26:07.880 --> 00:26:28.119

Village of Parish: So anyways, again, it's my assumption that it's the village board and the group that determine what the regulations are. I was online, and I couldn't determine whether it was the most current

129

00:26:28.400 --> 00:26:43.590

Village of Parish: December

130

00:27:02.410 --> 00:27:34.990

Village of Parish: restaurant to me. But obviously I need to take a look at the law. People travel.

131

00:27:34.990 --> 00:27:49.469

Village of Parish: Yeah.

132

00:28:00.520 --> 00:28:12.230

Stephen Ganetis: sure screaming restaurant to me, but I'll take take a look. Send me over everything but it. Everything that honestly kind of almost seemed like it was a restaurant before.

133

00:28:12.300 --> 00:28:20.800

Village of Parish: I guess, just as far as.

134

00:28:20.820 --> 00:28:49.289

Village of Parish: or dine in, so as far as the dine in aspect of a restaurant. I mean, what was there like? Maybe 2 small tables legally, how do we get to bill them for 4?

135

00:28:49.290 --> 00:29:10.610

Village of Parish: It doesn't matter what the regulation. Well, what do they build for now? One and a half God

136

00:29:10.610 --> 00:29:32.739

Stephen Ganetis: might need to provide advanced notice. We're going to do something like that. So that's the thing can't just retroactively change things. So yeah, we'll see what the notice requirement is for it. Then maybe we'll that's where we'll work from.

137

00:29:32.820 --> 00:29:48.450

Village of Parish: Okay, awesome. I will be probably working on that March night to send out the

138

00:29:48.640 --> 00:30:05.510

Village of Parish: letter sent to them. We send a letter, I mean, we have our meeting next week. Maybe I don't know what's the advance notice of a

public meeting. Yes, it will go into the address that I have on the phone. It's probably too short, because that'd be less than 7 days, or whatever we're supposed to have at least a week event and close a letter with the bill saying that we're

139

00:30:05.540 --> 00:30:21.709

Village of Parish: considering raising it to 4 because 2 restaurants in the gas station.

140

00:30:21.750 --> 00:30:38.150

Stephen Ganetis: My assumption is, it's going to be. We're going to need to do a 30 day or something. Notice along those lines of based upon. We intend to increase your rate. Please submit any objections that you might have to this by subst and such time, and then that'll just cover our. But

141

00:30:38.170 --> 00:30:45.430

Stephen Ganetis: that's my guess. But obviously I need to see everything to make sure we're doing everything right. But that's what my expectations gonna be.

142

00:30:45.970 --> 00:30:46.790

Village of Parish: Alright.

143

00:30:47.770 --> 00:30:57.150

Village of Parish: Okay, alright. So any more discussion on that.

144

00:31:24.480 --> 00:31:52.830

Village of Parish: That's weird.

145

00:31:54.170 --> 00:31:59.569

Village of Parish: Yes, I know.

146

00:31:59.610 --> 00:32:04.079

Village of Parish: So how are how are you?

147

00:32:25.880 --> 00:32:32.870

Village of Parish: II have a question. So if someone goes to vote and they take and they color it in.

148

00:32:32.960 --> 00:32:34.400

Village of Parish: they don't put an X.

149

00:32:34.620 --> 00:32:36.599

Village of Parish: Is that legal? Not a leaveable.

150

00:32:57.450 --> 00:33:06.319

Village of Parish: So we'll see how many people follow the rules. And if the

151

00:33:07.190 --> 00:33:11.899

Village of Parish: X check or circle whatever we're going. Yeah.

152

00:33:12.080 --> 00:33:33.359

MY-PC: hey, everybody, hey? This is Doug Cleveland with a Queen central nose. How are you guys doing? Sorry to interrupt? I did, and that won't be long. I just wanted you to know if you. If you send in whatever you need put in, we'll get it right in. Okay, okay. If you got something that you need immediately for your election or whatever, please, we'll make sure we get it. Then. We haven't gone to pressure at this week.

153

00:33:33.420 --> 00:33:40.070

MY-PC: so thank you so much. Alright, hope it's all well, take care you, too. Thank you.

154

00:33:40.330 --> 00:33:42.889

Village of Parish: Yeah, I think, just leave it access. Traditional.

155

00:33:43.140 --> 00:33:53.840

Village of Parish: Yeah. I mean, I don't think there was an argument. It'd be like 2 options to go with them.

156

00:33:53.910 --> 00:34:02.050

Village of Parish: and when I think they what they do, they cut it. They give them scissors to cut off that top part, so they only put in the bottom

157

00:34:02.250 --> 00:34:05.190

Village of Parish: ballot and carbon. Yep.

158

00:34:05.490 --> 00:34:08.190

Village of Parish: you are. You're right. Yep.

159

00:34:08.270 --> 00:34:33.929

Village of Parish: just approve it.

160

00:34:33.929 --> 00:34:47.890

Village of Parish: Calculator. Take there for granted, and just let me know who is going to be the.

161

00:34:48.280 --> 00:34:50.110

That's what I'm looking for.

162

00:34:50.469 --> 00:34:54.040

Village of Parish: Complimentary attendee, I guess. Okay, all right, you want it. You are on hold.

163

00:34:54.270 --> 00:35:07.150

Village of Parish: I right now I would be going as a planning board, but if the Board so wants to send me as the complimentary because of the sponsorship.

164

00:35:13.550 --> 00:35:17.120

Village of Parish: I have a motion to approve the election bill.

165

00:35:18.390 --> 00:35:27.210

Village of Parish: You make a motion, am I? I'll I'll make a motion that we approve. The election bill is presented. I second that motion.

166

00:35:42.010 --> 00:35:47.079

Village of Parish: Okay, alright. So this resolution

167

00:35:47.220 --> 00:35:51.940

Village of Parish: and I attended a classroom or a session with the webinar nikon.

168

00:36:16.080 --> 00:36:17.770

Village of Parish: That's what Kathy, hoping

169

00:36:34.960 --> 00:36:39.079

Village of Parish: I'll second that.

170

00:36:39.660 --> 00:37:03.770

Village of Parish: Yeah, yeah, we've already been. This is making an official. We're already pro pro housing. We want people to live in their houses here. That's the thing, you know, just like in that article. They put those apartments up

171

00:37:11.680 --> 00:37:22.729

Village of Parish: some of the groundwork. They're either water indoors. Sewer, I think. Yeah. Cause yeah. The water was on that side. The sewers on the other side. Yeah, they they replaced the waterline out there. They probably needed up to diameter.

172

00:37:22.850 --> 00:37:29.110

Village of Parish: you know, more pressure for up there and everything, and if they ran the sewer out that way also

173

00:37:40.920 --> 00:37:44.280

Village of Parish: from last May. this is our

174

00:37:44.720 --> 00:37:49.250

Village of Parish: yeah. We have vision. It says in there that they don't want cul-de-sacs.

175

00:37:49.630 --> 00:37:55.880

Village of Parish: so does that discourage? Does that violate that? I don't know. I'll have to find out

176

00:37:56.240 --> 00:38:19.090

Village of Parish: plan, or whatever

177

00:38:19.940 --> 00:38:25.689

Village of Parish: I don't. I don't think that'll be a be an issue.

178

00:38:25.780 --> 00:38:30.210

Village of Parish: Send, send in a letter of intent, and then they will send me a link

179

00:38:30.310 --> 00:38:43.619

Village of Parish: for the application

180

00:38:43.620 --> 00:39:03.029

Village of Parish: conflicts with this application, because we don't want to miss out on huge grants.

181

00:39:03.160 --> 00:39:19.039

Village of Parish: I guess maybe it's a spatial, because we only have so much space, you know available. Maybe it's something to do with that, because they do tend to use them a little more. Actually when they were threatening to rebuild Main Street for us. 20 years ago.

182

00:39:19.790 --> 00:39:21.970

Village of Parish: The traffic engineers explained that

183

00:39:22.360 --> 00:39:28.259

Village of Parish: when you get to the village, what they do is they make the streets just a little bit narrower, and at least

184

00:39:28.460 --> 00:39:30.170

Village of Parish: the perception is

185

00:39:30.920 --> 00:39:42.240

Village of Parish: density slows people down.

186

00:39:42.650 --> 00:40:02.930

Village of Parish: Well, they allow for that.

187

00:40:03.160 --> 00:40:18.000

Village of Parish: alright, is there a way to get signs? Maybe, like slow down children at play or something, maybe maybe appeal to their their moral conscience

188

00:40:18.100 --> 00:40:20.580

Village of Parish: because it's been a wild one.

189

00:40:20.700 --> 00:40:30.100

Village of Parish: Alright. So let's see how that tile is out there. And I wanted to put in a new floor. We have to watch our spending, I know

190

00:40:30.260 --> 00:40:48.299

Village of Parish: so. But you know there's only one and a half tile is really bad, and there's 2 different tiles out there. So I just like to maybe pick up a couple of samples and put it down there for the time being only because, Henry excuse me, he comes in from 9 or the insurance people. I'm sure he's gonna say that as a safety deal

191

00:41:08.810 --> 00:41:18.009

Village of Parish: storefront the guys who came and did my kitchen floor were both parish guys.

192

00:41:18.240 --> 00:41:36.499

Village of Parish: I mean.

193

00:41:36.500 --> 00:41:54.839

Village of Parish: you know, overall. If we don't go with anything real crazy now, then, we don't need any or we just get another runner.

194

00:42:14.810 --> 00:42:22.909

Village of Parish: So I know with the gym. and the gym is getting a heck of a lot of you sign happy about it. I mean, I was here

195

00:42:23.330 --> 00:42:29.479

Village of Parish: 5 min to 8 last night, open up for people that asked me to. They could come around and do the job.

196

00:42:30.400 --> 00:42:32.240

Village of Parish: I can't say no.

197

00:42:33.300 --> 00:42:37.869

Village of Parish: We're hammering our kids, you know, with what's going on. So

198

00:42:37.890 --> 00:43:05.230

Village of Parish: I'm sorry if I can come down here and open the gym, so the voice can come in here and play for a couple of hours. Break. I am more than happy to do it. Alright. So this is these people that I let in last night. They have so far put in 2. They put in new backboards and new rooms, and he wants to put in a new floor.

199

00:43:05.290 --> 00:43:12.739

Village of Parish: Jim, and he he knows that he can get because he's working with another girl down at the insurance agency

200

00:43:12.860 --> 00:43:37.519

Village of Parish: donations.

201

00:43:44.540 --> 00:43:55.599

Village of Parish: The room has a lot of power. Yeah.

202

00:43:55.600 --> 00:44:14.209

Village of Parish: Chuck Schumer. I was in the gym, and they come through the hallway. They shake some hidden, and they get to the point where you look in the gym. Their faces both lit up. It's like you just and and little children when they come to this thing. Yeah, the uncontrollable urge to run around almost invariably.

203

00:44:44.040 --> 00:45:07.919

Village of Parish: Oh, yeah, that's great.

204

00:45:08.370 --> 00:45:10.680

Village of Parish: just from some of so. But

205

00:45:10.770 --> 00:45:23.850

Village of Parish: can you ask me if I mind? I said. You know I can tell you. Yeah, go ahead and do the backwards and the rooms. I can't give them. An okay.

206

00:45:43.330 --> 00:45:58.819

Village of Parish: we're not allowed.

207

00:45:59.030 --> 00:46:09.320

Village of Parish: Well, either way, we thank him on behalf of the

208

00:46:09.430 --> 00:46:33.510

Village of Parish: playing ball and

209

00:46:33.540 --> 00:46:34.650

Village of Parish: colleague.

210

00:46:35.290 --> 00:46:42.769

Village of Parish: Maybe she meant unsupervised, like I know some place used to have a hall or whatever the

211

00:46:42.850 --> 00:46:59.409

Village of Parish: village I grew up next to, or whatever I had. You know somebody, somebody there, a monitor, or whatever for certain hours of the night, because you can't just have kids

212

00:46:59.450 --> 00:47:06.020

Village of Parish: kids recreationally, if you'd like, spent 2 grand put up 2 grand to hire

213

00:47:06.860 --> 00:47:07.720

Village of Parish: kid

214

00:47:07.860 --> 00:47:10.159

Village of Parish: who just graduated with a degree in

215

00:47:10.240 --> 00:47:40.000

Village of Parish: from Portland. Maybe maybe during the summer, when the kids are

216

00:47:40.000 --> 00:47:50.960

Village of Parish: yeah summer job. Maybe it's 6 HA week, you know, 2, 3 h sessions during Tuesdays and Thursdays at the gym. 6 to 9 all summer.

217

00:47:50.970 --> 00:47:58.139

Village of Parish: It'd be great 3 houses up on this side. 54,

218

00:47:58.480 --> 00:47:59.829

Village of Parish: the road to go up or

219

00:48:00.140 --> 00:48:02.039

Village of Parish: tower there. I

220

00:48:02.110 --> 00:48:07.489

Village of Parish: not quite. I think there's one house in, or something like that. But he's got 2 boys, I think.

221

00:48:07.500 --> 00:48:09.760

Village of Parish: and he was a coach or something.

222

00:48:10.040 --> 00:48:15.460

Village of Parish: so he might be interested in. He was asking about the gym. Well, somebody, some kind of

223

00:48:15.620 --> 00:48:22.790

Village of Parish: person who's been a coach at a New York State school is. you know, credentialed in research out the Wazoo

224

00:48:22.810 --> 00:48:30.220

Village of Parish: and would be safe to hire from a you know, from our standpoint, not creating any more liability than we can deal with absolutely.

225

00:48:30.530 --> 00:48:36.759

Village of Parish: He he might, you know, work with us. He might have to do it for nothing.

226

00:48:43.140 --> 00:48:45.590

Village of Parish: Proposal?

227

00:49:01.210 --> 00:49:04.300

Village of Parish: tenant. Yeah.

228

00:49:04.600 --> 00:49:09.330

Village of Parish: Oh, well, their records and our records all in this building, and

229

00:49:09.480 --> 00:49:19.709

Village of Parish: of course no one will ever damage and safety like, you know, you guys gotta gotta have someone responsible looking over. I've done that. No, do I get a key

230

00:49:43.170 --> 00:49:44.590

Village of Parish: life and access?

231

00:49:50.280 --> 00:50:01.160

Village of Parish: Because it's a commercial

232

00:50:01.200 --> 00:50:03.710

Village of Parish: thing where? Yeah, it was

233

00:50:03.830 --> 00:50:06.110

Village of Parish: a computerized block system. And

234

00:50:06.140 --> 00:50:11.629

Village of Parish: it would be, you know, authorized for certain people at a certain time. Even you know

235

00:50:11.710 --> 00:50:15.409

Village of Parish: the the direct director that we don't have wouldn't be able to come in.

236

00:50:15.770 --> 00:50:22.570

Village of Parish: you know, at 30'clock in the morning on Sunday, you know. There's no reason for me or it would.

237

00:50:22.720 --> 00:50:29.859

Village of Parish: But it was really expensive. Yeah, and it's computer crap. And it will be updated in 2 years. And you get another one. Yeah, it just puts you on a

238

00:50:30.130 --> 00:50:54.399

Village of Parish: a capital intensive treadmill. The technology fails and you have to replace. And then someone's gonna coordinate on all the worst case scenarios. We have to change the lock and replace all the keys. Someone lost some keys. This was actually in discussion last year around this time, actually, right after I started working with the Tom to come up with ideas and everything, and then it ended up just being not cost effective

239

00:50:54.400 --> 00:51:18.149

Village of Parish: to to revamp the system that way. We just went with more keys, and you know the include the town officials right next door. And you know, so if there's a problem with the mayor's availability, is she not able to let people in, or whatever I'm I'm down there I'm

240

00:51:18.200 --> 00:51:29.090

Village of Parish: trustees

241

00:51:29.690 --> 00:51:45.909

Village of Parish: for for now I mean in another row. If it gets to where, like people are scheduled out all day long, you know, on weekends and everything. Then maybe the cost would be II you know more. You know what I do. A lot is, I come down a lot of them.

242

00:51:45.910 --> 00:52:10.530

Village of Parish: and then I make sure all, and then I lock it up so I don't have to come back.

243

00:52:31.080 --> 00:52:33.359

Village of Parish: Who's on with us, just Steve. Now.

244

00:52:33.650 --> 00:52:48.579

Village of Parish: right now, just the

245

00:52:49.100 --> 00:52:56.499

Village of Parish: should we have some sort of sign in? So you know what kids are here for the basketball

246

00:52:58.200 --> 00:53:13.449

Village of Parish: that will they have to fill out a contract.

247

00:53:14.090 --> 00:53:17.450

Village of Parish: So anyway, so we have this, the 2 big issues that

248

00:53:17.770 --> 00:53:20.940

Village of Parish: one woman came in and she says this house, and it was.

249

00:53:20.980 --> 00:53:29.860

Village of Parish: But this is what I would. Didn't know whether to put it into executive session, and I just won't mention any names. This is what's hard for me is when you know somebody, and that's involved in the situation

250

00:53:30.110 --> 00:53:33.860

Village of Parish: right? This house in our village is supposedly

251

00:53:34.620 --> 00:53:39.830

Village of Parish: a lot of nothing going there. People are complaining about that. So I

252

00:53:39.860 --> 00:53:50.749

Village of Parish: call the sheriff, he said. He's gonna watch it. But you know the fact that I know the person, and I know what people are told me is true. I don't know what I feel bad because I don't. Wanna

253

00:53:51.290 --> 00:53:53.339

Village of Parish: but I don't want to.

254

00:53:53.400 --> 00:54:16.179

Village of Parish: The outrageous somebody. I like to be fair. However, I need to be fair to the other people that are being. The guy is 91 years old, and he's being woke up in the middle of night and on the weekends.

255

00:54:16.430 --> 00:54:29.449

Village of Parish: Well, I was gonna say, well, how how was this ended up? And to this I was gonna tell you how everything went in the circle for me to get to this point. So I call the sheriff, and he says

256

00:54:29.480 --> 00:54:44.940

Village of Parish: they're aware of the situation. But they need to, captain, he said. They're gonna keep trying to keep. And I said, evidently most of it happens on the weekend, and that was the house that was condemned. They had to put the power back into the place because our children but it's not the owner of the house.

257

00:54:46.400 --> 00:54:57.100

Village of Parish: She has other people living there. But I guess you go. You drive by there, and it's a it is a massive name, and I realize here's her house, and my house is over here. I

258

00:54:57.180 --> 00:55:13.310

Village of Parish: it's worrisome, because, you know, I don't mind if any anyone they can smoke potful calls. Come on, but when we're talking now, if people get crazy on that stuff, yeah, and you cannot reason with reason with them. So I called the share. Often, he said, he's gonna help me out.

259

00:55:13.510 --> 00:55:19.210

Village of Parish: I don't know what else we can do and say it's good to call. If if you have some.

260

00:55:19.700 --> 00:55:22.619

Village of Parish: I want to say more than substantial proof

261

00:55:23.280 --> 00:55:25.360

Village of Parish: reported to the Dea

262

00:55:25.470 --> 00:55:34.199

Village of Parish: Drug Enforcement Agency. Sheriff might get mad because they don't like a Federal agency to come in.

263

00:55:34.950 --> 00:55:56.490

Village of Parish: Montgomery, one of his grandkids, get hurt.

264

00:55:56.610 --> 00:56:02.589

Village of Parish: He's gonna take action and ask questions later, and then speeding is bad in the village. So I call.

265

00:56:28.280 --> 00:56:30.819

Village of Parish: But as soon as they see us they slow down.

266

00:56:31.050 --> 00:56:38.110

Village of Parish: but they always both of them have told me several times they don't have the manpower. So then, he suggested, I call the company

267

00:56:38.480 --> 00:56:42.070

Village of Parish: I called the county guy, and he says, really, we can't do anything for you.

268

00:57:29.340 --> 00:57:31.960

Village of Parish: and it's unique. From what I've seen so far.

269

00:57:32.220 --> 00:57:34.530

Village of Parish: because once you go over the speed limit.

270

00:57:34.700 --> 00:57:58.830

Village of Parish: It does flashing lights like it's a cop car.

271

00:57:58.830 --> 00:58:06.750

Village of Parish: You're under surveillance, or maybe under police car

272

00:58:52.490 --> 00:58:57.650

Village of Parish: gets a 3, gets a 600 lawyer to come down here and challenge

273

00:58:57.920 --> 00:59:03.399

Village of Parish: the validity of the radar or something, and blah blah blah, and so they they

274

00:59:03.560 --> 00:59:06.979

Village of Parish: please bargain it down to some non-moving violation.

275

00:59:08.120 --> 00:59:23.639

Village of Parish: No.

276

00:59:23.800 --> 00:59:24.660

Stephen Ganetis: for

277

00:59:25.150 --> 00:59:27.700

Village of Parish: it's ridiculous, and then they'll stop speeding.

278

00:59:28.550 --> 00:59:38.739

Village of Parish: Well, they still have to pay the attorney, and they have to pay some type of fine, or for the attorneys.

279

00:59:38.740 --> 01:00:12.640

Village of Parish: you know, I mean, at the same time, that's a deterrent, though I mean it's still costing the money, no matter what right I mean. Nobody, I mean, but the point of a licenses. because, yeah. But the thing is is that you always gotta think about the innocent person or the person.

280

01:00:13.120 --> 01:00:16.830

Village of Parish: I don't know how to make people slow down the

281

01:00:18.550 --> 01:00:40.989

Village of Parish: I think the digital come down Writer Street, and I forget that it's 30 miles way out there, and I I'm almost at the church there. And Whoa!

282

01:00:40.990 --> 01:00:54.749

Village of Parish: I'm 69 going.

283

01:00:54.750 --> 01:00:59.350

Village of Parish: That's a question

284

01:00:59.350 --> 01:01:12.070

Village of Parish: I just

285

01:01:12.820 --> 01:01:19.610

Village of Parish: I wanted to share with you. The town of Orwell actually bought one of those signs, and they're not terribly expensive.

286

01:01:44.540 --> 01:01:51.270

you know, and I have 2 kids of my own. So you know, if anything we go out of the road, but we've got everybody look away

287

01:02:11.080 --> 01:02:36.840

Village of Parish: they come around that corner. Well, that's they come around that corner about 50 miles an hour.

288

01:02:36.840 --> 01:03:00.799

Village of Parish: and when those tractor trailers come through and they did, they don't

289

01:03:01.080 --> 01:03:06.340

Village of Parish: continue this next month. Alright, so alright! Alright! So we need to

290

01:03:07.900 --> 01:03:32.780

Village of Parish: now. So look at. There's probably some regulations like that, some like we could just get one online, or whatever it's gonna be New York Department of Transportation group or something, I mean, because then we're talking about putting it on just the bills roll or like on New York. Well, if we apparently if we get the \$500 one. It's gotta go on the state road anywhere. But so it's gonna be

291

01:03:57.650 --> 01:04:05.700

Village of Parish: so. I make a motion that we enter executive session to discuss the water project proposals. Alright.

292

01:04:20.410 --> 01:04:28.460

Village of Parish: alright

293

01:04:29.120 --> 01:04:30.409

Village of Parish: thinking is that

294

01:04:30.560 --> 01:04:32.889

Village of Parish: my PC. Has dropped off.

295

01:04:33.540 --> 01:04:36.580

Village of Parish: So the only computers in session right now are this one?

296

01:04:55.330 --> 01:05:02.469

Village of Parish: Yes.

297

01:05:02.660 --> 01:05:08.290

Village of Parish: yeah, we can't. You're right. I'll have to make the motion to go. Okay for the recording. Right? Yeah.

298

01:05:09.580 --> 01:05:10.250

Village of Parish: And

299

01:05:11.040 --> 01:05:13.809

Village of Parish: so we're we're rolling. You are rolling out. Okay.

300

01:05:14.220 --> 01:05:23.199

Village of Parish: I'll make the most. Is the engineer for a water project.

301

01:05:25.060 --> 01:05:30.580

Village of Parish: I second that motion. I don't know. We had 4 yeses, and one know.

302

01:05:31.730 --> 01:05:35.269

Village of Parish: Hi.

303

01:05:38.600 --> 01:05:42.410

Village of Parish: goodness to take care of in the morning.

304

01:05:44.270 --> 01:05:45.190

Village of Parish: Alrighty

305

01:05:46.060 --> 01:05:50.959

Village of Parish: calendars! We're gonna meet on Monday for what?
Meeting for the

306

01:05:51.580 --> 01:05:54.120

Village of Parish: general fund. Finish up what we started.

307

01:05:54.850 --> 01:06:02.130

Village of Parish: and then we put in the paper that we were gonna meet
every other week. So I think every other Monday is.

308

01:06:02.260 --> 01:06:08.930

Village of Parish: and I think we're doing pretty well, I think we'll be
alright if we just meet every other every other week.

309

01:06:09.520 --> 01:06:12.260

Village of Parish: What do you guys say? Yeah, I mean, I feel like we're

310

01:06:12.280 --> 01:06:28.999

Village of Parish: half of the meeting will absolutely we're done just
one more for the general draft. And then one after that.

311

01:06:29.570 --> 01:06:35.849

Village of Parish: So we're gonna know. Okay, so we're not gonna meet the
fourth thing. So we're meeting the 11, 6,

312

01:06:45.550 --> 01:06:50.499

Village of Parish: and then we'll have our public hearing on the
fifteenth of April for the budget.

313

01:06:54.650 --> 01:06:56.360

Village of Parish: Texas will be done. So.

314

01:07:10.510 --> 01:07:24.590

Village of Parish: okay, so we're ready for the the motions of the funds.
Alright. So I make a motion that we accept general phone vouchers number
1, 40 to 1 52 in the total amount of \$7,849 and 30 assignments.

315

01:07:25.190 --> 01:07:26.250

Village of Parish: Second.

316

01:07:26.370 --> 01:07:27.090

good.

317

01:07:27.440 --> 01:07:29.970

Village of Parish: Okay, good. But listen.

318

01:07:30.320 --> 01:07:39.080

Village of Parish: I make a motion that we accept vouchers who are fun vouchers number 95 to 106 on the total of \$10,003 and 31 cents.

319

01:07:39.680 --> 01:07:40.680

Village of Parish: I'll second it

320

01:07:42.250 --> 01:07:46.299

Village of Parish: all in favor. Aye.

321

01:07:46.480 --> 01:07:52.049

Village of Parish: 76 to 82,

322

01:07:52.210 --> 01:07:55.730

Village of Parish: \$2,629, and 17 cents.

323

01:07:59.520 --> 01:08:04.689

Village of Parish: and voucher numbers. But the I make a motion to read

324

01:08:04.730 --> 01:08:07.100

Village of Parish: 2 different ones for the

325

01:08:08.140 --> 01:08:11.249

Village of Parish: we have Hades and falls.

326

01:08:11.330 --> 01:08:15.400

Village of Parish: Yeah, you may. You may have 3. I think you've got the bill there

327

01:08:15.510 --> 01:08:17.490

Village of Parish: or the center rivers

328

01:08:17.870 --> 01:08:22.609

Village of Parish: post sponsorship. That's then they're they're

329

01:08:22.970 --> 01:08:36.980

Village of Parish: might be 2 separate, because there's a range of bills closed out 2,023, and then she submitted. January 2024. So I don't know if might want to make those 2 separate.

330

01:08:47.939 --> 01:08:48.649

Village of Parish: Thank you.

331

01:08:48.920 --> 01:08:59.160

Village of Parish: Okay. So I make a motion that we approve the Samen River, all free vouchers alright, and the total of 1,504 and 41 cents

332

01:09:00.729 --> 01:09:01.760

Village of Parish: alright

333

01:09:04.229 --> 01:09:12.709

Village of Parish: motion to adjourn and make a motion to adjourn. I second that motion.

334

01:09:14.620 --> 01:09:20.460

Village of Parish: Yeah, we got a lot of interplay.
