00:01:41.010 --> 00:01:53.670

Village of Parish: No Okay, we didn't receive a copy of the library minutes which probably should have every month, but they did forward them to us this past January.

14

00:01:55.590 --> 00:02:04.500

Village of Parish: I also received information from the planning board, there were some concerns that they wanted lighting are concerned that there would be lighting at all.

15

00:02:05.760 --> 00:02:13.770

Village of Parish: street corners now I don't know what all street corners are, I think we have to do a one to trigger a while, let me see.

16

00:02:14.970 --> 00:02:27.870

Village of Parish: 1234567 I think the only one that doesn't have a light on it.

17

00:02:30.750 --> 00:02:33.270

Village of Parish: Union street next to.

18

00:02:36.030 --> 00:02:47.490

Village of Parish: Next to writers think that's the only one that doesn't have one the planning board as well, they didn't ask, but they, in their minutes and had some concerns that that was one of the concerns in front of the board.

19

00:02:48.660 --> 00:02:53.010

Village of Parish: And then the other concerns of water being brought into the village.

20

00:02:55.710 --> 00:02:57.570

Village of Parish: I don't know where it went, but that was just.

21

00:02:57.780 --> 00:02:59.190

included in the Minutes.

22

00:03:00.510 --> 00:03:11.700

Village of Parish: Also, I received a flyer here for my COMP legislative program and they went through and in their discussion of this list of priorities.

23

00:03:13.440 --> 00:03:32.190

Village of Parish: Stating crusade to cities and villages another one provide dedicated funding for local water and sewer infrastructure, there is a follow up discussion on each of these topics if you're interested in having those increase highway funding were some of the issues that may come.

24

00:03:33.450 --> 00:03:35.820

Village of Parish: highlighted text caps.

25

00:03:39.390 --> 00:03:40.200

Village of Parish: Our insurance.

26

00:03:42.330 --> 00:03:46.110

Village of Parish: Company, I can I come as a New York conference America so.

27

00:03:47.370 --> 00:03:50.730

Village of Parish: When there's 10 items here the same list of his priorities but.

28

00:03:51.930 --> 00:04:00.300

Village of Parish: Dedicated funding for local water and sewer structure happens need to demonstrate an emergency situation and that's simply.

29

00:04:01.710 --> 00:04:11.850

Village of Parish: The need to prevent an emergency, and I think we've reached that point that we might at that point, so that was rather fitting.

30

00:04:13.050 --> 00:04:28.830

Village of Parish: And we receive a bill for the membership dues, which we put up to June 20 consecutive year, there will be no increase in I can do this, which is good to hear, as everything else is heading in an upward direction.

31

00:04:30.240 --> 00:04:33.450

Village of Parish: is held steady studies will be.

32

00:04:40.470 --> 00:04:45.480

Village of Parish: Continuing whole system here to our kingdom report.

33

00:04:52.320 --> 00:04:57.060

Village of Parish: Alright, so I mean Basically, we know that.

34

00:04:58.620 --> 00:05:01.380

Village of Parish: We are now in the failure mode.

35

00:05:02.640 --> 00:05:21.000

Village of Parish: Basically we're not getting any air to that that tank that we've been talking about the south Texas very little air it's grey it's just again it's not doing us any favors so we're failing everything the DC obviously is aware of it i've talked to Tom video and he's you know.

36

00:05:23.190 --> 00:05:27.120

Village of Parish: it's a series of unfortunate events that were in a catastrophic failure.

37

00:05:27.810 --> 00:05:41.190

Village of Parish: Especially since he voice his frustration I voice my frustration and time i've been working on this for five years, I knew this day was coming but we don't get any money until we fail and then, when we fail it finally lot of young.

38

00:05:42.450 --> 00:05:56.880

Village of Parish: decided to just go home so we're in that mode and he understood that he said just do me a favor try and try and try to get this thing back up as fast as possible, so in my conversation with him and was involved also.

39

00:05:59.580 --> 00:06:06.870

Village of Parish: I said we're going to be presenting the board tonight with prices, and I believe the Board will be acting on it, he said, please much report exotics.

40

00:06:07.470 --> 00:06:24.060

Village of Parish: First, import tax he's he's in a weird situation because our permission, so you understand, are actually EPA permits are actually liberties permits but, but in the State of New York, the State made an agreement with the EPA that they would police it and now.

41

00:06:25.320 --> 00:06:27.780

Village of Parish: States elimination district permit.

42

00:06:29.610 --> 00:06:45.300

Village of Parish: The national elimination so as part of that agreement, though the EPA still police's the DC and if the EPA seeds of plants or something getting out of hand they start writing the DC so he's getting written now.

43

00:06:46.770 --> 00:06:47.460

Village of Parish: The DC times.

44

00:06:48.600 --> 00:06:55.440

Village of Parish: he's getting pressure from the he was getting frustrated, welcome to our exactly that's what I said I said well.

45

00:06:56.310 --> 00:07:04.470

Village of Parish: Oh wow very frustrated because we've been trying it's not like we haven't tried taking mail to check tomorrow we'll take care of it.

46

00:07:05.310 --> 00:07:19.140

Village of Parish: So we've been trying for years and it falls on deaf ears, because we haven't failed now that we're feeling, oh no it's a big emergency, this is the way that this system is the most backup system, so I don't Have you ever heard the conversation.

47

00:07:20.640 --> 00:07:33.300

Village of Parish: You and I were having the we've got to we've got a couple of proposals for doing the airline one came in at \$59,000 and the other came in at \$52,000.

48

00:07:35.430 --> 00:07:35.970

Village of Parish: So.

49

00:07:37.350 --> 00:07:48.450

Village of Parish: i'm going to work, I think the bigger use when you steal Okay, and you still can go around the tank and drop the drops in all of that good stuff.

50

00:07:49.500 --> 00:07:54.330

Village of Parish: I think so Tom was a significant there was no significant difference in their proposals right out of the price.

51

00:07:55.620 --> 00:08:06.420

Tom B: um no they were they were exactly the same, that the drops the even the diffusers are the same, everything is the same as far as pipe and diffusers and drops and bells.

52

00:08:07.650 --> 00:08:08.580

Tom B: Exactly the same.

53

00:08:09.780 --> 00:08:19.950

Village of Parish: So that's us we go mechanical you had jr Dudley contracting gave you the price for 59,000 so we go mechanical was the price for 52 was to change up.

54

00:08:20.490 --> 00:08:22.590

Tom B: 52 three, I think, and I think.

55

00:08:23.790 --> 00:08:31.290

Village of Parish: Dudley was 6969 5969 good oh.

56

00:08:31.500 --> 00:08:35.940

Tom B: yeah I think they were there well dudley's a little bit bigger company and more.

57

00:08:36.330 --> 00:08:40.560

Tom B: geared toward doing bigger projects like other wastewater plants and stuff so.

58

00:08:41.580 --> 00:08:41.850

Tom B: yeah.

59

00:08:42.360 --> 00:08:53.220

Village of Parish: Alright, so what will they be doing the airlines yeah so to do that airline around that sound tank so that we can get air in that system and get us passing again that's really.

60

00:08:53.730 --> 00:08:54.510

Village of Parish: cheap and can.

61

00:08:55.530 --> 00:09:02.670

Tom B: You explain that that this what we're doing will also be available for the new project because we're going to be using those two tanks.

62

00:09:02.850 --> 00:09:03.840

Tom B: As it is already.

63

00:09:03.930 --> 00:09:05.280

Tom B: Situation okay good.

64

00:09:05.640 --> 00:09:06.480

Village of Parish: Sorry, told me that.

65

00:09:06.780 --> 00:09:16.350

Tom B: And the air is going to you know there'll be we'd have to do this anyhow to those tanks during the project, so I think it's refundable, so to speak.

66

00:09:16.380 --> 00:09:18.810

Village of Parish: Maybe yeah I was just gonna say maybe in his.

67

00:09:19.020 --> 00:09:19.800

Tom B: Creative.

68

00:09:20.190 --> 00:09:28.590

Village of Parish: In the way he writes it, we can get it funded, so the fact, so one was one price was was it really 69,000.

69

00:09:31.620 --> 00:09:37.980

Village of Parish: or so, so I switched over cannibals \$52,300.

70

00:09:42.450 --> 00:09:43.530

Village of Parish: Do you have that handy.

71

00:09:52.950 --> 00:09:54.240

Village of Parish: right here, I found it.

72

00:09:55.560 --> 00:10:02.070

Village of Parish: To my amazing filing system oh you're right \$69,900 69,000.

73

00:10:03.810 --> 00:10:04.350

Village of Parish: yeah Jay.

74

00:10:07.140 --> 00:10:08.940

Village of Parish: Jay Jay hardly.

75

00:10:10.320 --> 00:10:14.520

Village of Parish: john are godly they are in us we go to New York and so as as we.

76

00:10:15.810 --> 00:10:16.050

Village of Parish: know.

77

00:10:17.640 --> 00:10:26.220

Village of Parish: Why would it be such a significant difference like Tom said dudley's really designed to do big jobs, I got higher overhead that us with a mechanical.

78

00:10:27.270 --> 00:10:30.780

Village of Parish: mechanical does the smaller jobs, this is kind of actually a small job for Dudley.

79

00:10:32.010 --> 00:10:32.340

Village of Parish: But.

80

00:10:33.480 --> 00:10:43.860

Village of Parish: So how are they working mean mechanical yeah yeah we've used them the good the good the good so they've done a good job, can I make a motion on this or do I have to wait.

81

00:10:48.240 --> 00:10:55.740

Village of Parish: The only thing I would do is in your motion, this is an emergency repair so make sure that you say it's an emergency repair that you know.

82

00:10:57.090 --> 00:11:02.310

Village of Parish: For emergency repair on the North tank.

83

00:11:04.650 --> 00:11:07.170

Village of Parish: tank for their lot for the airline.

84

00:11:08.550 --> 00:11:09.270

Village of Parish: I go with us.

85

00:11:10.290 --> 00:11:11.670

Village of Parish: As we as we go.

86

00:11:16.050 --> 00:11:21.870

Village of Parish: yeah mechanical mechanical, and that is the north tank right because I was going with us.

87

00:11:22.140 --> 00:11:25.560

Tom B: yeah so if you're heading East that's it yes it's the north take.

88

00:11:27.390 --> 00:11:27.660

Village of Parish: A big.

89

00:11:38.460 --> 00:11:41.130

Village of Parish: challenge is horrible you know that picture that label.

90

00:11:46.290 --> 00:11:48.330

Village of Parish: you're making emotion, yes.

91

00:11:48.390 --> 00:11:48.630

All right.

92

00:11:50.880 --> 00:11:52.410

Village of Parish: Good Thank you.

93

00:11:54.240 --> 00:12:04.230

Village of Parish: And you're saying that if we can get this word is this will be covered with right that's gonna be that's gonna be up to him, but they've kind of what up.

94

00:12:05.100 --> 00:12:06.540

Not not.

95

00:12:07.770 --> 00:12:18.120

Village of Parish: Okay they've kind of loosen the restrictions, a little bit, so I think with with the DCS help and support will try to get discovered and then you can write it that way.

96

00:12:19.110 --> 00:12:26.820

Village of Parish: and make it part of the project, then the second part is the 30th That was a 29,000 how much was the blower Tom Oh, it was.

97

00:12:27.420 --> 00:12:32.040

98

00:12:35.100 --> 00:12:39.660

99

00:12:41.460 --> 00:12:41.820

103

00:12:55.320 --> 00:12:57.900

Village of Parish: Price let's let's go this will use the exact pricing.

104

00:12:58.620 --> 00:12:59.490

Village of Parish: The exact price.

105

00:13:00.630 --> 00:13:06.000

Village of Parish: Is \$27,602 and 90 cents from Kester associates okay.

106

00:13:07.770 --> 00:13:09.870

Village of Parish: that's another emergency right.

107

00:13:16.200 --> 00:13:19.230

Village of Parish: there's nothing else to that right time that's all that's the full price.

108

00:13:19.260 --> 00:13:20.430

Tom B: We don't have any other surprise yeah.

109

00:13:22.650 --> 00:13:23.790

Tom B: Was the complete price.

110

00:13:24.030 --> 00:13:40.170

Tom B: That includes running that the fps setting it up the new blog and actually hooking it up piping it to the existing system so once it's done

it's a complete system again this particular part of this this project will be.

111

00:13:42.420 --> 00:13:55.110

Tom B: The benefit to the new project, so we just have to be you know, make sure that that gets included in the new project and Ian I think is aware of everything that we're doing i'll make sure tomorrow.

112

00:14:04.410 --> 00:14:06.240

You did you make that motion.

113

00:14:08.790 --> 00:14:12.540

Village of Parish: Oh, I make a motion for them doing the blower emergency yeah.

114

00:14:14.730 --> 00:14:15.030

115

00:14:21.210 --> 00:14:27.390

Village of Parish: we're going to keep that 30,000 do you need this band.

Village of Parish: US we go mechanical.

120

00:14:46.620 --> 00:14:47.940

Tom B: No that's fine no.

121

00:14:48.540 --> 00:14:50.730

Village of Parish: i'm going to have the mirror side and customers right now.

122

00:14:51.060 --> 00:14:52.530
Village of Parish: Okay, oh.

123

138

00:16:04.290 --> 00:16:06.030

00:29:08.760 --> 00:29:09.570

Village of Parish: See.

245

00:29:13.980 --> 00:29:21.060

Village of Parish: Priority connections going on to the next, I don't alarm security system per night neither.

247

00:29:33.300 --> 00:29:40.470

Village of Parish: Okay, but the internal fell down the net solving our users, we also on my report that was one of the things I did.

248

00:29:42.150 --> 00:29:58.920

Village of Parish: As part of the security installation they the Installers needed to have worked on with the network system within the building for the cameras, to be able to access the Internet and I worked with the vendor to get that done oh good when.

249

00:30:00.090 --> 00:30:11.580

Village of Parish: weeks ago, he said something about the tech person today I haven't heard anything, since then, there was not resolved so maybe was a different person to them directly.

250

00:30:12.750 --> 00:30:19.950

Village of Parish: Let them know what he said about the tech person Kelly to something that.

251

00:30:28.140 --> 00:30:29.730

Village of Parish: You could do for us.

252

00:30:36.390 --> 00:30:37.890

Village of Parish: The video know.

253

00:30:39.840 --> 00:30:40.470

Something.

254

00:30:46.530 --> 00:30:48.480

Village of Parish: Was it like that was talking to me.

255

00:30:49.500 --> 00:31:04.290

Village of Parish: yeah maybe it might get in touch with said something a cost \$50 and you would know where to get one instead instead of using the power strip, and so this is if the power goes off some kind of backup battery backup yeah.

256

00:31:09.420 --> 00:31:11.520

Village of Parish: Probably put the.

257

00:31:12.570 --> 00:31:18.090

Village of Parish: crowd around a battery backup i'm not sure it's on one that we can take a look at it, and it would be about \$50 so.

258

00:31:18.990 --> 00:31:33.240

Village of Parish: that's what he's talking about i'm sure it's running off and buying something that I don't know what that's what are you specifying it would be good to see you let me know, maybe you could talk to one work, thank you for calling you gave you gave my phone number yeah.

259

00:31:34.290 --> 00:31:40.020

Village of Parish: What happened with what they had requested is the set of the cameras the access to the Internet.

260

00:31:40.500 --> 00:31:59.550

Village of Parish: And in the process of doing so, we went through several steps in the process, where we had to contact new visions and new visions vongo making a service call that I was up here several times to to have happen because they remotely diagnose that there was a signal.

261

00:32:00.900 --> 00:32:10.590

Village of Parish: Irregularities the building, so they send a technician out and I came up to be there for that and the changes to the router to nervous camera store actually had to become buying new versions.

262

00:32:11.400 --> 00:32:18.750

Village of Parish: But I facilitated that content and then he said the battery backup because he said in case there's a power.

263

00:32:19.080 --> 00:32:35.370

Village of Parish: that's what Defense if you're sure that is what he said that he needs, then, now we can go one on order and that's a pretty easy thing to do, and yes, there about the dollars so be like authorize me to go ahead and do that i'll take your word for it make emotion, we have a ball do that.

264

00:32:37.530 --> 00:32:38.280

270

00:33:10.140 --> 00:33:28.230

Village of Parish: Taking place i'm waiting on hopefully the code officer can fit this next training session in that he said that we're hoping he's going to attend and I guess he's has to attempt to get updates always codes that we get some get some remuneration back from his attorney now.

273

00:33:54.900 --> 00:33:56.670
