Village of Parish: The picture yeah you can see in the back of it, where the.

83

00:11:26.040 --> 00:11:32.820

Village of Parish: See the metal actually it looks like a half ass job there, it is there, something that went wrong to cause that.

84

00:11:34.230 --> 00:11:35.670

Village of Parish: Because it shouldn't.

85

00:11:36.900 --> 00:11:46.770

Village of Parish: It shouldn't have all this exposed material and all that chair around there should it well, you can see where the chairs from being short in our yeah.

86

00:11:48.060 --> 00:12:02.700

Village of Parish: yeah but was that touching, something that would have caused it to short outer it's possible what happens, a lot of times with

91

00:12:33.690 --> 00:12:36.540

Village of Parish: The I got POPs locking key I got him to come down to the plant to look over the doors yep and gave us a pretty good price replacing the all the lock sets and Kim and then getting all the doors.

101

00:14:03.540 --> 00:14:24.060

Village of Parish: Good that'll be the job done.

116

00:16:24.090 --> 00:16:36.690

Village of Parish: Right and one other thing we noticed that on during our inspection of mainstream during all those little outages we were walking around trying to see if we could find out if there was a poll shaken or something.

117

00:16:37.230 --> 00:16:45.660

Village of Parish: On a manhole by the lumberyard on Main Street yeah that needs to be fixed yet i'll send you some pictures okay all right.

Village of Parish: shop to the tractor and when it out yeah well.

122

00:17:09.300 --> 00:17:13.800

Village of Parish: Okay, so what kind of attention is that man Paul looking for.

123

00:17:15.330 --> 00:17:26.790

Village of Parish: looks to me like what they've done is because they use a blower to plow the driveway and the concrete is broken out there's a big hole on the side of it, where.

124

00:17:27.690 --> 00:17:36.810

Village of Parish: It needs to be addressed and i'm not real concerned because the main the Main Street station doesn't run a lot, but it would run a lot less with that man will fix.

125

00:17:38.670 --> 00:17:46.140

Village of Parish: Your driveway I don't want to have two boys it gets near the drive leads me to say, sending the cloud right.

126

00:17:47.790 --> 00:17:51.120

Village of Parish: right there as you look to the side there you'll find it.

127

00:17:53.730 --> 00:17:59.340

Village of Parish: For actually the same spot that finkel within a couple years ago Oh, maybe.

134

00:18:47.400 --> 00:18:53.820

Village of Parish: approved, and you know we'll talk more about the solids handles that we want to go away from the bag.

135

00:18:55.050 --> 00:19:01.980

Village of Parish: And you know go back to Dr ben's and we'll we'll get that finalized you guys that's really how the last piece of the puzzle before.

136

00:19:03.420 --> 00:19:26.190

Village of Parish: So, so we talked about that later, but yeah I mean we're you know we're on schedule to have everything completed and submitted by the June 17 in my, which is the deadline for the state funding program presented and we're drawing but it's you can get one, because I think yeah I think.

137

00:19:27.690 --> 00:19:46.380

Village of Parish: Well, so much money yeah I think we just go, you know one more set of driving beds are you going to put dogs right next to that wasn't already there yeah we can we believe goo we own can we move that fence line towards the the road.

138

00:19:48.270 --> 00:19:50.940

Village of Parish: yeah I didn't go to take we're.

139

00:19:53.460 --> 00:20:12.300

Village of Parish: Not not sure exactly where the boundary line does, but I know if you go a little bit past where it says, welcome to bears sure yeah Okay, we own a little bit below so we wouldn't we wouldn't even go that far, we should be our identity Okay, so that should give us I think we're.

140

00:20:13.380 --> 00:20:14.880

Village of Parish: right there we'll go check.

141

00:20:16.380 --> 00:20:17.100

Village of Parish: I get a hold on.

142

00:20:18.960 --> 00:20:24.900

Village of Parish: I gotta get a hold as I get older dog casinos either use the map there for the GIS map yeah.

143

00:20:27.180 --> 00:20:29.160

Village of Parish: games knows how are you.

144

00:20:30.540 --> 00:20:31.620

Village of Parish: Here, though, for water.

145

00:20:34.440 --> 00:20:37.470

Village of Parish: Dave can do little calculator there.

146

00:20:39.780 --> 00:20:41.220

Village of Parish: yo, what are we talking about.

147

00:20:43.320 --> 00:20:44.820

Village of Parish: Hopefully you don't have to take a while.

148

00:20:49.260 --> 00:21:00.180

Village of Parish: Before you started, I want to formally introduce haired old pair is a project manager was cto at he's been with us almost two years now.

149

00:21:01.170 --> 00:21:17.370

Village of Parish: Prior to that he worked for a number of years and, as you guys are at aqua so he's very well versed in all things water and he's going to be assisting me, you know, taking over more of the day to day.

150

00:21:18.630 --> 00:21:28.410

Village of Parish: You know project management responsibilities for your water project obviously still be involved other tenants can be you know, a system, so we.

151

00:21:29.400 --> 00:21:45.090

Village of Parish: have been progressing the engineering report for the proposed water project, and what I wanted to talk about tonight is the alternatives for water supply for the village parish.

152

00:21:46.650 --> 00:22:00.210

Village of Parish: So, as you may or may not know cga he worked for the town in Mexico, we worked at a time next call for about 15 years and we are on our seventh water district in the town of Mexico.

153

00:22:01.590 --> 00:22:10.560

Village of Parish: They obtain their water from the village of Mexico and when cta he formerly known as brilliant many active associates.

154

00:22:11.670 --> 00:22:27.180

Village of Parish: got involved with adults are perishing a potential water project back in the late 2000s he had considered water from the next going via the village of Mexico or supply.

155

00:22:28.320 --> 00:22:42.960

Village of Parish: problem at that time is you know we were as far along with the town of Mexico's martyr distribution system and to make a connection was it was a long ways in order to do so.

156

00:22:44.430 --> 00:22:57.960

Village of Parish: You know I we're at a point now with the current district in the town that we're in the process of designing should go to construction next year is going to leave a water main.

157

00:22:59.280 --> 00:23:12.990

Village of Parish: at Paris loads of Road rage at the timeline so not far from the village parish so today what lot 2000 1300 yeah whereas before we were talking like.

158

00:23:15.480 --> 00:23:30.390

Village of Parish: So that is certainly a viable alternative, I think, to obtain water from the village and Mexico, via the town of Mexico system, so the village of Mexico has their own water supply.

159

00:23:31.770 --> 00:23:36.870

Village of Parish: or they have wells that provide water to build the doors in the town and.

160

00:23:38.280 --> 00:23:50.760

Village of Parish: We have had very preliminary type discussions with the next call certainly haven't committed in Paris anything at all, but just ask them like hey you know we're working on this project.

161

00:23:51.150 --> 00:23:57.690

Village of Parish: Is a song that you guys would be interested in and they've indicated that, yes, they weren't gonna sell.

162

00:24:00.210 --> 00:24:02.940

Village of Parish: So what we've done so it so that's alternative.

163

00:24:04.050 --> 00:24:09.390

Village of Parish: would be to take water from the Gulf of Mexico to be in the.

164

00:24:10.560 --> 00:24:11.010

Village of Parish: system.

165

00:24:12.060 --> 00:24:26.040

Village of Parish: I have a question okay Okay, do you going they do all the work, in other words bill us, or do we have to own billing so they so you can do it either way Okay, so the town of Mexico.

166

00:24:27.390 --> 00:24:29.490

Village of Parish: village does their billing for them.

167

00:24:30.720 --> 00:24:32.010

Village of Parish: Or the knowledge builds for the.

168

00:24:34.080 --> 00:24:45.270

Village of Parish: New wave and does a little different they have one district that's provided water by the village of Mexico right and they build their bills there okay okay.

169

00:24:46.530 --> 00:24:46.950

Village of Parish: So.

170

00:24:52.680 --> 00:25:03.840

Village of Parish: We will be set up ready, it is that, as far as the brilliance of the radio reads take two hours or read the meters correct and it's a pretty sophisticated.

171

00:25:04.440 --> 00:25:12.570

Village of Parish: Billing system that we just hand over a stick and it actually runs the bills tells you if you got who's got a leak you how to use these little usage.

172

00:25:13.650 --> 00:25:19.500

Village of Parish: Overall it's you know I don't think it's very complicated right right.

173

00:25:20.130 --> 00:25:32.250

Village of Parish: But but yes you're correct so really the kind of the village parish would be you know the you would enter into what's called an interview, this will agree, where I am a with his back to college operate and maintain your system.

174

00:25:33.600 --> 00:25:45.090

Village of Parish: You know that's what the town Expo does you know, Belgium, Mexico, you know, is responsible for you know minor repairs throughout the system weeks.

175

00:25:47.220 --> 00:25:49.200

Village of Parish: Okay, so that's an option yeah.

176

00:25:50.370 --> 00:25:59.790

Village of Parish: So what i'll say option B would be what we were considering or what was being considered for the past number of years, which will be taking stock love.

177

00:26:00.630 --> 00:26:11.880

Village of Parish: talent Hastings as we're aware how Hastings is in the process of completing a project which is brought water a little bit closer to those parish.

178

00:26:12.930 --> 00:26:18.420

Village of Parish: But still a further connection and what we would have to make from Mexico.

179

00:26:19.680 --> 00:26:21.090

Village of Parish: We got our hands on as.

180

00:26:22.110 --> 00:26:29.010

Village of Parish: It ends at the intersection of 60 989 and 11 yeah yes, I would add.

181

00:26:30.300 --> 00:26:36.630

Village of Parish: Just a little 400 that's all good yeah so it's a good distance from the village there's also a couple of other ones on.

182

00:26:37.140 --> 00:26:50.790

Village of Parish: Hastings his district that are also on 30 yeah 30 goes to the line develop teitelman parish line around 38 and windows 10% of what he or she the way i'm gonna be town well yeah.

183

00:26:52.500 --> 00:26:54.660

Village of Parish: Well, is that true oh yeah yes.

184

00:26:55.770 --> 00:27:07.140

Village of Parish: Exactly one mile from that Okay, so I that's what we will be federal and my car from from exactly what am I from there to the end up right here and right so that's the way we've come was out would be off 38.

185

00:27:07.920 --> 00:27:20.220

Village of Parish: would become a short into culture there that is up 11 yes correct but it's still like you say about my at least my yeah so, so I think that's what was 6000 feet, we figured it was a little bit overwhelmed.

186

00:27:21.060 --> 00:27:26.280

Village of Parish: So yeah The point is, is it's rich further than right, you know what would be the typical activity.

187

00:27:26.670 --> 00:27:42.210

Village of Parish: The town Mexico system does not disclose to I used to the plastic pipes in the ocean, yes, yes, so that you know as you'll see in these costs estimates every now and again, keep in mind, these are very, very important at this point in time.

188

00:27:42.780 --> 00:27:49.380

Village of Parish: You know cost of materials are changing every day, so we tried to be as conservative as we could with with some of these numbers.

189

00:27:49.980 --> 00:27:58.260

Village of Parish: But you know all your all i'd like to draw your attention to the total project cost estimate as a top of.

190

00:27:59.130 --> 00:28:16.500

Village of Parish: You know the tech data, Mexico and then go up to the top right and connecting aqua you know we're talking, you know, over a \$3 million difference in cost and that's strictly attributable to the differences okay so.

191

00:28:18.660 --> 00:28:22.650

Village of Parish: we're going to be their boss, the possible have skyrocket.

192

00:28:24.300 --> 00:28:36.180

Village of Parish: Your client and we've tried and you know I pleaded it's an ongoing argument in the engineering community as to why Aquila requires you to use clients, they just feel it's a superior product.

193

00:28:37.500 --> 00:28:48.300

Village of Parish: I can tell you we've put in the hundreds of miles now of PVC watermelon and so your county has not had any issues i've seen other museums, or at least nobody same definition.

194

00:28:48.630 --> 00:29:00.870

Village of Parish: Right it's a little more violence in this evening with a better product right I don't think I was here, so they got this big concern is happy yeah they're just not for every free tool everything I guess.

195

00:29:02.160 --> 00:29:02.730

Village of Parish: So.

196

00:29:03.900 --> 00:29:23.460

Village of Parish: So that would be option B, what I would say is you know we would want a transmission name from the town of Hastings you know connect to them through the you know the town of Parish and you know, to the village Parish and have the water system operated and maintained by.

197

00:29:24.480 --> 00:29:25.200

quarter for.

198

00:29:26.940 --> 00:29:38.400

Village of Parish: So it's actually be option C, and this is what the Tower Hannibal does they purchase water bulk from ah OK, I think the roads are phoenix today.

199

00:29:39.660 --> 00:29:48.780

Village of Parish: So essentially what that would include would be us running a transmission named to the village wind putting a master leader.

200

00:29:49.590 --> 00:29:58.470

Village of Parish: And then from there, we could transition to the plastic pipe in the village basically just be buying wholesale for okay.

201

00:29:59.280 --> 00:30:15.030

Village of Parish: An issue with that is is that now you're responsible for the operation and maintenance of your system aqua is not they're just selling lobster stops at that point that's correct gotcha and they're not there, so you know you either have to.

202

00:30:16.260 --> 00:30:23.940

Village of Parish: You know hire the rules, you have to hire an operator, or you know sub it out to somebody like the candy group or somebody else.

203

00:30:25.470 --> 00:30:27.420

Village of Parish: or be doing your own billing.

204

00:30:28.680 --> 00:30:33.150

Village of Parish: So that costs, you know, at the end of the year, but.

205

00:30:34.230 --> 00:30:38.790

Village of Parish: you're not saving any real money I don't know I mean you're saving money on the capital costs, I.

206

00:30:39.330 --> 00:30:49.170

Village of Parish: See, but you know you're you're paying more in the operation me inside if there's any profit if there's only ever a problem with the system, the sponsor for it.

207

00:30:50.040 --> 00:31:07.170

Village of Parish: So, how does it work on there are they happy with it and it's where's the animal um are they have a little hard to say that's more of a question for them i'm not sure that that's what they do that's just how they were set up.

208

00:31:09.150 --> 00:31:14.700

Village of Parish: And I boy I don't know the whole history in Italian animal I love you won't care, I think they had had.

209

00:31:15.810 --> 00:31:23.760

Village of Parish: they're all water system and then aqua came in and in hooked up then that's how that all works.

210

00:31:24.240 --> 00:31:42.180

Village of Parish: They used to purchase water from them web when it was there you go the metropolitan water board before got absorbed by Auckland they were a wholesaler to them way back and eat that apple came in and now they own everything yeah yeah so that was why 667 years ago that happen.

211

00:31:44.040 --> 00:31:44.370

Village of Parish: yeah.

212

00:31:46.350 --> 00:31:58.320

Village of Parish: So you know essentially Those are the three options that are on the table, right now, I mean other options that we could potentially look at, and you can look at drawing a while in the village Parish.

213

00:32:00.000 --> 00:32:04.140

Village of Parish: yeah you're still operating your own system at that point.

214

00:32:05.880 --> 00:32:09.540

Village of Parish: No, I don't think that's going to be, you know.

215

00:32:10.650 --> 00:32:18.270

Village of Parish: It just depends on whether or not you want to get into you know the water business that's you know that that's kind of the discussions.

216

00:32:18.840 --> 00:32:30.210

Village of Parish: You are crucial water, you know you want to maintain your own system, I can tell you to town in Mexico, you know they're I think they're happy with the arrangement that they have their kind of hands off and.

217

00:32:32.280 --> 00:32:35.040

Village of Parish: So, to have all these the same way.

218

00:32:36.060 --> 00:32:43.710

Village of Parish: The northern half the time of all the they get their water from the Tower scribe on the southern side and tell them already they get their water Franco.

219

00:32:44.760 --> 00:32:47.160

Village of Parish: I think that's just a pressure his own thing.

220

00:32:49.800 --> 00:32:51.510

Village of Parish: You know they certainly pay.

221

00:32:52.770 --> 00:32:55.260

Village of Parish: Last to strive on and what they do.

222

00:32:57.660 --> 00:33:07.050

Village of Parish: So, would you say with Mexico versus equity, though, maintenance and upkeep so on is up to pimp village of parish if we were in Mexico.

223

00:33:07.470 --> 00:33:14.250

Village of Parish: versus aqua know so if you were to go with parish what I would recommend is go to Mexico.

224

00:33:15.090 --> 00:33:28.020

Village of Parish: That you would enter into an agreement with the village of Mexico to operate and maintain so basically they supply the water to, and they would operate distributions and they would do all the building right yes correct.

225

00:33:29.820 --> 00:33:47.070

Village of Parish: And I could do the same thing, unless you unless we do option C we do option see what we have to do everything ourselves correct yeah option A option B same thing only with aqua there you know you're all in your hands off there to you know my understanding them just.

226

00:33:48.390 --> 00:34:08.790

Village of Parish: So just for a cost comparison you know we put some numbers together made some assumptions, you know, a grant amount and Just to give you an idea kind of what we'd be looking at for difference between the three options it's all the all the Mexico option would be the cheapest.

227

00:34:10.860 --> 00:34:29.670

Village of Parish: If we were to go with an aqua connection with aqua oh and and your capital cost is more your operation and maintenance costs or

more so the difference between the two there for years, approximately \$340 will say, for you to you.

228

00:34:31.980 --> 00:34:44.550

Village of Parish: If you were to go with the third option, which would be semi vault from Wroclaw the capital costs are last obviously because we can use, you know PVC pipe your own costs are going to be more.

229

00:34:45.780 --> 00:34:52.740

Village of Parish: we're looking at a difference of about 100 and \$500 per year per you.

230

00:34:54.360 --> 00:34:58.590

Village of Parish: know if we were to connect with the village and.

231

00:34:59.880 --> 00:35:22.470

Village of Parish: So we don't have to decide on a mystery we don't have to decide on it, but we certainly needed, as part of that we have to make oh OK, so I mean I guess i'm not I would be very interested in the Boards opinion on this and what your thoughts are, and I think that.

232

00:35:24.300 --> 00:35:32.880

Village of Parish: you're interested in hearing more we could certainly so when the loans you Mexico and have a discussion with them to develop a.

233

00:35:33.900 --> 00:35:45.930

Village of Parish: With a village have more I mean really have enough water to support parish they do they'll show that death thing I was telling right, what are you to be transparent in order to.

234

00:35:46.410 --> 00:36:05.100

Village of Parish: provide enough water for both the village and what i'll say contingency which may be the town is that they would need a new well install that there well field as part of this project and that's included in this disaster okay.

235

00:36:06.900 --> 00:36:14.520

Village of Parish: So we would need to punch in a while at their at their website which they've already there you have, as well as don out there.

236

00:36:15.120 --> 00:36:21.600

Village of Parish: From what they've done upgrades in the past and we were invited so there's rival water so.

237

00:36:22.590 --> 00:36:38.760

Village of Parish: This eliminates the Tower that discussed earlier, the letter which way we go without any of these three options we still need to water copy doodles nice phone is that going to change the location of the Tower or will still be roughly the same I, it would be the same okay.

238

00:36:41.070 --> 00:36:45.960

Village of Parish: yeah we might go over toward cancelled yeah that's where it was somewhere that.

239

00:36:48.690 --> 00:36:52.320

Village of Parish: y'all should be I don't see where we are yeah we definitely.

240

00:36:54.030 --> 00:37:03.360

Village of Parish: Put it up here by the Tower was curious as a you know cuz I know the town, I know the town had a couple of ones that one was easy truck stop.

241

00:37:04.950 --> 00:37:10.170

Village of Parish: Does he that was that was the highest the highest I said well what came through the eyes.

242

00:37:12.030 --> 00:37:12.930

Village of Parish: No, no.

243

00:37:13.980 --> 00:37:16.740

Village of Parish: doing here that have to be on the hill.

244

00:37:18.300 --> 00:37:20.310

Village of Parish: You know quite a tower yeah.

245

00:37:22.830 --> 00:37:31.020

Village of Parish: So yeah I would say the location or the the water tower still needs to be finalized, however, no matter which way we go, we need a talent, yes.

246

00:37:32.160 --> 00:37:37.200

Village of Parish: Good information to think through so look at and analyze whatever.

247

00:37:38.370 --> 00:37:45.330

Village of Parish: The numbers are what are the board, things are made up my mind, you know what is that Mexico.

248

00:37:46.830 --> 00:37:54.990

Village of Parish: But I have a problem with Mexico, so, but I think number of you already know what my problem is well yeah I have no idea.

249

00:37:57.720 --> 00:38:01.170

Village of Parish: All right, pencil pressure pressure.

250

00:38:02.940 --> 00:38:09.660

Village of Parish: Maybe I just due diligence on maintaining operations maintain maintenance of it all.

251

00:38:10.740 --> 00:38:16.200

Village of Parish: Because my house burned to the ground because of the water department.

252

00:38:17.760 --> 00:38:20.160

Village of Parish: So I don't have a lot of faith in Mexico.

253

00:38:21.240 --> 00:38:26.970

Village of Parish: There we talk is good their programs good sounds good, they got a lot of how I was up till.

254

00:38:28.860 --> 00:38:30.900

Village of Parish: 2015.

255

00:38:32.850 --> 00:38:36.450

Village of Parish: And the firemen had to go to five different hydrants before they can find one that would work.

256

00:38:37.530 --> 00:38:39.450

Village of Parish: And then they had to flush it out when they did find it.

257

00:38:40.800 --> 00:38:43.110

Village of Parish: Sorry, I should have been dead.

258

00:38:44.520 --> 00:38:50.880

Village of Parish: I mean, other than that, I suppose they're good but they're going to sell us a program where they will maintain and operate these.

259

00:38:51.150 --> 00:39:01.680

Village of Parish: hydrants and the system false doing be you know when I saw the program it's up to us to tell them, this is, you know and make sure this is done as wine, they aren't even doing it themselves.

260

00:39:02.670 --> 00:39:11.490

Village of Parish: So, so I just want I can speak to that a little bit because terrorists tell us for more meetings well.

261

00:39:12.720 --> 00:39:29.280

Village of Parish: So the town via the village of Mexico have an operation maintenance plan in place where every year, they are flushing in operating hydrants locations in the town.

262

00:39:31.200 --> 00:39:35.400

Village of Parish: I will completely agree with you that the bill just system is very old.

263

00:39:37.260 --> 00:39:42.540

Village of Parish: I can't speak to how it's been operated in the past and everybody has an opinion.

264

00:39:43.680 --> 00:39:52.800

Village of Parish: They are working on a project to upgrade the villages system also so basically replace they're replacing their existing water tower.

265

00:39:53.970 --> 00:39:58.560

Village of Parish: They replacing their hydrogen house to capital improvement projects.

266

00:40:00.420 --> 00:40:06.240

Village of Parish: To put a bigger there is, I believe, either put the same size taken but it's a different type of.

267

00:40:07.710 --> 00:40:10.350

Village of Parish: going to the orange one up there.

268

00:40:11.970 --> 00:40:12.300

Village of Parish: yeah.

269

00:40:15.570 --> 00:40:25.410

Village of Parish: We don't work too broad, transparency, we do not work for the village Mexico know we were in town next Oh well, we coordinate with a village or analyzing this project so.

270

00:40:26.700 --> 00:40:29.280

Village of Parish: we've helped the village in the past box.

271

00:40:35.220 --> 00:40:38.340

Village of Parish: So anyways I guess if.

272

00:40:40.050 --> 00:40:55.650

Village of Parish: You so choose, if you want more information for those Mexico mentioned work, you know, so you know i'm not sure if we were to onboard one a week with the village of Mexico or what your your thoughts are there.

273

00:40:57.510 --> 00:41:02.370

Village of Parish: Obviously you know if you're going to hold our board meeting ID that Bernie but.

274

00:41:03.720 --> 00:41:04.380

Village of Parish: Sometimes.

275

00:41:06.600 --> 00:41:11.370

Village of Parish: Information board member to you know leave with the village and talk about.

276

00:41:12.690 --> 00:41:26.700

Village of Parish: Work and then report back and go that route, I think is a good idea to be made before they're just discussing see you know whether whether what they plan on offering essentially if we're there oh God.

277

00:41:34.830 --> 00:41:36.150

Village of Parish: Yes, I think that's the.

278

00:41:37.260 --> 00:41:37.800

Village of Parish: best option.

279

00:41:39.330 --> 00:41:51.030

Village of Parish: Here, but I would like more information for sure, I think, each of those should probably be or does it come out in the end is that these are the options that we've had in for consideration so.

280

00:41:52.800 --> 00:41:57.570

Village of Parish: As offices and we would consider the three most viable option for the parish as I don't you.

281

00:41:58.050 --> 00:42:06.270

Village of Parish: know you could look at putting your own water treatment plan or or while system and also i'm going to ask him, he has had run the numbers just.

282

00:42:06.510 --> 00:42:19.350

Village of Parish: ballpark what that was because we didn't I don't think there's really only three what we can certainly do that i'm pretty sure that's actually a higher number than well yesterday, but I Lazarus the last guy that we had.

283

00:42:20.850 --> 00:42:23.550

Village of Parish: gotten about, but he said is actually.

284

00:42:25.320 --> 00:42:31.890

Village of Parish: Was it cost efficient to put you on well and now usually we would yeah I mean it's usually not.

285

00:42:34.380 --> 00:42:43.050

Village of Parish: Usually the communities that are communities that are are establishing their own water supply our.

286

00:42:44.010 --> 00:42:58.020

Village of Parish: Old you know that they've had a water water supply forever, you know, or they don't have a viable option to connect to grow Okay, you know so who dad would be another option would absolutely be an option.

287

00:42:59.310 --> 00:43:00.000

Village of Parish: For a while.

288

00:43:01.380 --> 00:43:09.960

Village of Parish: You know there's we have a hydrogeologist that we work with all the time, you know basically how that would work if it was something you're interested in.

289

00:43:10.740 --> 00:43:19.320

Village of Parish: it's not cheap to come out and started doing investigations by you know who would be something that we would probably it would be a prize will project costs.

290

00:43:20.550 --> 00:43:29.820

Village of Parish: You know, they would do a desktop analysis look at you know, whatever information, you know subsurface information is available online for soil types.

291

00:43:30.420 --> 00:43:49.710

Village of Parish: And then they leave is to come out and do a field investigation identify potential locations for a while and then we do test Okay, because I know they I know they did that years ago Okay, but I can't I don't remember what the results were, and then we had.

292

00:43:51.390 --> 00:44:00.720

Village of Parish: Some Bible company wanted to do it in the State of New York said no, that was a scene in New York, as I guess they saying, because the water is not being.

293

00:44:01.380 --> 00:44:15.900

Village of Parish: being distributed here so we're not getting them that water back right, so they cut that off, so I always wonder i'm just wondering if some of that information is useful, but out of forgot which company was doing there.

294

00:44:17.790 --> 00:44:27.420

Village of Parish: yeah existing information that you guys might have to know I just it'd be interesting, I don't think it was a very my last name, so our.

295

00:44:28.920 --> 00:44:44.970

Village of Parish: maintain it all Ryan I mentioned just rough guess i've been pretty close to 59 hours to do don't plan on sending out links and hire full time people yeah I mean the problem is, you know we run into this with other communities that.

296

00:44:46.740 --> 00:44:54.690

Village of Parish: You know subsurface conditions change and also you know we just have unfortunately up temporarily up in the country.

297

00:44:56.460 --> 00:45:09.180

Village of Parish: We drill to New Orleans for them, they were working absolutely beautiful for a year and a half and then all of a sudden concentrations is the Channel, you know, in the water in which is more of a nuisance than a.

298

00:45:10.200 --> 00:45:16.680

Village of Parish: You know, a health risk lot you know now you gotta you know people's you know fixtures are getting steamed.

299

00:45:17.610 --> 00:45:27.630

Village of Parish: Not to say that would happen here, but again, just as a horror story with the recent all that they had a surface water treatment plant that they abandon they're having issues with that the drill these wells.

300

00:45:29.580 --> 00:45:40.110

Village of Parish: Now they're seriously considering going back to their service margin, the play after they spent like \$7 million on me so as much as I would love to run your water system for you.

301

00:45:41.490 --> 00:45:43.080

Village of Parish: Would you do that.

302

00:45:46.680 --> 00:46:00.360

Village of Parish: Now I guess today is I just only made these lobbies best agree, maybe 10 not to know the information, but I just felt like I said, we can put some data together some general numbers for you, but.

303

00:46:01.440 --> 00:46:13.740

Village of Parish: From a cost standpoint connecting with Mexico it's going to be the most I think I agree, so the right words for shared services yeah.

304

00:46:14.850 --> 00:46:20.370

Village of Parish: I mean obviously that's something that you know we include all the funding application.

305

00:46:23.700 --> 00:46:27.810

Village of Parish: So Okay, I think we're just making myself with my summation.

306

00:46:28.830 --> 00:46:29.160

Village of Parish: All right.

307

00:46:33.540 --> 00:46:34.950

Village of Parish: Quite wondering whether they make.

308

00:46:36.360 --> 00:46:43.230

Village of Parish: No money, so the Tower Mexico leads the second Monday of every month I don't know when the village minutes.

309

00:47:01.500 --> 00:47:12.060

Village of Parish: Now, before we went any final decisions I would like these options to go to the public, or is there, something the Board has may decide on so.

310

00:47:12.960 --> 00:47:24.120

Village of Parish: As to which avenue typically this will work is the board would make a decision as what direction you want to go and we would make that recommendation to the following.

311

00:47:26.250 --> 00:47:31.740

Village of Parish: fund your project based on that recommendation that information.

312

00:47:36.780 --> 00:47:38.760

Village of Parish: Now yeah I mean i've never.

313

00:47:39.780 --> 00:47:47.610

Village of Parish: Because we've never toes multiple or it is falling from the offer is usually by that point in time funny he want to know what.

314

00:47:49.050 --> 00:47:49.350

Village of Parish: Are you.

315

00:47:50.610 --> 00:47:53.160

Village of Parish: guys going to do, how much is it going to cost.

316

00:47:54.630 --> 00:47:56.940

Village of Parish: And that's how we determine how much money.

317

00:48:03.540 --> 00:48:13.110

Village of Parish: yo could you could you pull out to the public, if you want to do is take a poll and say hey you know what no i'd rather not do that, or you know that's an option, I would love in a.

318

00:48:14.520 --> 00:48:15.570

Village of Parish: While yeah but.

319

00:48:17.190 --> 00:48:17.640

Village of Parish: You know.

320

00:48:19.080 --> 00:48:20.220

Village of Parish: To town there.

321

00:48:21.360 --> 00:48:34.380

Village of Parish: And then they had are you man, and then they pulled it up again put it out, you know it's up to the sub to the board to make a decision, and what they think is best without.

322

00:48:35.820 --> 00:48:44.490

Village of Parish: People you can convince the naysayers the board runs everything in this town religion makes all the decisions and never include some who's that.

323

00:48:45.210 --> 00:48:56.310

Village of Parish: Oh here you're out there on that Facebook social media yeah would you go to the social media you put in there if you're more interested in what we're doing come to a meeting right yeah well.

324

00:48:57.840 --> 00:49:07.470

Village of Parish: If you want to be informational meeting and present it to the public and say, this is the way the direction that.

325

00:49:08.610 --> 00:49:11.760

Village of Parish: The Board the Omega always entertaining.

326

00:49:13.200 --> 00:49:24.480

Village of Parish: No, no, we talked about the sewer rates being raised and people just say they're going to do what they want, anyway, so why should we bother with meeting that's so I don't think.

327

00:49:26.760 --> 00:49:33.990

Village of Parish: So i'm sorry there's nothing they can do worse honey savings to even though well, maybe just.

328

00:49:36.060 --> 00:49:42.300

Village of Parish: Trust me I don't know i'm all for the public, so I would I would rather have a calming it then for sure.

329

00:49:43.050 --> 00:49:53.850

Village of Parish: that's what that's what they're doing right now, when they go on, when you go on Facebook, or as i'm concerned that we're facing we don't like what you're doing but we're not gonna do anything by us and we're going to complain.

330

00:49:58.050 --> 00:50:01.980

Village of Parish: Right so yeah so we'll get you set up with.

331

00:50:04.740 --> 00:50:06.090

Village of Parish: or no yes.

332

00:50:10.470 --> 00:50:23.070

Village of Parish: The billionaire control website, as their main meeting as may 4 this month I would be two weeks ago, Wednesday, at 6pm.

333

00:50:24.270 --> 00:50:24.870

Village of Parish: or whatever.

334

00:50:27.360 --> 00:50:27.930

Village of Parish: That provided.

335

00:50:29.010 --> 00:50:31.350

Village of Parish: For the first one first one to the.

336

00:50:33.360 --> 00:50:33.840

00:50:46.050 --> 00:50:46.860

Village of Parish: guys alright.

340

00:50:50.910 --> 00:50:51.390

Village of Parish: sounds good.

Village of Parish: Okay, good thanks.

344

00:51:08.430 --> 00:51:09.180

Village of Parish: A big flag.

345

00:51:10.260 --> 00:51:13.560

Village of Parish: To be able to put a banner there you go.

346

00:51:16.770 --> 00:51:17.280

00:51:18.870 --> 00:51:19.800

Village of Parish: Jackie Jackie.

348

00:51:21.450 --> 00:51:21.810

Village of Parish: Yes.

349

00:51:27.960 --> 00:51:28.560

Village of Parish: Okay.

Village of Parish: The.

364

00:53:44.850 --> 00:53:52.350

Village of Parish: Look every conference to place on April 19 that turning stone, it was successful and also attended more received.

366

00:54:03.090 --> 00:54:11.220

Village of Parish: 23 and basically one of the questions we wanted to ask everybody mailed it out a lot of people through those attendance and it.

367

00:54:11.610 --> 00:54:22.440

Village of Parish: was to find out is there anything that's keeping people from attending the conference, are there any barriers, as well as like an author, they would make you more likely to attend, because we want to do our best to make sure your.

368

00:54:24.090 --> 00:54:29.490

Village of Parish: local government conference, so we put that survey out as well, and right now, it looks like.

369

370

00:54:41.790 --> 00:54:53.010

Village of Parish: Let me know if you had if you need any additional coding test kits ice have limited numbers still available, I tried the case here a while back and i'm guessing you probably still have some of those lunch, but yeah the due to the fact.

371

00:54:53.940 --> 00:55:07.800

Village of Parish: If you need more, let me know i'm as last Friday on Bloomberg women to take your time, and for that new round of the toggle Community recognitions award program has opened.

373

00:55:16.320 --> 00:55:26.460

Village of Parish: Mark details information is available on your website that's like a lot org and application just goodbye to him first and the link, for that is under hughes's altercations on your press releases.

374

00:55:28.290 --> 00:55:39.480

Village of Parish: We are still in the process of determining reading time for the next seminar over Council of governments meetings we haven't had responses, as far as i'm aware enough people were able to come together on the same date to meeting scheduled.

375

00:55:39.990 --> 00:55:45.810

Village of Parish: we're currently looking at late may early June dates and if there are any dates and times you can identify.

376

00:55:46.290 --> 00:55:54.750

Village of Parish: As ones that you can pretend and commit to that will help us get the schedule, thank you for your help on this we typically only meet twice a year and keep them brief into the point.

377

00:55:56.280 --> 00:56:09.210

Village of Parish: The state and of the amendments to the open meetings is part of the 2022 2223 budget option current authorizations for remote meeting participation by local officials ends on June 9.

378

00:56:10.080 --> 00:56:24.900

Village of Parish: The village must pass a local lot to be able to continue to allow remote participation by local officials after that date, and that extends through June 1 2024 so once you've adopted.

379

00:56:25.920 --> 00:56:31.770

Village of Parish: authorizing local law and order, being able to exercise that office until have laws expiration.

380

00:56:32.340 --> 00:56:45.450

Village of Parish: Let me know if I can be of any help to the village and wishing and implementing an authorized single law I provided the background information on this to the village attorney and I have a copy for the mayor in the board and.

381

00:56:47.100 --> 00:56:51.780

Village of Parish: please feel free to make any additional copies as necessary.

382

00:56:53.580 --> 00:57:06.270

Village of Parish: Along with passing a local law, you need to have a local policy on how you implement your remote participation and together we'll have an example again very soon, I think we should do that that's nice for.

383

00:57:07.530 --> 00:57:11.190

Village of Parish: People have kids and stuff it's just nice enough to.

384

00:57:12.330 --> 00:57:17.640

Village of Parish: Merely is for you as board members to be able to attend remotely and adult.

385

00:57:18.480 --> 00:57:31.500

Village of Parish: Things like we have the night like Stephen you know we're doing it via zoom but we don't need any special authorization where that because he's not a voting board member his participation is clearly value, and you know we've been able to.

386

00:57:33.090 --> 00:57:36.840

Village of Parish: Being able to attend the meeting the bad via zoom that's a great thing.

387

00:57:38.790 --> 00:57:45.360

Village of Parish: But this is the primary purpose of this is to let board members of 10 rainbow remotely I think.

388

00:57:46.710 --> 00:57:53.790

Village of Parish: Personally, and I said I sent the information along to speed on that and we do we need to do an edit this meeting because.

389

00:57:54.480 --> 00:58:08.580

Village of Parish: it's a local also we'd want to do is you, if you're all agreeing on that call it was directly attorney to go ahead and prepare a lot for getting together totally curing item and adopted a future meeting Okay, no.

390

00:58:10.320 --> 00:58:11.820

Stephen Ganetis: problem easily done.

391

00:58:15.900 --> 00:58:17.100

Village of Parish: Well done yet.

392

00:58:18.630 --> 00:58:19.200

Village of Parish: Almost.

393

00:58:21.300 --> 00:58:26.580

Stephen Ganetis: asleep Paul did most of the work he gave me a model template it won't take me long yeah.

394

00:58:28.230 --> 00:58:28.620

Village of Parish: Okay.

395

00:58:28.710 --> 00:58:29.640

Village of Parish: i'll send us a bill later.

396

00:58:32.850 --> 00:58:34.140

Village of Parish: Of beyond that.

397

00:58:34.200 --> 00:58:36.180

Stephen Ganetis: I sent me on retainer you're good.

398

00:58:40.050 --> 00:58:49.200

Village of Parish: I received information on the annual town and village cleanup day for Saturday June 4 and I post, the information to both the town and those websites.

399

00:58:49.800 --> 00:58:53.160

Village of Parish: And then, while they didn't put in the bar here, but I do get an update on is.

400

00:58:53.970 --> 00:59:09.060

Village of Parish: This is the time of year that we do the annual email renewal and, as you recall from me, talking about a couple months ago the arrangement and the prices have gone up a little bit because they were no longer offering the plan that we would use so.

401

00:59:10.290 --> 00:59:21.420

Village of Parish: The renewal actually just took place today, which is why I don't have a bill for you, because I just got it today, and because the first time since the switch between the old plan and the new plan.

402

00:59:21.990 --> 00:59:37.950

Village of Parish: They charged us for all the email positions, plus a couple extra ones, for some reason just said, new member remember remember no we don't need any extra blanks We need people, no one accounts with names associated with amino the mayor and then.

403

00:59:38.970 --> 00:59:50.550

Village of Parish: Finding board for the town village and so on, so I had to get in touch with them and get a refund on those This is all going on my credit card and i'll split the ball up and.

404

00:59:51.900 --> 00:59:53.640

Village of Parish: know how much your respective shares.

405

00:59:54.690 --> 00:59:57.180

Village of Parish: So you'll have that before next month's meeting.

406

00:59:59.220 --> 01:00:00.690

Village of Parish: Here you know.

407

01:00:03.030 --> 01:00:08.130

Village of Parish: He can't get an email at work at home well i'd be happy to help However, I can very good.

408

01:00:09.390 --> 01:00:11.670

Village of Parish: Are you run outside just have a oh yeah was.

409

01:00:13.440 --> 01:00:14.460

Village of Parish: There any calls.

410

01:00:16.320 --> 01:00:23.400

Village of Parish: We get some sort of okay with it last month or two months ago, whatever it was you know I didn't catch it all I got an email mark and a half.

411

01:00:24.270 --> 01:00:31.560

Village of Parish: I log into my computer I looked at it and then I saw that, but the long and change delete off the floor and read solid yeah.

412

01:00:32.460 --> 01:00:40.800

Village of Parish: yeah everybody who is getting their email via a web interface like going to web browser and logging in that way.

413

01:00:41.520 --> 01:00:57.990

Village of Parish: None of that changed if you've got your email to reprogram a separate email program they go well, you did have to we have we did have to do a little extra steps to get that working again, yes, but just let you know yeah yeah yeah I found that I seem just.

414

01:00:59.130 --> 01:01:07.830

Village of Parish: Who was from and just something that message, not the whole message, because I went on yesterday and stuff I have been getting work and I hadn't read the whole.

415

01:01:10.260 --> 01:01:13.110

Village of Parish: Work yeah so it's a little different interface.

416

01:01:15.000 --> 01:01:17.310

Village of Parish: right there no yeah good.

417

01:01:19.560 --> 01:01:27.750

Village of Parish: For you, for tonight, thank you well, thank you make your thing is, except for emotion emotion.

418

01:01:30.480 --> 01:01:31.050

Village of Parish: emotion in.

419

01:01:34.740 --> 01:01:35.220

Village of Parish: favor.

420

01:01:37.020 --> 01:01:37.470

Village of Parish: For me.

421

01:01:42.300 --> 01:01:50.220

Village of Parish: Right, you have copies of the cyber security policy Steve says what goes on there, Dr.

422

01:01:54.090 --> 01:02:02.490

Village of Parish: This was do you have your folder right and exposing your folder or should we sign return to the Clerk just for safekeeping you can keep them but.

423

01:02:02.880 --> 01:02:16.020

Village of Parish: Most likely they'll get misplaced and then we need them next year for updating now be scrambling to find them, so the current can keep those on file splitting foolish do we have to kind of that that's why I always just.

424

01:02:20.400 --> 01:02:23.130

Village of Parish: met emails to those corporate.

425

01:02:24.180 --> 01:02:36.510

Village of Parish: emails we just trash usually just trash them, but I think if it's extenuating and maybe it's redundant and continuous and maybe some German or French guy whatever.

426

01:02:37.800 --> 01:02:39.210

Village of Parish: got millions of dollars for us.

427

01:02:47.280 --> 01:02:53.280

Village of Parish: But if you've got your policy, make sure it goes in your folders in the chair for next year when we review our folders.

428

01:02:54.960 --> 01:02:56.610

Village of Parish: bring everything up today we.

429

01:02:58.380 --> 01:02:58.650

Village of Parish: Think.

430

01:03:00.630 --> 01:03:04.890

Village of Parish: Some of them might be dating I don't sure what the schedule is and most.

431

01:03:07.140 --> 01:03:12.660

Village of Parish: Created policy right thanks gene for doing that and getting that completed for us appreciate that.

432

01:03:13.230 --> 01:03:13.680

I feel.

433

01:03:16.260 --> 01:03:24.180

Village of Parish: That was requested nightmare that we made sure we have something to that effect in our folder so now we've got it, you should be happy about it.

434

01:03:26.040 --> 01:03:26.760

Village of Parish: i'm.

435

01:03:28.680 --> 01:03:29.460

Village of Parish: My key bank.

436

01:03:30.540 --> 01:03:32.190

Village of Parish: status the progress.

437

01:03:33.960 --> 01:03:50.370

Village of Parish: I have some photos here that were taken me just managed to get them to me just before the meeting of the work that's being done, I don't know if you saw it ahead of time or what was going on that's the office off of the main room.

438

01:03:51.630 --> 01:03:59.820

Village of Parish: And he's made the figures that probably by mid June, he might be there will have it completed.

439

01:04:01.530 --> 01:04:04.410

Village of Parish: completed, we gonna hit it over to the.

440

01:04:05.550 --> 01:04:10.320

Village of Parish: Historical site unless we have an offer to purchase and.

441

01:04:11.400 --> 01:04:14.910

Village of Parish: go in that direction, but rather than have it sit idle and on attended.

442

01:04:15.990 --> 01:04:24.690

Village of Parish: The historical society at the present time, needs a place to put their goods and they would maintain and at least be aware of what's going on and.

443

01:04:25.200 --> 01:04:36.120

Village of Parish: Hopefully we wouldn't have a same kind of situation occurring, and it was unfortunate that this is this did take place, but that was no one's fault, it was just wind up.

444

01:04:37.290 --> 01:04:39.480

Village of Parish: suffered the consequences for it but.

445

01:04:40.500 --> 01:04:48.600

Village of Parish: I think he's doing good work, and he stepped in today and said that he'd hoped to have it completed, probably by next.

446

01:04:49.620 --> 01:04:52.320

Village of Parish: or next month mentioned possibly.

447

01:04:53.670 --> 01:04:57.630

Village of Parish: um let's see what else I got from reliability.

448

01:05:03.360 --> 01:05:14.580

Village of Parish: village town lease agreement I haven't heard anything back from my town we've given them their lease and probably next Nazi June, we have a joint board meeting so.

449

01:05:15.030 --> 01:05:27.570

Village of Parish: It probably will be on the agenda for discussion, if they have any discussion, otherwise I would expect, they could sign and return it, but it hasn't happened yet so maybe there's some questions.

450

01:05:27.600 --> 01:05:32.970

Stephen Ganetis: or some discussion this is mayor, I talked to Bob can and about it, and he said that looks.

451

01:05:33.450 --> 01:05:46.230

Stephen Ganetis: That it appears that we had voted for the January 2022 already to go forward so he doesn't see the reason to do it for this year and might as well just skip it to next year.

452

01:05:49.380 --> 01:06:02.070

Stephen Ganetis: So I think if we were looking at the Minutes, I believe this is back before obviously the election we're having so much fun prior to January we're able to get them to sign.

453

01:06:03.780 --> 01:06:07.080

Stephen Ganetis: by the board members of the town yeah.

454

01:06:07.320 --> 01:06:13.320

Village of Parish: I remember that meeting, because I may word agreed to it and Marianne had a fit.

455

01:06:14.010 --> 01:06:14.490

yeah.

456

01:06:16.950 --> 01:06:18.300

Village of Parish: 22 I believe.

457

01:06:18.420 --> 01:06:23.640

Stephen Ganetis: yeah that would have been for 22 because we're leading up to it, so I think we're good for 2022.

458

01:06:23.970 --> 01:06:27.330

Stephen Ganetis: I think we're just gonna have to start harassing for 2023 and a little bit.

459

01:06:27.990 --> 01:06:32.040

Village of Parish: Okay sounds good, the town is aware that are there, Mr Gill net or.

460

01:06:32.310 --> 01:06:46.350

Stephen Ganetis: You know that's what that's what Mr Cunningham argued so i'm not going to fight them on it, if they they acknowledge it then they're fine and I think we do have a signed copy by the board members, but not signed by the town supervisor okay.

461

01:06:46.770 --> 01:06:54.180

Village of Parish: you're right because I remember the board all signed it and Marianne reviews, because she was out, I was right around the time her husband passed honestly i'm.

462

01:06:56.130 --> 01:06:58.440

Stephen Ganetis: yeah I think there were more reasons than that.

463

01:06:58.800 --> 01:07:02.730

Village of Parish: was just had, I think it was a timeframe, no I don't think she was there that night or something.

464

01:07:03.330 --> 01:07:03.930

Stephen Ganetis: And maybe.

465

01:07:05.160 --> 01:07:13.440

Village of Parish: Okay, all issue with it it's good all right, well, that will be up for discussion, then, if it's already taken care of you.

466

01:07:15.030 --> 01:07:27.240

Village of Parish: All right, um manhole cover that discussions popped up a couple times and the board decided town board decided that they will not contribute or bear any responsibility on.

467

01:07:27.720 --> 01:07:40.860

Village of Parish: The lid that was damaged and so it's up to us for that which we've already paid the 2000 22,200 for the repair work done on the mill street.

468

01:07:42.480 --> 01:07:53.550

Village of Parish: lid recent manhole but my bottom line question is, is that we do pay a village tax, what are we getting thrown out what are we doing with it where's it gone well as boring.

469

01:07:54.570 --> 01:08:10.500

Village of Parish: As the Tongue, I shall be one of those things is good to come under that because we do pay a town tax tax roll on our town and we actually paid for plowing and we, we have a little over a mile they.

470

01:08:11.520 --> 01:08:15.180

Village of Parish: To me, because they did hit it patient be possible.

471

01:08:17.460 --> 01:08:21.570

Village of Parish: But the only way we're going to solve this is, we probably went to court.

472

01:08:22.920 --> 01:08:29.850

Village of Parish: And we don't want to go up with a cool car car show and the Supervisor was here and said go ahead and we'll take care of it later.

473

01:08:30.900 --> 01:08:33.240

Village of Parish: And that meeting, and then go anywhere.

474

01:08:34.050 --> 01:08:37.530

Stephen Ganetis: Maybe we bring it up, we got the joint board meeting coming up soon don't worry.

475

01:08:38.430 --> 01:08:39.090

Village of Parish: Next month.

476

01:08:39.840 --> 01:08:44.490

Stephen Ganetis: So maybe cooler heads will prevail we'll talk, maybe also see shackles and we'll call it a day.

477

01:08:45.870 --> 01:09:04.740

Village of Parish: And I just think that that would even if we split the bill would fall under that shared services and we pay town tax I don't know what they do for the town or for the village, maybe we have a little over a mile that they do plow but other than that we're finding ourselves yeah.

478

01:09:06.480 --> 01:09:06.780

well.

479

01:09:08.370 --> 01:09:13.110

Village of Parish: I quite disappointed with that was the direction they took that they're adamant that they're not going to be paying.

480

01:09:14.610 --> 01:09:22.320

Village of Parish: So did you have never I know what the insurance costs with me to add the manholes to the policy know I asked her and she didn't get back to me.

481

01:09:28.230 --> 01:09:36.180

Village of Parish: Right to the like couple of them in the whole town would actually be hit enter it we see two three.

482

01:09:38.160 --> 01:09:44.880

Village of Parish: Many the during the leaders five ish and road, I think we should drive around this sometime and make sure that.

483

01:09:46.530 --> 01:09:49.800

Village of Parish: you're eating rather the one i'm kids doing.

484

01:09:51.420 --> 01:09:55.020

Village of Parish: What was when they were talking about today tonight I stopped my.

485

01:09:56.070 --> 01:10:07.710

Village of Parish: neighbor is down a road, one that was that was on our work done what they don't really not sure thanks just a drain it doesn't look like it goes to this or hey someone to be a little like a little.

486

01:10:10.320 --> 01:10:12.900

Village of Parish: Because I wonder if it's in the same spot today or the.

487

01:10:13.980 --> 01:10:18.420

Village of Parish: sinkhole technical yeah I don't know whatever Sir.

488

01:10:19.800 --> 01:10:32.580

Village of Parish: All right, let's see real damage coverage coverage i'll give the insurance agent currency and we didn't know how many covers we had the rain.

489

01:10:33.420 --> 01:10:45.840

Village of Parish: Do you think was like four or five in the road, but I think that somebody should go around take some pictures back here every you know if we get insurance coverage, we have to do them all over there in the road or not.

490

01:10:49.980 --> 01:10:51.930

Village of Parish: In there right there's no journal pregnancy it.

491

01:10:57.570 --> 01:11:01.590

Village of Parish: i'll get that done this week i'll send out an email all right.

492

01:11:03.750 --> 01:11:15.600

Village of Parish: i'm priority communications TV we had I gave them a call to find out where we're at with what's being done, and they said they're waiting for purchase order.

493

01:11:16.260 --> 01:11:34.230

Village of Parish: For sure I can see, they knew that we had approved they're moving ahead to do the courtroom and the closed circuit circuit and last you've been in communication with with Evelyn Jacqueline regarding the next phase of this work so just get that off to them and.

494

01:11:35.310 --> 01:11:36.090

Village of Parish: We can get that.

495

01:11:37.440 --> 01:11:46.620

Village of Parish: information related to them Okay, then we can move ahead and hopefully get this project completed they really put the external cameras out.

496

01:11:48.090 --> 01:11:55.200

Village of Parish: And they just need writing, I wonder what has held out, but he said that he was waiting for notification.

497

01:11:57.030 --> 01:11:57.660

Village of Parish: So.

498

01:11:59.970 --> 01:12:05.130

Village of Parish: You have a copy of that letter that you sent period previously your might be another one's folder somewhere.

499

01:12:06.960 --> 01:12:12.210

Village of Parish: yeah if we can get that word off to them, then we get that project underway and completed.

500

01:12:15.420 --> 01:12:18.390

Village of Parish: All right, Tom see to do it.

501

01:12:19.980 --> 01:12:25.200

Village of Parish: bridge repair work and started the signs are up and.

502

01:12:28.650 --> 01:12:31.020

Village of Parish: See cameras one yeah.

503

01:12:40.650 --> 01:12:41.340

Village of Parish: be doing them.

504

01:12:42.510 --> 01:12:50.040

Village of Parish: She bought one new telephone Pole and she they got three or four wins over on the side or the button all the bridging.

505

01:12:51.570 --> 01:12:59.280

Village of Parish: Bridging finest any included can't be going to a river, the next, I guess, a certain wash off behind it, as.

506

01:13:03.210 --> 01:13:05.880

Village of Parish: Well, I had one of the reasons why they were doing that.

507

01:13:07.170 --> 01:13:08.340

Village of Parish: It might be i'm not sure.

508

01:13:09.450 --> 01:13:11.670

Village of Parish: I mean the whole thing is not here somewhere.

509

01:13:14.940 --> 01:13:15.720

Village of Parish: join me anyone they.

510

01:20:09.150 --> 01:20:13.230

Village of Parish: But they go to do for us they're going to give us money that really didn't lose.

558

01:20:14.670 --> 01:20:18.630

Village of Parish: I mean I don't understand I don't understand this whole thing I think people.

564

01:21:00.960 --> 01:21:06.660

Village of Parish: We did you know that but, as far as CAP CAP find your idea I do online banking for Pathfinder for the go okay.

565

01:21:07.800 --> 01:21:18.090

Village of Parish: So therefore I think we're all set long we got back up for the important stuff so we don't need any of these I don't think so, but okay I don't know enough about i'm a dummy.

566

01:21:18.630 --> 01:21:35.880

Village of Parish: dummy when it comes to competing So those are doing only program that is any information is pension, one that has personal information, though, and I would think that they would have a heck of a tag hacking into that but yeah that's on the state's website yeah so i'm thinking that.

567

01:21:38.160 --> 01:21:41.970

Village of Parish: it's always good good paperback or electronic information.

568

01:21:43.320 --> 01:21:49.410

Village of Parish: So from these four that are offered none of them are what we need all I mean the bottom, the top two or for the.

569

01:21:49.770 --> 01:22:01.830

Village of Parish: Nothing on cyber security stuff and the bottom to her for property equipment breakdown changing our deductible from 500 to \$1,000 with us a \$2,000 return off our policy change based.

570

01:22:02.970 --> 01:22:04.680

Village of Parish: On sheet for 1900 \$90.

571

01:22:05.730 --> 01:22:10.290

Village of Parish: Or we change 520 500 and 20 \$600.

572

01:22:11.610 --> 01:22:12.600

Village of Parish: that's something we want to go.

573

01:22:17.040 --> 01:22:19.140

Village of Parish: back to the box for.

574

01:22:21.060 --> 01:22:23.850

Village of Parish: My lot of take a look at what there is history has been.

575

01:22:25.920 --> 01:22:29.220

Village of Parish: stolen or damaged in your entire history.

576

01:22:30.540 --> 01:22:35.250

Village of Parish: Right, so the computer these days like about to the same places.

577

01:22:36.360 --> 01:22:45.360

Village of Parish: yeah you wouldn't be liking anything we're talking about a loss right you change this anymore, I guess, I don't I don't either one of these.

578

01:22:46.650 --> 01:22:47.010

Village of Parish: Top.

579

01:22:48.180 --> 01:22:48.600

Village of Parish: There we are.

580

01:22:52.860 --> 01:22:55.080

Village of Parish: not paying any bills online so.

581

01:22:57.000 --> 01:22:57.840

Village of Parish: I don't think we do.

582

01:23:08.880 --> 01:23:23.610

Village of Parish: Right, I mean we talked about button the silver bells now yeah so they were dead, you know email that the you know, and when I got when I got here I mean I don't really see any reason for that.

583

01:23:25.980 --> 01:23:33.510

Village of Parish: reason why we should have why haven't seen this particular is of this coverage, so I really can't speak to that and i'd be happy to.

584

01:23:34.530 --> 01:23:36.480

Village of Parish: Take a look at it, I don't think it's probably.

585

01:23:38.400 --> 01:23:45.510

Village of Parish: yeah i'm ready to go, you want to buy additional insurance coverage, insurance companies and more than that, though.

586

01:23:47.790 --> 01:23:50.340

Village of Parish: Is a self etching so I.

587

01:23:52.770 --> 01:23:53.130

Village of Parish: might be.

588

01:23:54.450 --> 01:23:56.340

Village of Parish: Talking about it next month okay.

589

01:23:57.660 --> 01:24:07.590

Village of Parish: yeah because it, since you mentioned about the are doing stuff with the sewer billing I did check with lamps unlock when there was when I was up at the Jason GCC at the.

590

01:24:08.160 --> 01:24:16.410

Village of Parish: Turning stone will govern conference if we wanted to do any of that stuff that was like you know billing and whatnot they're all out on and on.

591

01:24:16.890 --> 01:24:30.540

Village of Parish: To problem, which are still with me and additional costs right they give me a price at all, or no, they just I just asked about this, I know you're all out on traditional across the top of the package right but I mean.

592

01:24:31.980 --> 01:24:42.480

Village of Parish: I would be curious as to what that add on cost, because it was cheaper to pay for that and start mailing them all between stamp cost, and then you know why not, it might be cheaper to do with that.

593

01:24:44.910 --> 01:24:51.390

Village of Parish: Okay, maybe I can do a favor go shoot the returning, they are agnus.

594

01:24:52.890 --> 01:25:02.670

Village of Parish: an email saying hey you know what what would be a projected cost on these right, I mean, even if it wasn't breakeven cost, you know for the people that live out of town or whatever.

595

01:25:03.300 --> 01:25:12.300

Village of Parish: You know they can't say they didn't get it, because yeah I can buy it online, making sure that the one person that did this walking.

596

01:25:14.400 --> 01:25:16.560

Village of Parish: The one person that was squawking from Illinois.

597

01:25:18.360 --> 01:25:20.760

Village of Parish: got the next bill, and he paid the leafy.

598

01:25:22.350 --> 01:25:31.860

Village of Parish: He paid his penalty after all that's working I didn't set out to my filter yes, there are some order right there are some people that do that the checkout comes in a little Warren.

599

01:25:32.880 --> 01:25:43.590

Village of Parish: Who isn't that just to say to them, we want that, I mean steps as well right yeah but not everybody wants to do that, you know you know he sets up those banks, I decided what they built they.

600

01:25:45.030 --> 01:26:02.160

Village of Parish: can still send me an email saying, like my breakthrough that's all I thought you know if we're spending let's just say \$1,000 a year to send them out every quarter and is add on this 300 bucks we're saving 700 bucks yeah but everybody don't maybe.

601

01:26:03.720 --> 01:26:04.050

Village of Parish: But.

602

01:26:06.030 --> 01:26:10.770

Village of Parish: Not everybody, not sure there's going to be, you know, a handful people 10 people let's call it.

603

01:26:12.090 --> 01:26:13.920

Village of Parish: You know, maybe 20 whatever doesn't have.

604

01:26:16.170 --> 01:26:18.570

Village of Parish: Your to your wife my wife is item.

605

01:26:19.830 --> 01:26:20.490

Village of Parish: Max.

606

01:26:22.890 --> 01:26:37.230

Village of Parish: I think it's worth checking it that's all okay so Kevin i'll check that out now on these so at this point, none of these quoted I don't know Okay, and then i'll chat with Paul regarding them Okay, and why they move.

607

01:26:52.890 --> 01:26:53.940

Village of Parish: you're turning my meal.

608

01:26:58.260 --> 01:26:58.950

Village of Parish: Look over.

609

01:27:01.980 --> 01:27:03.360
Village of Parish: Insurance anytime oh.

610
01:27:05.040 --> 01:27:05.670
Village of Parish: Oh yeah.

611
01:27:07.050 --> 01:27:09.780
Village of Parish: Well, what about the.

612
01:27:12.300 --> 01:27:12.750
Village of Parish: opposite.

613
01:27:21.690 --> 01:27:24.270
Village of Parish: Alright, live animals within the village limits.

614
01:27:26.610 --> 01:27:26.970
Village of Parish: there.

615
01:27:32.040 --> 01:27:33.240
Village of Parish: What are they talking about.

616
01:27:35.340 --> 01:27:36.180
Village of Parish: Where are they talking.

617
01:27:38.070 --> 01:27:48.660
Village of Parish: mean Personally, I know that there are some chickens down at the English and property, which is available allergic yeah not a kid stole really yeah you know next door.

618
01:27:49.980 --> 01:27:58.620
Village of Parish: Okay yeah I don't know what else, what else we can blame anyone for I don't think it was that place, I think it was somebody said was the wiper property like or property.

619
01:27:58.680 --> 01:28:02.340
Stephen Ganetis: Only only two chicks at a 17 were stolen.

620
01:28:02.760 --> 01:28:05.400
Stephen Ganetis: So still chickens i've got chicken stew.

621
01:28:07.920 --> 01:28:10.740
Village of Parish: was their problem down on a rental house down.

622

01:28:11.430 --> 01:28:12.540

Village of Parish: West mainstream.

623

01:28:12.900 --> 01:28:18.450

Stephen Ganetis: yeah it sounds like a little one of the eight year old render boys took two.

624

01:28:19.260 --> 01:28:34.860

Stephen Ganetis: chicks right from there, the other party's coop the troopers were called but the kids too young to be charged mom denied it dad admitted to it, so I think there's going to be a police report, but I don't think there's going to be a charges or anything.

625

01:28:36.270 --> 01:28:39.480

Village of Parish: Okay, I had dead and writing chickens down there.

626

01:28:40.170 --> 01:28:45.660

Stephen Ganetis: yeah my understanding is they've got a coop there that's just got a ton of dead chickens in there.

627

01:28:46.500 --> 01:29:01.290

Stephen Ganetis: i'm not sure he just put them too many in and insulin they didn't add enough ventilation and your suffocated but the Scott keep mine i've never seen it, this is hearsay the scuttlebutt is that there's a chicken coop full of dead dead chickens over there.

628

01:29:03.330 --> 01:29:09.390

Village of Parish: All right, and then we don't have a language, commercial, industrial uses to create excessive noise.

629

01:29:09.870 --> 01:29:27.210

Village of Parish: Create excessive odors create or store hazardous materials and not approved by the planning board or involved the Live animals, the following uses are prohibited so just having having chickens or animals is not a violation within the village.

630

01:29:27.900 --> 01:29:29.430

Stephen Ganetis: And dead chickens might be, though.

631

01:29:30.300 --> 01:29:31.380

Village of Parish: Well yeah.

632

01:29:33.000 --> 01:29:39.930

Stephen Ganetis: It might be one of those hazardous or foul smelling and there's a joke bear foul smelling items.

633

01:29:41.070 --> 01:29:43.470

Village of Parish: there's also has a serious problem.

634

01:29:44.580 --> 01:29:52.290

Village of Parish: Well, we can't help there are you raising rents me yeah your neighbors know yes.

635

01:29:57.930 --> 01:30:06.840

Village of Parish: We had an inquiry regarding having lamps we've got poultry and various other turkeys and down by the way, while.

636

01:30:09.300 --> 01:30:09.750

Village of Parish: Getting.

637

01:30:12.510 --> 01:30:21.090

Village of Parish: Serious other farm creatures, they are entitled to have, and they are as long as their household pets it's not a problem.

638

01:30:21.540 --> 01:30:36.540

Village of Parish: And they are permitted within as long as you're not creating excessive noise and odors and creating problems, so these people within their limits if if they are to maintaining them and doing it correctly okay so.

639

01:30:38.160 --> 01:30:38.670

Village of Parish: Yes.

640

01:30:42.390 --> 01:30:43.560

Village of Parish: debugging the chicken coop.

641

01:30:45.060 --> 01:30:49.680

Village of Parish: What was the price of a going off the rank fresh everything everything's going.

642

01:30:50.280 --> 01:30:54.270

Stephen Ganetis: Okay, so as a chicken on our honestly you guys need eggs.

643

01:30:54.630 --> 01:31:06.090

Stephen Ganetis: This if you are if you're a gardener, this is the zucchini of animal products you can't get enough, we have tons and tons of eggs, if you guys really are having trouble with eggs, we could provide some.

644

01:31:08.580 --> 01:31:12.570

Village of Parish: Local like man Thank you 350 thousand.

645

01:31:13.980 --> 01:31:14.340

Village of Parish: yeah.

646

01:31:18.450 --> 01:31:26.370

Village of Parish: Alright, the see power outages we've had maybe you got outages yesterday depends on where you were in the.

647

01:31:27.540 --> 01:31:28.680

Village of Parish: Some people had them.

648

01:31:29.790 --> 01:31:36.900

Village of Parish: For like three hours are you working with the bank we didn't go off at all well bank in that one guy.

649

01:31:38.310 --> 01:31:38.640

Village of Parish: was on the.

650

01:31:40.050 --> 01:31:40.380

Village of Parish: Physical.

651

01:31:41.610 --> 01:31:42.210

Village of Parish: side.

652

01:31:46.170 --> 01:31:57.720

Village of Parish: So I did try a couple attempts to get through the grid today to sort it out, and these are problems we've had all along with the wastewater treatment plant and in the village so.

653

01:31:59.010 --> 01:32:06.690

Village of Parish: for whatever reason, we keep getting these outages So hopefully we can aspire Mexico solution to it.

654

01:32:08.550 --> 01:32:12.180

Village of Parish: The one right behind liberty liberty liberty in there.

655

01:32:13.200 --> 01:32:22.680

Village of Parish: are working on a transformers it yeah there must be a change from now, they were working up by dollar general yes, a fire station or the mobile station guy yeah.

656

01:32:23.880 --> 01:32:29.040

Village of Parish: They were power anyway, I think we got three different grids through four different grids company Parish.

657

01:32:31.920 --> 01:32:34.260

Village of Parish: me goes up to the government screen.

658

01:32:36.540 --> 01:32:37.230

Village of Parish: Okay.

659

01:32:38.400 --> 01:32:53.790

Village of Parish: All right, i'm signing your cards to re elected or appointed within the last 30 days, make sure you sign your postcard and then the Clerk has the sign sheet for returning your folders and policies.

660

01:32:56.280 --> 01:32:56.850

Village of Parish: See.

661

01:33:02.400 --> 01:33:02.790

Village of Parish: Okay.

662

01:33:05.910 --> 01:33:06.090

Village of Parish: All.

663

01:33:08.940 --> 01:33:11.820

Village of Parish: Right Steve you want to mention the.

664

01:33:12.870 --> 01:33:18.630

Village of Parish: Information you sent to me and then regarding the Clerk I need an agreement from the board.

665

01:33:19.350 --> 01:33:20.010

Stephen Ganetis: yeah so.

666

01:33:20.460 --> 01:33:24.690

Stephen Ganetis: So we got two different options for Clark apparently there is a residency law.

667

01:33:25.020 --> 01:33:32.910

Stephen Ganetis: that's in the books, now we could do one thing in that we can try to repeal the law we can adjust the law and move things like that.

668

01:33:33.240 --> 01:33:43.890

Stephen Ganetis: I think that's a pain in the butt, so I think we could just get the board to vote on accepted in this one single case keep the law on the books but accepting truly.

669

01:33:46.110 --> 01:33:49.200

Village of Parish: Okay i'm sorry we have to make a resolution that's.

670

01:33:51.300 --> 01:33:58.980

Stephen Ganetis: So anyway My advice would be to move forward in such a way in which we don't have to change the law but do things a little bit easier.

671

01:34:01.800 --> 01:34:03.960

Village of Parish: That sounds good, because we don't know what's.

672

01:34:03.960 --> 01:34:20.820

Village of Parish: going to come up next and what's going to follow how long she's going to be in position and it may be temporary and it may be an extended temporary depends, if we can get a another person in so it's a board can agree to that sounds all right.

673

01:34:23.430 --> 01:34:25.380

Village of Parish: We need a motion or where do we go.

674

01:34:27.570 --> 01:34:34.920

Stephen Ganetis: i'd have to look into that, to be honest, I think it's just so we're making an exception so Jackie you said a resolution would be needed right.

675

01:34:37.140 --> 01:34:37.380

You.

676

01:34:38.880 --> 01:34:42.600

Village of Parish: Know God says, you have to pass a resolution for this stuff.

677

01:34:43.140 --> 01:34:52.740

Stephen Ganetis: Okay, so i'll look into that and i'll get the i'll figure out the easiest and quickest and if potentially legal loophole, the way to do this to make things easier for everybody.

678

01:34:54.240 --> 01:34:54.750

Village of Parish: Okay.

679

01:34:58.290 --> 01:35:00.090

Village of Parish: All right, and.

680

01:35:04.680 --> 01:35:07.890

Village of Parish: Some other information you want to share that you will be.

681

01:35:08.880 --> 01:35:09.630

Stephen Ganetis: yeah the other.

682

01:35:10.230 --> 01:35:24.030

Stephen Ganetis: yeah The other issue is that amy and I, we found a new property over in brewerton it's closer to amy's family, and it has it's in the Cicero school district so.

683

01:35:24.870 --> 01:35:31.260

Stephen Ganetis: we're going to be, we put an offer on I got accepted, so I will probably I will no longer be a resident parish.

684

01:35:31.620 --> 01:35:36.420

Stephen Ganetis: In the near future, obviously i'm still happy and honored to serve as your village attorney.

685

01:35:36.840 --> 01:35:44.550

Stephen Ganetis: I believe I would still be completely capable of doing the job as obviously this fact that the remote thing has been so great for me.

686

01:35:45.210 --> 01:35:54.390

Stephen Ganetis: But even then i'm happy to drive up and things of that nature so i'm I know that when the mayor first hired me one of my big selling points was the fact that I lived in Parish.

687

01:35:55.050 --> 01:36:12.690

Stephen Ganetis: So I do want to just in the interest just give everyone the option of if you don't want me to keep going because i'm not in Parish, then of course i'm happy to help search the replacement help train replacement whenever you guys would like, but as I said, still happy still love Parish.

688

01:36:12.990 --> 01:36:13.620

Stephen Ganetis: And still.

689

01:36:13.890 --> 01:36:15.000

Stephen Ganetis: love to work for you guys.

690

01:36:15.660 --> 01:36:16.530

Village of Parish: you're stuck with us.

691

01:36:17.160 --> 01:36:20.220

Village of Parish: Good call that I try, I tried getting out of it, no.

692

01:36:21.150 --> 01:36:24.120

Stephen Ganetis: I well, I had to try once once every two years.

693

01:36:24.300 --> 01:36:24.660

Stephen Ganetis: that's my.

694

01:36:26.220 --> 01:36:26.520

Village of Parish: thing.

695

01:36:27.810 --> 01:36:30.900

Village of Parish: Before we have he wouldn't be first attorney that we can't.

696

01:36:33.030 --> 01:36:38.550

Village of Parish: defend tree when we're talking about hiring people to Syracuse so it doesn't really matter no doesn't.

697

01:36:39.270 --> 01:36:41.790

Stephen Ganetis: So Syracuse law firm people, though, who.

698

01:36:43.110 --> 01:36:46.830

Stephen Ganetis: Not a good one, among them anyone has got office space and Syracuse sucks.

699

01:36:47.520 --> 01:36:49.230
Village of Parish: On to office space in Syracuse yeah.

700
01:36:49.440 --> 01:36:50.400
Stephen Ganetis: that's the joke.

701
01:36:54.660 --> 01:36:56.550
Village of Parish: All right, is there anything else.

702
01:36:56.550 --> 01:37:13.500
Village of Parish: Is he that we need to address that you're aware of, or anyone else really yeah Somebody needs to call the D O T and have them fixed the speed on the side i'm writers room and turn left it's held up by a stack of somebody propped up with they got knocked over this past winter okay yeah.

703

704
01:37:17.610 --> 01:37:31.680
Village of Parish: So he turned left, I mean what what street right oh so yeah turn left that's that's a county where somebody's gotta fix it well yeah that's gotta stick propping it up, so it doesn't fall over again okay.

Village of Parish: It was 969 they can come down that was the same I don't know if they fix that that's a.

706
01:37:40.590 --> 01:37:45.990
Village of Parish: Special Korean Korean Korean kind of work that i'm sure you did.

707
01:37:47.610 --> 01:38:00.360

708
01:38:02.250 --> 01:38:06.660

Village of Parish: When the new Cork comes as she shouldn't go into the files and see if you can find the old.
